Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL establishing the Just Transition Fund
- Outcome of the European Parliament's proceedings
(Brussels, 14 to 17 September 2020)

I. INTRODUCTION

The rapporteur, Manolis KEFALOGIANNIS (EPP, EL), presented a report consisting of 61 amendments (amendments numbered 1 to 61) to the proposal for a Regulation on behalf of the Committee on Regional Development (REGI).

In addition, the Greens/EFA political group tabled 18 amendments (amendments numbered 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90D, 91, 92, 93, 94D, 95); the GUE/NGL political group tabled 11 amendments (amendments numbered 67, 68, 69, 70, 71, 72D, 73, 74D, 75, 76, 77); the Renew Europe political group tabled one amendment (amendment number 66); the ECR political group tabled 8 amendments (amendments numbered 96, 97, 98, 99, 100, 101, 102, 103); and the ID political group tabled 4 amendments (amendments numbered 62, 63D, 64, 65).

II. VOTE

When it voted on 16 September 2020, the plenary adopted amendments 1-40, 41/1, 42-61, and 66 to the proposal for a Regulation. The amendments adopted are set out in the annex.

At the end of the vote on 17 September 2020, the proposal was referred back to the Committee, pursuant to Rule 59(4) of the European Parliament's Rules of Procedure, thereby not bringing the Parliament's first reading to a close and opening the negotiations with the Council.

Just Transition Fund ***I

Amendments adopted by the European Parliament on 17 September 2020 on the proposal for a regulation of the European Parliament and of the Council establishing the Just Transition Fund (COM(2020)0022 – C9-0007/2020 – 2020/0006(COD))¹

1. (Ordinary legislative procedure: first reading)

Amendment 1

2. Proposal for a regulation

3. Recital 1

Text proposed by the Commission

(1) The regulatory framework governing the Union's cohesion policy for the period from 2021 to 2027, in the context of the next multi-annual financial framework, contributes to the fulfilment of the Union's commitments to implement the Paris Agreement *and* the United Nations Sustainable Development Goals by concentrating Union funding on green objectives. This Regulation implements one of the priorities set out in the Communication on the European Green Deal ('the European Green Deal')¹¹ and is part of the Sustainable Europe Investment Plan¹² providing dedicated financing under the Just Transition Mechanism in the context of cohesion policy to address the economic *and* social costs of the transition to a climate-neutral and circular economy, where any remaining greenhouse gas emissions are compensated by equivalent absorptions.

Amendment

(1) The regulatory framework governing the Union's cohesion policy for the period from 2021 to 2027, in the context of the next multi-annual financial framework, contributes to the fulfilment of the Union's commitments to implement the Paris Agreement, **limiting global temperature increase to below 1,5 °C**, the United Nations Sustainable Development Goals **and the European Pillar of Social Rights** by concentrating Union funding on green objectives. This Regulation implements one of the priorities set out in the Communication on the European Green Deal ('the European Green Deal')¹¹ and is part of the Sustainable Europe Investment Plan¹² providing dedicated financing under the Just Transition Mechanism in the context of cohesion policy to address the economic, social *and environmental* costs of the transition to a climate-neutral and circular economy, where any remaining greenhouse gas emissions are compensated by equivalent absorptions, **taking into account the impact of the COVID-19**

Text proposed by the Commission

(2) The transition to a climate-neutral and circular economy constitutes one of the most important policy objectives for the Union. On 12 December 2019, the European Council endorsed the objective of achieving a climate-neutral Union by 2050, in line with the objectives of the Paris Agreement. While fighting climate change and environmental degradation will benefit all in the long term and provides opportunities and challenges for all in the medium term, not all regions and Member States start their transition from the same point or have the same capacity to respond. Some are more advanced than others, whereas the transition entails a wider social **and** economic impact for those regions that rely heavily on fossil fuels - especially coal, lignite, peat and oil shale - or greenhouse gas intensive industries. Such a situation not only creates the risk of a variable speed transition in the Union as regards climate action, but also of growing disparities between regions, detrimental to the objectives of social, economic and territorial cohesion.

6. Proposal for a regulation

7. Recital 3

Text proposed by the Commission

(3) In order to be successful, the transition has to be fair and socially acceptable for all. Therefore, **both** the Union **and** the Member States must take into account its economic **and** social implications from the outset, and deploy all possible instruments to mitigate adverse consequences. The Union budget has an important role in that regard.

Amendment

(3) In order to be successful, the transition has to be fair, **inclusive** and socially acceptable for all. Therefore, the Union, the Member States **and their regions** must take into account its economic, social **and environmental** implications from the outset, and deploy all possible instruments to mitigate adverse consequences. The Union budget has an important role in that regard **to ensure that no one is left behind**.

8. Proposal for a regulation

9. Recital 4

Text proposed by the Commission

(4) As set out in the European Green Deal and the Sustainable Europe Investment Plan, a Just Transition Mechanism should complement the other actions under the next multi-annual financial framework for the period from 2021 to 2027. It should contribute to addressing the social **and** economic consequences of transitioning towards Union climate neutrality by bringing together the Union budget's spending on climate and social objectives at regional level.

