Subject : Proposal for a Regulation of the European Parliament and of the Council on a mechanism for monitoring and reporting greenhouse gas emissions and for reporting other information at national and Union level relevant to climate change (**first reading**)  
- Adoption of the legislative act (LA + S)  
= Statements  
COMMON GUIDELINES  
Consultation deadline for Croatia: 17.4.2013

---

### Commission statements

"The Commission takes note of the deletion of Article 10 of its original proposal. However, in order to improve data quality and transparency on CO2 emissions and on other climate-relevant information relating to maritime transport, the Commission agrees to instead address this issue as part of its upcoming initiative on monitoring, reporting and verification of shipping emissions that the Commission undertakes to adopt during the first half of 2013. The Commission intends to propose an amendment to this Regulation in that context."

"The Commission notes that supplementary rules concerning the establishment, maintenance and modification of the Union system for policies, measures and projections as well as the preparation of approximated greenhouse gas inventories may be required in order to ensure the proper functioning of the Regulation. As of early 2013, the Commission will examine the matter in close cooperation with Member States and will, if appropriate, make a proposal to amend the Regulation."
