Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

laying down the Union Customs Code

(Recast)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

Grounds for and objectives of the proposal

Regulation (EC) No 450/2008 of the European Parliament and of the Council of 23 April 2008 laying down the Community Customs Code (Modernised Customs Code)¹ aimed at the adaptation of customs legislation to fit, but also to govern, the electronic environment for customs and trade. By doing so, it took the opportunity to carry out a major overhaul of the customs rules in order to make them simpler and better structured.

This Regulation entered into force on 24 June 2008, but it is not yet applicable. It shall be applicable once its implementing provisions are in force and on 24 June 2013 at the latest.

The following reasons lead to the proposal to amend Regulation (EC) No 450/2008 (Modernised Customs Code or 'MCC') before it becomes applicable:

- The implementation of a major part of the processes to be introduced depends on the definition and the development, by the Commission, the national customs administrations and the economic operators, of a wide range of electronic systems. This requires a complex set up of actions between the Member states, the trade community and the Commission, notably important investments in new EU wide IT systems and supporting activities as well as an unprecedented effort from the business community to operate according to new business models. It is now apparent that only a very limited number or even no new customs IT systems may be introduced in June 2013, the latest legal date for the implementation of the MCC.
- A new task which intervened after the adoption of the Regulation (EC) No 450/2008 and is linked with the entry into force of the Lisbon Treaty is the commitment made by the Commission to propose amendments to all basic acts in order to align them with the new provisions of the Lisbon Treaty concerning delegation of powers and the conferral of implementing powers before the end of the term of the Parliament. This has an impact to the foreseen implementing provisions of the MCC which now have to be "split" between delegated acts and implementing acts in accordance with new empowerments in line with Articles 290 and 291 TFEU. Moreover, the "Community" Customs Code (Modernised Customs Code) has now to be renamed into "Union" Customs Code (UCC).
- Finally, the joint work on the implementing provisions with Member States experts and trade representatives has also revealed the need to adjust some provisions of the MCC which are either no longer in line with changes introduced since 2008 to current customs legislation or have revealed (e.g. regarding the temporary storage of goods or a customs declaration through an entry of data in the declarant's records) difficult to implement through sound measures and workable business processes. The objective was nevertheless to limit such adjustments to what is absolutely necessary to ensure coherence in the processes.

¹ OJ L 145, 4.6.2008, p.1.

Consequently the Commission found it was appropriate to proceed to a recast of Regulation (EC) No 450/2008 before its currently scheduled application, due to the following technical and procedural considerations:

- the need to postpone the date of application of the MCC. That postponement shall be adopted before the ultimate deadline of 24 June 2013, currently laid down in Article 188(2) of the MCC Regulation for its application. It is appropriate to give administrations and economic operators adequate time to undertake the necessary investments and ensure a phased, binding but realistic implementation of electronic processes. The Commission will continue to work with all stakeholders with a view to ensuring that the new electronic processing environment will be operational at the latest by 31 December 2020. An agreed work programme and the Commission's proposal for the future FISCUS programme² should provide the necessary support for this process;
- the commitment to align the MCC on the requirements of the Lisbon Treaty, as regards the use by the Commission of either delegated or implementing powers to allow the MCC to be applied, in accordance with Articles 290 and 291 of the Treaty on the Functioning of the European Union and the new 'Comitology' Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers³;
- the need to adjust some provisions that have proved difficult to implement; the text of the MCC needs to be adapted, where appropriate, to the outcome of the work on implementing processes and provisions, where it reveals a lack of adequacy between certain provisions of the code and the actual functioning of customs procedures (*e.g. temporary storage*) or where it takes into account the evolution since 2008 of legislation in other policy fields (*e.g. transport safety and security*).

Policy objectives remain those of the Regulation to be recast.

All these reasons advocating for the recast of the former MCC were discussed with all parties involved, namely the Council (letter from Commissioner Šemeta of 19 May 2011 to the Hungarian Presidency) and the European Parliament (letter from Commissioner Šemeta of 19 May 2011 to the Chairman of the Committee on the Internal Market and Consumer Protection), as well as with the economic operators in the Trade Contact Group and met their agreement. Support by the European Parliament in that respect is reflected in the 'Salvini Report' on the 'modernisation of customs in the internal market'⁴.

