1. INTRODUCTION

Draft Amending Budget (DAB) No 4 for the year 2014 concerns the following:

- A revision of the forecast of Traditional Own Resources (TOR, i.e. customs duties and sugar sector levies), VAT and GNI bases, the budgeting of the relevant UK corrections as well as their financing resulting in a change in the distribution between Member States of their own resources contributions to the EU budget.
- A revision of the forecast of other revenue, arising from a series of fines that have become definitive and can therefore be budgeted.
- The reduction of the budgetary appropriations, both commitments and payments by EUR 248 460 for the European Data Protection Supervisor, due to the postponement of the appointment of the new European Data Protection Supervisor and Assistant European Data Protection Supervisor.
- The modification of budget article 13 03 64 *European Regional Development Fund (ERDF) - European territorial cooperation* into three separate budget items, to reflect the final adoption of the related legal base.
- The creation of a new budget article 05 03 09 *Reimbursement of direct aids in relation to financial discipline*, with a 'p.m.'; and the replacement of the dash '-' for payment appropriations on budget item 11 06 77 03 *Preparatory action – Maritime policy* by a 'p.m.'

The overall impact in terms of expenditure, is a reduction of EUR 248 460 for both commitment and payment appropriations in heading 5.

The overall impact in terms of revenue, is a substantial decrease in the requirements for Own Resources by EUR 2 059 million, which is mainly due to the budgeting of fines and interests. In addition, the distribution by Member State is adjusted.

2.1. Introduction

The following summary table shows the distribution of total own resources payments between Member States as budgeted in:

- The 2014 Budget,
- The Draft Amending Budget (DAB) 2/2014,
- The Draft Amending Budget (DAB) 3/2014,
- The present DAB 4/2014.

2.2. Revision of the forecast of TOR, VAT and GNI bases

According to established practice, the Commission proposes to revise the financing of the budget on the basis of more recent economic forecasts, adopted at a meeting of the Advisory Committee on Own Resources (ACOR).

The revision concerns the forecast of Traditional Own Resources (TOR) to be paid to the budget in 2014 as well as the forecast of the 2014 Value Added Tax (VAT) and Gross National Income (GNI) bases. The forecast in the 2014 Budget was established at the 157th ACOR meeting on 16 May 2013 (the customs duties forecast was revised in autumn 2013 with amending letter (AL) 2/2014⁷). The revised forecast taken into account in the present DAB 4/2014 was adopted at the 160th ACOR meeting on 19 May 2014. The use of an updated forecast of own resources improves the accuracy of the revenue forecasts and hence of the payments that Member States are asked to make during the budgetary year.

As compared to the forecast agreed in May 2013 (for the customs duties the reference is the revised forecast in amending letter (AL) 2/2014), the forecast agreed in May 2014 has been revised as follows:

- The total forecast of 2014 net sugar sector levies is now EUR 124,5 million (after deduction of 25 % in collection costs). However, this forecast needs to be corrected by a negative amount of EUR 214 million corresponding to the estimated reimbursements to Member States of sugar levies according to Council Regulation (EU) No 1360/2013 of 2 December 2013. The difference between these two amounts (i.e. a negative amount of EUR 89,5 million) is entered in the DAB 4/2014.
- Total 2014 net customs duties (including duties on agricultural products) are now forecast at EUR 15 754,1 million (after deduction of 25 % in collection costs), which represents a decrease of 2,67% relative to the forecast of EUR 16 185,6 million included in the AL 2/2014. The main reason for this decrease is a lower forecasted growth rate of extra EU imports. The forecast was made on a Member State basis, using forecast growth rates of extra-EU imports as published in the Spring 2014 economic forecasts of 2 May 2014.
- The total 2014 EU uncapped VAT base is now forecast at EUR 5 916 888,4 million, which represents a decrease of -1,08 % compared to the May 2013 forecast of EUR 5 981 772,3 million. The total 2014 EU capped VAT base⁸ is forecast at EUR 5 896 578,5 million, which represents a decrease of -1,08 % compared to the May 2013 forecast of EUR 5 960 726,5 million.
- The total 2014 EU GNI base is forecast at EUR 13 492 916,7 million, which is practically unchanged compared to the May 2013 forecast of EUR 13 499 401,4 million.

The exchange rates of 31 December 2013 have been used for converting the forecast VAT and GNI bases in national currency into euro (for the ten Member States that are not members of the euro zone). This avoids distortions since it is this rate that is used to convert budgeted own resources payments from euro into national currency when the amounts are called in (as stipulated in Article 10(3) of Council Regulation No 1150/2000).

