**COUNCIL IMPLEMENTING DECISION**

**granting temporary support under Council Regulation (EU) 2020/672 to Belgium to  
mitigate unemployment risks in an emergency situation following the COVID-19  
outbreak**

## EXPLANATORY MEMORANDUM

### 1. CONTEXT OF THE PROPOSAL

- **Reasons for and objectives of the proposal**

Council Regulation 2020/672 (“SURE Regulation”) lays down the legal framework for providing Union financial assistance to Member States, which are experiencing, or are seriously threatened with, a severe economic disturbance caused by the COVID-19 outbreak. Support under SURE serves for the financing, primarily, of short-time work schemes or similar measures aimed at protecting employees and the self-employed and thus reducing the incidence of unemployment and loss of income, as well as for the financing, as an ancillary, of some health-related measures, in particular in the workplace.

On 7 August 2020, Belgium requested Union financial assistance under the SURE Regulation. In accordance with Article 6(2) of the SURE Regulation, the Commission has consulted the Belgian authorities to verify the sudden and severe increase in actual and planned expenditure directly related to the temporary unemployment scheme, the COVID-19 replacement income for self-employed, the COVID-19 parental leave, a number of regional income support schemes and regional health-related measures caused by the COVID-19 pandemic. In particular, it concerns:

- (1) the temporary unemployment scheme, “*chômage temporaire/ tijdelijke werkloosheid*”, which provides compensation for employees whose work is reduced or suspended because of a decreased workload or the social distancing measures imposed by the government. The temporary unemployment scheme existed before the COVID-19 pandemic, but the requirements to access the scheme were adapted to COVID-19 and the application procedure was further eased. Furthermore, the allowance for temporary unemployment was increased from 65% to 70% of the daily average wage (capped at EUR 2 754,76 gross per month). In addition, a daily premium of EUR 5,36 was introduced.
- (2) the existing replacement income for self-employed, “bridging right” (“*Droit passerelle/ Overbruggingsrecht*”), which has been extended by the introduction of a “COVID-19 bridging right”. This is a benefit provided where social distancing measures imposed by the government lead to a total or partial interruption of self-employment activities or to a voluntary interruption of at least seven consecutive calendar days during the month. Starting from June 2020, the allowance targets self-employed persons who have restarted their activity but still face a reduction in turnover compared to 2019. Self-employed persons who cannot yet restart their activity can still benefit from the allowance but have to prove that this is due to COVID-19 restrictions.
- (3) the COVID-19 parental leave, which is a special parental leave that does not affect the right to the regular parental leave and allows parents to take leave to provide additional care of their children between May and September 2020 with a higher allowance than under regular parental leave.
- (4) a number of regional schemes that provide income support to the self-employed, one-person companies and other types of employees, who do not qualify for other kinds

of income support. In particular, the compensation premia for companies and for entrepreneurs in Brussels Capital, the nuisance, compensation and support premia in Flanders and the compensation premium for business closure in Wallonia provide generalised one-off support for companies and self-employed that needed to close their activities due to COVID-19 or faced a substantial reduction in turnover. Other measures (the compensation premium for intermittent workers in Brussels Capital, the nurseries subvention and the cultural operators subvention in the French Community, the training activities in Wallonia, and the cultural operators and self-employed subvention and the touristic operators subvention in the German-speaking Community) target the self-employed and workers with no access to the temporary unemployment scheme in specific sectors (cultural and care sector, training activities).

- (5) health-related measures in the German-speaking Community, which include hygiene training, the provision of protective material for residential and care centres, hospitals and medical service providers and information campaigns.

Belgium provided the Commission with the relevant information.

Taking into account the available evidence, the Commission proposes to the Council to adopt an Implementing Decision to grant financial assistance to Belgium under the SURE Regulation in support of the above measures.

- **Consistency with existing policy provisions in the policy area**

The present proposal is fully consistent with Council Regulation 2020/672, under which the proposal is made.

The present proposal comes in addition to another Union law instrument to provide support to Member States in case of emergencies, namely Council Regulation (EC) No 2012/2002 of 11 November 2002 establishing the European Union Solidarity Fund (EUSF) (“Regulation (EC) No 2012/2002”). Regulation (EU) 2020/461 of the European Parliament and of the Council, which amends that instrument to extend its scope to cover major public health emergencies and to define specific operations eligible for financing, was adopted on 30 March.

- **Consistency with other Union policies**

The proposal is part of a range of measures developed in response to the current COVID-19 pandemic such as the “Coronavirus Response Investment Initiative”, and it complements other instruments that support employment such as the European Social Fund and the European Fund for Strategic Investments (EFSI)/InvestEU. By making use of borrowing and lending in this particular case of the COVID-19 outbreak for supporting Member States, this proposal acts as a second line of defence to finance short-time work schemes and similar measures, helping protect jobs and thus employees and self-employed against the risk of unemployment.

## 2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

- **Legal basis**

The legal basis for this instrument is Council Regulation 2020/672.

