Article 1

Scope of the Agreement

This Agreement establishes a framework for an Economic Partnership Agreement (EPA).

Article 2

General EPA objectives

The objectives of the Economic Partnership Agreement are:

- (a) Contributing to economic growth and development through the establishment of a strengthened and strategic trade and development partnership consistent with the objective of sustainable development;
- (b) Promoting regional integration, economic cooperation and good governance in the EAC;
- (c) Promoting the gradual integration of the EAC into the world economy, in conformity with its political choices and development priorities;
- (d) Fostering the structural transformation of EAC economies, and their diversification and competitiveness by enhancing their production, supply and trading capacity;
- (e) Improving EAC capacity in trade policy and trade related issues;
- (f) Establishing and implementing an effective, predictable and transparent regional regulatory framework for trade and investment in the EAC Partner States, thus supporting the conditions for increasing investment, and private sector initiative; and
- (g) Strengthening the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade and investment.

Article 3

Specific objectives of this Agreement

1. Consistent with Articles 34 and 35 of the Cotonou Agreement, the objectives of this Agreement are:
 - (a) to establish an agreement consistent with Article XXIV of General Agreement on Tariffs and Trade 1994 ("GATT 1994");

- (b) to facilitate continuation of trade by the EAC Partner States under terms no less favourable than those under the Cotonou Agreement;
 - (c) to establish the framework, scope and principles for further negotiation on trade in goods, including rules of origin, trade defence instruments, custom cooperation and trade facilitation, sanitary and phytosanitary (SPS) measures, technical barriers to trade, as well as on agriculture and economic and development cooperation;
 - (d) to establish the framework and scope of potential negotiation in relation to other issues including trade in services, trade related issues as identified in the Cotonou Agreement and any other areas of interest to both Parties;
2. The Parties undertake to continue the negotiations with a view to concluding a comprehensive EPA, which shall comprise the subject matters listed under Chapter V, no later than 31 July 2009.

Article 4

Principles

The principles of this Agreement and on the basis of which further negotiations between the Parties shall be held with a view to reaching a full and complete EPA are the following:

- (a) Building on the acquis of the Cotonou Agreement;
- (b) Strengthening regional integration in EAC;
- (c) Asymmetry, in favour of the EAC Party, in the liberalization of trade and in the application of trade related measures and trade defence instruments;
- (d) Allowing the EAC Partner States to maintain regional preferences with other African countries and regions without an obligation to extend them to the EC; and
- (e) Contributing to addressing the production, supply and trading capacity of EAC Partner States.

2. CHAPTER II: TRADE REGIME FOR GOODS

2.1. TITLE I: GENERAL PROVISIONS

Article 5

Objectives

- (b) The progressive and gradual liberalisation of goods market in the EAC in accordance with the modalities established in this Agreement; and
- (c) Preservation and improvement of market access conditions to ensure that EAC Partner States are better and not worse off.

2.2. TITLE II: FREE MOVEMENT OF GOODS

Article 6

Customs duty

For the purposes of elimination of customs duties on imports, a customs duty shall include any duty or charge of any kind imposed on or in connection with the importation of goods, including any form of surtax or surcharge in connection with such importation, but does not include;

- (a) charges equivalent to internal taxes levied on both imported and locally produced goods consistent with the provisions of Article 18;
- (b) anti-dumping, countervailing or safeguard measures applied in accordance with the provisions of Title IV; and,

Article 7

Classification of goods

Article 8

Basic Duty

For each product, the basic customs duty to which the successive reductions are to be applied shall be that specified in each Party's tariff schedule.

Article 9

Fees and other charges

Fees and other charges referred to in Article 6(c), shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection for domestic products or a taxation of imports for fiscal purposes. Trade-related fees and charges shall not be imposed for consular services.

Article 10

Customs duties on products originating in the EAC Party

Products originating in the EAC Party shall be imported in the EC free of customs duties, under the conditions set out in Annex I.

Article 11

Customs duties on products originating in the EC Party

Customs duties on imports of products originating in the EC Party shall be reduced or eliminated in accordance with the schedule of tariff liberalization in Annex II.

