LIST OF ANNEXES

- Annex 1:** EU legislation applicable to the railway sector
- Annex 2:** Transposition of the directive 2007/58/EC by Member States
- Annex 3:** Overview of infringement procedures related to the implementation of the first railway package
- Annex 4:** Regulatory Bodies
- Annex 5:** Current corporate structures of the rail infrastructure managers in the EU Member States
- Annex 6:** Other National Bodies
- Annex 7:** Modal split for freight and passenger transport since 1995
- Annex 8:** Evolution of rail transport performance 1970-2007
- Annex 9:** Quarterly and yearly changes in rail traffic volumes and rail traffic performance 2007- 2009
- Annex 10:** Rail transport performance in 2007 by type of goods (in m tkm)
- Annex 11:** Evolution of rail transport by Member State, year and market segment (1990-2008)
- Annex 12:** Market shares of railway undertakings (2008)
- Annex 13:** Rail market opening score (2008)
- Annex 14:** Employment in railway undertakings and infrastructure managers (2008)
- Annex 15:** Operational performance of railway undertakings (2007)
- Annex 16:** Punctuality in rail freight services
- Annex 17:** Rail infrastructure capacity, railway lines density and intensity of network use 2007
- Annex 18:** Capacity of the high speed rail network (1985–2009 and beyond)
- Annex 19:** Investments in maintenance, renewals and new construction of rail infrastructure (2008- 2009)
- Annex 20:** Financial contributions provided by Member States for infrastructure operation, maintenance, renewals and construction
- Annex 21:** Infrastructure charges
- Annex 22:** Multi annual contracts
- Annex 23:** Consumers' satisfaction
- Annex 24:** Safety
- Annex 25:** Combined transport
- Annex 26:** RMMS questionnaire template

ANNEX 1

EU legislation applicable to the railway sector

ECONOMIC / MARKET ACCESS LEGISLATION

- Regulation No 11, concerning the abolition of discrimination in transport rates and conditions, in implementation of Article 79 (3) of the Treaty establishing the European Economic Community. (OJ L 532, 16.8.1960, p1121)
- Council Directive 91/440/EEC of 29 July 1991 on the development of the Community's railways (OJ L 237, 24.8.1991, p. 25);
- Directive 2001/12/EC of the European Parliament and of the Council of 26 February 2001 on the development of the Community's railways (OJ L 75, 15.3.2001, p. 1);
- Directive 2001/14/EC of the European Parliament and of the Council of 26 February 2001 on the allocation of railway infrastructure capacity and the levying of charges for the use of railway infrastructure and safety certification (OJ L 75, 15.3.2001, p. 29);
- Directive 2004/51/EC of the European Parliament and of the Council of 29 April 2004 amending Council Directive 91/440/EEC on the development of the Community's railways (OJ L 164, 30.4.2004, p. 164-172 and OJ L 220, 21.6.2004, p. 58-60);
- Regulation (EC) No 1371/2007 of the European Parliament and of the Council of 23 October 2007 on rail passengers' rights and obligations (OJ L 315, 3.12.2007, p. 14);

INTEROPERABILITY AND SAFETY LEGISLATION

- Council Directive 95/18/EC of 19 June 1995 on the licensing of railway undertakings (OJ L 143, 27.6.1995, p. 70);
- Directive 2001/13/EC of the European Parliament and of the Council of 26 February 2001 on the licensing of railway undertakings (OJ L 75, 15.3.2001, p. 26);
- Council Directive 96/48/EC of 23 July 1996 on the interoperability of the trans-European high-speed rail system (OJ L 235, 17.9.1996, p. 6);

