Subject:	Proposal for a Regulation of the European Parliament and of the Council introducing emergency autonomous trade preferences for Pakistan - Outcome of the European Parliament's first reading (Strasbourg, 10 to 13 September 2012)

I. INTRODUCTION

In accordance with the provisions of Article 294 of the TFEU and the joint declaration on practical arrangements for the codecision procedure¹, a number of informal contacts took place between the Council, the European Parliament and the Commission with a view to reaching an agreement on this dossier at first reading, thereby avoiding the need for second reading and conciliation.

¹ OJ C 145, 30.6.2007, p.5

In this context, the Committee on International Trade presented a compromise amendment to the proposal for a Regulation. This amendment had been agreed during the informal contacts referred to above.

II. VOTE

When it voted on 13 September 2012, the plenary adopted the compromise amendment to the proposal for a Regulation. No other amendments were adopted. The Commission's proposal as thus amended constitutes the Parliament's first-reading position which is contained in its legislative resolution as set out in the Annex hereto ¹.

The Parliament's position reflects what had been previously agreed between the institutions. The Council should therefore be in a position to approve the Parliament's position. The act would then be adopted in the wording which corresponds to the Parliament's position.

¹ The version of the Parliament's position in the legislative resolution has been marked up to indicate the changes made by the amendments to the Commission's proposal. Additions to the Commission's text are highlighted in *bold and italics*. The symbol "■" indicates deleted text.

Position of the European Parliament adopted at first reading on 13 September 2012 with a view to the adoption of Regulation (EU) No .../2012 of the European Parliament and of the Council introducing emergency autonomous trade preferences for Pakistan

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure¹,

¹ Position of the European Parliament of 13 September 2012.

Whereas:

- (1) The relationship between the European Union (hereinafter referred to as 'the Union') and the Islamic Republic of Pakistan (hereinafter referred to as 'Pakistan') builds on the Cooperation Agreement which entered into force on 1 September 2004¹. One of its main objectives is to secure the conditions for and to promote the increase and development of trade between the Parties to the Cooperation Agreement. ***Respect for human rights, including core labour rights, and democratic principles are also an essential element of that Agreement.***
- (2) In July and August 2010, following heavy monsoon rains, devastating floods affected extensive regions of Pakistan, notably the areas of Balochistan, Khyber Pakhtunkhwa, Punjab, Sindh and Gilgit-Baltistan. According to United Nations sources, the flooding affected some 20 million people and 20 per cent of Pakistan's land, equivalent to at least 160 000 square kilometres, and leaving up to 12 million people in need of urgent humanitarian aid.
- (3) Humanitarian aid is of course the primary instrument in this kind of situation and the Union has been at the forefront in this field since the beginning of the emergency, ***committing in excess of EUR 423 million in emergency aid to Pakistan.***
- (4) It will be important to use all available means to support Pakistan's recovery from this emergency ***including the proposed exceptional trade measures to boost Pakistan's exports in order to contribute to its future economic development, while ensuring that consistency and coherence is maintained at all levels with a view to developing a sustainable long-term strategy.***
- (5) ***The severity of this natural disaster demands an immediate and substantial response, which would take into account the geostrategic importance of Pakistan's partnership with the Union, mainly through Pakistan's key role in the fight against terrorism, while contributing to the overall development, security and stability of the region.***
- (6) ***The effects of the autonomous trade preferences should be able to be measured concretely in terms of job creation, poverty eradication and the sustainable development of Pakistan's working population and poor.***

¹ Council Decision of 29 April 2004 concerning the conclusion of the Cooperation Agreement between the European Community and the Islamic Republic of Pakistan (OJ L 378, 23.12.2004, p. 22).