Article 12

Rules of origin

For the purposes of this Chapter, "originating" means qualifying under the rules of origin set out in Protocol 1 to this Agreement. For the purpose of the comprehensive EPA, and during the period between the entry into force of this Agreement and entry into force of the comprehensive EPA, the Parties shall review the provisions of this Protocol with a view to their further simplification. In such review the Parties shall take into account the development needs of the EAC Party and development of technologies, production processes and all other factors, including on-going reforms of rules of origin, which may require modifications to the provisions of this Protocol. Any such modifications shall be effected by a decision of the EPA Council.

Article 13

Standstill

Except for the measures adopted according to Articles 19 and 21, the Parties agree not to increase their applied customs duties in trade covered by this Agreement.

Article 14

Circulation of goods

1. Customs duties shall be levied only once for goods originating in the EC Party or in the EAC Party in the territory of the other Party.
2. Any duty paid upon importation in an EAC Partner State shall be refunded fully when the goods leave the EAC Partner State of first importation. Such products shall then pay the duty in the country of consumption.
3. The Parties agree to cooperate with a view to facilitating the circulation of goods and simplifying customs procedures.

Article 15

Duties and taxes on exports

1. The Parties shall not institute any new duties or taxes in connection with the exportation of goods to the other Party, on goods exported to the other Party that are in excess of those imposed on like products destined for internal sale.
2. Notwithstanding paragraph 1, the EAC Party can impose a duty or tax in connection with the exportation of goods, with the authorization of the EPA Council, under the following circumstances:
 - (a) to foster the development of domestic industry; or
 - (b) to maintain currency value stability, when the increase in the world price of an export commodity creates the risk of a currency value surge.
3. Such taxes should be enforced on a limited number of products for a limited period of time, and reviewed by the EPA Council after 24 months.

Article 16

More favourable treatment resulting from a free trade agreement

1. With respect to the subject matter covered by this Chapter, the EC Party shall accord to the EAC Party any more favourable treatment applicable as a result of the EC Party becoming party to a free trade agreement with third Parties after the signature of this Agreement.
2. With respect to the subject matter covered by this Chapter, the EAC Party shall accord to the EC Party any more favourable treatment applicable as a result of EAC Party becoming party to a free trade agreement with any major trading country after the signature of this Agreement.
3. The provisions of this Chapter shall not be so construed as to oblige the Parties to extend reciprocally any preferential treatment applicable as a result of one of them being Party to a free trade agreement with third Parties on the date of signature of this Agreement.

4. The provisions of paragraph 2 shall not apply in respect of trade agreements between the EAC Party with countries of the African, Caribbean and Pacific Groups, or other African countries and regions.
5. For the purposes of this Article, 'free trade agreement' means an agreement substantially liberalizing trade and providing for the absence or elimination of substantially all discrimination between or among Parties thereto through the elimination of existing discriminatory measures and/or the prohibition of new or more discriminatory measures, either at the entry into force of that agreement or on the basis of a reasonable time frame.
6. For the purposes of this Article, 'major trading economy' means any developed country, or any country accounting for a share of world merchandise exports above 1 percent in the year before the entry into force of the free trade agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through a free trade agreement accounting collectively for a share of world merchandise exports above 1.5 percent in the year before the entry into force of the free trade agreement referred to in paragraph 2.¹

2.3. TITLE III: NON-TARIFF MEASURES

Article 17

Prohibition of quantitative restrictions

1. Unless otherwise provided in this Agreement, all prohibitions or restrictions on the importation, exportation or sale for exports between the Parties, other than customs duties, taxes, fees and other charges provided for under Article 6, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the entry into force of this Agreement. No new such measures shall be introduced in trade between the Parties. The provisions of this Article shall be without prejudice to the provisions of Title IV of this Chapter.
2. The provisions of paragraph 1 of this Article shall not extend to the following:
 - (a) Export prohibitions or restrictions temporarily applied to prevent or relieve critical shortages of foodstuffs or other products essential to the exporting contracting party;
 - (b) Import and export prohibitions or restrictions necessary to the application of standards or regulations for the classification, grading or marketing of commodities in international trade.

Article 18

National treatment on internal taxation and regulation

¹ For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-EU trade) shall be used.

1. Imported products originating in the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like national products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to national production.
2. Imported products originating in the other Party shall be accorded treatment no less favourable than that accorded to like national products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.
3. No Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, no Party shall otherwise apply internal quantitative regulations so as to afford protection to national production.
4. The provisions of this Article shall not prevent the payment of subsidies exclusively to national producers, including payments to national producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of national products.
5. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement.