General context

The present proposal must be seen in the context of:

- a) the modernisation of customs legislation and procedures and the use of IT systems for customs clearance and procedures in view of facilitating the way of doing business with

b) the requirements of the Treaty of Lisbon;

c) the evolution of policies and legislation in other fields that might impact customs legislation such as safety and security in the transport field;

d) the evolution of business processes that require clarity and coherence in the customs rules.

Existing provisions in the area of the proposal

The Regulation subject to the proposal will repeal and replace the following Regulations:

- Council Regulation (EEC) No 2913/92 of 12 October 1992, establishing the Community Customs Code⁵;
- Council Regulation (EEC) No 3925/91 of 19 December 1991 concerning the elimination of controls and formalities applicable to the cabin and hold baggage of persons taking an intra-Community flight and the baggage of persons making an intra-Community sea crossing⁶;
- Council Regulation (EC) No 1207/2001 of 11 June 2001 on procedures to facilitate the issue or the making out in the Community of proofs of origin and the issue of certain approved exporter authorisations under the provisions governing preferential trade between the European Community and certain countries⁷;

as from the date of application of the recast Regulation;

and

- Regulation (EC) N° 450/2008 of the European Parliament and of the Council of 23 April 2008 laying down the Community Customs Code (Modernised Customs Code), being the Regulation subject to recast,

as from the date of entry into force of the recast Regulation.

Consistency with the other policies and objectives of the Union

The proposal preserves the objectives of Regulation (EC) No 450/2008, which were fully in line with existing policies and objectives relevant to the trade of goods brought into and out of, from and to the customs territory of the Union.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

Consultation of interested parties

⁵ OJ L 302, 19.10.1992, p. 1.

⁶ OJ L 374, 31.12.1991, p. 4.

⁷ OJ L 165, 21.6.2001, p. 1.

Consultation methods, main sectors targeted and general profile of respondents

Since the recast does not alter the substance of Regulation (EC) No 450/2008, the consultation of interested parties previously held before the adoption of that Regulation is still relevant.

Consultations on the adjustments to Regulation (EC) No 450/2008 were held with the Member States' customs administrations and the European trade federations, in a joint meeting of experts on 19 September 2011. The European Parliament was represented at that meeting.

Member States will also be involved in the preparation of the future Commission delegated acts through meetings of a group of experts and will give their opinion on draft Commission implementing acts in the Customs Code Committee.

Trade representatives will be involved through consultation on draft acts in the Trade Contact Group or in ad hoc experts meetings or invitations to joint meetings with Member States experts, where appropriate.

In accordance with the Common Understanding of the European Parliament, the Council and the Commission on the functioning of Article 290 TFEU⁸, the Commission, when preparing and drawing-up delegated acts, will ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.

Information and right of scrutiny of the European Parliament and the Council on draft Commission implementing acts will be ensured in accordance with the provisions of Regulation (EU) No 182/2011.

Impact assessment

The decision to do a full recast of the MCC before its currently scheduled application is the only comprehensive solution which will avoid changing Regulation (EC) N° 450/2008 twice at a very short notice and would as well allow introducing the adjustments necessary for a sound implementation of that new legal and procedural framework.

As the proposal for Regulation (EC) N° 450/2008 to be recast has already gone through an impact assessment and the proposed changes introduced by this Regulation are justified by technical and procedural considerations, there is no need for an Impact Assessment.

3. LEGAL ELEMENTS OF THE PROPOSAL

The proposed Recast Regulation adjusts some provisions of Regulation (EC) N° 450/2008 to the evolution of customs and other relevant legislation, aligns it to procedural requirements resulting from the Treaty of Lisbon and postpones its application.

⁸ SI(2011) 123 of 26 April 2011.

Most of the provisions of the Regulation to be recast are affected by changes, because either of the impact of the alignment on the Treaty of Lisbon or of the need for adjustments because of the further evolution of relevant EU legislation.

