1. BUDGET PROCEDURE

1.1. Financial framework

CAP expenditure in 2014 is funded within two financial frameworks (MFFs): 2007-2013 and 2014-2020. The financial framework 2007-2013 was agreed in the Inter-institutional Agreement between the European Parliament and the Council in May 2006, amended to take into account the Galileo-programme in 2007, the reprogramming of rural development in 2008 and the European Economic Recovery Package (EERP) in 2009. The financial framework 2014-2020 is provided by the Council Regulation (EU) No 1311/2013. CAP expenditure is part of Heading 2 "Preservation and management of natural resources" in MFF 2007-2013 and "Sustainable growth: natural resources" in MFF 2014-2020. A specific sub-ceiling has been decided for market related expenditure and direct aids within this heading.

The CAP amounts included in heading 2 are:

1.2. Draft Budget (DB) 2014

The 2014 Draft Budget (DB) was adopted by the Commission and proposed to the Budgetary Authority on 28 June 2013.

The Draft Budget for the European Agricultural Fund for Rural Development (EAFRD) under heading 2 of the Financial Framework 2007-2013 totalled EUR 10 340 million in payment appropriations. No commitment appropriations were requested for year 2014 as the old programming period ended in 2013. For the new programming period 2014-2020, the DB 2014 included EUR 13 987 million in commitment appropriations and EUR 1 312 million in payment appropriations.

The Council adopted its position on the 2014 Draft Budget on 2 September 2013. Payment appropriations for EAFRD programmes were reduced by EUR 4.6 million for the old programming period and EUR 50 million for the new programming

period as compared to the Commission's DB while commitments remained unchanged. The European Parliament adopted its position on 23 October 2013 whereby it restored the Commission's proposal. The Conciliation procedure resulted in an agreement between the two institutions. The Council and the European Parliament agreed to a compromise package on 12 November 2013.

1.3. The adoption of the 2014 Budget

The Draft Budget was approved by the Parliament in a vote on 20 November 2013. The voted budget for the EAFRD in chapter 05 04 amounted to EUR 10 336 million in payment appropriations for the programming period 2007-2013 and EUR 13 987 million in commitment appropriations and EUR 1 275 million in payment appropriations for the period 2014-2020.

1.4. The adoption of the Amending Budgets

Amending Budget No 2 was adopted on 17 December 2014. It reduced the payment appropriations for the Rural Development Programmes 2014-2020 by EUR 20 million.

2. MANAGEMENT OF APPROPRIATIONS

2.1. Management of Commitment appropriations

2.1.1. EAFRD rural development programmes

Budget 2014 did not include any commitment appropriations for EAFRD 2007-2013 programmes whilst commitment appropriation for EAFRD 2014-2020 amounted in total to EUR 13 970 million.

2.1.2. *Technical assistance*

Article 51(1) of Regulation (EU) No 1305/2013 provides that the EAFRD may use up to 0.25% of its annual allocation to finance, at the initiative of the Commission, the technical assistance actions necessary to implement the rural development policy and, in particular, the costs for setting up and operating the European network for rural development and the European Innovation Partnership (EIP) network. In the 2014 budget, the initial amount available for this purpose was EUR 17.2 million. Of this, EUR 0.7 million was redeployed to other items of the budget. At the end of 2014, the total amount committed was EUR 11.9 million.

2.2. **Management of payment appropriations**

2.2.1. *EAFRD rural development programmes*

For programmes 2007-2013, payment appropriations of the voted budget 2014 amounted to EUR 10 330 million. In addition, the available assigned revenue, either carried over from 2013 or collected during the year, amounted to EUR 149.9 million. During the year, the monitoring of the implementation of the budget and the analysis of the forecasts submitted by Member States revealed an additional need of EUR 536.4 million in payment appropriations. This additional need was covered with transfers from 2014-2020 programmes and technical assistance lines

The total amount paid to Member States for EAFRD programmes 2007-2013 in 2014 reached EUR 10 947 million. EUR 69 million of assigned revenue were automatically carried over to 2015.