- Directive 2001/16/EC of the European Parliament and of the Council of 19 March 2001 on the interoperability of the trans-European conventional rail system (OJ L 110, 20.4.2001, p. 1);
- Council Directive 96/49/EC of 23 July 1996 on the approximation of the laws of the Member States with regard to the transport of dangerous goods by rail (OJ L 235, 17.9.1996, p. 25);
- Directive 2004/50/EC of the European Parliament and of the Council of 29 April 2004 amending Council Directive 96/48/EC on the interoperability of the trans-European high-speed rail system and Directive 2001/16/EC of the European Parliament and of the Council on the interoperability of the trans-European conventional rail system (OJ L 164, 30.4.2004, p. 114-163 and OJ L 220, 21.6.2004, p. 40 - 57.);
- Directive 2004/49/EC of the European Parliament and of the Council of 29 April 2004 on safety on the Community's railways and amending Council Directive 95/18/EC on the licensing of railway undertakings and Directive 2001/14/EC on the allocation of railway infrastructure capacity and the levying of charges for the use of railway infrastructure and safety certification (OJ L 164, 30.4.2004, p. 44-113 and OJ L 220, 21.6.2004, p. 16 -39);
- Regulation (EC) No 881/2004 of the European Parliament and of the Council of 29 April 2004 establishing a European Railway Agency (OJ L 164, 30.4.2004, p. 1-43 and OJ L 220, 21.6.2006, p.3-14);
- Directive 2007/58/EC of the European Parliament and of the Council of 23 October 2007 amending Council Directive 91/440/EEC on the development of the Community's railways and Directive 2001/14/EC on the allocation of railway infrastructure capacity and the levying of charges for the use of railway infrastructure (OJ L 315, 3.12.2007, p. 44);
- Directive 2007/59/EC of the European Parliament and of the Council of 23 October 2007 on the certification of train drivers operating locomotives and trains on the railway system in the Community (OJ L 315, 3.12.2007, p. 51);
- Directive 2008/57/EC of the European Parliament and of the Council of 17 June 2008 on the interoperability of the rail system within the Community (Recast) (OJ L 191, 18.07.2008, p. 1);

- Directive 2008/68/EC of the European Parliament and of the Council of 24 September 2008 on the inland transport of Dangerous Goods (OJ L 260, 30.9.2008, p. 13);
- Directive 2008/110/EC of the European Parliament and of the Council of 16 December 2008 amending Directive 2004/49/EC on safety on the Community's railways (Railway Safety Directive) (OJ L 345, 23.12.2008, p. 62);
- Regulation (EC) No 1335/2008 of the European Parliament and of the Council of 16 December 2008 amending Regulation (EC) No 881/2004 establishing a European Railway Agency (Agency Regulation) (OJ L 354, 31.12.2008, p. 51).

PUBLIC SERVICE OBLIGATIONS

- Regulation (EC) No 1370/2007 of the European Parliament and of the Council of 23 October 2007 on public passenger transport services by rail and by road and repealing Council Regulations (EEC) Nos 1191/69 and 1107/70 (OJ L 315, 3.12.2007, p. 1);

ANNEX 2

Transposition of the Directive 2007/58/EC by the Member States

Directive 2007/58/EC had to be transposed on 4 June 2009. This annex provides an overview of the situation on 15 September 2009.

Countries which have notified full transposition of the Directive :

BE	Complete communication of implementation measures
BG	Complete communication of implementation measures
DE	Complete communication of implementation measures
CY	Complete communication of implementation measures
MT	Complete communication of implementation measures
RO	Complete communication of implementation measures
SL	Complete communication of implementation measures
FI	Complete communication of implementation measures
SE	Complete communication of implementation measures
UK	Complete communication of implementation measures

Member States in respect of which the Commission has opened a procedure under Article 226 TEC

CZ	N° 2009/0321	Non-notification of implementation measures
DK	N° 2009/0332	Non-notification of implementation measures
EE	N° 2009/0336	Non-notification of implementation measures
IR	N° 2009/0365	Non-notification of implementation measures
EL	N° 2009/0340	Non-notification of implementation measures
ES	N° 2009/0345	Non-notification of implementation measures
FR	N° 2009/0354	Non-notification of implementation measures
IT	N° 2009/0370	Non-notification of implementation measures
LV	N° 2009/0388	Partial notification of implementation measures
LT	N° 2009/0376	Non-notification of implementation measures
LUX	N° 2009/0382	Non-notification of implementation measures
HU	N° 2009/0359	Partial notification of implementation measures
NL	N° 2009/0394	Non-notification of implementation measures
AT	N° 2009/0303	Non-notification of implementation measures
PL	N° 2009/0398	Non-notification of implementation measures
PT	N° 2009/0405	Non-notification of implementation measures
SK	N° 2009/0417	Non-notification of implementation measures

