GENERAL INTRODUCTION

This data collection is a working document to the Report from the Commission to the Council and the European Parliament on the generation, treatment and transboundary shipment of hazardous waste and other waste in the Member States of the European Union, 2007-2009.

The report comprises 5 sections, and contains both quantitative and qualitative data on waste generation and treatment. Section A gives a quantitative outline of the Member States' waste transactions; Sections B (Basel Convention Questionnaire) and E (Commission Decision Questionnaire) summarise the Member States' provisions regarding waste management in general. Section C is an up-to-date list of the Competent Authorities; Section D is the list of Y-codes for waste according to the Basel Convention.

The quantitative data in the Section A covers the reporting years 2001-2009. Sections B and E cover the reporting years 2007-2009. At the time this report was prepared most countries had delivered replies to both to Basel and Commission questionnaires for the years 2007-2009. The cut-off date for the analysis of the quantitative data included in the Basel reports (Section A of the working document) was 15 July 2011. Greece (for 2009), Cyprus (for 2008 and 2009) and Malta (for 2007) submitted Basel reports after the cut-of date (15 July 2011), so that these reports could not be taken into account in the analysis of the quantitative data. The cut-off-date for the inclusion of the Member States' replies in the sections B and E of the working document was 30.11.2011. By that date, Czech Republic had not delivered the Commission questionnaire for the reference year 2008 and the Netherlands had not delivered the Commission questionnaire for the reference year 2009. For France, all reports for the years 2007-2009 were missing. (See Table 1)

For practical reasons, the report does not differentiate between direct quotes from the Member States' responses and other re-phrased or shortened passages. The original responses from the Member States constitute the only "authentic" document submitted by the Member States.

 Report Supplied

 Basel Convention Questionnaire not supplied before the cut-of date of 15 July 2011. Report could not be taken into account in the analysis of the quantitative data. However, these reports are included int the sections B and E of this Working Document.

 Report not supplied before the cut-of date of 30.11.2011.

SECTION A: DATA ON GENERATION, TREATMENT AND SHIPMENT OF HAZARDOUS WASTE IN THE EU MEMBER STATES

Contents:

- I. Generation of hazardous waste
- II. Shipment of hazardous waste and other notified waste out of EU Member States
- III. Shipment of hazardous waste and other notified waste into EU Member States
- IV. Import and export of notified waste from and to countries outside the EU
- V. Differences between reported amounts of “import” and “export”

Note that due to rounding effects minor inconsistencies may occur in the totals of the tables.

Figure 14: Shipment of hazardous waste and other notified waste out of Member States for total EU-27, as distributed on Y-codes in 2001-2009, in million tonnes

NOTE: This figure illustrates a classification problem encountered by many Member States. Within the EU the waste is predominately classified according to the European Waste List. As there is no unique relation between the EWL-codes and the Basel-codes, Member States have to find solutions for waste that cannot be classified by one of the Y-codes in the Basel Convention. Given the option to use codes from the EWL, the amount of non-classified waste has decreased in recent years.

NOTE: Some countries have reported difficulty in identifying the right code for the classification of the waste because some waste streams cannot be identified with any of the codes Y1 to Y47.

The figures shown include also the amount of waste exported from EU-12 throughout the period between 2001 and 2007. For example, the 6.010 tonnes of waste that were exported for disposal in 2003 to non-OECD countries was waste that was exported from Hungary, a country which at the time was a non-EU Member State
