Proposal for a

COUNCIL DECISION

**on the position to be taken by the European Union
in the EEA Joint Committee
concerning an amendment to Annex XX
(Environment)
to the EEA Agreement**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

In order to ensure the requisite legal security and homogeneity of the Internal Market, the EEA Joint Committee is to integrate all the relevant EU legislation into the EEA Agreement as soon as possible after its adoption.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

The draft Decision of the EEA Joint Committee (annexed to the proposed Council Decision) aims to incorporate Directive 2009/29/EC of 23 April 2009 amending Directive 2003/87/EC so as to improve and extend the EU Emission Trading Scheme (EU ETS). It aims to incorporate, as well, Commission Regulation (EU) No 1031/2010 of 12 November 2010 on the timing, administration and other aspects of auctioning of greenhouse gas emission allowances pursuant to Directive 2003/87/EC establishing a scheme for greenhouse gas emission allowances trading within the EU, as amended by Commission Regulation (EU) 1210/2011 of 23 November 2011 amending Regulation (EU) No 1031/2010 in particular to determine the volume of greenhouse gas emission allowances to be auctioned prior to 2013, as well as other Commission acts adopted pursuant to Directive 2003/87/EC or amending previous Commission acts in the same field.

The EEA EFTA States have participated in the EU ETS since 2008, following the incorporation into the EEA Agreement of Directive 2003/87/EC. In line with the principle of homogeneity underpinning the European Economic Area, the acts purporting to revise or to implement the EU ETS should be incorporated into the EEA Agreement.

The adaptations proposed by the EFTA side are prompted by the extension of the EU ETS to the EFTA States. They concern Directive 2003/87/EC, as amended by Directive 2009/29/EC and Regulation (EU) No 1031/2010.

A large number of adaptations included in the present draft JCD are already provided for in Annex XX to the EEA Agreement, in relation to Directive 2003/87/EC. The wording of the adaptations has been reviewed for simplification purposes.

Moreover, the EFTA side proposes an adaptation aimed at adjusting Iceland's share of allowances to be auctioned (see Article 1, point 2, letter (l) of the draft JCD).

3. LEGAL ELEMENTS OF THE PROPOSAL

Article 1(3) of Council Regulation (EC) No 2894/94 concerning arrangements for implementing the EEA Agreement provides that the Council establishes the position to be adopted on the Union's behalf on such Decisions, on a proposal from the Commission.

The Commission submits the Draft Decision of the EEA Joint Committee for adoption by the Council as the Union's position. The Commission would hope to be able to present it in the EEA Joint Committee at the earliest possible opportunity.

- (9) Commission Decision 2011/278/EU of 27 April 2011 determining transitional Union-wide rules for harmonised free allocation of emission allowances pursuant to Article 10a of Directive 2003/87/EC of the European Parliament and of the Council⁹ is to be incorporated into the Agreement.
- (10) Commission Decision 2011/540/EU of 18 August 2011 on amending Decision 2007/589/EC as regards the inclusion of monitoring and reporting guidelines for greenhouse gas emissions from new activities and gases¹⁰ is to be incorporated into the Agreement.

However, the EFTA States shall take due account of the obligations they have undertaken in the EEA Agreement. Each EFTA State is responsible for implementing policies and measures to comply with its international commitments under the United Nations Framework Convention on Climate Change, the Kyoto Protocol and any other international agreement related to climate change.
- (13) The participation of the EFTA States in the EU ETS is without prejudice to the EFTA States' participation in any flexible instruments for mitigating emissions.

- (14) The extension of the scheme to installations in the EFTA States implies an increase of the total quantity of allowances in the EU ETS as a whole under Articles 9 and 9a of Directive 2003/87/EC of the European Parliament and of the Council. The EFTA States provide in Part A of the Appendix to the Directive, the relevant figures in order to allow the Commission to determine the average annual EEA-wide total quantity of allowances.
- (15) The Commission shall keep the EFTA States informed regarding the negotiation and conclusion of agreements with third countries as referred to in Article 11a of Directive 2003/87/EC and the consequence this might have on the use of Certified Emission Reductions (CERs).
- (16) When an agreement pursuant to Articles 11a or 25 of Directive 2003/87/EC is concluded, the EFTA States and their operators shall not be discriminated against as compared to EU Member States and their operators.
- (17) The Commission shall keep the EFTA States informed regarding the implementation of Article 24a(1) of Directive 2003/87/EC and the consequence this might have on the amount of allowances in the EU ETS.
- (18) The EFTA States fully support that the amount of allowances allocated by auctioning is increasing in the EU ETS, with a view to reaching no free allocation in 2027. It has always been the aim of the EFTA States to increase the percentage of allowances that are allocated against payment. The EFTA States recall adaptation (e) as set out in Article 1 point 2 of EEA Joint Committee Decision No 146/2007¹² incorporating Directive 2003/87/EC into the Agreement.
- (19) The EFTA States will make use of the common auction platforms appointed pursuant to Article 26 of Regulation 1031/2010 and appoint the auction monitor selected pursuant to Article 24 of that Regulation for monitoring the auctioning of their allowances. Due to the fact that the EFTA States are not participating in the joint action, they do not have to fulfil any specific tasks in the procurement procedures for appointing the common auction platforms and auction monitor. Once these are appointed, each EFTA State will use its best endeavours to enter into a contract with them. The Commission will, to the extent feasible, see to it that the auction platforms enter into a contract with the EFTA States subject, *mutatis mutandis*, to the same conditions envisaged for participating EU Member States in the contracts resulting from the joint procurement procedures, provided that the EFTA States aggregate the auctioning of their allowances with the allowances of the participating EU Member States. For the auction monitor, the Commission will, to the extent feasible, see to it that the auction monitor enters into a contract with the EFTA States subject, *mutatis mutandis*, to the same conditions applicable to either the participating EU Member States or the non-participating EU Member States depending on whether or not the EFTA States choose to aggregate the auctioning of their allowances with the allowances of the participating EU Member States.
- (20) Budgetary issues are not part of the Agreement. Financial contributions from the EFTA States to the EU Member States are negotiated through the EEA Financial Mechanisms. The application of the provisions of Directive 2003/87/EC concerning

¹² OJ L 100, 10.4.2008, p. 92.

these issues and the application of the criteria for distribution amongst certain EU Member States of certain percentages of the total quantity of allowances to be auctioned pursuant to Article 10(2)(b) and (c) and Annexes IIa and IIb of Directive 2003/87/EC is therefore without prejudice to the scope of the Agreement.

- (21) The EFTA Surveillance Authority shall coordinate closely with the Commission whenever it is called to undertake tasks relating to the EFTA States for which the Commission is responsible with respect to the EU Member States pursuant to Directive 2003/87/EC, Regulation (EC) No 2216/2004, Decision 2007/589/EC and Decision 2006/780/EC. These tasks include *inter alia* the assessment of the national implementation measures referred to in Article 11 and any application for the unilateral inclusion of additional activities and gases under Article 24 of Directive 2003/87/EC,