The overall structure of the Regulation remains the same and the modifications foreseen can be classified as follows:

3.1. The adjustments to the text are targeted to comply with the following criteria:

- editorial changes to the wording of the MCC such as typing errors or omissions in the published text, incorrect references, incorrect location of provisions, inconsistent use of terms, editorial alignments required by the Lisbon Treaty, e.g. 'Union' instead of 'Community';
- alignment to the evolution of EU legislation following the entry into force of the MCC (and within the deadline for the new draft MCC);
 - alignment to current customs legislation, e.g. Article 184g CCIP, as amended by Reg. 312/2009, instead of Article 88(4) MCC (arrival notification); Article 186 CCIP, as amended by Reg. 312/2009, instead of Article 151(2) MCC (disconnection of entry summary declaration and declaration for temporary storage);
 - alignment to (possible) future amendments of the Code, in anticipation of developments in other relevant policy fields e.g. related to aviation security;
 - alignment to other legislative acts, e.g. update of references in the MCC to other legislative acts;
- alignment to the results of the work carried out regarding the preliminary drafting of the implementing provisions of the Modernised Customs Code (MCCIP) and the establishment of Business Process Modelling tool (BPM), e.g. adjustment of provisions on temporary storage or introduction of a basic provision for invalidation of entry and exit summary declarations. Those adjustments are limited to what is absolutely necessary to streamline and ensure consistency between customs legislation and efficient and workable processes.

3.2. Alignment of the empowering provisions of the MCC on the requirements of Articles 290 and 291 of the Treaty on the Functioning of the European Union (TFEU).

That alignment was made in accordance with the procedural requirements resulting in particular from the following texts:

- Articles 290 and 291 of the Treaty on the Functioning of the European Union (TFEU);
- The Communication from the Commission to the European Parliament and the Council on the implementation of Article 290 TFEU⁹;

⁹ COM(2009)673 final of 9 December 2009.

- The Common Understanding of the European Parliament, the Council and the Commission on the functioning of Article 290 TFEU;
- Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers.

It has been based on a prior inventory of the existing empowering provisions in Regulation (EC) No 450/2008 and of the need for additional empowerments in order to preserve the capacity for the Commission to adopt measures as already laid down in the implementing provisions of the current Community Customs Code (CCIP of Regulation (EEC) No 2913/92) or identified in the process of preparation of the implementing provisions of the Modernised Customs Code (MCCIP of Regulation (EC) No 450/2008).

Once properly identified, those empowerments took the form of either a delegation of power or a conferral of implementing powers, in accordance with Articles 290 and 291 TFEU. In the context of conferral of implementing powers a choice between the advisory and the examination procedure was made in accordance with the criteria of Article 2 of Regulation (EU) No 182/2011 and exceptions duly justified. Justifications were also provided where the urgency procedure of Article 8 of Regulation (EU) No 182/2011 was introduced in relation to certain implementing acts.

Where appropriate, new provisions had to be introduced in Articles of the Regulation to serve as legal references for the corresponding empowering provisions.

In some cases, it was also considered appropriate to transfer some provisions initially intended to be laid down in Commission acts to the basic act, in order to avoid empowerments of a very limited scope.

Those requirements related to the alignment explain why the number of Articles in the proposal for the recast Regulation is higher (59 more) than in the original one to be recast.

Chapter 1 of Title IX of the recast Regulation (Articles 243 and 244 on ‘delegation of power and committee procedure’) reflects the new procedural context.

The recitals of the Regulation have been adjusted to reflect those changes.

3.3. Postponement of the date of application of the Modernised Customs Code.

Article 245 of the recast Regulation, replacing Article 186 MCC, provides for the repeal of Regulation (EC) No 450/2008 on the date of its entry into force.

Article 246 of the recast Regulation regulates its entry into force, which shall occur on the 20th day following its publication.

Article 247 fixes new dates for the application of the recast Regulation:

- all empowering provisions shall apply from the date of entry into force of the recast Regulation (Article 247(1));

- it shall be the same for Article 46 on ‘charges and costs’, which shall replace from that date of entry into force Article 30 of Regulation (EC) No 450/2008, that already applies since 1 January 2011;
- all the other provisions shall apply from the first day of the first month after 18 months following the entry into force of the recast Regulation; that time period should allow the Commission to adopt the required delegated or implementing acts (including the time for the legislator to react) and prepare, through non legal instruments (guidelines, information, training) and in cooperation with Member States and trade representatives, the application of the complete new legal package.