ANNEX 3

Overview of infringement procedures related to Directives 1991/440/EEC and 2001/14/EC implementation of the first railway package¹

Reasoned opinions (Commission Decision of 8 October 2009)

Member State	Observations
AUSTRIA	<ul style="list-style-type: none">- Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions- Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network- Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions- Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network
BELGIUM	<ul style="list-style-type: none">- Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions- Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network- Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions- Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network

¹ State of play on 1.10.2009

<p style="text-align: center;">CZECH REPUBLIC</p>	<ul style="list-style-type: none"> - Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions - Absence of implementation of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient power of Regulatory Body to monitor competition in the rail service market - Regulatory Body does not have sufficient powers to take and enforce the necessary decisions
<p style="text-align: center;">GERMANY</p>	<ul style="list-style-type: none"> - Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Infrastructure charges not based on direct costs of train services respectively insufficient verification whether market can bear the charges - Regulatory Body does not have sufficient powers to enforce requests for information
<p style="text-align: center;">DENMARK</p>	<ul style="list-style-type: none"> - Infrastructure charges not related to costs, respectively insufficient verification whether market can bear the charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient powers and resources of Regulatory Body to monitor competition in the rail service market - Insufficient independence of Regulatory Body from the (incumbent) Railway Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the ministry that also controls the state owned railway undertaking - Regulatory Body does not have sufficient powers to enforce its decisions and requests for information

<p>ESTONIA</p>	<ul style="list-style-type: none"> - Part of the essential functions still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions - Insufficient powers of Regulatory Body to monitor competition in the rail service market.
<p>GREECE</p>	<ul style="list-style-type: none"> - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient independence of Regulatory Body from the (incumbent) Railway Undertaking and/or the Infrastructure Manager; the Regulatory Body is subject to the same Ministry which also controls the state railway undertaking - Regulatory Body does not have sufficient powers to enforce its decisions and requests for information
<p>SPAIN</p>	<ul style="list-style-type: none"> - Insufficient access of Foreign Railway Undertakings to the Spanish infrastructure for the purpose of operating all types of rail freight services - Insufficient management independence of the (incumbent) Railway Undertaking from the State - Infrastructure Manager does not itself determine infrastructure charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient power of Regulatory Body to monitor competition in the rail service market - Insufficient independence of Regulatory Body from the (incumbent) Railway Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the same ministry that also controls State Railway Undertaking and Infrastructure Manager - Insufficient capacity allocation rules for international train paths

<p style="text-align: center;">FRANCE</p>	<ul style="list-style-type: none"> - Part of the essential functions is still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions - Charges for the use of the infrastructure are not determined by Infrastructure Manager itself - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient powers and resources of Regulatory Body to monitor competition in the rail service market, pending the effective establishment of a new Regulatory Body - Insufficient independence of Regulatory Body from the (incumbent) Rail Undertaking and/or the Infrastructure Manager, pending the effective establishment of a new Regulatory Body - Regulatory Body does not have sufficient powers to enforce its requests for information and its decisions, pending the effective establishment of a new Regulatory Body
<p style="text-align: center;">HUNGARY</p>	<ul style="list-style-type: none"> - Part of the essential functions is still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions - Infrastructure charges not based on direct costs of train services and no verification that all market segments can bear higher than direct costs - Insufficient legal provisions to ensure that Infrastructure Manager shows balance of revenue and expenditure - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network
<p style="text-align: center;">IRELAND</p>	<ul style="list-style-type: none"> - Infrastructure charges not related to costs - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network

