Subject: Proposal for a Directive of the European Parliament and of the Council amending Council Directive 92/66/EEC introducing Community measures for the control of Newcastle disease
- Outcome of the European Parliament's first reading
(Strasbourg, 12 to 15 March 2018)

I. INTRODUCTION

The rapporteur, Ms Adina-Ioana VĂLEAN (EPP, RO), presented a report on the proposal for a directive on behalf of the Committee on the Environment, Public Health and Food Safety. The report contained 1 amendment (amendment 1) to the proposal.

II. VOTE

When it voted on 14 March 2018, the plenary adopted the amendment to the proposal for a directive.

The Commission's proposal as thus amended constitutes the Parliament's first-reading position which is contained in its legislative resolution as set out in the Annex hereto¹.

¹ The version of the Parliament's position in the legislative resolution has been marked up to indicate the changes made by the amendments to the Commission's proposal. Additions to the Commission's text are highlighted in ***bold and italics***. The symbol "■" indicates deleted text.

Measures for the control of Newcastle disease *I**

European Parliament legislative resolution of 14 March 2018 on the proposal for a directive of the European Parliament and of the Council amending Council Directive 92/66/EEC introducing Community measures for the control of Newcastle disease (COM(2017)0742 – C8-0431/2017 – 2017/0329(COD))

(Ordinary legislative procedure: first reading)

The European Parliament,

- having regard to the Commission proposal to Parliament and the Council (COM(2017)0742),
 - having regard to Article 294(2) and Article 43(2) of the Treaty on the Functioning of the European Union, pursuant to which the Commission submitted the proposal to Parliament (C8-0431/2017),
 - having regard to Article 294(3) of the Treaty on the Functioning of the European Union,
 - having regard to the opinion of the European Economic and Social Committee of 14 February 2018²,
 - having regard to Rule 59 of its Rules of Procedure,
 - having regard to the report of the Committee on the Environment, Public Health and Food Safety (A8-0026/2018),
1. Adopts its position at first reading hereinafter set out;
 2. Calls on the Commission to refer the matter to Parliament again if it replaces, substantially amends or intends to substantially amend its proposal;
 3. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

² Not yet published in the Official Journal.

P8_TC1-COD(2017)0329

Position of the European Parliament adopted at first reading on 14 March 2018 with a view to the adoption of Directive (EU) 2018/... of the European Parliament and of the Council amending Council Directive 92/66/EEC introducing Community measures for the control of Newcastle disease

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee³,

Acting in accordance with the ordinary legislative procedure⁴,

³ Opinion of 14 February 2018 (not yet published in the Official Journal).

⁴ Position of the European Parliament of 14 March 2018.

Whereas:

- (1) Council Directive 92/66/EEC⁵ lays down the Union control measures to be taken in the event of an outbreak of Newcastle disease in poultry, racing pigeons and other birds kept in captivity.
- (2) Article 15 of Directive 92/66/EEC provides that the European Union reference laboratory for Newcastle disease is referred to in Annex V to that Directive. Annex V to that Directive duly refers to that laboratory and lists its functions and duties.
- (3) Article 19 of Directive 92/66/EEC lays down control measures to be taken by Member States in the event that carrier pigeons or birds kept in captivity are suspected of being infected with Newcastle disease. It provides that to the extent required for the proper application of those control measures, Member States are to furnish the Commission with information on the disease situation and the control measures applied in accordance with the model form set out in Annex VI to that Directive.
- (4) Article 21 of Directive 92/66/EEC provides that each Member State is to draw up a contingency plan, specifying the national measures to be implemented in the event of an outbreak of Newcastle disease. It provides that the criteria to be applied for drawing up that plan are set out in Annex VII to that Directive.
- (5) Article 24 of Directive 92/66/EEC provides that the Annexes thereto are to be amended, as and when required, by the Council acting by a qualified majority on a proposal from the Commission, in particular to take into account developments in research and in diagnostic procedures.

⁵ Council Directive 92/66/EEC of 14 July 1992 introducing Community measures for the control of Newcastle disease (OJ L 260, 5.9.1992, p. 1).

- (6) Annexes V, VI and VII to Directive 92/66/EEC set out respectively: (i) the name and address of the European Union reference laboratory for Newcastle disease as well as its functions and duties; (ii) the model form to be used by Member States in order to report on the disease situation and the control measures applied; and (iii) the minimum criteria to be applied by Member States for drawing up contingency plans specifying the national measures to be implemented in the event of an outbreak of Newcastle disease.
- (7) In order to simplify and streamline the procedures regarding the control of Newcastle disease, in particular taking into account the new rules in relation to the designation of European Union reference laboratories provided for by Article 93 of Regulation (EU) 2017/625 of the European Parliament and of the Council⁶, as well as the new system of implementing acts provided for in Article 291 of the Treaty on the Functioning of the European Union, and to ensure uniform conditions for the implementation of Directive 92/66/EEC, Annexes V, VI and VII to Directive 92/66/EEC should be deleted and implementing powers in the fields covered by those Annexes should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁷.

⁶ Regulation (EU) 2017/625 of the European Parliament and of the Council of 15 March 2017 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products, amending Regulations (EC) No 999/2001, (EC) No 396/2005, (EC) No 1069/2009, (EC) No 1107/2009, (EU) No 1151/2012, (EU) No 652/2014, (EU) 2016/429 and (EU) 2016/2031 of the European Parliament and of the Council, Council Regulations (EC) No 1/2005 and (EC) No 1099/2009 and Council Directives 98/58/EC, 1999/74/EC, 2007/43/EC, 2008/119/EC and 2008/120/EC, and repealing Regulations (EC) No 854/2004 and (EC) No 882/2004 of the European Parliament and of the Council, Council Directives 89/608/EEC, 89/662/EEC, 90/425/EEC, 91/496/EEC, 96/23/EC, 96/93/EC and 97/78/EC and Council Decision 92/438/EEC (Official Controls Regulation) (OJ L 95, 7.4.2017, p. 1).