In practice, the application of the provisions of the Regulation which depend on the use of electronic data-processing techniques and electronic systems may be suspended on the basis of empowering provisions allowing the Commission to adopt delegated acts providing for transitional measures for the periods pending the availability of such systems (Articles 6(2)(c) and 7 of the recast Regulation). However such transitional periods and measures should not go beyond *31 December 2020* and, based on the financial assumptions reflected in the Commission's proposal for the future FISCUS programme, a full implementation of the IT-related parts of the Regulation should therefore be ensured for that date, at the latest.

Moreover, to support that full implementation and govern the setting up of transitional periods, the Commission should produce, within 6 months of the entry into force of the recast Regulation and through a conferral of implementing powers for that purpose in Article 17(1) of the recast Regulation, a work programme related to the development and deployment of all electronic systems required for the implementation of the Regulation. Full coherence shall be ensured between that IT work programme specific to the implementation of the recast Regulation and the multi-annual strategic plan referred to in Article 8(2) of Decision No 70/2008/EC of the European Parliament and of the Council of 15 January 2008 on a paperless environment for customs and trade¹⁰ on the one hand and the annual work programme referred to in Article 6 of Decision No 624/2007/EC establishing an action programme for customs in the Community (Customs 2013)¹¹, on the other hand.

Summary of the proposed action

The proposed action is to replace Regulation (EC) No 450/2008 (Modernised Customs Code) with a recast Regulation which aligns it to the Treaty of Lisbon, adjusts it to the practical aspects and developments in customs legislation and in other policy fields relevant to the movement of goods between the EU and third countries and allows sufficient time for the development of supporting IT systems.

Legal basis

Articles 33, 114 and 207 of the Treaty on the Functioning of the European Union.

Article 31 TFEU cannot serve any longer as a legal basis for a legislative act like the recast Regulation.

¹⁰ OJ L 23, 26.1.2008, p. 21.

¹¹ OJ L 154, 14.6.2007, p. 25. To be substituted by the future FISCUS programme

Subsidiarity principle

Since the proposal falls under the exclusive competence of the Union, the subsidiarity principle does not apply.

Proportionality principle

Since the proposal does not entail any new policy developments compared to the initial proposal and resulting legislative act, it does not imply reassessing compliance.

4. BUDGETARY IMPLICATION

Budgetary implications are the same as the ones of Regulation (EC) No 450/2008 being recast. Commission, Member States and traders will have to invest in accessible, interoperable customs clearance systems. The financial implications concerning the EU share of IT developments for that purpose are set out in the proposal for the FISCUS programme.

5. OPTIONAL ELEMENTS

Simplification

The recast of Regulation (EC) No 450/2008 provides for better adequacy of legislation with business practices, supported by an optimal architecture and planning for IT developments, while encompassing all the advantages of the Regulation subject to the recast proposal, namely the simplification of administrative procedures for public authorities (EU or national) and private parties.

The recast of Regulation (EC) No 450/2008 will be supported by updated business process modelling (BPM) and supplemented by the future Commission delegated and implementing acts, as well as explanatory notes and guidelines. That will further ensure consistent interpretation and application of the customs rules by Member States, which will be of great benefit to economic operators.

Repeal of existing legislation

The adoption of the proposal will lead to the repeal of existing legislation (see point 1).

- (1) A number of changes are to be made to Regulation (EC) No 450/2008 of the European Parliament and of the Council of 23 April 2008 laying down the Community Customs Code (Modernised Customs Code)¹⁴. In the interests of clarity, that Regulation should be recast.
- (2) It is appropriate to ensure consistency of Regulation (EC) No 450/2008 with the Treaty on the Functioning of the European Union (the Treaty) in particular Articles 290 and 291 thereof to take account of the evolution of Union law and to adapt some provisions of that Regulation in order to facilitate their application.