<p style="text-align: center;">ITALY</p>	<ul style="list-style-type: none"> - Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions - Infrastructure Manager does not itself determine infrastructure charges - Insufficient powers of Regulatory Body to control infrastructure charging - Insufficient independence of Regulatory Body from the (incumbent) Railway Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the same ministry that contributes to control the state owned Railway Undertaking - Regulatory Body does not have sufficient powers to enforce its requests for information and its decisions
<p style="text-align: center;">LITHUANIA</p>	<ul style="list-style-type: none"> - Insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient power of Regulatory Body to monitor competition in the rail service market. - Absence or insufficient independence of Regulatory Body from the (incumbent) Rail Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the same ministry that also performs shareholder rights in the state Railway Undertaking - Regulatory Body does not have sufficient powers to enforce its requests for information and its decisions
<p style="text-align: center;">LUXEMBOURG</p>	<ul style="list-style-type: none"> - Part of the essential functions is still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Insufficient powers of Regulatory Body to monitor competition in the rail service market. - Insufficient independence of Regulatory Body from the (incumbent) Rail Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the same ministry that performs controlling rights in the state railway undertaking - Regulatory Body does not have sufficient powers to enforce its requests for information and its decisions

<p style="text-align: center;">LATVIA</p>	<ul style="list-style-type: none"> - Part of the essential functions is still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions - Insufficient powers of Regulatory Body to monitor competition in the rail service market - The Regulatory Body does not have control over its budget and therefore no independence in funding decisions - Regulatory Body does not have sufficient powers to enforce its requests for information and its decisions, due to an insufficient separation between the exercise of essential functions of an infrastructure manager and the regulatory function - Insufficient procedure for establishment by Infrastructure Manager of provisional international train paths
<p style="text-align: center;">POLAND</p>	<ul style="list-style-type: none"> - Insufficient safeguards to guarantee the independence of the Infrastructure Manager from the railway holding and its transport affiliates in the exercise of the essential functions - Absence or insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Charges not set on the basis of marginal costs, and no verification that all market segments can bear higher than direct costs - Tasks of Infrastructure Manager not consistent with its financing, no financial balance between income and expenditure of the infrastructure manager
<p style="text-align: center;">PORTUGAL</p>	<ul style="list-style-type: none"> - Insufficient management independence of the (incumbent) Railway Undertaking from the State - Insufficient provisions to ensure the balance of Infrastructure Manager's revenues and expenditures - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network
<p style="text-align: center;">ROMANIA</p>	<ul style="list-style-type: none"> - Insufficient independence of Regulatory Body from the (incumbent) Rail Undertaking and/or the Infrastructure Manager, the Regulatory Body is part of the same ministry that performs controlling rights in the state railway undertaking
<p style="text-align: center;">SWEDEN</p>	<ul style="list-style-type: none"> - No publication of separate profit and loss accounts and balance sheets for transport services and infrastructure management - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network

<p style="text-align: center;">SLOVENIA</p>	<ul style="list-style-type: none"> - Part of the essential functions still performed by the (incumbent) Railway Undertaking, thereby infringing the provisions on independence of essential functions. - Absence or insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Access charges are not set on the basis of direct costs of the train services, respectively no verification that all market segments can bear higher than direct costs - Absence of performance scheme to encourage Railway Undertakings and the Infrastructure Manager to minimise disruption and improve the performance of the railway network - Absence or insufficient powers of Regulatory Body to monitor competition in the rail service market and to control infrastructure charging - Insufficient independence of Regulatory Body from the (incumbent) Rail Undertaking and/or the Infrastructure Manager; the Regulatory Body is part of the same ministry that performs controlling rights in the state railway undertaking
<p style="text-align: center;">SLOVAKIA</p>	<ul style="list-style-type: none"> - Absence or insufficient incentives for Infrastructure Manager to reduce costs and level of access charges - Access charges are not set at marginal cost respectively insufficient verification whether market can bear the charges

Note to tables 9 a-e:

According to Art. 4 of the Regulation (EC) No 91/2003 of the European Parliament and of the Council of 16 December 2002 on rail transport statistics, railway undertakings with the total volume of goods or passenger transport amounting to less than 500 m tkm or 200 m pkm are not obliged to provide Eurostat with quarterly statistics. Consequently, the transport performance calculated for 2005 and 2006 as the sum of the values of four quarters of the respective year is not fully comparable with data presented in Annex 8.

