DRAFT MINUTES

Subject: 3471st meeting of the Council of the European Union (**EDUCATION, YOUTH, CULTURE AND SPORT**), held in Brussels on 30 and 31 May 2016

In document 9615/16 ADD 1, on page 7, the last paragraph of item 11 should read as follows:

In order to increase the demand for European films, many ministers spoke in favour of co-productions. In this regard, **some ministers** emphasised the need to simplify current national rules for co-productions which vary from country to country. Some ministers expressed doubts about the effect of quotas on the distribution of European content, **in particular for on-demand services, while some other Ministers found quotas to be an efficient tool to promote European works.**
