## PRESENTATION OF ACTIVITIES BY POLICY SECTORS

### 1. INTRODUCTION

This working document contains snapshots of the policy sectors and includes the figures for all the committees in a sector. All individual committees under the responsibility of each Commission department (whether active or not) are listed, together with their relevant data. This approach provides for transparency of the policy sector activities. In addition, textual comments highlight important changes in the organisation and situations of disagreement in the work of the committees in the reporting year<sup>1</sup>.

The following explanations are intended to help readers better understand the statistical data: *Opinions* delivered by the committees may be of various kinds: they may concern draft Commission legislative acts (directives, regulations), decisions designed to regulate a specific legal situation or to approve financial projects in the context of any of the many Community programmes, or just position statements (which explains why the total number of favourable opinions may be greater than the total number of legal acts adopted in a specific sector). Consequently, the *implementing measures* adopted by the Commission follow these categories.

In the event of a *favourable opinion*, the rule is that the Commission adopts the implementing measure; under the *management procedure* it may also adopt an implementing measure in the *absence* of an opinion (shown in the row 'no opinion', although a formal vote has taken place<sup>2</sup>). Only if there is an *unfavourable opinion* is the decision referred to the Council as "an appeal body", which then has the power to decide (*referrals* to the Council). Under the *regulatory procedure*, the Council is also consulted if there is 'no opinion'.

A further source of difference between the total number of *favourable opinions* delivered by committees and the number of *implementing measures* adopted by the Commission in a given sector occurs when opinions were delivered in 2005 but the instruments were adopted only the following year (2006), or opinions were adopted at the end of 2005 and instruments adopted only in 2006.

In certain cases committees are required to deliver opinions on dossiers which will not be the subject of a draft implementing measure until some time later. Hence there may be considerable discrepancies between the total number of *opinions* and the number of *implementing measures* adopted by the Commission.

Some committees have not yet adopted their internal rules of procedures or their rules of procedures in force have not yet been aligned with the Standard Rules of Procedures adopted in 2001. This situation is marked by a 'No' in the field 'Rules of Procedures'.

---

<sup>1</sup> Comments are made sector by sector, but only if relevant; they regard newly created (or transferred) and abolished committees and procedures (marked in the lists in *italics*), as well as votes which result in disagreement with the Commission's draft measure, leading to unfavourable or "no opinions".

<sup>2</sup> This situation occurs if neither the necessary quorum for a *favourable*, nor for an *unfavourable opinion* has been reached as a result of the vote.

A number of committees had no activity at all in the reporting year. This is indicated by the figure '0' in all rows. It is however possible that a committee did not meet at all in the reporting year, but delivered formal opinions. These opinions have been voted by written procedure, according to the committee's rules of procedure.

## 2. NUMBER OF COMMITTEES BY PROCEDURE AND NUMBER OF MEETINGS

The comitology committees can be classified according to the type of procedure under which they operate (advisory procedure, management procedure, regulatory procedure, and safeguard procedure - see Table III). Since certain committees apply multiple procedures (ranging from the advisory procedure to the regulatory procedure, plus the safeguard procedure), they have been singled out from committees operating under a single procedure.

**TABLE III – NUMBER OF COMMITTEES BY PROCEDURE (2006)**

The figures indicate that about 33% of the committees (91 out of 277) work exclusively under the regulatory procedure, followed by a smaller number of committees working exclusively

under the management procedure (78). The breakdown by policy sector shows that use of the three types of procedure varies from policy sector to policy sector. However, in some of the policy sectors, a clear dominance of one of the procedures can be noted: the *Energy and Transport, Environment and Enterprise and Industry* sectors, for instance, work with a large number of committees under the regulatory procedure, whereas *Agriculture* works with a large number of committees under the management procedure.

**TABLE IV – NUMBER OF MEETINGS**

The number of committees is not the only indicator of activity at comitology level. The *number of meetings* held in 2006 reflects the intensity of work in general, at sector level and in individual committees (Table IV).

	2005	2006		2005	2006

As in 2006, *Agriculture* leads the field with 327 meetings, since managing the different agricultural markets requires frequent meetings. *Agriculture* is followed by *Health and Consumer Protection* with 119 meetings and *Taxation and Customs Union* with 85 meetings.