2.4. TITLE IV: TRADE DEFENCE MEASURES

Article 19

Anti-dumping and countervailing measures

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the EC Party or EAC Partner States, whether individually or collectively, from adopting anti-dumping or countervailing measures in accordance with the relevant WTO agreements. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.
2. Before imposing definitive anti-dumping or countervailing duties in respect of products imported from EAC Partner States, the EC Party shall consider the possibility of constructive remedies as provided for in the relevant WTO agreements.
3. Where an anti-dumping or countervailing measure has been imposed on behalf of two or more EAC Partner States by a regional authority, there shall be one single forum of judicial review, including at the stage of appeals.
4. Where anti-dumping or countervailing measures can be imposed on a regional basis and on a national basis the Parties shall ensure that such measures are not applied

simultaneously in respect of the same product by regional authorities on the one hand, and national authorities on the other.

5. The EC Party shall notify the exporting EAC Partner States of the receipt of a properly documented complaint before initiating any investigation.
6. The provisions of this Article shall be applicable in all investigations initiated after this Agreement enters into force.
7. The provisions of this Article shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 20

Multilateral safeguards

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the EAC Partner States and the EC Party from adopting measures in accordance with Article XIX of the General Agreement on Tariffs and Trade 1994, the Agreement on Safeguards, and Article 5 of the Agreement on Agriculture. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.
2. Notwithstanding paragraph 1, the EC Party shall, in the light of the overall development objectives of this Agreement and the small size of the economies of the EAC, exclude imports from any EAC Partner State from any measures taken pursuant to Article XIX of the GATT 1994, the WTO Agreement on Safeguards and Article 5 of the Agreement on Agriculture.
3. The provisions of paragraph 2 shall apply for a period of five years, beginning with the date of entry into force of the Agreement. Not later than 120 days before the end of this period, the EPA Council shall review the operation of those provisions in the light of the development needs of the EAC, with a view to determining whether to extend their application for a further period.
4. The provisions of paragraph 1 shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 21

Bilateral safeguards

1. After having examined alternative solutions, the EC or EAC Partner States may apply safeguard measures of limited duration, under the conditions and in accordance with the procedures laid down in this Article.
2. Safeguard measures referred to in paragraph 1 above may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- (a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party, or;
 - (b) disturbances in a sector of the economy, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party, or;
 - (c) disturbances in the markets of agricultural like or directly competitive products² or mechanisms regulating those markets.
3. Safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent the serious injury or disturbances, as defined in paragraph 2 and 5(b). Those safeguard measures of the importing Party may only consist of one or more of the following:
- (a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement,
 - (b) increase in the customs duty on the product concerned up to a level which does not exceed the customs duty applied to other WTO Members, and
 - (c) introduction of tariff quotas on the product concerned.
4. Without prejudice to paragraphs 1, 2 and 3, where any product originating in one or more EAC State is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2 to one or several of the EC Party's outermost regions, the EC Party may take surveillance or safeguard measures limited to the region or regions concerned in accordance with the procedures laid down in paragraphs 6 to 9.
- 5.
- (a) Without prejudice to paragraphs 1, 2 and 3, where any product originating in the EC Party is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2 to a EAC Partner State, the EAC Partner State concerned may take surveillance or safeguard measures limited to its territory in accordance with the procedures laid down in paragraphs 6 to 9.
 - (b) An EAC Partner State may take safeguard measures where a product originating in the EC Party as a result of the reduction of duties is being imported into its territory in such increased quantities and under such conditions as to cause or threaten to cause disturbances to an infant industry producing like or directly competitive products. Such provision is only applicable for a period of ten years from the date of entry into force of this Agreement. Measures must be taken in accordance with the procedures laid down in paragraphs 6 to 9.

² For the purpose of this article agricultural products are those covered by Annex I of the WTO Agreement on Agriculture.

6.

- (a) Safeguard measures referred to in this Article shall only be maintained for such a time as may be necessary to prevent or remedy serious injury or disturbances as defined in paragraphs 2, 4 and 5.
- (b) Safeguard measures referred to in this Article shall not be applied for a period exceeding two years. Where the circumstances warranting imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two years. Where the EAC Party or an EAC Partner State applies a safeguard measure, or where the EC Party applies a measure limited to the territory of one or more of its outermost regions, such measure may however be applied for a period not exceeding four years and, where the circumstances warranting imposition of safeguard measures continue to exist, extended for a further period of four years.
- (c) Safeguard measures referred to in this Article that exceed one year shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest.
- (d) No safeguard measure referred to in this Article shall be applied to the import of a product that has previously been subject to such a measure, for a period of at least one year since the expiry of the measure.

