The Presidency noted that the NL, CY, CZ, EL, IT, HR, AT, BE, PL, LT, BG delegations did not support the mandate as proposed¹, but concluded that there was a qualified majority support for the Presidency to proceed with the trilogue on the basis of the mandate. On the advice of the CLS, the level of support was calculated by reference to the voting rules which will be applicable as of 1 April 2017 for the adoption of Council acts. The FR delegation announced the presentation of a statement (see [Annex](#)).

The SCA took note of delegations' and the Commission's initial reactions to the suggested compromise package set out in document 6574/17. Delegations were invited to send written comments by Wednesday, 1 March, close of business. The Presidency will prepare revised compromise suggestions as a basis for further discussion at a forthcoming SCA meeting.

6. **Organisation of future work**

The Presidency informed the SCA about the "Agriculture and Fisheries" Council on 6 March 2017, and gave some logistical information about both the SCA meeting and the informal meeting of Agriculture Ministers that will take place in Malta in May 2017.

The EL delegation took the floor to request an AOB point at the Council on 6 March, on coupled aid. So did the PL delegation (on difficulties in the fruit sector), the CZ delegation (on Unfair Trading Practices, together with the SI delegation) and the IT delegation (on the forum of rice-producing countries which took place in Milan on 22 February 2017).

Statement by France to be annexed to the minutes of the Special Committee on Agriculture meeting held on 27 February 2017.

= Mandate for the next trilogue

France welcomes the Maltese Presidency's efforts to strike a balanced compromise in 5936/17.

We would now encourage the Presidency, in the context of future discussions, to continue alignment with the European Parliament's position on the minimum frequency of inspections, in order to ensure there is at least one annual on-the-spot inspection for all operators.

As regards Article 20b 'Measures to be taken in cases of the presence of non-authorised substances', we would point out that the text of the revised mandate does not provide any solutions in terms of compensation for farmers affected by contamination from outside sources. We wish to stress that the rendez-vous clause as set out in the general approach of June 2015 is a better response.

We therefore consider that the text requires further work in future trilogues.