Amendment

(4) As set out in the European Green Deal and the Sustainable Europe Investment Plan, a Just Transition Mechanism should complement the other actions under the next multi-annual financial framework for the period from 2021 to 2027. It should contribute to addressing the social, economic **and environmental** consequences, **in particular for workers affected in the process** of transitioning towards Union climate neutrality **by 2050** by bringing together the Union budget's spending on climate and social objectives at regional level, **promoting a sustainable economy, green jobs and public health**.

Amendment

(5) This Regulation establishes the Just Transition Fund ('JTF') which is one of the

pillars of the Just Transition Mechanism implemented under cohesion policy. The aim of the JTF is to mitigate the adverse effects of the climate transition by supporting the most affected territories and workers concerned. In line with the JTF specific objective, actions supported by the JTF should directly contribute to alleviate the impact of the transition by financing the diversification and modernisation of the local economy and by mitigating the negative repercussions on employment. This is reflected in the JTF specific objective, which is established at the same level and listed together with the policy objectives set out in Article [4] of Regulation EU [new CPR].

The aim of the JTF is to mitigate **and compensate** the adverse effects of the climate transition by supporting the most affected territories and workers concerned **and to promote a balanced socio-economic transition that fights social precarity and an unstable business environment**. In line with the JTF specific objective, actions supported by the JTF should directly contribute to alleviate the impact of the transition by financing the diversification and modernisation of the local economy **by regenerating natural assets** and by mitigating the negative repercussions on employment **and on standards of living**. This is reflected in the JTF specific objective, which is established at the same level and listed together with the policy objectives set out in Article[4] of Regulation EU [new CPR].

Amendment 6

12. **Proposal for a regulation**
13. **Recital 6**

Text proposed by the Commission

(6) In view of the importance of tackling climate change in line with the Union's commitments to implement the Paris Agreement, the commitment regarding the United Nations Sustainable Development Goals and the increased ambition of the Union as proposed in the European Green Deal, the JTF should provide a key contribution to mainstream climate actions. Resources from the JTF own envelope are additional and come on top of the investments needed to achieve the overall target of **25%** of the Union budget expenditure contributing to climate objectives. Resources transferred from the ERDF and ESF+ **will** contribute fully to the achievement of this target.

Amendment

(6) In view of the importance of tackling climate change in line with the Union's commitments to implement the Paris Agreement, the commitment regarding the United Nations Sustainable Development Goals and the increased ambition of the Union as proposed in the European Green Deal, the JTF should provide a key contribution to mainstream climate **and environmental** actions. Resources from the JTF own envelope are additional and come on top of the investments needed to achieve the overall target of **30 %** of the Union budget expenditure contributing to climate objectives. Resources transferred **on a voluntary basis** from the ERDF and ESF+ **could** contribute fully to the achievement of this target.

(7) The resources from the JTF should complement the resources available under cohesion policy.

Amendment

(7) The resources from the JTF should complement the resources available under cohesion policy. ***The establishment of the JTF should not lead to cuts to, or compulsory transfers from, the other cohesion funds.***

Amendment 8

16. Proposal for a regulation

17. Recital 8

Text proposed by the Commission

(8) Transitioning to a climate-neutral economy is a challenge for all Member States. It will be particularly demanding for those Member States that rely heavily on fossil fuels or greenhouse gas intensive industrial activities which need to be phased out or which need to adapt due to the transition towards climate neutrality and that lack the financial means to do so. The JTF should therefore cover all Member States, but the distribution of its financial means should reflect the capacity of Member States to finance the necessary investments to cope with the transition towards climate neutrality.

(8) Transitioning to a climate-neutral economy is a challenge for all Member States. It will be particularly demanding for those Member States that rely, ***or which until recently have relied,*** heavily on fossil fuels or greenhouse gas intensive industrial activities which need to be phased out or which need to adapt due to the transition towards climate neutrality and that lack the financial means to do so. The JTF should therefore cover all Member States, but the distribution of its financial means should ***focus on those territories most affected, and*** reflect the capacity of Member States to finance the necessary investments to cope with the transition towards climate neutrality, ***with particular attention to least developed regions, outermost regions, mountainous, islands, sparsely populated, rural, remote and geographically disadvantaged areas whose small population make the transition in energy towards climate neutrality more difficult to implement, and taking into account the starting position of each Member State.***

Amendment

(9) In order to set out an appropriate financial framework for the JTF, the Commission should set out the annual breakdown of available allocations per Member State under the Investment for jobs and growth goal, based on objective criteria. ***Member States should ensure that municipalities and cities have direct access to the JTF resources to be made available to them according to their objective needs.***

(14) The JTF support should be conditional on the effective implementation of a transition process in a specific territory in order to achieve a climate-neutral economy. In that regard, Member States should prepare, in cooperation with the relevant stakeholders and supported by the Commission, territorial just transition plans, detailing the transition process, consistently with their National Energy and Climate Plans. To this end, the Commission should set up a Just Transition Platform, which would build on the existing platform for coal regions in transition to enable bilateral and multilateral exchanges of experience on lessons learnt and best practices across all affected sectors.