- (3) In order to supplement or amend certain non-essential elements of this Regulation, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.
- (4) In order to ensure uniform conditions for implementation of this Regulation, implementing powers should be conferred on the Commission in respect of: the adoption within six months of the entry into force of this Regulation of a work programme relating to the development and deployment of the electronic systems; decisions allowing one or several Member States to use means of exchange and storage of data other than electronic data-processing techniques; decisions authorising Member States to test simplifications in the application of the customs legislation using electronic data-processing techniques; decisions requesting Member States to take, suspend, annul, amend or revoke a decision; common risk criteria and standards, control measures and priority control areas; the management of the tariff quota and tariff ceilings and the management of the surveillance of the release for free circulation or export of goods; the determination of the tariff classification of goods; the temporary derogation from the rules on preferential origin of goods benefiting from preferential measures adopted unilaterally by the Union; the determination of the origin of goods; the temporary prohibitions relating to the use of comprehensive guarantees; the mutual assistance between the customs authorities in case of incurrance of a customs debt; decisions on repayment or remission of an amount of import or export duty; the official opening hours of customs offices; the determination of the tariff subheading of the goods which are subject to the highest rate of import or export duty where a consignment is made of goods falling under different tariff subheadings; the verification of the customs declaration. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers.¹⁵
- (5) The advisory procedure should be used for the adoption of: decisions authorising Member States to test simplifications in the application of the customs legislation using electronic data-processing techniques, given that those decisions do not affect all Member States; decisions requesting Member States to take, suspend, annul, amend or revoke a decision, given that those decisions affect only one Member State and aim at ensuring compliance with customs legislation; decisions on repayment or remission of an amount of import or export duty given that those decisions directly affect the applicant for that repayment or remission.
- (6) In duly justified cases, where imperative grounds of urgency so require, the Commission should adopt immediately applicable implementing acts relating to: decisions requesting Member States to take, suspend, annul, amend or revoke a decision; common risk criteria and standards, control measures and priority control areas; the determination of the tariff classification of goods; the determination of the

- (17) In the interests of facilitating business, while at the same time providing for the proper levels of control of goods brought into or out of the customs territory of the
⊗ Union ⊗ ~~Community~~, it is desirable that the information provided by economic operators be shared, taking account of the relevant data-protection provisions, between customs authorities and with other agencies involved in that control, ~~such as police, border guards, veterinary and environmental authorities, and that~~ ⊗ Those ⊗ controls ~~by the various authorities~~ ⊗ should ⊗ be harmonised, so that the economic operator need give the information only once and that goods are controlled by those authorities at the same time and at the same place.
-

↓ 450/2008 recital 10 (adapted)

- (18) In the interests of facilitating ~~certain types of~~ business, all persons should continue to have the right to appoint a representative in their dealings with the customs authorities. However, it should no longer be possible for that right of representation to be reserved under a law laid down by one of the Member States. Furthermore, a customs representative who complies with the criteria for the granting of the status of authorised economic operator, should be entitled to provide his services in a Member State other than the one where he is established.
-

↓ 450/2008 recital 11 (adapted)

- (19) Compliant and trustworthy economic operators should, as "authorised economic operators"², be able to take maximum advantage of widespread use of simplification and, taking account of security and safety aspects, benefit from reduced levels of customs control. They may thus enjoy the status of ~~'customs simplifications'~~ authorised economic operator ⊗ for customs simplifications ⊗ or the status of ~~'security and safety'~~ authorised economic operator ⊗ for security and safety ⊗. - (20) ~~All d~~Decisions, ~~that is to say, official acts by the customs authorities pertaining to one or more persons,~~ including ⊗ to ⊗ binding information ~~issued by those authorities,~~ should be covered by the same rules. Any such decisions should be valid throughout the ⊗ Union ⊗ ~~Community~~ and should be capable of being annulled,

amended except where otherwise stipulated, or revoked where they do not conform to the customs legislation or its interpretation.

