"As noted above, the authorities in the **Czech Republic** seem to have all necessary tools in place to freeze and confiscate criminal assets. Since detailed statistical data concerning the seizure of any assets in a criminal proceedings is collected in the Czech Republic only since 1 January 2011. ~~However, due to the lack of statistics it was~~ is difficult for the evaluation team to evaluate in how many cases the tools were actually applied, how many motions were made by the prosecutor, etc. It is also was not clear, whether the two punitive measures provided by criminal law (confiscation and fines) are applied very often."

**Footnote 1 was deleted.**
