35. Follow-up to the Council meeting (Economic and Financial Affairs) on 10 July 2012

The Committee took note of the proceedings of this Council meeting.

- One of the main items was the follow-up to the European Council, in particular as regards the issue of the single supervisory mechanism.
- The Council discussed at length the process of improving the next cycle of the European semester. The Council also adopted all the documents related to European Semester and took note of individual national declarations.
- The Presidency presented its programme. It included comments by the ECOFIN Chair on the Financial Transaction Tax (FTT) which will be reflected in the Council minutes.

36. Proposal for a Regulation of the European Parliament and of the Council on the marketing and use of explosives precursors (First reading)

- **Analysis of a compromise text with a view to agreement**
11990/12 COMPET 478 CHIMIE 56 ENFOPOL 214 ENV 587 MI 461
ENT 163 UD 186 CODEC 1797

The Committee reached agreement on the compromise package set out in document 11990/12 and agreed to mandate the Presidency to inform the European Parliament accordingly. It was noted that the Austrian and German delegations abstained from voting.

The Commission informed the Committee that it objected to the compromise package for reasons of principle since it held that the Common Understanding on delegated acts had not been fully respected.

The German delegation submitted the following unilateral statements :

"1. In view of both recital 4 and our understanding that it is not the objective of this Regulation to prohibit other measures taken by Member States to protect the public from the risks posed by the listed chemicals and particularly from the health risks involved, Germany regrets that it was not possible to make it clear, in either the wording of the Regulation or in the recitals, that existing European or national provisions, particularly those on the protection of health, remain unaffected. We acknowledge that recital 4 has been amended to include a reference to existing provisions for the protection of the environment and of workers' safety as an alternative to any such regulation. However, the reference to rules concerning workers' safety does not go far enough.

2. Germany points out that a greater harmonisation of the rules on the labelling of affected products would have been desirable with a view to the internal market and the avoidance of unnecessary bureaucracy for businesses. In addition, in line with the purpose of the Regulation and in order to avoid red tape, only the distributor should be subject to the labelling requirement provided for in the Regulation."

The Bulgarian delegation indicated that it would submit a unilateral statement for the Council minutes at the time of adoption of the Regulation.

- 37. Amended proposal for a Directive of the European Parliament and of the Council laying down standards for the reception of asylum seekers (Recast) (First reading)**
- **Analysis of draft compromise text resulting from the fifth trilogue with a view to a possible agreement**
12090/12 ASILE 100 CODEC 1824

The Committee endorsed, by a sufficient majority of delegations, the text of the recast of the Reception Conditions Directive as it appears in the annex of document 12598/12.

- 38. Proposal for a Regulation of the European Parliament and of the Council establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person (First reading)**
- **State of play on the ongoing negotiations**

11818/12 EF 153 ECOFIN 641 COMPET 465 IND 116 SOC 608 CODEC 1759

The Committee had a discussion on the state of play of these files and noted that the political agreement reached in the trilogues was not acceptable to a large number of delegations. The Presidency would pursue further contacts with the European Parliament and keep the Committee informed of the outcome of these contacts.

- **Any other business**
 - = **Deadlines for the transposition of EU legislation**
 - **Information from the Netherlands delegation**

NL presented its note on its concerns with transposition deadlines. An exchange of views followed during which the NL approach gained wide support. The Presidency noted the following main stands of the discussion :

- too short deadlines have negative influence on transposition ;
- more attention within the Council is needed to the deadlines when negotiating concrete legislative files. These deadlines should be considered as technical, not as a political issue ;

- further Commission efforts addressing transposition in impact assessments would be welcomed by Member States.

= **Agreement between the European Union and the Republic of Turkey on the readmission of persons residing without authorisation**

The Commission, at the request of AT, reported on the latest state of play in relation to efforts to proceed to the signature of the Draft Agreement.

= **Schengen Governance**

The Committee took note of the terms of a proposed communication from the Presidency to the European Parliament on this issue arising from recent contacts.