For programmes 2014-2020, payment appropriations of the voted budget amounted to EUR 1 267 million. Of this amount, only EUR 225 million were implemented in 2014 due to the late adoption of new rural development programmes. As regards the surplus, part was made available to old programmes (EUR 532 million) and the rest was included in the End of Year transfer (EUR 490 million) or in the Amending Budget No 2/2014 (EUR 20 million).

2.2.2. *Technical assistance*

Total payment appropriations in 2014 budget amounted to EUR 14.2 million. Of this amount, EUR 6.4 million related to 2007-2013 outstanding needs (open RAL of budget item 05.040502) whereas EUR 7.7 million corresponded to new period's technical assistance (item 05.046002). At the end of the year, total payments reached EUR 8.4 million while EUR 4.2 million were redeployed to reinforce 2007-2013 programmes.

3. IMPLEMENTATION OF THE 2014 EAFRD BUDGET

3.1. Introduction

The last commitments of the programming period 2007-2013 were made in financial year 2013. As regards payments, the pace of the implementation of rural development programmes recorded in 2014 continued at high level even though, for some programmes, declarations of expenditure were not completely reimbursed due to the application of the 95% capping. Execution in 2014 represents 83.5% of 2012 execution, which is the highest execution recorded during this programming period.

3.2. Implementation of commitment appropriations

3.2.1. EAFRD rural development programmes

In 2014, commitment appropriations were available only for EAFRD programmes 2014-2020. The 2014 voted budget amounted to EUR 13 970 million but the late adoption of programmes did not permit to commit the entire amount. As a result, for the programmes not adopted, it was necessary either to reprogramme the allocations or, in case the requirements set by Regulation (EU) 966/2012 were met, to carryover the corresponding appropriations to year 2015. Table 6 shows the allocation established by Regulation (EU) No 1305/2013 of 17/12/2013 as amended by Commission Delegated Regulation (EU) 2015/791 of 27/04/2015 (i.e. including the reprogramming) for new EAFRD programmes and the amounts committed per Member State in 2014.

3.3. **Implementation of payment appropriations**

3.3.1. *EAFRD rural development programmes*

For the programming period 2007-2013 all payment appropriations available in the voted budget 2014 were implemented (EUR 10 330 million). Additional payments of EUR 81 million and EUR 536.4 million were made respectively with appropriations from assigned revenue and transfers from technical assistance lines (05.040502 and 05.046002) and the line for new programmes(05.046001). At the end of 2014, the total amount paid for EAFRD programmes 2007-2013 was EUR 10 947 million. EUR 68.8 million of assigned revenue were carried over to 2015

For the programming period 2014-2020 only the pre-financing in the amount of EUR 225 million was paid.

Table 8 below shows the breakdown of payments made in 2014 by declaration period:

For programmes 2007-2013, the monthly consumption of payment appropriations during the year (January to December 2014) is represented in the graph below. The rhythm of consumption is linked to the calendar for sending the four payment declarations (31 January, 30 April, 31 July and 10 November for the payment claims corresponding respectively to Q4 2013, Q1 2014, Q2 2014 and Q3 2014) in accordance article 22 (2) of the Commission Implementing Regulation (EU) No 908/2014.

As regards, programmes 2014-2020, all advances (EUR 225 million) were paid in December 2014.

The graph shows the monthly consumption of payment appropriations. The rhythm of payments was influenced by treasury constraints that delayed some reimbursements in the first part of 2014 (January to June) and at the end of the year.

Graph 1

The breakdown per Member State and per declaration period of the amounts paid by the Commission for programmes 2007-2013 in budget year 2014 is shown in table 9a. The total amount paid, EUR 10 947 million, relates to interim payments only.

3.3.2. Technical assistance

In the 2014 budget the amount for payment appropriations was EUR 6.4 million for the programmes 2007-2013 and EUR 7.7 million for the programmes 2014-2020. Part of these appropriations were transferred to cover payment needs in relation to rural development programmes under EAFRD 2007-2013: EUR 0.8 million from the old programming period and EUR 3.4 million from the new programming period..

Table 11 hereafter presents the payments grouped by main activities. The most important part relates to the European Network for Rural Development.

3.4. Analysis of expenditure declared by axis and by measure – Programming period 2007-2013

Table 12 shows the payment claims declared by Member state and by axis/measure for rural development in 2014 (Q4 2013 to Q3 2014) for the programmes 2007-2013,

the cumulative declared expenditure from 2007 to 2013 (Q4 2006 to Q3 2014) and also the financial plans of EAFRD programmes (2007-2013; EU27).

In 2014, the expenditure for EAFRD 2007-2013 continues to be concentrated in axis 2 (43.7%), followed by axis 1 with 32.1%, axis 3 with 13.5% and axis 4 with 8.9%. Even though differences decrease for 3 axes, this repartition of expenditure still diverges from the repartition in the financial plans for the 2007-2013 programming period (32.6%, 46.0%, 13.2% and 6.2% for axis 1 to 4 respectively).

Axis 2 measures mainly involve annual payments (e.g. agro-environmental measures) whilst Axis 1, 3 and, to a lesser extent, Axis 4 mainly relate to multi-annual measures that require longer proceedings for their approval and implementation (e.g. investment projects).

3.5. Implementation of EAFRD programmes - Programming period 2007-2013

Graph 2 presents the financial implementation rate of rural development programmes 2007-2013 per Member State: payments from the beginning of the programming period to 2014, including Q4 2014 that is reimbursed in financial year 2015, compared with the 2007-2013 commitments according to the financial plan. As 2013 was the last year when commitments were made, the implementation rate equals to the absorption rate (payments made from the beginning of the programming period compared to the total 2007-2013 allocation). The average EAFRD financial implementation rate for all EAFRD programmes is 91%.

Graph 2 shows that most Member States have absorbed more than 90% of the 2007-2013 commitments.

Until the end of 2014 the application of the N+2 rule has resulted in relatively small decommitments for the rural development programmes. Those decommitments amount in total to EUR 171.7 million and relate to years 2008, 2009, 2010 and 2011. Decommitments in relation to year 2012 are made in 2015.

4. CONTROL MEASURES

4.1. Introduction

The EU legislation provides for a comprehensive system of management and controls which relies on four levels:

- (a) compulsory administrative structure at the level of Member States, centred around the establishment of paying agencies and an accreditation authority at high level which is competent for issuing and withdrawing the agency's accreditation. The decision for issuing the accreditation is based on a detailed review by an external audit body;
- (b) detailed systems for controls and dissuasive sanctions to be applied by those paying agencies, with common basic features and special rules tailored to the specificities of each aid regime;
- (c) ex-post controls by independent audit bodies on the paying agencies' annual accounts and the functioning of their internal control procedures (under Commission Delegated Regulation (EU) No 907/2014¹ and Commission Implementing Regulation (EU) No 908/2014²) and by special departments on aid measures other than direct payments covered by the IACS (checks based on Chapter III of Title V of Regulation (EU) No 1306/2013³);
- (d) clearance of accounts through the Commission (both annual financial clearance and multi-annual conformity clearance).

These four levels establish a comprehensive system for the management and control of agricultural expenditure. It includes, on the one hand, all the necessary building blocks to guarantee a sound administration of the expenditure at Member States' level and, on the other hand, allows the Commission to counter the risk of financial losses as a result of any deficiencies in the set-up and operation of those building blocks through the clearance of accounts procedure.

Article 58 of Regulation (EU) No 1306/2013 provides for the general obligation of Member States to ensure that transactions financed by the EAGF and the EAFRD are carried out and executed correctly, to prevent and deal with irregularities and to recover amounts unduly paid.

In complement to this general obligation, there is a system of controls and dissuasive sanctions of final beneficiaries which reflects the specific features of the regime and the risk involved in its administration.

The controls are carried out by the paying agencies or by delegated bodies operating under their supervision and effective, dissuasive and proportionate sanctions are imposed if the controls reveal non-compliance with EU rules. The system generally provides for exhaustive administrative controls of 100% of the aid applications, cross-checks with other databases where this is considered appropriate as well as pre-payment on-the-spot controls of a sample of transactions ranging between 1% and

¹ OJ L 255, 28.8.2014, p.18

² OJ L 255, 28.8.2014, p.59

³ OJ L 347, 20.12.2013, p.549

100%. depending on the risk associated with the regime in question. For example. the control rate in the framework of the Integrated Administration and Control System (IACS) is normally 5%. If the on-the-spot controls reveal a high number of irregularities. additional controls must be carried out. The sample of transactions is determined on a risk and/or random basis.