↓ 450/2008 recital 13

- (21) In accordance with the Charter of Fundamental Rights of the European Union, it is necessary, in addition to the right of appeal against any decision taken by the customs authorities, to provide for the right of every person to be heard before any decision is taken which would adversely affect him.
-

↓ 450/2008 recital 14

- (22) The streamlining of customs procedures within an electronic environment requires the sharing of responsibilities between the customs authorities of different Member States. It is necessary to ensure an appropriate level of effective, dissuasive and proportionate sanctions throughout the internal market.
-

↓ 450/2008 recital 15

- (23) In order to secure a balance between, on the one hand, the need for customs authorities to ensure the correct application of customs legislation and, on the other, the right of economic operators to be treated fairly, the customs authorities should be granted extensive powers of control and economic operators a right of appeal.
-

↓ 450/2008 recital 16 (adapted)

- (24) In order to minimise the risk to the ☒ Union ☒ ~~Community~~, its citizens and its trading partners, the harmonised application of customs controls by the Member States should be based upon a common risk management framework and an electronic system for its implementation. The establishment of a risk management framework common to all Member States should not prevent them from controlling goods by random checks.
-

↓ new

- (25) In order to ensure a consistent and equal treatment of persons concerned by customs formalities and controls the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of determining the conditions relating to customs representation and to decisions taken by the customs authorities, including those relating to authorised economic operator and binding information, and relating to controls and formalities to be carried out on cabin baggage and hold baggage.

↓ 450/2008 recital 17 (adapted)

- (26) It is necessary to establish the factors on the basis of which import or export duty ~~duties~~ and other measures in respect of trade in goods are applied. It is also appropriate to lay down ~~clear~~ more detailed provisions for issuing proofs of origin in the Union ~~Community~~, where the exigencies of trade so require.
-

↓ new

- (27) In order to supplement the factors on the basis of which import or export duty and other measures are applied, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the determination of origin and customs value of goods.
-

↓ 450/2008 recital 18

- (28) It is desirable to group together all cases of incurrence of a customs debt on importation, other than following the submission of a customs declaration for release for free circulation or temporary admission with partial relief, in order to avoid difficulties in determining the legal basis on which the customs debt was incurred. The same should apply in cases of incurrence of a customs debt on exportation.
-

↓ new

- (29) It is appropriate to establish the place where the customs debt is incurred and where the import or export duty should be recovered.
-

↓ 450/2008 recital 19
⇒ new

- (30) ~~Since the new role of customs authorities implies the sharing of responsibilities and cooperation between inland and border customs offices, the customs debt should, in most cases, be~~ ⇒ In the context of centralised clearance the customs debt should be ⇐ incurred at the place where the debtor is established, as the customs office competent for that place can best supervise the activities of the person concerned.
-

↓ 450/2008 recital 20

- ~~(31) Furthermore, in line with the revised Kyoto Convention, it is appropriate to provide for a reduced number of cases where administrative cooperation between Member States is required in order to establish the place where the customs debt was incurred and to recover the duties.~~

↓ 450/2008 recital 21

- (31) The rules for special procedures should allow for the use of a single guarantee for all categories of special procedures and for that guarantee to be comprehensive, covering a number of transactions.
-

↓ 450/2008 recital 22 (adapted)

- (32) In order to ensure better protection of the financial interests of the Union ~~Community~~ and of the Member States, a guarantee should cover non-declared or incorrectly declared goods included in a consignment or in a declaration for which it is provided. For the same reason, the undertaking of the guarantor should also cover amounts of import or export duty which fall to be paid following post-release controls.
-

↓ 450/2008 recital 23 (adapted)

- (33) In order to safeguard the financial interests of the Union ~~Community~~ and of the Member States and to curb fraudulent practices, arrangements involving graduated measures for the application of a comprehensive guarantee are advisable. Where there is an increased risk of fraud it should be possible to prohibit temporarily the application of the comprehensive guarantee, taking account of the particular situation of the economic operators concerned.
-

↓ 450/2008 recital 24

- (34) It is appropriate to take account of the good faith of the person concerned in cases where a customs debt is incurred through non-compliance with customs legislation and to minimise the impact of negligence on the part of the debtor.
-

↴ new

- (35) In order to protect the financial interests of the Union and of the Member States and to supplement the rules concerning the customs debt and the guarantees, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the place of incurrence of the customs debt, the calculation of the amount of import and export duty, the guarantee of that amount and the recovery, repayment, remission and extinguishment of the customs debt.
-

↓ 450/2008 recital 25 (adapted)

- (36) It is necessary to lay down the principle of how to determine the customs status of Union ~~Community~~ goods and the circumstances pertaining to the loss of

such status, and to provide a basis for determining when that status remains unaltered in cases where goods ~~are~~ temporarily brought out of the customs territory of the Union ~~Community~~.

