- Request for "State of play and exchange of views on the preparation of the delegated acts related to the reformed CAP"

The last information available to Member States dates back to the discussion which took place during the SCA of 13 January 2014. On the other hand, the European Commission had several opportunities to inform the members of the Committee for Agriculture and Rural Development of the European Parliament about the state of play on this issue, and to exchange views on its substance.

Therefore, the abovementioned Member States request the opportunity for the Council to be informed by the Commission about the latest developments on this file and for Member States to express their views on it.
