COMMISSION DELEGATED REGULATION (EU) No .../..

of 30.9.2013

**on the model financial regulation for public-private partnership bodies referred to in
Article 209 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and
of the Council**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE DELEGATED ACT

The proposal lays down the essential principles on the basis of which the Public-Private Partnership bodies (hereinafter "PPP bodies") referred to in Article 209 of the Regulation of the European Parliament and of the Council (EU, Euratom) No 966/2012 on the financial rules applicable to the general budget of the Union¹ (hereinafter 'the general Financial Regulation') should adopt their own financial rules.

The general Financial Regulation based on the experience of having PPPs institutionalised as Union bodies under Article 185 of Regulation (EC, Euratom) No 1605/2002 introduced additional categories of PPPs in order to increase the choice of instruments and to provide such bodies, where institutionalised, with more flexible, tailor-made financial rules taking into account the private sector participation in their budget.

Article 209 of the general Financial Regulation provides for the adoption of a delegated act pursuant to Article 290 of the Treaty on the Functioning of the European Union (hereinafter 'TFEU') on a Model Financial Regulation for public-private partnership bodies which shall lay down the principles necessary to ensure sound financial management of Union funds and which shall be based on Article 60 of the general Financial Regulation.

The proposal follows the structure of the general Financial Regulation and of the draft framework Financial Regulation for the bodies referred to in Article 208 of the general Financial Regulation while allowing for more flexible rules in terms of budget establishment, procurement, revenue and expenditure operations in an effort to accommodate private practices and at the same time ensure the respect of the principle of sound financial management.

2. CONSULTATIONS PRIOR TO THE ADOPTION OF THE ACT

The proposal has been elaborated taking into account to the extent possible the results of the consultation of the relevant Commission services and of the Joint Undertakings set up by the Union under the seventh Framework Programme, as well as the experience of the operational services and the lessons learned from the setting up of the first Joint Undertakings.

The recommendations and conclusions of the JTI Sherpas Group Report² have been reflected in the present proposal in the light of the requirements set by the Financial Regulation.

The Commission, when preparing and drawing up this delegated act ensured a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and the Council and carried out appropriate and transparent consultations well in advance, including at expert level.

3. LEGAL ELEMENTS OF THE DELEGATED ACT

The Delegated Act is made pursuant to Articles 209 and 210 of the general Financial Regulation.

The Model Financial Regulation sets out the essential principles necessary for the implementation of the budget of the PPP bodies foreseen under Article 209 FR. It follows largely the structure of the general Financial Regulation: scope, budgetary principles, financial planning, financial actors, internal audit, revenue and expenditure operations, implementation of the budget, accounting, external audit and combatting fraud, final and transitional provisions.

COMMISSION DELEGATED REGULATION (EU) No .../..

of 30.9.2013

on the model financial regulation for public-private partnership bodies referred to in Article 209 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002³, and in particular Article 209 thereof,

Whereas:

- (1) Regulation (EU, Euratom) No 966/2012, based on the experience of having public-private partnerships institutionalized as Union bodies under Article 185 of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002⁴, introduced additional categories of public-private partnerships in order to increase the choice of instruments and include bodies whose rules are more flexible and accessible for private partners than those applicable to the Union institutions. Among those additional categories are the bodies referred to in Article 209 of Regulation (EU, Euratom) No 966/2012 which are entrusted with the implementation of a public-private partnership (hereinafter 'PPP bodies').
- (2) In order to ensure sound financial management of Union funds and to enable PPP bodies to adopt their own financial rules, it is necessary to adopt a model financial regulation for those bodies.
- (3) PPP bodies should establish and implement their budget in accordance with the budgetary principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management, which requires effective and efficient internal control, and transparency.
- (4) In order to ensure the overall implementation of the tasks and activities of the PPP body, it should be able to enter the unused appropriations for a given year in the estimate of revenue and expenditure of up to the following three financial years.
- (5) Since the Union funds put at the disposal of the PPP body are to be implemented under indirect management provided for in Article 60 of Regulation (EU, Euratom) No

³ OJ L 298, 26.10.2012, p. 1.