The revised forecasts of TOR, uncapped VAT bases and GNI bases for 2014, as adopted at the 160th ACOR meeting on 19 May 2014, are set out in the following table (rounded figures):

⁷ AL 2/2014, COM(2013) 719 final, 16.10.2013, http://ec.europa.eu/budget/library/biblio/documents/2014/AL/COM_2013_719_en.pdf

⁸ In accordance with Council Decision 2007/436, if the VAT base of a Member State exceeds 50 % of its GNI, then it is capped at these 50 %. For DAB 4/2014, five Member States will have their VAT base capped at 50 % of GNI: Croatia, Cyprus, Luxembourg, Malta and Slovenia.

2.3. 2013, 2011 and 2010 UK correction

2.3.1 Introduction

The correction of budgetary imbalances in favour of the United Kingdom (UK correction), to be budgeted in the present DAB, concerns three years: 2010, 2011 and 2013.

The 2010, 2011 and 2013 UK corrections are subject to the rules of Council Decision 2007/436/EC, Euratom on the system of the European Communities' own resources¹⁰ and its accompanying working document, the *2007 Calculation Method*¹¹. Pursuant to the rules of this Decision, the net TOR "windfall gains" of the UK resulting from the increase since 2001 in the percentage of TOR retained by Member States as a compensation for their collection costs are neutralised and the allocated

⁹ The amounts highlighted in grey result from the capped VAT bases, as explained in footnote 3 above.

¹⁰ OJ L 163, 23.6.2007, p. 17

¹¹ Commission working document of 23 May 2007 "Calculation, financing, payment and entry in the budget of the correction of budgetary imbalances in accordance with Articles 4 and 5 of Council Decision [2007/436/EC, Euratom] on the system of the European Communities' own resources" available on:

http://ec.europa.eu/budget/library/biblio/documents/financing/calc_own_res_2007_en.pdf.

expenditure is adjusted by:

- pre-accession expenditure (PAE) paid under appropriations for payments relating to the year preceding the enlargement. The same adjustment for PAE will be followed at the occasion of each future enlargement of the Union but it has ceased to apply as from the 2013 correction budgeted for the first time in 2014;
- the total allocated expenditure in Member States that have acceded to the EU after 30 April 2004, except for agricultural direct payments and market-related expenditure as well as that part of the rural development expenditure originating from the EAGGF, Guarantee section. This reduction was phased-in progressively (20 % for 2008 correction budgeted in 2009, 70 % for 2009 correction budgeted in 2010 and 100 % from 2010 correction budgeted in 2011).

Furthermore, the share of Austria, Germany, the Netherlands and Sweden in the financing of the UK correction is reduced to one fourth of their normal share. The reduction is financed by the other Member States, excluding the UK.

The difference between the *definitive amount of the 2010 UK correction* and the amount previously budgeted (the *2nd update* entered in AB 4/2012) is entered in chapter 35 of DAB 4/2014. The difference between the *3rd update of the 2011 UK correction* and the amount previously budgeted (the *1st update* entered in AB 4/2012) is entered in chapter 36 of DAB 4/2014.

The amount of the *1st update* of the 2013 UK correction is entered in chapter 15 of the DAB 4/2014, as a replacement of the *provisional amount* of the 2013 UK correction entered in chapter 15 of the Budget 2014.

2.3.2 Calculation of the corrections

In the present DAB, the calculation and financing of the *1st update of the 2013 UK correction*, the *3rd update of the 2011 UK correction* and the *definitive amount of the 2010 UK correction* are entered.

As far as the *2nd update of the 2012 UK correction* is concerned, the Commission shall (according to the *2007 Calculation Method*) propose to budget updates if they differ significantly from the corresponding previously budgeted calculation. According to the Commission's current calculations, the amount of the 2012 UK correction does not differ significantly from the previously budgeted amount (*1st update* of the 2012 UK correction entered in AB 6/2013). Consequently, the update is not proposed for budgeting in the present DAB 4/2014.

2.3.2.1 2013 UK correction

The following table summarises the changes between the *provisional amount* of the 2013 UK correction entered in Budget 2014 and the *1st update* of the 2013 UK correction to be entered in DAB 4/2014.

The *3rd update* of the 2011 UK correction is EUR 213 million higher as compared to the *1st update* of the 2011 UK correction entered in AB 6/2012.

For the 2011 UK correction the difference in the original amount of the UK correction between Own Resources Decision (ORD) 2000 and ORD 2007 is EUR 2 142,4 million in 2004 prices and EUR 2 352,3 million in current prices.