- (7) The European Council, in a Declaration on Pakistan attached to its Conclusions of 16 September 2010, resolved to mandate Ministers to agree urgently on a comprehensive package of short, medium and longer term measures which will help underpin Pakistan's recovery and future development, comprising inter alia ambitious trade measures essential for economic recovery and growth.
- (8) In particular, the European Council underlined its firm commitment to grant exclusively to Pakistan increased market access to the Union through the immediate and time limited reduction of duties on key imports from Pakistan. ***In the light of that Declaration, the Commission proposed a package identifying 75 tariff lines specific to Pakistan's core export sectors in those areas worst hit by the floods, asserting that an increase in Pakistani exports to the Union of EUR 100 million or more a year would provide real, substantial and worthwhile assistance to the region.***
- (9) ***Pakistan's trade with the Union is mainly composed of textiles and clothing products which accounted for 73,7 % of Pakistani exports to the Union in 2009. Pakistan also exports ethanol and leather, which are in addition to textiles and clothing, sensitive industrial products in certain Member States where jobs in the industry have already been impacted to varying degrees by the global recession. These industries are struggling to adapt to a new global trading environment.***
- (10) ***The textiles sector is of key importance to the Pakistani economy, accounting for 8,5 % of gross domestic product and employing 38 % of the labour force about half of whom are women.***
- (11) ***Given the hardship being suffered by the Pakistani people due to the devastating floods, it is therefore appropriate to extend exceptional autonomous trade preferences to Pakistan by suspending for a limited period of time all tariffs for certain products of export interest to Pakistan. The provision of these trade preferences should only cause limited adverse effects on the domestic market of the Union and should not affect negatively least developed Members of the World Trade Organisation (WTO).***
- (12) ***Those measures are proposed as part of an exceptional package, in response to the specific situation in Pakistan. Under no circumstances should they constitute a precedent for the Union's trade policy with other countries.***
- (13) The autonomous trade preferences will be either in the form of an exemption from customs duties upon import in the Union or in the form of tariff-rate quotas.

- (14) Entitlement to benefit from the **exceptional** autonomous trade preferences is conditional on Pakistan's compliance with the relevant rules of origin of products and the procedures related thereto as well as involvement in effective administrative cooperation with the Union in order to prevent any risk of fraud. Serious and systematic violations of the conditions for the entitlement to the preferential arrangement, fraud or failure to provide administrative cooperation for the verification of origin of goods should constitute reasons for a temporary suspension of the preferences. █
- (15) For the purposes of defining the concept of originating products, certification of origin and administrative cooperation procedures, Part I, Title IV, Chapter 2, Section 1 **and Section IA** of Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code¹, **with the exception of Articles 68 to 71, 90 to 97i and 97j(2) of those Sections**, should apply. However, as regards cumulation of origin, only materials originating in the Union should be allowed to be used for these purposes. Regional cumulation and other types of cumulation except that with the materials originating in the Union should not apply in relation to the determination of originating status of products covered by the autonomous trade preferences established pursuant to this Regulation in order to ensure that sufficient transformation takes place in Pakistan.
- (16) Extending autonomous trade preferences to Pakistan **requires** a waiver from the obligations of the Union under Articles I and XIII of the General Agreement on Tariffs and Trade 1994 (GATT) pursuant to Article IX of the Agreement establishing the WTO. **The WTO General Council granted such a waiver on 14 February 2012.**
- █
- (17) In order to ensure an immediate and sustainable impact on the economic recovery of Pakistan in the aftermath of the floods **and in accordance with the WTO waiver**, it is recommended to limit the duration of the autonomous trade preferences until 31 December 2013.
- █
- (18) **In order to react swiftly and ensure the integrity and orderly functioning of the autonomous trade preferences for Pakistan and in order to ensure uniform conditions for the implementation of this Regulation concerning temporary suspension due to non-compliance with customs-related procedures and obligations, due to serious and systematic violations of the fundamental principles of human rights, democracy and the rule of law by Pakistan, or due to Pakistan not respecting the condition that it abstain from 1 July 2012 from introducing new or increasing existing export duties or charges having equivalent effect or any other restriction or prohibition on the export or sale for export of any materials used in the production of the products covered by this Regulation, powers should be conferred on the Commission to adopt immediately applicable implementing acts, where imperative grounds of urgency so require. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general**

¹ OJ L 253, 11.10.1993, p. 1.

principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers¹.

- I**
- (19) *In order to make the necessary technical adaptations to the list of goods for which the autonomous trade preferences apply and to remove products from the scope of this Regulation where volumes of imports covered by this Regulation increase beyond certain levels the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amending Annexes I and II to reflect changes in the combined nomenclature and to remove products from the scope of this Regulation. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.*
- (20) *In order to address without delay significantly increased imports of the products exempted from customs duties when imported into the Union and which may have an adverse impact upon Union producers, the Commission should adopt delegated acts removing products from the scope of this Regulation under the urgency procedure.*
- (21) *No later than two years after the expiry of this Regulation, the Commission should submit a report to the European Parliament and to the Council on the effects of these autonomous trade preferences. That report should include a detailed analysis of the effects of these preferences on the economy of Pakistan and their impact on trade and the Union's tariff income as well as on the Union economy and jobs. In reporting, the Commission should take into account in particular the effects of the autonomous trade preferences in terms of job creation, poverty eradication and the sustainable development of Pakistan's working population and poor,*