⁴ Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p.1).

966/2012, the provisions on financial planning and reporting should be consistent with the indirect management method of budget implementation. The discharge of the budget implementation with regard to the Union contribution to the PPP bodies is to be part of the discharge given by the European Parliament to the Commission in respect of the implementation of the budget of the Union. Therefore, adequate annual reporting, including the submission of a management declaration, should be provided in accordance with Regulation (EU, Euratom) No 966/2012, allowing the Commission to better assume its responsibilities in relation to the discharge.

- (6) It is necessary to define the powers and responsibilities of the accounting officer and of the authorising officers taking into account the public-private nature of the PPP bodies. The authorising officers should be fully responsible for all revenue and expenditure operations executed under their authority and should be held accountable for their actions, including, where necessary, through disciplinary proceedings.
- (7) It is necessary to clarify the internal audit and internal control functions and to streamline the reporting requirements. The internal audit function within the PPP bodies should be performed by the Commission's internal auditor who should carry out audits when justified by the risks involved. Provisions on the establishment and functioning of internal audit capabilities should be introduced.
- (8) In order to guarantee that each body is accountable for the implementation of its budget and adheres to the objectives assigned to it at its establishment, PPP bodies should be allowed, for the performance of the tasks entrusted to them, to employ external private sector bodies only where necessary and not for tasks involving any public service mission or any use of discretionary powers of judgment.
- (9) The principles to be followed as to the revenue and expenditure operations of the PPP body should be laid down.
- (10) Given the public-private nature of the PPP bodies and in particular the private sector contribution to the budget of the PPP body, flexible procedures for the award of procurement contracts should be allowed. The relevant procedures should respect the principles of transparency, proportionality, equality of treatment and non-discrimination and partly depart from the relevant provisions laid down in Commission Delegated Regulation (EU) No 1268/2012⁵. It is necessary to ensure better and cheaper supply of goods and services, as well as the avoidance of excessive costs in managing procurement procedures through reinforced cooperation among the members of PPP bodies. The PPP bodies should therefore also have the possibility to conclude contracts without having recourse to a procurement procedure with their members other than the Union for the supply of products, provision of services or performance of work that those members provide directly, without having recourse to third parties.
- (11) In order to improve cost-efficiency, the possibility of sharing services or transferring them to another body or the Commission should be provided, in particular by allowing that the accounting officer of the Commission is entrusted with all or part of the tasks of the accounting officer of the PPP body.

⁵ Commission Delegated Regulation (EU) No 1268/2012 of 29 October 2012 on the rules of application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union (OJ L 362, 31.12.2012, p. 1).

- (12) For the evaluation of grant applications, projects and tenders and for providing opinions and advice in specific cases, the PPP bodies should be able to use external experts. These experts should be selected in accordance with the principles of non-discrimination, equal treatment and absence of conflict of interests.
- (13) In the award of grants and prizes, the relevant provisions of Regulation (EU, Euratom) No 966/2012 and Delegated Regulation (EU) No 1268/2012 should apply, subject to any specific provision of the constituent instrument of the PPP body or of the basic act of the programme the implementation of which is entrusted to the PPP body in order to ensure a coherent implementation with the actions directly managed by the Commission.
- (14) Where the accounts of the PPP bodies need to be consolidated in accordance with the accounting rules referred to in Article 143 of Regulation (EU, Euratom) No 966/2012, the accounting rules applied by the PPP bodies should allow for such consolidation.
- (15) This Regulation should enter into force on the day following that of its publication in the Official Journal of the European Union in order to allow for the timely adoption of the revised financial regulations of the PPP bodies as of 1 January 2014 in order to ensure coherent rules for the next multiannual financial framework.

HAS ADOPTED THIS REGULATION:

Chapter 1

Article 4
Respect for budgetary principles

The budget of the PPP body shall be established and implemented in accordance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management which requires effective and efficient internal control, and transparency as set out in this Regulation.