↓ new

- (37) In order to ensure free movement of Union goods in the customs territory of the Union and customs treatment of non-Union goods brought into that territory, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the determination of the customs status of goods, the loss of the customs status of Union goods, the preservation of that status for goods temporarily leaving the customs territory of the Union, the application of commercial policy measures, prohibitions and restrictions to goods placed under a special procedure which are released for free circulation and the conditions for duty relief for returned goods and products taken from the sea.
-

↓ 450/2008 recital 26

- (38) It is appropriate, where an economic operator has provided, in advance, the information necessary for risk-based controls on the admissibility of the goods, to ensure that quick release of goods is then the rule. Fiscal and trade policy controls should primarily be performed by the customs office competent in respect of the premises of the economic operator.
-

↓ 450/2008 recital 27

- (39) The rules for customs declarations and for the placing of goods under a customs procedure should be modernised and streamlined, in particular by requiring that customs declarations be, as a rule, made electronically and providing for only one type of simplified declaration.
-

↓ 450/2008 recital 28

- (40) Since the revised Kyoto Convention favours the lodging, registering and checking of the customs declaration prior to the arrival of the goods and, furthermore, the dissociation of the place where the declaration is lodged from the place where the goods are physically located, it is appropriate to provide for centralised clearance at the place where the economic operator is established. Centralised clearance should include the facility for the use of simplified declarations, deferment of the date of the submission of a complete declaration and required documents, periodic declaration and deferred payment.

↓ 450/2008 recital 29 (adapted)

- (41) ~~In order to help to ensure neutral conditions for competition throughout the Community~~ It is appropriate to lay down at Union Community level the rules governing the destruction or disposal otherwise of goods by the customs authorities, ~~these~~ those being matters which have previously required national legislation.
-

↓ new

- (42) In order to supplement the rules regarding the placing of goods under a customs procedure and ensure equal treatment of the persons concerned, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the competent customs offices, the rules on the procedure for lodging a customs declaration, the cases where authorisations are granted for that purpose, the rules for the release of goods, and the disposal of goods placed under a customs procedure.
-

↓ 450/2008 recital 30 (adapted)

- (43) It is appropriate to lay down common and simple rules for the special procedures (~~transit, storage, specific use and processing~~), supplemented by a small set of rules for each category of special procedure, in order to make it simple for the operator to choose the right procedure, to avoid errors and to reduce the number of post-release recoveries and repayments.
-

↓ 450/2008 recital 31

- (44) The granting of authorisations for several special procedures with a single guarantee and a single supervising customs office should be facilitated and there should be simple rules on the incurrence of a customs debt in these cases. The basic principle should be that goods placed under a special procedure, or the products made from them, are to be assessed at the time when the customs debt is incurred. However, it should also be possible, where economically justified, to assess the goods at the time when they were placed under a special procedure. The same principles should apply to usual forms of handling.
-

↓ 450/2008 recital 32 (adapted)

- (45) In view of the increased security-related measures ~~introduced into the Code under Regulation (EC) No 648/2005 of the European Parliament and of the Council of 13 April 2005 amending Council Regulation (EEC) No 2913/92 establishing the~~

~~Community Customs Code~~²³, the placing of goods into free zones should become a customs procedure and the goods should be subject to customs controls at entry and with regard to records.

↓ 450/2008 recital 33

- (46) Given that the intention of re-exportation is no longer necessary, the inward processing suspension procedure should be merged with processing under customs control and the inward processing drawback procedure abandoned. This single inward ~~processing~~ procedure should also cover destruction, except where destruction is carried out by, or under the supervision of ~~the~~ customs.
-

↓ new

- (47) In order to supplement the rules on special procedures and ensure equal treatment of the persons concerned, the power to adopt delegated acts in accordance with Article 290 of the Treaty should be delegated to the Commission in respect of the obligations of the holder of a special procedure, the cases where an authorisation relating to a special procedure is granted and the obligations of the holder of that authorisation, and the rules on the procedure to ensure customs supervision of goods placed under a special procedure.
-

↓ 450/2008 recital 34 (adapted)