7. For the implementation of the above paragraphs, the following provisions shall apply:

- (a) Where a party takes the view that one of the circumstances set out in paragraphs 2, 4 and/or 5 exists, it shall immediately refer the matter to the EPA Council for examination;
- (b) The EPA Council may make any recommendation needed to remedy the circumstances which have arisen. If no recommendation has been made by the EPA Council aimed at remedying the circumstances, or no other satisfactory solution has been reached within 30 days of the matter being referred to the EPA Council, the importing party may adopt the appropriate measures to remedy the circumstances in accordance with this Article;
- (c) Before taking any measure provided for in this Article or, in the cases to which paragraph 8 of this Article applies, as soon as possible, the Party or the EAC Partner State concerned shall supply the EPA Council with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned;
- (d) In the selection of safeguard measures pursuant to this Article, priority must be given to those which least disturb the operation of this Agreement;
- (e) Any safeguard measure taken pursuant to this Article shall be notified in writing immediately to the EPA Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

8. Where exceptional circumstances require immediate action, the importing party concerned, whether the EC Party, EAC or an EAC Partner State as the case may be, may take the measures provided for in paragraph 3, 4 and/or 5 on a provisional basis without complying with the requirements of paragraph 7. Such action may be taken for a maximum period of 180 days where measures are taken by the EC Party and 200 days where measures are taken by EAC or an EAC Partner State, or where measures taken by the EC Party are limited to the territory of one or more of its outermost regions. The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraph 6. In the taking of such provisional measures, the interest of all Parties involved shall be taken into account including their level of development. The importing party concerned shall inform the other party concerned and shall immediately refer the matter to the EPA Council for examination.
9. If an importing party subjects imports of a product to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows liable to give rise to the problems referred to in this Article, it shall inform the EPA Council without delay.
10. The WTO Agreement shall not be invoked to preclude a Party from adopting safeguard measures in conformity with this Article.

2.5. TITLE V: ADMINISTRATIVE PROVISIONS

Article 22

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where the EC Party or the EAC Partner States have made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may temporarily suspend the relevant preferential treatment of the concerned in accordance with this Article.
3. For the purpose of this Article a failure to provide administrative cooperation shall mean, *inter alia*:
 - (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
 - (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
 - (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
 - (a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the EPA Council of its finding together with the objective information and enter into consultations within the EPA Council, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
 - (b) Where the Parties have entered into consultations within the EPA Council as above and have failed to agree on an acceptable solution within 3 months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the EPA Council without undue delay.
 - (c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the EPA Council. They shall be subject to periodic consultations within the EPA Council in particular with a view to their termination as soon as the conditions for their application no longer exist.
5. At the same time as the notification to the EPA Council under paragraph 4a) of this Article, the Party or concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 23

Management of administrative errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol 1 concerning the definition of the concept of "originating products" and methods of administrative cooperation, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the EPA Council to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 24

Customs Valuation

1. Article VII of the GATT 1994 and the Agreement on the implementation of Article VII of the GATT 1994, shall govern customs valuation rules applied to reciprocal trade between the Parties.
2. The Parties shall cooperate with a view to reaching a common approach to issues relating to customs valuation.

Article 32

Areas of cooperation

1. To achieve the objectives of cooperation in fisheries within the described principles, cooperation will include fisheries management and conservation issues, vessel management and post harvest arrangements and financial and trade measures and development of fisheries and fisheries products and marine aquaculture.
2. The EC Party will contribute to the mobilisation of the resources for the implementation of the identified areas of cooperation at national and regional levels, which will also include support for regional capacity building. Furthermore, the EC Party contributes to the measures as described in the section concerning financial and trade measures, and on infrastructure development specific for fisheries and marine aquaculture.

(a) Fisheries Management and Conservation Issues

3. A precautionary approach shall be applied in determining levels of sustainable catch, fishing capacity and other management strategies to avoid or reverse undesirable outcomes such as over-capacity and over-fishing, as well as undesirable impacts on the ecosystems and artisanal fisheries.

