² OJ C , , p. .

- (1) On 29 June 2012, the Euro area Heads of State or Government have called on the Commission to present proposals to provide for a single supervisory mechanism involving the European Central Bank (ECB). The European Council in its conclusions of 29 June 2012 invited the President of the European Council to develop, in close collaboration with the President of the Commission, the President of the Eurogroup and the President of the ECB, a specific and time-bound road map for the achievement of a genuine Economic and Monetary Union, which includes concrete proposals on preserving the unity and integrity of the Single Market in financial services and which takes account of the Euro Area statement and the intention of the Commission to bring forward proposals based on Article 127 of the Treaty on the Functioning of the European Union (TFEU).
- (2) The provision for a single supervisory mechanism is the first step towards the creation of a European banking union, underpinned by a true single rulebook for financial services.
- (3) In order to provide for the single supervisory mechanism, Council Regulation (EU) No .../...³[127(6) Regulation] confers specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions in the Member States whose currency is the euro. Other Member States may enter in a close cooperation with the ECB.
- (4) The conferral of supervisory tasks to the ECB in the banking sector for part of the Member States of the Union should not in any way hamper the functioning of the internal market in the field of financial services. It is therefore necessary to ensure the proper functioning of the EBA following that conferral.
- (5) In view of the supervisory tasks conferred on the ECB by Council Regulation (EU) No .../... [127(6) Regulation], EBA should be able to carry out its tasks also in relation to the ECB. In order to ensure that existing mechanisms for settlement of disagreements and actions in emergency situations remain effective, they should be adjusted accordingly.

³

- (6) In order to ensure that interests of all Member States are adequately taken into account and to allow for the proper functioning of the EBA with a view to maintaining and deepening the internal market in the field of financial services, the voting modalities within the Board of Supervisors should be adapted, in particular with regard to decisions taken by the EBA at simple majority.
- (7) Decisions concerning breaches of Union law and settlement of disagreements should be examined by an independent panel composed of voting members of the Board of Supervisors which do not have any conflicts of interest, appointed by the Board of Supervisors. The decisions proposed by the panel to the Board of Supervisors should be considered as adopted unless rejected by a simple majority of its members from Member States participating in the SSM and a simple majority of its members from Member States that do not participate in the SSM.
- (7a) Decisions concerning actions in emergency situations should be adopted by a simple majority of the Board of Supervisors, which should include a simple majority of its members from Member States participating in the SSM and a simple majority of its members from Member States that do not participate in the SSM.
- (7b) [only with option B: Decisions concerning the acts specified in Articles 10 to 16 of Regulation (EU) 1093/2010 and measures and decisions adopted under the third subparagraph of Article 9(5) and Chapter VI of that Regulation should be adopted by a qualified majority of the Board of Supervisors which should include a simple majority of its members from Member States participating in the SSM and a simple majority of its members from Member States that do not participate in the SSM.]
- (7c) Notwithstanding the voting arrangements for EBA contained in Regulation 1093/2010, the Board of Supervisors of EBA should strive for consensus when taking its decisions.
- (8) The EBA should develop rules of procedure for the panel that ensure its independence and objectivity.

- (9) The composition of the Management Board should be balanced and proper representation of Member States not participating in the SSM should be ensured.
- (10) In order to ensure the proper functioning of the EBA and adequate representation of all Member States, the voting modalities, the composition of the Management Board, and the composition of the independent panel should be reviewed after an appropriate period of time taking into account any experience gained and further developments.
- (11) Since the objectives of this Regulation, namely ensuring a high, effective and consistent level of prudential regulation and supervision across the European Union, protecting the integrity, efficiency and orderly functioning of financial markets and maintaining the stability of the financial system, cannot be sufficiently achieved by the Member States and can, therefore, by reason of the scale of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives,

HAVE ADOPTED THIS REGULATION:
