**AMENDMENT**

On 24 October 2012 the Permanent Representatives Committee approved Amendment No 1 to the Three-year Action Programme for the African Peace Facility, 2011-2013 (10th EDF) to replenish the African Peace Facility with an amount of €126 200 000 to a total allocation of €426 200 000.

The present Amendment No 2 to the Three-year Action Programme for the African Peace Facility, 2011-2013 replenishes the African Peace Facility – and more specifically its envelope for Peace Support Operations - with an additional amount of €115 000 000 to a total allocation of €541 200 000.

Therefore, the following articles of the Three-Year Action Programme for the African Peace Facility, 2011-2013 are hereby replaced as follows:

Article 6.5 - Indicative allocation

Article 7.1 - Timelines

Appendix V - Logical Framework

All other articles remain unchanged.

## 6.5 Indicative allocation

In accordance with the thematic scope of the APF and the priorities of the Joint Partnership, the current €426 200 000 APF envelope will be replenished with an additional amount of €115 000 000 to a total of €541 200 000, allocated as follows:

- (1) Operationalisation of APSA and Africa-EU dialogue (Priorities n°2 and n°1 of the Joint Partnership) - €51 400 000;
- (2) Peace Support Operations (Priority n°3 of the Joint Partnership) – €464 000 000;
- (3) Early Response Mechanism (actions within Priorities n°s 1, 2 and 3 of the Partnership where urgent support is required) - €2 000 000 (to complement the ongoing mechanism);
- (4) Activities for monitoring, audit, evaluation, technical assistance, lessons learned and visibility will amount to €6 000 000 ;
- (5) Contingencies - €17 800 000. If in the course of implementation of APF activities, one budget heading is under-spending, a transfer may be made between headings in order to optimise resource allocation. This budget reallocation may be reached through different channels:
  - a) the Commission can autonomously increase or diminish a budget heading by 20% according to art. 7(4) of 10<sup>th</sup> EDF implementing regulation;
  - b) the budget includes €17 800 000 contingencies, which can be allocated to any of the established budget lines;
  - c) an addendum to the original Commission decision can be made in accordance with the standard procedures.

The use of contingencies is not considered as an amendment of the financing decision as long as it does not entail a change in the nature of the activities originally proposed. The use of contingencies does not require an addendum to the financing agreement. Contingencies will be used to complement any ongoing APF-funded intervention upon Commission decision, following an AU or REC/RMs request. Where contingencies are used for a new APF intervention, the decision-making procedures outlined in Appendix 1 will apply.

## 7.1 Timelines

Pursuant to Article 12(c) of the 10<sup>th</sup> EDF Implementing Regulation, the Commission has taken its financing decision on the three-year Action Programme and established a financing agreement with the African Union. The latter was countersigned on 1 September 2011. The implementation period for the financing agreement is 72 months, starting from the date of the signature of the AU. The closure period will be of 24 months.

Any balance of funds remaining available under the EC financing agreement shall be automatically cancelled 6 months after the end of the execution period.

All individual commitments implementing the financing agreement must be concluded at the latest three years (D+3) after the entry into force of the financing agreement. This deadline cannot be extended. The above provision does not apply to contracts relating to audit and evaluation, which may be signed after this date. The Commission has 36 months to commit the €541,200,000 available to the APF from the date the AU has counter-signed the Financing Agreement.