- **Subsidiarity (for non-exclusive competence)**

The proposal follows a Member State request and shows European solidarity by providing Union financial assistance in the form of temporary loans to a Member State affected by the COVID-19 outbreak. As a second line of defence, such financial assistance supports the government's increased public expenditure on a temporary basis in respect of short-time work schemes and similar measures to help them protect jobs and thus employees and self-employed against the risk of unemployment and loss of income.

Such support will help the population affected and helps to mitigate the direct societal and economic impact caused by the present COVID-19 crisis.

- **Proportionality**

The proposal respects the proportionality principle. It does not go beyond what is necessary to achieve the objectives sought by the instrument.

### **3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS**

- **Stakeholder consultations**

Due to the urgency to prepare the proposal so that it can be adopted in a timely manner by the Council, a stakeholder consultation could not be carried out.

- **Impact assessment**

Due to the urgent nature of the proposal, no impact assessment was carried out.

### **4. BUDGETARY IMPLICATIONS**

The Commission should be able to contract borrowings on the financial markets with the purpose of on-lending them to the Member State requesting financial assistance under the SURE instrument.

In addition to the provision of Member State guarantees, other safeguards are built into the framework in order to ensure the financial solidity of the scheme:

- A rigorous and conservative approach to financial management;
- A construction of the portfolio of loans that limits concentration risk, annual exposure and excessive exposure to individual Member States whilst ensuring sufficient resources could be granted to Member States most in need; and
- Possibilities to roll over debt.

Proposal for a

## COUNCIL IMPLEMENTING DECISION

### **granting temporary support under Council Regulation (EU) 2020/672 to Belgium to mitigate unemployment risks in an emergency situation following the COVID-19 outbreak**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EU) 2020/672 of 19 May 2020 on the establishment of a European instrument for temporary support to mitigate unemployment risks in an emergency (SURE) following the COVID-19 outbreak<sup>1</sup>, and in particular Article 6(1) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) On 7 August 2020, Belgium requested financial assistance from the Union with a view to complementing its national efforts to address the impact of the COVID-19 outbreak and its socio-economic consequences for workers.
- (2) The COVID-19 outbreak and the extraordinary measures implemented by Belgium to contain the outbreak and its socio-economic and health-related impact are expected to have a dramatic impact on public finances. According to the Commission's 2020 Spring forecast, Belgium was expected to have a general government deficit and debt of 8.9% and 113.8% of gross domestic product (GDP) respectively by the end of 2020. According to the Commission's 2020 Summer interim forecast, Belgium's GDP is projected to decrease by 8.8% in 2020.
- (3) The COVID-19 outbreak has immobilised a substantial part of the labour force in Belgium. This has led to a sudden and severe increase in public expenditure by Belgium in respect of the temporary unemployment scheme, "chômage temporaire/tijdelijke werkloosheid", the COVID-19 replacement income for self-employed, "COVID-19 bridging right", the COVID-19 parental leave, and a number of regional income support schemes and in support of public health measures, as set out in recitals 4 to 8.
- (4) The "Arrêté royal du 30 mars 2020"<sup>2</sup>, as referred to in Belgium's request of 7 August 2020, adapted the temporary unemployment scheme, "chômage temporaire/ tijdelijke

werkloosheid” to COVID-19, which provides compensation for employees whose work is reduced or suspended because of a decreased workload or the social distancing measures imposed by the government. The temporary unemployment scheme existed before the COVID-19 pandemic, but the requirements to access the scheme were adapted to COVID-19 and the application procedure was further eased. Furthermore, the allowance for temporary unemployment was increased from 65% to 70% of the daily average wage (capped at EUR 2 754,76 gross per month). In addition, a daily premium of EUR 5,36 was introduced.

- (5) The “Loi du 23 mars 2020”<sup>3</sup>, as referred to in Belgium’s request of 7 August 2020, extended the existing replacement income for self-employed, “bridging right” (“*Droit passerelle/ Overbruggingsrecht*”), by the introduction of a “COVID-19 bridging right”. This is a benefit provided where social distancing measures imposed by the government lead to a total or partial interruption of self-employment activities or to a voluntary interruption of at least seven consecutive calendar days during the month. Starting from June 2020, the allowance targets self-employed persons who have restarted their activity but still face a reduction in turnover compared to 2019. Self-employed persons who cannot yet restart their activity can still benefit from the allowance but have to prove that this is due to COVID-19 restrictions.
- (6) The “Arrêté royal du 13 mai 2020 n° 23”<sup>4</sup>, as referred to in Belgium’s request of 7 August 2020, introduced COVID-19 parental leave, which is a special parental leave, that does not affect the right to the regular parental leave and allows parents to take leave to provide additional care of their children between May and September 2020 with a higher allowance than under regular parental leave. The COVID-19 parental leave can be considered a similar measure to short-time work schemes, as referred to in Regulation (EU) 2020/672, as it provides income support to employees and helps preserve employment by preventing parents, who have to look after their children while schools are closed, from needing to terminate the employment relationship.
- (7) On the basis of “Arrêté du Gouvernement de la Région de Bruxelles-Capitale de pouvoirs spéciaux n° 2020/019”<sup>5</sup>, “Arrêté du Gouvernement de la Région de Bruxelles-Capitale de pouvoirs spéciaux n° 2020/030”<sup>6</sup>, “Notification de la réunion du conseil des ministres du gouvernement de la région de Bruxelles-Capitale du jeudi 14 mai 2020”<sup>7</sup>, “Besluit van de Vlaamse Regering van 20 maart 2020”<sup>8</sup>, “Besluit van de