2.3.2.3 2010 UK correction

The following table summarises the changes between the *2nd update* of the 2010 UK correction entered in AB 4/2012 and the *definitive amount* of the 2010 UK correction to be entered in DAB 4/2014.

The *definitive amount* of the 2010 UK correction is EUR 109 million higher than the *2nd update* of the 2010 UK correction entered in AB 4/2012.

For the 2010 UK correction the difference in the original amount of the UK correction between Own Resources Decision (ORD) 2000 and ORD 2007 is EUR 1 964,5 million in 2004 prices and EUR 2 127,9 million in current prices.

2.3.2.4 EUR 10,5 billion ceiling

According to article 4(2) of Decision 2007/436, during the period 2007-2013 the additional contribution of the United Kingdom resulting from the reduction of allocated expenditure by the expenditure related to enlargement as referred to in paragraph (1)(g) of ORD 2007 shall not exceed EUR 10,5 billion, measured in 2004 prices. The cumulative effect of 2007 to 2012 corrections is EUR 8 230,0 million in 2004 prices and EUR 9 015,4 million in current prices:

2.3.3 Entry in the DAB 4/2014 of the 1st update of the 2013 UK correction the 3rd update of the 2011 UK correction and of the definitive amount of the 2010 UK correction

2.3.3.1 2013 UK correction (chapter 15)

The amount of the UK correction to be budgeted in chapter 15 of the present DAB 4/2014 is the amount of the 1st update of the 2013 UK correction (i.e. EUR 5 542 182 331 replacing the EUR 5 297 340 704 entered in Budget 2014).

This amount is to be financed along the revised 2014 GNI bases of the present DAB 4/2014. The budgeting of this amount in chapter 15 is summarised below:

2.3.3.2 2010 UK correction (chapter 35)

The amount of the UK correction to be budgeted in chapter 35 of the present DAB 4/2014 is the difference between the *definitive amount* of the 2010 UK correction (i.e. EUR 3 739 545 621) and the 2nd update of the 2010 UK correction (i.e. EUR 3 630 542 087 entered in AB 4/2012) amounting to EUR 109 003 534.

This amount is to be financed along the revised 2010 GNI bases as known at the end of 2013. The budgeting of this amount in chapter 35 is summarised below:

2.3.3.3 2011 UK correction (chapter 36)

The amount of the UK correction to be budgeted in chapter 36 of the present DAB 4/2014 is the difference between the *3rd update* of the 2011 UK correction (i.e. EUR 4 188 411 749) and the *1st update* of the 2011 UK correction (i.e. EUR 3 975 000 971 entered in AB 4/2012) amounting to EUR 213 410 778.

This amount is to be financed along the revised 2011 GNI bases as known at the end of 2013. The budgeting of this amount in chapter 36 is summarised below:

3. OTHER REVENUE – FINES AND INTERESTS

In accordance with Article 83 of the Financial Regulation, the Commission shall record the amounts received by way of fines, penalties and sanctions as soon as the decisions imposing them may no longer be overruled by the Court of Justice of the European Union. The DAB 3/2014 included additional revenue stemming from fines (revenue article 7 1 0 — ‘Fines, periodic payments and other penalties’) by EUR 1 408 million, and for revenue from interests (revenue article 7 0 1 — ‘Interest on late payments and other interest on fines’) by EUR 9 million.

Since then, a series of other fines have become definitive. A fine becomes definitive when it is not appealed before the General Court or when appealed, it has been confirmed by the General Court and by the Court of Justice. Besides, some definitive fines are paid with delays or by instalments. Taking into account the definitive fines that have been recovered since the presentation of the DAB 3/2014, it is proposed to budget an amount of EUR 2 059 million as additional revenue. The detail by line is shown in the table below:

Revenue lines	DAB 3/2014	DAB 4/2014	New amount for additional fines
7 0 1 — Interest on late payments and other interest on fines	9,0	230,0	239,0
7 1 0 — Fines, periodic penalty payments and other penalties	1 408,0	1 829,0	3 237,0
Total	1 417,0	2 059,0	3 476,0

The additional fines and interests that have become available since the DAB 3/2014 mostly (90 %) stem from two cases. These fines were due in the second half of June 2014, at which point none of the companies concerned had introduced an appeal.

