Proposal for a

COUNCIL DECISION

**on the signing, on behalf of the European Union, of the Agreement between the
European Union and the Russian Federation on drug precursors**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

On 23 March 2009 the Council authorised the Commission to open negotiations with the Russian Federation for an Agreement on drug precursors. Following the launch of negotiations in September 2009, four negotiating rounds took place. In September 2012, the text of the Agreement was finally agreed between the Parties.

This Agreement aims to strengthen the cooperation between the European Union and the Russian Federation to prevent diversion of drug precursors from the legal trade to counter illicit manufacture of narcotic drugs and psychotropic substances.

As this Agreement may occasionally imply an exchange of personal data, it includes specific provisions on data protection in order to provide sufficient protection for citizens in the use of their data.

The Commission considers that the text is in accordance with the negotiating directives.

The Commission is therefore invited to adopt the attached proposal for a Council decision on the signing of this Agreement.

In parallel, a separate proposal for a Council decision on the conclusion of this Agreement is also submitted.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

Member States were regularly informed on the draft of the Agreement within the Drug Precursors Working Group/Committee and within the Council Working Party on Customs Union.

There was no need for an impact assessment.

3. LEGAL ELEMENTS OF THE PROPOSAL

The Council is asked to adopt a decision authorising the signing of the draft Agreement based on Article 207 (4) in conjunction with Article 218 (5) of the Treaty on the Functioning of the European Union.

The proposal falls under the common commercial policy, exclusive competence of the Union. The subsidiarity principle therefore does not apply.

4. BUDGETARY IMPLICATIONS

The proposal has no budgetary implications for the Union budget.

5. OTHER

The draft Agreement is consistent with the drug policy outlined in the EU Drug Strategy 2005-2012, providing for action to reduce the supply of precursors and, thereby, decrease the production of drugs.

A proposal for a Council decision on the conclusion of the draft Agreement is submitted in parallel to this proposal for a Council decision on the signing of the draft Agreement.

Proposal for a

COUNCIL DECISION

on the signing, on behalf of the European Union, of the Agreement between the European Union and the Russian Federation on drug precursors

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first subparagraph of Article 207 (4) in conjunction with Article 218 (5) thereof,

Having regard to the proposal from the European Commission,

- (1) The European Union and the Russian Federation should strengthen their cooperation to prevent diversion of drug precursors from the legal trade to counter illicit manufacture of narcotic drugs and psychotropic substances.

Negotiations were conducted by the Commission within the framework of the negotiating directives adopted by the Council and were recently concluded.
- (3) The Agreement should ensure full respect of fundamental rights, in particular a high level of protection for the processing and transfer of personal data between the Parties.
- (4) The Agreement should be signed on behalf of the European Union, subject to its conclusion at a later date,

HAS ADOPTED THIS DECISION:

Article 1

WITHIN THE FRAMEWORK of the United Nations Convention of 1988 against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, hereinafter referred to as the "1988 Convention";

DETERMINED to prevent and to combat the illicit manufacture of narcotic drugs and psychotropic substances by preventing the diversion from the legitimate trade of substances frequently used in the illicit manufacture of narcotic drugs and psychotropic substances (hereinafter referred to as the "precursors");

TAKING into account the overall legal framework between the Russian Federation and the European Union;

NOTING that international trade may be used for the diversion of such precursors;

CONVINCED of the necessity to conclude and to implement agreements between the Parties concerned, with the purpose of establishing wide cooperation, in particular pertaining to export and import controls;

RECOGNISING that precursors are also mainly and widely used for legitimate purposes and that international trade must not be hindered by excessive monitoring procedures.

Article 4

Mutual assistance

1. The Parties shall within the scope of this agreement provide each other mutual assistance through exchange of information referred to in Article 12 (10) point a) of the 1988 Convention to prevent the diversion of scheduled precursors to the illicit manufacture of narcotic drugs or psychotropic substances.