In addition. for most regimes which are not subject to the IACS. on top of the primary and secondary control levels. *ex-post* controls must be carried out in accordance with the provisions of Chapter III of Title V in Regulation (EU) No 1306/2013.

4.2. Integrated Administration and Control System (IACS)

Regulation (EU) No 1306/2013. Regulation (EU) No 1307/2013⁴. Commission Delegated Regulation (EU) No 639/2014⁵ and Commission Delegated Regulation (EU) No 640/2014⁶ contain the rules on the IACS. which are also applicable to rural development supportas far as area- and animal-related measures are concerned.

A fully operational IACS consists of: a computerised database. an identification system for agricultural parcels and farmers claiming aid. a system for identification and registration payment entitlements. aid applications and integrated controls system (claim processing. on-the-spot checks and sanctioning mechanisms) and a system for identifying and registering animals where applicable. The IACS is fully automated and provides highly efficient controls by maximising the use of computerised and remote controls.

This system foresees a 100% administrative control covering the eligibility of the claim. complemented by administrative cross-controls with standing databases ensuring that only areas or animals that fulfil all eligible requirements are paid the aid and by a minimum 5% of on-the-spot checks to check the existence and eligibility of the area or the animals claimed.

The use of standing databases. which are appropriately updated. is well adapted to the schemes whereby aids are directly paid to the farmers and based on the areas or on the number of animals. in that the risk can be reduced to the lowest levels.

For the financial year 2014. the IACS axis 2 measures (programming period 2007-2013) cover around 40% of payments made under the EAFRD for measures including inter alia. agri-environment and animal welfare measures. less-favoured areas and areas with environmental restrictions and afforestation of agricultural land.

DG AGRI verifies the effectiveness of Member States' IACS by means of both on-the-spot auditing and general supervision based on annually supplied financial and statistical data. The Commission continues to consider that the IACS is generally an effective control system for limiting the risk of error or irregular expenditure. provided that it is properly applied.

5.1. Financial clearance

5.1.1. Introduction

The financial clearance covers the annual accounts and the internal control systems set up by the Paying Agencies. Within this framework, DG AGRI pays particular attention to the Certification Bodies' conclusions and recommendations formulated based on the reviews of the management and control systems of the Paying Agencies. The financial clearance exercise also allows DG AGRI to obtain assurance that the Paying Agencies comply with the accreditation criteria and the financial interests of the EU are protected as regards payments, advances, securities and public storage.

The Commission adopts an annual financial clearance decision based on the certification documents (including the annual accounts and the Management Declarations submitted by the Paying Agencies as well as Audit Opinions and reports of the Certification Bodies). The financial clearance decision is without prejudice to subsequent conformity clearance decisions aimed at recovering expenditure which proves not to have been paid in accordance with the EU rules. As of 2015, the deadline for the Commission to adopt its annual financial clearance decision was moved from 30 April to 31 May of the year following the financial year in question.

5.1.2 Financial clearance for financial year 2014

On 28 May 2015, the Commission adopted decision [2015/842](#) on the clearance of accounts of the Paying Agencies of Member States concerning expenditure financed by the EAFRD for financial year 2014. This decision excluded the accounts of seven Paying Agencies as insufficient assurance was obtained on the completeness, accuracy and veracity of their annual accounts. The Paying Agencies concerned are: Région Wallonne (Belgium), Baden-Württemberg and Mecklenburg-Vorpommern (Germany), Comunidad Valenciana (Spain), OPEKEPE (Greece), MRRA (Malta) and RIFA (Romania).

The total expenditure cleared amounts to EUR 10.425 million while EUR 1.619 million was disjoined. For the accounts not included in the May 2015 financial clearance decision, conformity enquiries were launched to address the serious weaknesses detected.