Eurostat quarterly statistics and ETIF/Eurostat yearly statistics are not comparable because quarterly statistics exclude small new competitors.

Source: Calculations based on data in tables 9a-9d.

ANNEX 10

Rail transport performance in 2007 by type of goods (in m tkm)

Type of goods	AT	BE	BG	CZ	DE	DK	EE	EL	ES	FI	FR	HU	IE

ANNEX 11

Evolution of rail transport by Member State, year and market segment (1990-2008)

11a. Overview per Member State

Note 1: International transport includes transit

Note 2: Unlike most other annexes which give priority to the Eurostat figures, Annex 12a presents in the first place data submitted by the national authorities in the framework of the 2009 RMMS questionnaire. There is a certain discrepancy between the Eurostat data and data provided by the national Ministries responsible for transport and other competent national authorities represented in the RMMS Working Group. For instance, RMMS data for UK do not cover Northern Ireland.

Note 3: for Spain, the table includes two different sources: (1) for the period 1990-2005, the data include also traffic of regional rail companies and the source used is not RMMS questionnaire. (2) from 2006-2008 data are referred exclusively to RENFE Operadora, and have been extracted from the RMMS questionnaire. Traffic data of new freight operators in tkm are not available.

* **Rail market opening score calculated on the basis of the Herfindahl-Hirschman Index** which estimates the concentration ratio in an industry and serves as an indicator of the amount of competition in the respective market. Herfindahl-Hirschman Index is defined as the sum of squares of the market shares of each individual firm. As such, it can range from 0 to 1 moving from a very large amount of very small firms to a single monopolistic producer.

Here we provide an approximation based on the square of the market share of the most important company.

Explanatory table:

Ratio	Definition	Interpretation
Return on Equity	Net profit / Total Equity	A standard measure of the profitability of the business from a shareholders perspective
Viability ratio	Total operating income / Total operating expenses	A measure of the overall profitability of the business and its ability to cover operating costs from revenues
Cost per staff member	Total costs / Number of staff members	A useful measure of the structure of the business. A high ratio implies relatively efficient operation in terms of number of employees
Staff costs as a proportion of operating costs		A useful measure of the structure of the business. A high ratio implies relatively efficient operation in terms of number of employees
Debt: Equity ratio		A relative measure of the level of indebtedness of the business. A high ratio implying more debt relative to the amount of funding the business has received from shareholders
Debt service coverage ratio	Operating Profit / Finance expenses	A measure of the ability of the company to meet its ongoing finance costs from operations
Public funding / revenues		A measure of the proportion of the business's income provided by public funds

ANNEX 26

RMMS questionnaire

Please fill in the questionnaire electronically. Feel free to change the size of the tables according to your needs. You may provide additional comments under each answer. If there have been no developments or measures undertaken in a certain field, please indicate it clearly. In case of non-availability of the requested data, use the abbreviation "n/a". Thank you!

1. Evolution of rail transport performance and compensation of PSO²:

	2007	%-variation compared to previous year	2008	%-variation compared to previous year
Freight (in tkm ³) total				
international				
transit				
national				
Passengers (in pkm ⁴) total ⁵				
international				
transit ⁶				
national				
of which under PSO:				
Paid compensation for PSO (in euro):				

² Public Service Obligations as defined in Regulation 1370/2007 of 23 October 2007

³ tkm = tonne km

⁴ pkm = passenger km

⁵ Please do not include passenger transit in total figure to ensure comparability with Eurostat data.

⁶ Provide passenger transit figures as far as available. Do not include in total figure as Eurostat survey does not include them.