Article 5
Principles of unity and of budgetary accuracy

1. No revenue shall be collected and no expenditure effected unless booked to a line in the budget of the PPP body.

2. No expenditure may be committed or authorised in excess of the appropriations authorised by the budget of the PPP body.
3. An appropriation may be entered in the budget of the PPP body only if it is for an item of expenditure considered necessary.
4. Interests generated by pre-financing payments made from the budget of the PPP body shall not be due to the PPP body.

Article 6
Principle of annuality

1. The appropriations entered in the budget of the PPP body shall be authorised for a financial year which shall run from 1 January to 31 December.
2. Commitment appropriations shall cover the total cost of the legal commitments entered into during the financial year.
3. Payment appropriations shall cover payments made to honour the legal commitments entered into in the financial year or preceding financial years.
4. For administrative appropriations, expenditure shall not exceed the revenue expected for the year as referred in Article 3(a)(i).
5. Given the needs of the PPP body, the unused appropriations may be entered in the estimate of revenue and expenditure of up to the following three financial years. These appropriations must be used first.
6. Paragraphs 1 to 5 shall not prevent budget commitments for actions extending over more than one financial year being broken down over several years into annual instalments where the constituent instrument so provides or where they relate to administrative expenditure.

Article 7
Principle of equilibrium

1. Revenue and payment appropriations shall be in balance.
2. Commitment appropriations shall not exceed the relevant annual Union contribution as set out in the annual transfer of funds agreement with the Commission, plus annual contributions from other members than the Union, any other revenue referred to in Article 3 and the amount of the unused appropriations referred to in Article 6(5).
3. The PPP body may not raise loans within the framework of the budget of the PPP body.

Article 8
Principle of unit of account

The budget of the PPP body shall be drawn up and implemented in euro and the accounts shall be presented in euro. However, for cash-flow purposes, the accounting officer shall be authorised to carry out operations in other currencies as laid down in the financial rules of the PPP body.

Article 9
Principle of universality

1. Without prejudice to paragraph 2, total revenue shall cover total payment appropriations. All revenue and expenditure shall be entered in full without any adjustment against each other, subject to any specific provision in the financial rules of the PPP body on cases where certain deductions may be made from payment requests, which shall then be passed for payment of the net amount.
2. Revenue earmarked for a specific purpose, such as income from foundations, subsidies, gifts and bequests, shall be used to finance specific items of expenditure.
3. The director may accept any donation made to the PPP body, such as foundations, subsidies, gifts and bequests.

Acceptance of donations which may involve a significant financial charge shall be subject to the prior authorisation of the governing board, which shall take a decision within two months of the date on which the request is submitted to it. If the governing board fails to take a decision within that period, the donation shall be deemed to be accepted.

The amount above which the financial charge involved is considered significant shall be set by a decision of the governing board.

Article 10
Principle of specification

1. Appropriations shall be earmarked for specific purposes at least by title and chapter.
2. The director may transfer appropriations from one chapter to another without limit and from one title to another up to a maximum of 10% of the appropriations for the year shown on the line from which the transfer is made.

Beyond the limit referred to in the first sub-paragraph, the director may propose to the governing board transfers of appropriations from one title to another. The governing board shall have three weeks to oppose such transfers. After that time-limit they shall be deemed to be adopted.

The director shall inform the governing board as soon as possible of all transfers carried out under the first sub-paragraph.

Article 11

Principle of sound financial management

1. Appropriations shall be used in accordance with the principle of sound financial management, namely in accordance with the principles of economy, efficiency and effectiveness.
2. The principle of economy requires that the resources used by the PPP body in the pursuit of its activities are made available in due time, in appropriate quantity and quality and at the best price.

The principle of efficiency concerns the best relationship between resources employed and results achieved.

The principle of effectiveness concerns the attainment of the specific objectives set and the achievement of the intended results.

3. Specific, measurable, achievable, relevant and timed objectives shall be set for all sectors of activity covered by the budget of the PPP body. The achievement of those objectives shall be monitored by performance indicators for each activity, and the information shall be provided to the governing board by the director annually and at the latest in the documents accompanying the draft budget of the PPP body.
4. Unless the constituent instrument provides for evaluations to be conducted by the Commission, the PPP body, in order to improve decision-making, shall undertake evaluations, including *ex post* evaluations, of its programmes and activities which entail significant spending and evaluation results shall be sent to the governing board.