5.1.3 Financial clearance for financial year 2013

On 29 April 2014, the Commission adopted the financial year 2013 EAFRD clearance of accounts decision (2014/251/EU), which excluded the accounts of 6 Paying Agencies, as no confirmation could be gained on the completeness, accuracy and veracity of the annual accounts submitted. The Paying Agencies for which the accounts were disjoined are: SFA (Bulgaria), DAFA (Denmark), OPEKEPE (Greece), PARDF (Romania), Andalucía and Asturias (Spain).

The conformity enquiries for the disjoined Paying Agencies are still ongoing.

5.1.4. *Financial clearance for financial year 2012*

On 26 April 2013, the Commission adopted the financial year 2012 EAFRD clearance of accounts decision (2013/209/EU), which excluded the accounts of 7 Paying Agencies, as no confirmation could be gained on the completeness, accuracy and veracity of the annual accounts submitted. The Paying Agencies for which the accounts were disjoined are: DAFA (Denmark), ASP (France), Baden-Württemberg, Thüringen and Hessen (Germany), PARDF (Romania) and Andalucía (Spain).

In August 2014, a subsequent financial clearance decision was adopted for three German Paying Agencies: Baden-Württemberg, Thüringen and Hessen. By means of this decision, a total amount of EUR 244 million was cleared for the EAFRD. The conformity enquiries for the other four disjoined Paying Agencies are still ongoing.

5.1.5. *Financial clearance for financial year 2011*

On 27 April 2012, the Commission adopted the financial year 2011 EAFRD clearance of accounts decision (2013/234/EU), which excluded the accounts of 9 Paying Agencies. The Paying Agencies for which the accounts were disjoined were: ODARC and ASP (France), Baden-Württemberg, Bayern, Rheinland-Pfalz and Thüringen (Germany), PARDF (Romania), Andalucía (Spain) and SGRPID (United Kingdom). The Paying Agencies Baden-Württemberg, Bayern, Rheinland-Pfalz and Thüringen (Germany) as well as SGRPID (United Kingdom) were cleared in a later decision in July 2013.

In February 2015, a subsequent financial clearance decision was adopted for the Paying Agencies ODARC and ASP (France) as well as PARDF (Romania). By means of this decision, a total amount of EUR 1.726 million was cleared for the EAFRD. With that, there is only one Paying Agency for which the 2011 EAFRD accounts are still outstanding: Andalucía (Spain), for which the conformity enquiry is still ongoing.

5.1.6. *Financial clearance for financial year 2010*

In April 2011, the Commission adopted the decision 2011/271/EU clearing the 2010 annual accounts for EAFRD. 8 Paying Agencies have not been included and are subject to a further review. The Paying Agencies Baden-Württemberg, Bayern, Hessen and Rheinland-Pfalz (Germany) were cleared in a later decision in February 2012. The accounts of the Paying Agency APA (Slovakia) were cleared in July 2013.

In January 2015, the Commission adopted a decision clearing the 2010 annual accounts of the Paying Agencies ARBEA (Italy) and Ministry of Agriculture (Luxembourg). By means of this decision, a total amount of EUR 31 million was cleared for the EAFRD. With that, the only Paying Agency for which the 2010 EAFRD accounts are still outstanding is Région Wallonne (Belgium), for which the conformity enquiry is still pursued.

5.1.7. *Financial clearance for financial year 2009 and before*

All EAFRD accounts for the financial years 2009 and before have been cleared..

5.2. Conformity clearance – audits and decisions adopted in 2014

5.2.1. Introduction

It is primarily the Member States' responsibility to satisfy themselves that transactions are carried out and executed correctly via a system of control and dissuasive sanctions. Where Member States fail to meet this requirement, the Commission applies financial corrections to protect the financial interests of the EU.

The conformity clearance relates to the legality and regularity of transactions. It is designed to exclude expenditure from EU financing which has not been effected in compliance with EU rules, thus shielding the EU budget from expenditure that should not be charged to it (financial corrections). In contrast, it is not a mechanism by which irregular payments to beneficiaries are recovered, which according to the principle of shared management is the sole responsibility of Member States.

Financial corrections are determined on the basis of the nature and gravity of the infringement and the financial damage caused to the EU. Where possible, the amount is calculated on the basis of the loss actually caused or on the basis of an extrapolation. Where this is not possible, flat-rates are used which take account of the severity of the deficiencies in the national control systems in order to reflect the financial risk for the EU.