(15) The territorial just transition plans should identify the territories most negatively affected, where JTF support should be concentrated and describe specific actions to be undertaken to reach a climate-neutral economy, notably as regards the conversion or closure of facilities involving fossil fuel production or other greenhouse gas intensive activities. Those territories should be precisely defined and correspond to NUTS level 3 regions or should be parts thereof. The plans should detail the challenges **and** needs of those territories and identify the type of operations needed in a manner that ensures the coherent development of climate-resilient economic activities that are also consistent with the transition to climate-neutrality and the objectives of the Green Deal. Only investments in accordance with the transition plans should receive financial support from the JTF. The territorial just transition plans should be part of the programmes (supported by the ERDF, the ESF+, the Cohesion Fund or the JTF, as the case may be) which are approved by the Commission.

Amendment 45

105. **Proposal for a regulation**
106. **Article 5 – paragraph 1 a (new)**

Text proposed by the Commission

Amendment

By way of derogation from point (d) of Article 5(1) of this Regulation, for regions heavily relying on the extraction and combustion of coal, lignite, oil shale or peat, the Commission may approve territorial just transition plans which include investments in activities related to natural gas, provided that such activities qualify as environmentally sustainable in accordance with Article 3 of Regulation (EU) 2020/852^{16a} and comply with the following cumulative conditions:

- (a) are used as a bridging technology replacing coal, lignite, peat, or oil shale;*
- (b) fall within the limits of sustainable availability or are compatible with the use of clean hydrogen, biogas and biomethane;*
- (c) contribute to the Union's environmental objectives on climate change mitigation and adaptation, through accelerating the full phase-out of coal, lignite, peat or oil shale;*
- (d) deliver significant reductions in greenhouse gas emissions and air pollution and increase energy efficiency;*
- (e) contribute to tackling energy poverty;*
- (f) do not hamper the development of renewable energy sources in the territories concerned and are compatible and in synergy with a subsequent use of renewable energy sources.*

In duly justified cases, the Commission may also approve investments in non-

qualifying activities in accordance with Article 3 of Regulation (EU) 2020/852, if they comply with all the other conditions set out in the first subparagraph of this paragraph, and the Member State is able to justify, in the territorial just transition plan, the need to support those activities and demonstrates consistency of those activities with Union energy and climate objectives and legislation, as well as its National Energy and Climate Plan.

^{16a} Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 (OJ L 198, 22.6.2020, p. 13).

109. **Proposal for a regulation**
110. **Article 6 – paragraph 1 – subparagraph 2**

Text proposed by the Commission

The Commission shall *only* approve a

Amendment

Unless it duly justifies withholding its

programme where *the identification of* the territories most negatively affected by the transition process, contained within the relevant territorial just transition plan, *is duly justified* and the relevant territorial just transition plan is consistent with the National Energy and Climate Plan of the Member State concerned.

approval, the Commission shall approve a programme where the territories most negatively affected by the transition process, contained within the relevant territorial just transition plan, *are duly identified* and the relevant territorial just transition plan is consistent with the National Energy and Climate Plan of the Member State concerned, *the climate-neutrality objective for 2050, its intermediate steps by 2030 and the European Pillar of Social Rights*.

Amendment 48

111. Proposal for a regulation

112. Article 6 – paragraph 2

Text proposed by the Commission

2. The JTF priority or priorities shall comprise the JTF resources consisting of all or part of the JTF allocation for the Member States *and* the resources transferred in accordance with Article [21a] of Regulation (EU) [new CPR]. The total of the ERDF and ESF+ resources transferred to the JTF shall *be at least equal to* one and a half times the amount of support from the JTF to that priority *excluding the resources referred to in paragraph 1 of Article 3a but shall not exceed three times that amount*.

Amendment

2. The JTF priority or priorities shall comprise the JTF resources consisting of all or part of the JTF allocation for the Member States. *Those resources may be complemented by* the resources transferred *on a voluntary basis* in accordance with Article [21a] of Regulation (EU) [new CPR]. The total of the ERDF and ESF+ resources *to be* transferred to the JTF *priority shall not exceed* one and a half times the amount of support from the JTF to that priority. *The resources transferred from ERDF and ESF+ shall maintain their original objectives and be included in the levels of thematic concentration of ERDF and ESF+.*

Article 10b

Review

At the latest by the end of mid-term review of the next multi-annual financial framework, the Commission shall review the implementation of the JTF and assess whether it is appropriate to amend its scope in line with possible changes in Regulation (EU) 2020/852, the Union's climate objectives set out in Regulation (EU) 2020/... [European Climate Law] and the evolution in the implementation of the Sustainable Finance Action Plan. On that basis, the Commission shall submit a report to the European Parliament and to the Council, which may be accompanied by legislative proposals.