4. EUROPEAN DATA PROTECTION SUPERVISOR (SECTION IX)

In accordance with article 41(2) of the Financial Regulation, the European Data Protection Supervisor has requested that the Commission present a draft amending budget on its behalf. The purpose is to reduce by EUR 248 460 both commitment and payment appropriations (non-differentiated expenditure). The selection processes for the new European Data Protection Supervisor and the new Assistant Data Protection Supervisor were expected to be completed in January of 2014. However, it was decided not to issue a shortlist and to republish the posts. Therefore, an amount corresponding to ten months of temporary allowances for the incumbents, which had been calculated on the assumption that the earliest possible appointment of the new team would be 1 November 2014, is no longer needed, and the appropriations can be reduced accordingly. The new deadline for applications was set for 25 June 2014.

5. ADAPTATIONS TO BUDGET NOMENCLATURE AND CORRESPONDING BUDGETARY APPROPRIATIONS

Regulations (EU) No 1299/2013¹² and No 1303/2013 of the European Parliament and of the Council of 17 December 2013¹³ foresee the participation of pre-accession and neighbouring countries in European Regional Development Fund (ERDF) financed transnational cooperation programmes (European Territorial Cooperation part of the ERDF). To this end, appropriations from the European Neighbourhood Instrument (ENI) and from the Instrument for Pre-Accession Assistance (IPA II), in heading 4 will be used for participation in European Territorial Cooperation (ETC) programmes.

To show this additional financing from heading 4 to the European Territorial Cooperation under ERDF, it is proposed that the budget article 13 03 64 *European Regional Development Fund (ERDF) – European Territorial Cooperation* is replaced by budget item 13 03 64 01 *European Regional Development Fund (ERDF) – European Territorial Cooperation*, and that two new budget items are created as follows:

- For the contribution from IPA II: 13 03 64 02 *Participation of candidate countries and potential candidates in ERDF ETC – Contribution from heading 4 (IPA II)*;
- For the contribution from ENI: 13 03 64 03 *Participation of European neighbourhood countries in ERDF ETC – Contribution from heading 4 (ENI)*.

The funds made available from heading 4 for the ERDF European Territorial Cooperation were not known at the beginning of the period and, as a consequence, the related amounts were provisionally allocated to the lines financing the Cross-Border cooperation (CBC) with Member States part of the Instrument for Pre-Accession (IPA II) and of the European Neighbourhood Instrument (ENI).

As a consequence, it is proposed to transfer the amount of EUR 2 480 038 in commitment appropriations that correspond to the 2014 IPA contribution to ERDF ETC from 13 05 63 02 *Cross-border cooperation (CBC) — Contribution from Heading 4* to the new item 13 03 64 02. For payment appropriations, a token entry ("p.m.") is proposed.

¹² Regulation (EU) No 1299/2013 of the European Parliament and of the Council of 17 December 2013 on specific provisions for the support from the European Regional Development Fund to the European territorial cooperation goal (OJ L 347, 20.12.2013, p. 259).

¹³ Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) 1083/2006 (OJ L 347, 20.12.2013, p. 320).

Since the programming is not sufficiently advanced, a token entry ("p.m.") amount is proposed for the contribution from the ENI (13 03 64 03) both for commitment and payment appropriations.

The proposed change is justified for reasons of easier financial management; enhanced reporting and transparency, and ensuring nomenclature consistency over 2014-2020. In particular, the nomenclature proposed by the Commission for 2015 in its statement of estimates is the same as the one proposed in the present DAB 4/2014.

6. OTHER TECHNICAL CHANGES

The Commission proposes the creation of a new budget article 05 03 09 *Reimbursement of direct aids in relation to financial discipline* in order to facilitate the possible reimbursement of amounts deducted from direct aids following the application of financial discipline in accordance with Article 26(5) of Regulation (EU) No 1306/2013¹⁴. No appropriations are needed for this new article as in accordance with Article 169(3) of the Financial Regulation (EU Euratom) No 966/2012 non-committed appropriations for actions under shared management of the EAGF may be carried over to the next financial year for that purpose. The new article is intended to collect, at the end of the budget year, non-committed appropriations, up to the amount of the financial discipline entered in the budget of the preceding year, and up to 2% of the EAGF initial budgetary appropriations for actions under shared management of the budget year, available for carry-over and reimbursement in the following year. The creation of this same article has also been proposed in the Draft Budget 2015 so that the carry-over and reimbursement of amounts that were subject to financial discipline in 2014 can be done under one single budget article.

The Commission also proposes to replace the dash "—" for payment appropriations on budget item 11 06 77 03 *Preparatory action – Maritime policy* by a "p.m." as a final payment claim has to be settled against outstanding commitments from previous years.