Article 12

Internal control of budget implementation

1. The budget of the PPP body shall be implemented in compliance with effective and efficient internal control.
2. For the purposes of the implementation of the budget of the PPP body, internal control is defined as a process applicable at all levels of management and designed to provide reasonable assurance of achieving the following objectives:
 - (a) effectiveness, efficiency and economy of operations;
 - (b) reliability of reporting;
 - (c) safeguarding of assets and information;
 - (d) prevention, detection, correction and follow-up of fraud and irregularities;

- (e) adequate management of the risks relating to the legality and regularity of the underlying transactions, taking into account the multi-annual character of programmes as well as the nature of the payments concerned.

1. The director shall perform the duties of authorising officer. The director shall implement the revenue and expenditure of the budget of the PPP body in accordance with the financial rules of the PPP body and the principle of sound financial management under his or her own responsibility and within the limits of the appropriations authorised. The director shall be responsible for ensuring compliance with the requirements of legality and regularity.

Without prejudice to the responsibilities of the authorising officer as regards prevention and detection of fraud and irregularities, the PPP body shall participate in fraud prevention activities of the European Anti-fraud Office (OLAF).
2. The director may delegate the powers of budget implementation to staff of the PPP body covered by the Staff Regulations, where those apply to the staff of the PPP body, in accordance with the conditions laid down in the financial rules of the PPP body. Those so empowered may act only within the limits of the powers expressly conferred upon them.

Article 17
Powers and duties of the authorising officer

1. The budget of the PPP body shall be implemented by the director in the departments placed under his or her authority.
2. Technical expertise tasks and administrative, preparatory or ancillary tasks not involving the exercise of public authority or the use of discretionary powers of judgment may be entrusted by contract to external private-sector entities or bodies, where this proves to be indispensable.
3. The director shall, in accordance with the minimum standards adopted by the governing board, and having due regard to the risks associated with the management environment and the nature of the action financed, put in place the organisational structure and the internal control systems suited to the performance of duties of the director. The establishment of such structure and systems shall be supported by a risk analysis which takes into account their cost-effectiveness.

The director may establish within his or her departments an expertise and advice function designed to help him or her control the risks involved in his or her activities.

4. The authorising officer shall conserve the supporting documents relating to operations carried out for a period of five years from the date of the decision granting discharge to the Commission in respect of implementation of the budget of the Union for the year concerned. Personal data contained in supporting document shall be deleted where possible when those data are not necessary for control and audit purposes. In any event, as regards the conservation of traffic data, Article 37(2) of Regulation (EC) No 45/2001 shall apply.

Article 18
Ex ante controls

1. Each operation shall be subject at least to an *ex ante* control based on a desk review of documents and on the available results of controls already carried out relating to the operational and financial aspects of the operation.

Ex ante controls shall comprise the initiation and the verification of an operation.

Initiation and verification of an operation shall be separate functions.

2. Initiation of an operation shall be understood as all the operations which are preparatory to the adoption of the acts implementing the budget of the PPP body by the authorising officer responsible.
3. *Ex ante* verification of an operation shall be understood as all the *ex ante* checks put in place by the authorising officer responsible in order to verify the operational and financial aspects.
4. *Ex ante* controls shall verify the coherence among supporting documents requested and any other information available.

The extent in terms of frequency and intensity of the *ex ante* controls shall be determined by the authorising officer responsible taking into account risk-based and cost-effectiveness considerations. In case of doubt, the authorising officer responsible for validating the relevant payment shall request complementary information or perform an on-the-spot control in order to obtain reasonable assurance as part of the *ex ante* control.

The purpose of the *ex ante* controls shall be to ascertain that:

- (a) the expenditure is in order and complies with the provisions applicable;
- (b) the principle of sound financial management set out in Article 11 has been applied.

For the purpose of controls, a series of similar individual transactions relating to routine expenditure on salaries, pensions, reimbursement of mission expenses and medical expenses may be considered by the authorising officer responsible to constitute a single operation.