2. Shares of railway undertakings⁷ in total transport performance at the end of 2008
(please list railway undertakings with market shares in tkm/pkm \geq 1%):

Railway undertakings (FREIGHT)	Share (% of tkm)	Total market share of non-incumbents ⁸

Railway undertakings (PASSENGERS)	Share (% of pkm)	Total market share of non-incumbents

3. Regulatory Bodies:

	In 2007	In 2008
No. of staff dealing with regulatory issues related to rail market access:		
No. of complaints dealt with:		
----- No. of ex officio investigations dealt with:		
No. of decisions taken - on complaints:		
----- - on ex officio investigations:		

⁷ Please apply territoriality principle, i.e. an undertaking operating in more than one country would see its share split across respective national rail markets.

⁸ Incumbent = biggest historical railway undertaking

4. Please list national legislation and regulatory acts relevant to railway transport which has been issued between July 2008 and December 2008.

5. Please list relevant developments as regards restructuring of the incumbent railway undertaking and adoption/implementation of national transport strategies that have taken place between July 2008 and December 2008.

6. Please list important training initiatives/measures⁹ in the field of railway transport taken in your country between July 2008 and December 2008.

7. Employment of railway undertakings and infrastructure managers at the end of 2008:

Total staff of railway undertakings	
- of which train drivers	
Total staff of infrastructure managers	
Other staff including in rail related service companies (e.g. maintenance workshops, terminal operators, training, train driver leasing, energy supply)	

8. Multi-annual infrastructure management contracts (MAC)¹⁰ in 2008:

Infrastructure manager	Length of the network covered by the contract	Time span of the contract starting from [date]	Definition of performance indicators agreed (Y/N)? If yes, please specify.	Total compensation paid (in Euro/year)	Existence of independent monitoring body supervising MAC (Y/N)?

⁹ E.g. measures related to the organisation of driver training, opening of training centres, support schemes for management training in the rail sector, setting up of an advanced apprenticeship scheme in the rail sector, international exchange programmes for staff or developments on the market for training services.

¹⁰ Contract concluded with the State or other competent authorities providing for financial compensation to infrastructure managers for maintenance and renewal to achieve an agreed performance, according to Directive 2001/14/EC, Article 6.

9. Infrastructure¹¹ expenditure (conventional network and high-speed network¹²):

	Maintenance	Renewals	Enhancements
Conventional lines 2008: (in Euro)			
(in km worked on)			
Forecast for 2009 (in Euro)			
(in km worked on)			
High-speed lines 2008 (in Euro)			
(in km worked on)			
Forecast for 2009 (in Euro)			
(in km worked on)			

10. Estimated infrastructure maintenance backlog¹³ at the end of 2008

Conventional lines 2008 (in Euro)	
(in km to be worked on)	
High-speed lines 2008 (in Euro)	
(in km to be worked on)	

¹¹ As defined in Directive 91/440/EEC

¹² High-speed infrastructure as defined in Directive 2008/57/EC, Annex I

¹³ Infrastructure maintenance backlog = Maintenance expenditure in Euro required to ensure that rail transport operations on the infrastructure sustained in the long-term can be carried out under safe conditions and at the speed the infrastructure was designed for, on the basis of the network to be kept in a medium term.

11. Investments in the high-speed rail network:

Lines	Km of lines being put into service in 2008	Km being put into service at a conventional planning horizon (2020/2030)

12. Length of railway network at the end of 2008

Conventional lines (in km)	
High-speed lines (in km)	

13. Track access charges in 2008

Train category ¹⁴	Average charge in €/train km, excluding cost of the use of electricity
1000 gross tonne freight train	
500 gross tonne intercity passenger train	
140 gross tonne suburban passenger train	

14. Please indicate whether in your country exists a performance regime set up according to Article 11 of Directive 2001/14/EC and if yes, describe its main features.

¹⁴ The International Transport Forum in Leipzig (D) (<http://www.internationaltransportforum.org/>) has published a survey on track access charges in the indicated categories.

15. Number of active railway licences issued by competent, national authority¹⁵

	Active licences on 31.12.2007	Licences withdrawn	New licences issued	Active licences on 31.12.2008
Total				
thereof: - for freight transport				
- for passenger transport				

16. Please describe briefly the status of the ERTMS deployment.

17. Are there any other developments you would like to report on?

Thank you!

¹⁵ Licences issued according to Directive 95/18/EC