April 2020” and “Parlament der Deutschsprachigen Gemeinschaft, Corona-Krisendekret III vom 20. Juli 2020,” as referred to in Belgium’s request of 7 August 2020, the Belgium authorities have introduced a number of regional schemes that provide income support to the self-employed, one-person companies, and other types of employees, who do not qualify for other kinds of income support. In particular, the compensation premia for companies and for entrepreneurs in Brussels Capital, the nuisance, compensation and support premia in Flanders and the compensation premium for business closure in Wallonia provide generalised one-off support for companies and self-employed that needed to close their activities due to COVID-19 or faced a substantial reduction in turnover. Where the measures target a wider range of beneficiaries, only the amounts for expenditure related to the support of self-employed and one-person companies have been requested. Other measures (the compensation premium for intermittent workers in Brussels Capital, the nurseries subvention and the cultural operators subvention in the French Community, the training activities in Wallonia, and the cultural operators and self-employed subvention and the touristic operators subvention in the German-speaking Community) target the self-employed and workers with no access to the temporary unemployment scheme in specific sectors (cultural and care sector, training activities). As the cultural operators and self-employed subvention in the German-speaking Community provides loans that can be converted into grants, in order to meet the requirement of being public expenditure, only expenditure relating to loans being converted into grants should be supported under Regulation (EU) 2020/672.

- (8) Finally, the “Parlament der Deutschsprachigen Gemeinschaft, Corona-Krisendekret I vom 6. April 2020”<sup>15</sup>, as referred to in Belgium’s request of 7 August 2020, introduces health-related measures in the German-speaking Community, which include hygiene training, the provision of protective material for residential and care centres, hospitals and medical service providers and information campaigns.
- (9) Belgium fulfils the conditions for requesting financial assistance set out in Article 3 of Regulation (EU) 2020/672. Belgium has provided the Commission with appropriate evidence that the actual and planned public expenditure has increased by EUR 7 766 380 000 as of 1 February 2020 due to the national measures taken to address the socio-economic effects of the COVID-19 outbreak. This constitutes a sudden and severe increase because it related to both new measures and an extension of existing measures covers a significant proportion of undertakings and of the labour force in Belgium.
- (10) The Commission has consulted Belgium and verified the sudden and severe increase in the actual and planned public expenditure directly related to short-time work schemes and similar measures, as well as the recourse to relevant health-related measures related to the COVID-19 outbreak, referred to in the request of 7 August 2020, in accordance with Article 6 of Regulation (EU) 2020/672.
- (11) Financial assistance should therefore be provided with a view to helping Belgium to address the socio-economic effects of the severe economic disturbance caused by the COVID-19 outbreak.
- (12) This decision should be without prejudice to the outcome of any procedures relating to distortions of the operation of the internal market that may be undertaken, in particular under Articles 107 and 108 TFEU. It does not override the requirement for Member States to notify instances of potential State aid to the Commission under Article 108 TFEU.
- (13) Belgium should inform the Commission on a regular basis of the implementation of the planned public expenditure, in order to enable the Commission to assess the extent to which Belgium has implemented that expenditure.
- (14) The decision to provide financial assistance has been taken taking into account existing and expected needs of Belgium, as well as requests for financial assistance pursuant to Regulation (EU) 2020/672 already submitted or planned to be submitted by other Member States, while applying the principles of equal treatment, solidarity, proportionality and transparency,

HAS ADOPTED THIS DECISION:

*Article 1*

Belgium fulfils the conditions set out in Article 3 of Regulation (EU) 2020/672.

---

<sup>15</sup>Parlament der Deutschsprachigen Gemeinschaft, Corona-Krisendekret I vom 6. April 2020

## *Article 2*

1. The Union shall make available to Belgium a loan amounting to a maximum of EUR 7 766 380 000. The loan shall have a maximum average maturity of 15 years.
2. The availability period for financial assistance granted by this Decision shall be 18 months starting from the first day after the entry into force of this Decision.
3. The Union financial assistance shall be made available by the Commission to Belgium in a maximum of eight instalments. An instalment may be disbursed in one or several tranches. The maturities of the tranches under the first instalment may be longer than the maximum average maturity referred to in paragraph 1. In such cases, the maturities of further tranches shall be set so that the maximum average maturity referred to in paragraph 1 is respected once all instalments have been disbursed.
4. The first instalment shall be released subject to the entry into force of the loan agreement provided for in Article 8(2) of Regulation (EU) 2020/672.
5. Belgium shall pay the cost of funding of the Union referred to in Article 4 of Regulation (EU) 2020/672 for each instalment plus any fees, costs and expenses of the Union resulting from any funding.
6. The Commission shall decide on the size and release of instalments, as well as on the size of the tranches.

## *Article 3*
