Proposal for a

COUNCIL REGULATION

on the allocation of the fishing opportunities under the Protocol agreed between the European Union and the Gabonese Republic setting out the fishing opportunities and financial contribution provided for in the Fisheries Partnership Agreement between the two Parties currently in force

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

On the basis of the powers conferred on it by the Council, the European Commission has conducted negotiations with the Gabonese Republic with a view to renewing the Protocol to the Fisheries Partnership Agreement between the European Community and the Gabonese Republic. At the end of the negotiations a new draft protocol was initialled by the negotiators on 24 April 2013. The new Protocol covers a period of three years from the date of provisional application laid down in Article 14, that being the date on which this new Protocol was signed.

The main purpose of the Protocol to the Agreement is to grant fishing opportunities to European Union vessels in Gabonese waters, in compliance with the best scientific opinions available and the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), within the limits of the available surplus. The Commission's negotiating position was based in part on the results of an ex-post evaluation carried out by external experts.

The general aim is to enhance the cooperation between the European Union and the Gabonese Republic, thereby creating a partnership framework within which to develop a sustainable fisheries policy and sound exploitation of fishery resources in the Gabonese fishing zone, in the interests of both Parties.

More specifically, the Protocol provides for fishing opportunities in the following categories:

27 freezer tuna seiners:

8 pole-and-line tuna vessels.

The method for allocating fishing opportunities among the Member States should be defined. The Commission proposes, on this basis, that the Council adopt the Regulation.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

The interested parties were consulted as part of the evaluation of the Protocol for the period 2007-13. Experts from the Member States were also consulted in technical meetings. These consultations led to the conclusion that it would be beneficial to maintain a fishing protocol with the Gabonese Republic.

3. LEGAL ELEMENTS OF THE PROPOSAL

This procedure is being initiated in parallel with the procedures relating to the Council decision on provisional application of the Protocol as well as the Council decision concluding the Protocol as such.