⁷ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

- (8) For reasons of clarity, the functions and duties of the European Union reference laboratory for Newcastle disease should be laid down in Article 15 of Directive 92/66/EEC, and the criteria for the contingency plans should be laid down in Article 21 of that Directive.
- (9) For reasons of consistency and efficiency, Member States should ensure timely transposition of the provisions of this Directive.
- (10) Directive 92/66/EEC should therefore be amended accordingly,

HAVE ADOPTED THIS DIRECTIVE:

Article 1

Amendments to Directive 92/66/EEC

Directive 92/66/EEC is amended as follows:

(1) Article 15 is replaced by the following:

'Article 15

1. The Commission shall, by means of implementing acts, designate a European Union reference laboratory for Newcastle disease. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25.
2. The functions and duties of the European Union reference laboratory for Newcastle disease shall be:
 - (a) to coordinate, in consultation with the Commission, the methods employed in the Member States for diagnosing Newcastle disease, specifically by:
 - (i) typing, storing and supplying strains of the Newcastle disease virus for serological tests and the preparation of antisera;

- (ii) supplying standard sera and other reference reagents to the national reference laboratories in order to standardise the tests and reagents used in the Member States;
 - (iii) building up and retaining a collection of Newcastle disease virus strains and isolates;
 - (iv) organising periodical comparative tests of diagnostic procedures at Union level;
 - (v) collecting and collating data and information on the methods of diagnosis used and the results of tests carried out in the Union;
 - (vi) characterising isolates of Newcastle disease viruses by the most up-to-date methods available to promote a greater understanding of the epidemiology of Newcastle disease;
 - (vii) keeping abreast of developments in Newcastle disease surveillance, epidemiology and prevention throughout the world;
 - (viii) retaining expertise on Newcastle disease virus and other pertinent viruses to enable a rapid differential diagnosis;
 - (ix) acquiring a thorough knowledge of the preparation and use of the products of veterinary immunology used to eradicate and control Newcastle disease;
- (b) to actively assist in the diagnosis of outbreaks of Newcastle disease in Member States by receiving virus isolates for confirmatory diagnosis, characterisation and epidemiology studies;

(c) to facilitate the training or retraining of experts in laboratory diagnosis with a view to the harmonisation of techniques throughout the Union.’;

(2) Article 19 is amended as follows:

(a) paragraph 5 is replaced by the following:

‘5. To the extent that it is required for the proper application of the measures laid down in this Article, the Member States shall submit to the Commission, within the framework of the Standing Committee on Plants, Animals, Food and Feed, information on the disease situation and the control measures applied.’;

(b) the following paragraph is added:

‘6. The Commission may, by means of implementing acts, lay down rules regarding the information to be submitted by the Member States to the Commission as provided for in paragraph 5 of this Article. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25.’;

(3) Article 21 is replaced by the following:

Article 21

1. Each Member State shall draw up a contingency plan, specifying the national measures to be implemented in the event of an outbreak of Newcastle disease. The contingency plan shall be updated, as appropriate, to take account of developments in the situation.

The contingency plan shall allow access to facilities, equipment, personnel and all other appropriate materials necessary for the rapid and efficient eradication of the outbreak of Newcastle disease. It shall give a precise indication of the vaccine requirements which each Member State deems necessary for emergency vaccination.

2. The contingency plans and any updates thereto shall be submitted to the Commission.
3. The Commission shall examine the contingency plans and any updates thereto in order to determine whether they permit the desired objective to be attained and shall suggest to the Member State concerned any amendments required in particular to ensure that they are compatible with those of the other Member States.

The Commission shall approve the contingency plans and any updates thereto, if necessary amended, in accordance with the examination procedure referred to in Article 25.

4. The Commission may, by means of implementing acts, lay down criteria to be applied by Member States for drawing up the contingency plans. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 25.’;

(4) Article 25 is replaced by the following:

Article 25

1. The Commission shall be assisted by the Standing Committee on Plants, Animals, Food and Feed established by Article 58(1) of Regulation (EC) No 178/2002 of the European Parliament and of the Council^(*). That committee shall be a committee within the meaning of Regulation (EU) No 182/2011 of the European Parliament and of the Council^(**).

2. Where reference is made to this Article, Article 5 of Regulation (EU) No 182/2011 shall apply.

(*) Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1).

(**) Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).';

- (5) Annexes V, VI and VII are deleted.

Article 2

Transposition

By 30 June 2018, Member States shall adopt and publish the measures necessary to comply with this Directive. They shall immediately inform the Commission thereof.

They shall apply those measures from 1 January 2019.

When Member States adopt those measures, they shall contain a reference to this Directive or shall be accompanied by such reference on the occasion of their official publication. The methods of making such reference shall be laid down by Member States.

Article 3

Transitional provision

The designation of the European Union reference laboratory for Newcastle disease referred to in Annex V to Directive 92/66/EEC, before the amendments made by this Directive, shall remain effective until a European Union reference laboratory for Newcastle disease has been duly designated in accordance with Article 15 of Directive 92/66/EEC, as amended by this Directive.

Article 4

Entry into force

This Directive shall enter into force on the **█** day following that of its publication in the *Official Journal of the European Union*.

Article 5

Addressees

This Directive is addressed to the Member States.
