**ANNEX VIII-A****RESERVATIONS ON ESTABLISHMENT OF THE EUROPEAN UNION**

1. The list of below indicates the economic activities where the European Union applies reservations to national treatment or most favoured treatment pursuant to Article 144 paragraph 2 of this Agreement to establishments and entrepreneurs of the Republic of Armenia.

The list is composed of the following elements:

- (a) a list of horizontal reservations applying to all sectors or sub-sectors; and
- (b) a list of sector- or sub-sector-specific reservations indicating the sector or sub-sector concerned along with the reservations applying.

A reservation corresponding to an activity which is not liberalised (unbound) is expressed as follows: "No national treatment and most favoured nation treatment obligations".

When a reservation under point (a) or (b) only includes Member State-specific reservations, Member States not mentioned therein undertake the obligations of Article 144 paragraph 2 of this Agreement in the sector concerned without reservations. The absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral EU-wide reservations that may apply.

2. In accordance with Article 141 paragraph 3 of this Agreement, the list below does not include measures concerning subsidies granted by the Parties.
3. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.
4. In accordance with Article 144 of this Agreement, non-discriminatory requirements, such as those concerning the legal form or the obligation to obtain licences or permits applicable to all providers operating on the territory without distinction based on nationality, residency or equivalent criteria, are not listed in this Annex as they are not prejudiced by this Agreement.
5. Where the European Union maintains a reservation that requires that a service supplier be a national, permanent resident or resident of its territory as a condition to the supply of a service in its territory, a reservation listed in the list of commitments in Annex VIII-B or the reservations listed in Annexes VIII-C and VIII-D shall operate as a reservation with respect to establishment under this Annex, to the extent applicable.
6. For greater certainty, for the European Union, the obligation to grant national treatment does not entail the requirement to extend to nationals or juridical persons of the other Party the treatment granted in a Member State to the nationals and juridical persons of another Member State pursuant to the Treaty on the Functioning of the European Union, or to any measures adopted pursuant to that Treaty, including their implementation in the Member States. Such national treatment is granted only to legal persons of the other Party established in accordance with the law of another Member State and having their registered office, central administration or principal place of business in that Member State, including those legal persons established within the EU which are owned or controlled by nationals of the other Party.

## Horizontal reservations

### Public utilities

EU: Economic activities considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators<sup>1</sup>.

### Types of establishment

EU: Treatment accorded to subsidiaries (of Armenian companies) formed in accordance with the law of the Member States of the European Union and having their registered office, central administration or principal place of business within the Union is not extended to branches or agencies established in the Member States of the European Union by Armenian companies.<sup>2</sup> However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a third-country company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by EU law.

---

<sup>1</sup> Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. This reservation does not apply to telecommunications and to computer and related services.

<sup>2</sup> In accordance with Article 54 of the TFEU, these subsidiaries are considered as juridical persons of the European Union. To the extent that they have a continuous and effective link with the economy of the European Union, they are beneficiaries of the internal market, which includes, *inter alia*, the freedom to establish and to provide services in all Member States of the European Union.

EU: Treatment less favourable may be accorded to subsidiaries (of third-country companies) formed in accordance with the law of a Member State which have only their registered office in the territory of the European Union, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.

AT: Managing directors of branches of juridical persons must be resident in Austria; natural persons responsible within a juridical person or a branch for the observance of the Austrian Trade Act must have a domicile in Austria.

For all sectors, EEA residency is required for at least half of the ordinary and deputy members of the board of directors and the managing director; however exemptions may be granted to certain companies. If an Armenian organisation intends to carry on business or trade by establishing a branch in Finland, a trade permit is required.

FR: The managing director of an industrial, commercial or artisanal activity, if not a holder of a residency permit, needs a specific authorisation.

For all sectors except legal services and services provided by healthcare units, Armenian investors can undertake and conduct economic activity only in the form of a limited partnership, limited joint-stock partnership, limited liability company, and joint-stock company (in the case of legal services only in the form of registered partnership and limited partnership).

RO: The sole administrator or the chairman of the board of administration as well as half of the total number of administrators of the commercial companies shall be Romanian citizens unless otherwise stipulated in the company contract or its statutes. The majority of the commercial companies' auditors and their deputies shall be Romanian citizens.

SE: A foreign company, which has not established a legal entity in Sweden or is conducting its business through a commercial agent, shall conduct its commercial operations through a branch, registered in Sweden, with independent management and separate accounts. The managing director of the branch, and the vice-managing director if appointed, must reside in the EEA. A natural person not resident in the EEA, who conducts commercial operations in Sweden, shall appoint and register a resident representative responsible for the operations in Sweden. Separate accounts shall be kept for the operations in Sweden. The competent authority may in individual cases grant exemptions from the branch and residency requirements. Building projects with duration of less than a year – conducted by a company located or a natural person residing outside the EEA – are exempted from the requirements of establishing a branch or appointing a resident representative. A partnership may be a founder, only if all owners with unlimited personal liability are resident within the EEA. Founders outside the EEA may apply for permission from the competent authority. For limited liability companies and co-operative economic associations, at least 50 % of the members of the board of directors, the managing director, the vice-managing director, the deputy board members and at least one of the persons authorised to sign for the company, if any, must reside within the EEA. The competent authority may grant exemptions from this requirement. If none of the company's/society's representatives reside in Sweden, the board must appoint and register a person resident in Sweden, who has been authorised to receive servings on behalf of the company/society. Corresponding conditions prevail for establishment of all other types of legal entities. A holder/applicant of registered rights (patents, trademarks, design protection, and plant variety rights) who is not resident in Sweden shall have an agent residing in Sweden for the main purpose of services of process, notification, etc.

