2. STATUS OF RIVER BASIN MANAGEMENT PLAN REPORTING AND COMPLIANCE

Portugal has not reported RBMPs to the Commission. All the 8 RBMPs of Continental Portugal, and the RBMP of the Azores started Public Consultation in the second semester of 2011. All except Azores RBMP have concluded the consultation period. No information on the RBMP of Madeira could be found. It should be noted that no WFD Art 5 Report has been submitted by Madeira (or by Portugal as MS). However, Portuguese authorities have informed that they are working on the final revisions of the various plans in order to be able to proceed with their approval and publication in the official journal (Diario da Republica).

In continental Portugal the development of the RBMPs has been coordinated by 5 River Basin Districts Authorities created in 2007 and whose activities started in 2009.

These entities have been integrated under the renewed Portuguese Environment Agency (APA I.P). The organic structure of APA (Decree Law no. 56/2012, of 12 March) establishes that APA is the Portuguese Water Authority and concentrates all the functions of the 5 River Basin Districts Authorities of Continental Portugal.

The competences of the RBDA of Azores autonomous region have been approved by Regional Regulatory Decree 23/2011/A which establishes that the Competent Authority is the Regional Secretariat of Environment and the Sea.

The competences of the RBDA of Madeira autonomous region have been approved by Regional Legislative Decree 33/2008/M which establishes that the Regional Water Authority is the Regional Directorate of Environment, and that the coastal zone and safety issues (floods, safety and security related to dams) are administered by the Regional Secretariat of Social Equipment, except in ports in which the authority is the Port Administration of the Autonomous Region of Madeira.

A court ruling has been issued against Portugal by the European Court of Justice (ECJ) on the failure to adopt and report River Basin Management Plans for all of their respective River Basin Districts².