- (48) Security-related measures relating to Union ~~Community~~ goods brought out of the customs territory of the Union ~~Community~~ should apply equally to the re-export of ~~non-Community~~ non-Union goods. - ~~(50) It is appropriate to provide for the adoption of measures implementing this Code. These measures should be adopted in accordance with the management and regulatory procedures provided for in Articles 4 and 5 of Decision 1999/468/EC.~~

↓ new

- (50) In accordance with the principle of proportionality, it is necessary and appropriate, for the achievement of the basic objectives of enabling the customs union to function effectively and implementing the common commercial policy, to lay down the general rules and procedures applicable to goods brought into or out of the customs territory of the Union. This Regulation does not go beyond what is necessary in order to achieve the objectives pursued, in accordance with the first subparagraph of Article 5(4) of the Treaty on European Union.

↓ 450/2008 recital 37

- ~~(51) In particular, the Commission should be empowered to define the conditions and criteria necessary for the effective application of this Code. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation or to supplement this Regulation by the addition of new non-essential elements, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC.~~

↓ 450/2008 recital 38

- ~~(52) It is appropriate, in order to ensure an effective decision-making process, to examine questions relating to the preparation of a position to be taken by the Community in committees, working groups and panels established by or under international agreements dealing with customs legislation.~~

↓ 450/2008 recital 39 (adapted)

- (51) In order to simplify and rationalise customs legislation, a number of provisions presently contained in autonomous ~~Community~~ Union acts have, for the sake of transparency, been incorporated into the Union Customs Code. ~~The following Regulations, together with Regulation (EEC) No 2913/92, should therefore be repealed:~~ Council Regulation (EEC) No 3925/91 of 19 December 1991 concerning the elimination of controls and formalities applicable to the cabin and hold baggage of persons taking an intra-Community flight and the baggage of persons making an intra-Community sea crossing²⁵, Regulation (EEC) No 2913/92, Council Regulation (EC) No 1207/2001 of 11 June 2001 on procedures to facilitate the issue or the making out in the Community of proofs of origin and the issue of certain approved exporter authorisations under the provisions governing preferential trade between the European Community and certain countries²⁶ , and Regulation (EC) No 450/2008 should therefore be repealed .
-

↓ 450/2008 recital 40

~~Since the objectives of this Regulation, namely, to lay down rules and procedures applicable to goods brought into or out of the customs territory of the Community in order to enable the Customs Union to function effectively as a central pillar of the internal market, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives,~~

- (52) The Articles setting out the delegation of power and the conferral of implementing powers and Article 46 on charges and costs should apply from the date of entry into force of this Regulation. 1. This Regulation establishes the ☒ Union ☒ ~~Community~~ Customs Code, ~~hereinafter referred to as~~ the Code laying down the general rules and procedures applicable to goods brought into or out of the customs territory of the ☒ Union ☒ ~~Community~~.

Without prejudice to international law and conventions and ☒ Union ☒ ~~Community~~ legislation in other fields, the Code shall apply uniformly throughout the customs territory of the ☒ Union ☒ ~~Community~~.

2. Certain provisions of the customs legislation may apply outside the customs territory of the ☒ Union ☒ ~~Community~~ within the framework of legislation governing specific fields or of international conventions.

↓ 450/2008 (adapted)

3. Certain provisions of the customs legislation, including the simplifications for which it provides, shall apply to the trade in ☒ Union ☒ goods between parts of the customs territory of the ~~Community~~ ☒ Union ☒ to which the provisions of Directive 2006/112/EC ⇒ or of Directive 2008/118/EC ⇐ apply and parts of that territory where those provisions do not apply, or to trade between parts of that territory where those provisions do not apply.

↓ 450/2008

~~The measures designed to amend non-essential elements of this Regulation, by supplementing it, laying down the provisions referred to in the first subparagraph and simplified formalities for their implementation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 184(4). Those measures shall also take account of particular circumstances pertaining to the trade in goods involving only one Member State.~~

Article 2
Delegation of power

The Commission shall be empowered to adopt delegated acts in accordance with Article 243 specifying the provisions of the customs legislation with respect to the customs declaration, the proof of the customs status and the use of the Union internal transit procedure, which apply to the trade in Union goods referred to in Article 1(3). Those acts may address particular circumstances pertaining to the trade in Union goods involving only one Member State.
