**Council conclusions on cultural heritage as a strategic resource for
a sustainable Europe**

THE COUNCIL OF THE EUROPEAN UNION,

RECOGNISING THAT

1. the Treaty stipulates that the Union shall ensure that Europe's cultural heritage is safeguarded and enhanced;
2. cultural heritage consists of the resources inherited from the past in all forms and aspects - tangible, intangible and digital (born digital and digitized), including monuments, sites, landscapes, skills, practices, knowledge and expressions of human creativity, as well as collections conserved and managed by public and private bodies such as museums, libraries and archives. It originates from the interaction between people and places through time and it is constantly evolving. These resources are of great value to society from a cultural, environmental, social and economic point of view and thus their sustainable management constitutes a strategic choice for the 21st century;
3. cultural heritage is a major asset for Europe and an important component of the European project;
4. cultural heritage as a non-renewable resource that is unique, non-replaceable or non-interchangeable is currently confronted with important challenges related to cultural, environmental, social, economic and technological transformations that affect all aspects of contemporary life.

EMPHASISING THAT

5. cultural heritage plays an important role in creating and enhancing social capital because it has the capacity to:
 - a) inspire and foster citizens' participation in public life;
 - b) enhance the quality of life and the well-being of individuals and their communities;
 - c) promote diversity and intercultural dialogue by contributing to a stronger sense of “belonging” to a wider community and a better understanding and respect between peoples;
 - d) help to reduce social disparities, facilitate social inclusion, cultural and social participation and promote intergenerational dialogue and social cohesion;
 - e) offer possibilities to develop skills, knowledge, creativity and innovation;
 - f) be an effective educational tool for formal, non-formal and informal education, life-long learning and training.

6. cultural heritage has an important economic impact, including as an integral part of the cultural and creative sectors, because, among other things, it:
 - a) constitutes a powerful driving force of inclusive local and regional development and creates considerable externalities, in particular through the enhancement of sustainable cultural tourism;
 - b) supports sustainable rural and urban development and regeneration as illustrated by initiatives by many European regions and cities;
 - c) generates diverse types of employment.

7. cultural heritage plays a specific role in achieving the Europe 2020 strategy goals for a “smart, sustainable and inclusive growth” because it has social and economic impact and contributes to environmental sustainability;

8. cultural heritage cuts across several public policies beyond the cultural, such as those related to regional development, social cohesion, agriculture, maritime affairs, environment, tourism, education, the digital agenda, research and innovation. These policies have a direct or indirect impact on cultural heritage and at the same time cultural heritage offers a strong potential for the achievement of their objectives. Therefore, this potential should be fully recognised and developed.