Where undue payments are or can be identified as a result of the conformity clearance procedures, Member States are required to follow them up by recovery actions against the final beneficiaries. However, even where this is not possible because the financial corrections only relate to deficiencies in the Member States' management and control systems, financial corrections are an important means to improve these systems and thus to prevent or detect and recover irregular payments to final beneficiaries. The conformity clearance thereby contributes to the legality and regularity of the transactions at the level of the final beneficiaries.

5.2.2. Conformity clearance – audits and decisions adopted in 2014

Audits

In 2014, Directorate J carried out 44 audit missions and 10 desk checks in respect of EAFRD, plus 2 missions concerning SAPARD and 1 on IPARD. Out of these 44 missions, 15 audit targeted Axis 2 measures, of which 9 audits covered area related measures controlled by IACS.

Conformity decisions

In 2014, three conformity decisions were adopted which had a financial impact by excluding from EU financing of EAFRD a total of EUR 39.8 million:

- Decision [2014/191/EU](#) of 04/04/2014 – 44th Decision, financial impact of EUR 21.7 million.
- Decision [2014/458/EU](#) of 09/07/2014 – 45th Decision, financial impact of EUR 10.2 million.
- Decision [2014/950/EU](#) of 19/12/2014 – 46th Decision, financial impact of EUR 7.9 million.

5.3. Recoveries

The Member States submitted the information about irregularity cases by 15 February 2015 regarding financial year 2014. According to this data, the Member States have recovered EUR 121.9 million during financial year 2014, whereas the outstanding amount to be recovered from beneficiaries at the end of that financial year is EUR 340.2 million. Regulation (EU) No 1306/2013 provides an automatic clearing mechanism for unduly paid amounts not recovered after 4 or 8 years (in case the recovery is challenged in national courts) after the establishment of an irregularity. The financial consequences of non-recovery are shared by the Member State concerned and the EU on a 50-50% basis. As of financial year 2014, according to Regulation (EU) No 1306/2013, the so-called '50-50 rule' is applied on an annual basis for both the old (2007-2013) and new (2014-2020) EAFRD programmes. For financial year 2014, this financial consequence of non-recovery amounted to EUR 18.5 million for the EU.

With regard to the reporting of the irrecoverable cases (100% of the cost assumed by the Commission), under the new regime, EAFRD irregularity cases are declared irrecoverable on an annual basis, rather than after the closure of the rural programme as in the previous regime. In view of this change, the Member States were invited to declare all those cases found irrecoverable in financial year 2014 and before. However, due to the technical unavailability of the Commission's software WinCheckCSV to receive data for cases declared irrecoverable prior to financial year 2014, the Member States were given two options from which to choose on how to treat their old irrecoverable cases. The first option involved the resubmission of their data and amended Annex II tables together with new declarations certifying the modified data. The second option was to exceptionally postpone this declaration to the financial year 2015 clearance procedure. Out of 70 Paying Agencies managing the EAFRD, 20 submitted new data as per the first option. The rest of the Paying Agencies opted for the submission of old irrecoverable cases together with the annual accounts in financial year 2015. In this context, the amount to be assumed at 100% of the cost by the Commission for financial year 2014 amounted to EUR 17.6 million.

5.4. Appeals brought before the Court of Justice against clearance decisions

Judgments handed down

In 2014, two judgements have been handed down by the Court in appeals brought by the Member States against clearance decisions with regard to EAFRD. The Court rejected appeals brought in the following case:

- Judgment of 15 July 2014 in case C-71/13 P brought by Greece;
- Judgment of 10 July 2014 in case C-391/13 P brought by Greece.

New appeals

In 2014 five new appeals were brought by the Member States against clearance decisions:

- Case T-675/14 brought by Spain on 22/09/2014
- Case T-107/14 brought by Greece on 14/02/2014

- Case T-124/14 brought by Finalnd on 19/02/2014
- Case T-384/14 brought by Italy 03/06/2014
- Case T-661/14 brought by Latvia on 11/09/2014

Appeals pending

The situation as at 31 December 2014 with regard to appeals pending is shown together with the amounts concerned. in Table 13.