Article 19 *Ex post controls*

1. The authorising officer responsible may put in place *ex post* controls to verify operations already approved following *ex ante* controls. Such controls may be organised on a sample basis according to risk.

The *ex post* controls may be carried out on the basis of documents and, where appropriate, on the spot.

2. The *ex post* controls shall be carried out by staff other than that responsible for the *ex ante* controls. The staff responsible for the *ex post* controls shall not be subordinate to the members of the staff responsible for the *ex ante* controls.

Staff responsible for controlling the management of financial operations shall have the necessary professional skills.

Article 20 *Annual reporting*

The authorising officer shall report annually to the governing board on the performance of his or her duties. For this purpose, the authorising officer shall submit no later than 15 February of the following financial year to the governing board and to the Commission:

- (d) a summary of the final audit reports and of controls carried out, including an analysis of the nature and extent of errors and weaknesses identified in systems, as well as corrective action taken or planned.

The report shall indicate the results of the operations by reference to the objectives set, the risks associated with these operations, the use made of the resources provided and the efficiency and effectiveness of the internal control systems and be proportionate to the nature of the entrusted tasks and the amounts involved.

No later than 1 July each year the documents mentioned under points c) and d) of the first paragraph and their assessment by the governing board, the approved annual activity report and the final accounts together with their approval by the governing board pursuant to Article 43(2) shall be sent by the director to the Commission. The Commission shall send these documents to the European Parliament and to the Council.

Article 21

Protection of the financial interests of the Union

1. If a member of staff involved in the financial management and control of transactions considers that a decision he or she is required by his or her superior to apply or to agree to is irregular or contrary to the principles of sound financial management or the professional rules which that member of staff is required to observe, he or she shall inform the director in writing who shall reply in writing. If the director fails to take action or confirms the initial decision or instruction and the member of staff believes that such confirmation does not constitute a reasonable response to his or her concern, the member of staff shall inform the relevant panel referred to in Article 23(3) in writing. The panel referred to in Article 23(3) shall immediately inform the governing board.
2. In the event of any illegal activity, fraud or corruption which may harm the interests of the PPP body or of its members, the member of staff shall inform the authorities and bodies designated by the applicable legislation. Contracts with external auditors carrying out audits of the financial management of the PPP body shall provide for an obligation of the external auditor to inform the authorising officer of any suspected illegal activity, fraud or corruption which may harm the interests of the PPP body or of its members.

Article 22

Accounting officer

1. The governing board shall appoint an accounting officer covered by the Staff Regulations, where those apply to the staff of the PPP body, who shall be totally

independent in the performance of his or her duties. The accounting officer shall be responsible in the PPP body for:

- (a) properly implementing payments, collecting revenue and recovering amounts established as being receivable;
- (b) keeping, preparing and presenting the accounts in accordance with Chapter 8;
- (c) implementing, in accordance with Chapter 8, the accounting rules and the chart of accounts;
- (d) laying down and validating the accounting systems and, where appropriate, validating systems laid down by the authorising officer to supply or justify accounting information; in this respect, the accounting officer shall be empowered to verify at any time compliance with validation criteria;
- (e) treasury management.

2. Two or more PPP bodies may appoint the same accounting officer.

PPP bodies may also agree with the Commission that the accounting officer of the Commission shall also act as accounting officer of the PPP body.

They may also entrust the accounting officer of the Commission with part of the tasks of the accounting officer of the PPP body taking into account cost-benefit considerations.

In the case referred to in this paragraph, they shall make necessary arrangements in order to avoid any conflict of interests.

3. The accounting officer shall obtain from the authorising officer all the information necessary for the production of accounts which give a true and fair view of the PPP body's financial situation and of budgetary implementation. The authorising officer shall guarantee the reliability of that information.
4. Before the adoption of the accounts by the director, the accounting officer shall sign them off, thereby certifying that he or she has a reasonable assurance that the accounts present a true and fair view of the financial situation of the PPP body.

For the purpose of the first subparagraph, the accounting officer shall verify that the accounts have been prepared in accordance with the accounting rules referred to in Article 38 and that all revenue and expenditure is entered in the accounts.