All sectors	
A. Professional services	
(a) Legal services (CPC 861) <sup>1</sup> (excluding legal advisory and legal documentations and certification services provided by legal professionals entrusted with public functions, such as notaries, <i>huissiers de justice</i> or other <i>officiers publics et ministériels</i> )	For Modes 1 and 2 AT, BE, BG, CY, DE, EE, EL, ES, FR, HU, IE, IT, LT, LU, MT, PT, PL, SK, UK: Full admission to the Bar, required for the practice of domestic (EU and Member State) law and for representation before courts, is subject to a nationality condition. CY: EU Nationality and Residency condition for the provision of legal services. Full admission to the Bar is subject to a nationality coupled with a residency requirement. Only advocates enrolled in the Bar may be partners or shareholders or members of the Board of Directors in a law company in Cyprus. CY, HU: For foreign lawyers, the scope of legal activities is limited to the provision of legal advice.

<sup>1</sup> Includes legal advisory, legal representational, legal arbitration and conciliation/mediation, and legal documentation and certification services. Provision of legal services is only authorised in respect of public international law, EU law and the law of any jurisdiction where the investor or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in Member States of the European Union. For lawyers providing legal services in respect of public international law and foreign law, these may take *inter alia* the form of compliance with local codes of ethics, use of home title (unless recognition with the host title has been obtained) insurance requirements, simple registration with the host country Bar or a simplified admission to the host country Bar through an aptitude test and a legal or professional domicile in the host country. Legal services in respect of EU law shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in the EU acting personally, and legal services in respect of the law of a Member State of the European Union shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in that Member State acting personally. Full admission to the Bar in the relevant Member State of the European Union might therefore be necessary for representation before courts and other competent authorities in the EU since it involves practice of EU and national procedural law. However, in some Member States, foreign lawyers not fully admitted to the Bar are allowed to represent in civil proceedings a party being a national or belonging to the State in which the lawyer is entitled to practice.

**ANNEX VIII-C**

**RESERVATIONS ON KEY PERSONNEL, GRADUATE TRAINEES  
AND BUSINESS SELLERS OF THE EUROPEAN UNION**

1. The reservations below indicate the economic activities liberalised pursuant to Article 151 of this Agreement for which limitations apply on key personnel and graduate trainees in accordance with Article 154 of this Agreement and on business sellers in accordance with Article 155 of this Agreement and specifies such limitations. The list below is composed of the following elements:
  - (a) the first column indicating the sector or sub-sector in which limitations apply; and
  - (b) the second column describing the applicable limitations.

When the column referred to under (b) only includes Member State-specific reservations, Member States not mentioned therein undertake commitments in the sector concerned without reservations (the absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral EU-wide reservations that may apply).

The European Union does not undertake any commitment for key personnel, graduate trainees and business sellers in economic activities which are not liberalised (remain unbound) pursuant to Article 144 of this Agreement.

2. Commitments on key personnel, graduate trainees, business service sellers and sellers of goods do not apply in cases where the intent or effect of their temporary presence is to interfere with, or otherwise affect the outcome of, any labour or management dispute or negotiation.
3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a limitation within the meaning of Articles 154 and 155 of this Agreement. Those measures (e.g. need to obtain a licence, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, and need to have a legal domicile in the territory where the economic activity is performed), even if not listed below, apply in any case to key personnel, graduate trainees and business sellers of the Republic of Armenia.
4. All other legal requirements of the European Union and its Member States regarding entry, stay, work and social security measures continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements.
5. In accordance with Article 141, paragraph 3 of this Agreement, the list below does not include measures concerning subsidies granted by a Party.

6. The list below is without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on establishment.
7. In the sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the Member State of the European Union or the region where the service is to be provided, including with respect to the number of, and the impact on, existing services suppliers.
8. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.
9. For greater certainty, for the European Union, the obligation to grant national treatment does not entail the requirement to extend to nationals or juridical persons of the other Party the treatment granted in a Member State to the nationals and juridical persons of another Member State pursuant to the Treaty on the Functioning of the European Union, or to any measure adopted pursuant to that Treaty, including their implementation in the Member States. Such national treatment is granted only to legal persons of the other Party established in accordance with the law of another Member State and having their registered office, central administration or principal place of business in that Member State, including those legal persons established within the EU which are owned or controlled by nationals of the other Party.

2. The list is composed of the following elements:

When the column referred to in point (b) only includes Member State-specific reservations, Member States not mentioned therein undertake commitments in the sector concerned without reservations. 3. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.