4. Each EAC Partner state may take appropriate measures, including seasonal and gear restrictions in order to protect its territorial waters and ensure the sustainability of the artisanal and coastal fishery.
5. The Parties would promote the membership of all the concerned EAC Partner States to IOTC (Indian Ocean Tuna Commission) and other relevant fisheries organisations. These countries, with the EC Party, should co-ordinate action to ensure the management and conservation of all fish species, including tuna and tuna-like resources and facilitate relevant scientific research.
6. Where there is insufficient scientific evidence for the competent national management authority to determine limits and target levels of sustainable catch in an EAC Exclusive Economic Zone (EEZ), both parties in consultation with the competent national authority and together with IOTC and, where relevant, other regional fisheries organisations, shall support such scientific analysis.
7. The Parties agree to take appropriate measures where an increase in effort results in catch levels above the target sustainable level established by the competent national authority.
8. In order to conserve and manage straddling stocks and highly migratory fish stocks, the EC Party and the EAC coastal States shall ensure compliance by vessels flying their flags with relevant national, regional and sub- regional fisheries management measures and related national laws and regulations.

b) Vessel Management and Post Harvest Arrangements

9. Vessel Management and post harvest arrangements emerging from IOTC and any other relevant regional fisheries organisations will be observed. EAC Partner States and the EC Party shall set out minimum terms and conditions with respect to monitoring, control and surveillance of EU fishing vessels operating in the waters of EAC Partner States, which should include the following:
 - i) A Vessel Monitoring System (VMS) will be set up for all EAC coastal Partner States, and all EAC Partner States will use a compatible VMS. Those EAC Partner States which do not have a VMS will be assisted by the EC Party to set up a compatible VMS.
 - ii) In addition to a compulsory compatible VMS system, all EAC coastal Partner States, in conjunction with the EC Party, will develop other mechanisms to ensure effective Monitoring, Control and Surveillance (MCS) and the EC Party will support EAC Partner States to put such an agreed system in place and assist in implementation.
 - iii) The EC Party and EAC Partner States shall have the right of placing observers, whether in national or international waters, with the procedures concerning the deployment of observers being well stipulated. Observers are to be paid by the national governments but all costs on board are to be met by the ship-owner. The EC Party will support the costs of training observers.
 - iv) Common systems of reporting of fishing will be developed and used throughout the region, with minimum terms set for reporting.

- v) All vessels that land or tranship their catch within an EAC Partner State shall do so in ports or outer-port areas. No transhipment shall be allowed at sea, except on particular condition foreseen by the relevant Regional Fisheries Monitoring Organisation (RFMO) under special conditions. Both parties shall cooperate to develop and modernise landing or transhipment infrastructure in ports of EAC Partner States, including development capacity of fish products
 - vi) All vessels shall endeavour to use the facilities of the EAC Partner States and to make use of local supplies.
 - vii) Discards reporting shall be compulsory. Priority should be given to avoid discards through the use of selective fishing methods in line with principles of the IOTC and relevant regional fisheries organisations. As far as possible, by-catch shall be brought ashore.
10. The parties agree to cooperate in developing and implementing national/regional training programmes for EAC nationals in order to facilitate their effective participation in the fishing industry. Where the EC Party has negotiated bilateral fisheries agreement, employment of EAC nationals shall be encouraged. The ILO (International Labour Organisation) declaration on fundamental principles and rights at work shall apply as of right to seamen signed on Community vessels.
11. Both parties shall undertake coordinated efforts to improve the means for preventing, deterring, and eliminating IUU (Illegal Unregulated and Unreported) fishing and to this end take appropriate measures. Fishing vessels involved in IUU fishing should be confiscated and the owners prosecuted by the competent authorities and should not be allowed to fish again in EAC Partner States' waters, unless prior authorisation has been obtained from both the flag State and the concerned EAC Partner States as well as, where relevant, the concerned RFMO.

c) Financial and Trade Measures and Development issues

12. The Parties undertake to cooperate in promoting the setting up of joint ventures in fishing operations, fish processing, port services, enhance production capacity, improve competitiveness of fishing and related industries and services, downstream processing, development and improvement of port facilities, diversification of the fishery to include non-tuna species which are under-exploited or not exploited.
