2014/0211 (NLE)

Proposal for a

COUNCIL REGULATION

**establishing the fishing opportunities for anchovy in the Bay of Biscay for the 2014/15
fishing season**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

Council Regulations on fishing opportunities adopted during the second half of each year no longer include a TAC for anchovy in the Bay of Biscay because of the different annual cycle followed by the biology of this stock and the scientific advice on it. An anchovy TAC needs to be set around July each year.

Under Council Regulation (EC) No 713/2013, the Council established the TAC for the fishery exploiting this stock applicable from 1 July 2013 until 30 June 2014. The TAC and its allocation to the Member States concerned must now be fixed for the following 12 months.

2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS

Having regard to the objectives of the Common Fisheries Policy, laid down in Regulation (EU) No 1380/2013 of 11 December 2013 of the European Parliament and of the Council, fishing opportunities should be established on the basis of the available scientific advice and by taking into account the biological and socio-economic aspects whilst ensuring fair treatment between fishing sectors.

For the anchovy stock in the Bay of Biscay, scientific advice is based on a fishing season running from 1 July 2014 until 30 June 2015. Preliminary advice from the International Council for the Exploration of the Sea (ICES) estimates that the Bay of Biscay anchovy 2014 spawning stock biomass, at the time of spawning, is 66,158 tonnes.

In 2009, the Commission presented a proposal for a Regulation establishing a long-term plan for the stock of anchovy in the Bay of Biscay and the fisheries exploiting that stock on which the proposed TAC is based. It is therefore appropriate to fix a TAC of 20,100 tonnes for the 2014/2015 fishing season corresponding to approximately an 18% increase from the previous TAC.

Given that the fishing season starts on 1st July 2014, it is appropriate to adopt the TAC as soon as possible.

Finally, Regulation (EU) No 1380/2013 entered into force on 1st January 2013. By virtue of Article 15 thereof, an obligation to land all catches (“the landing obligation”) will be applicable to the anchovy fishery in the Bay of Biscay as of 1st January 2015, therefore, no rules that have so far obliged fishermen to discard may apply to this fishery after that date.

Proposal for a

COUNCIL REGULATION

establishing the fishing opportunities for anchovy in the Bay of Biscay for the 2014/15 fishing season

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Regulation (EU) No 1380/2013 of the European Parliament and of the Council¹ requires that conservation measures be adopted taking into account available scientific, technical and economic advice, including, where relevant, reports drawn up by the Scientific, Technical and Economic Committee for Fisheries (STECF).
- (2) It is incumbent upon the Council to adopt measures on the fixing and allocation of fishing opportunities, including certain conditions functionally linked thereto, as appropriate. Fishing opportunities should be allocated to Member States in such a way as to ensure relative stability of fishing activities of each Member State for each fish stock or fishery and having due regard to the objectives of the Common Fisheries Policy established in Regulation (EU) No 1380/2013.
- (3) The total allowable catch (TACs) should be established on the basis of available scientific advice, taking into account biological and socio-economic aspects whilst ensuring fair treatment between fishing sectors.
- (4) Preliminary advice from the International Council for the Exploration of the Sea (ICES) estimates that the Bay of Biscay anchovy 2014 spawning stock biomass, at the time of spawning, is 66,158 tonnes. In 2009, the Commission presented a proposal for a Regulation establishing a long-term plan for the stock of anchovy in the Bay of Biscay and the fisheries exploiting that stock. On the basis of that proposal, it is appropriate to fix a TAC of 20,100 tonnes for the 2014/2015 fishing season corresponding to approximately an 18% increase from the previous TAC.
- (5) In accordance with Article 2 of Council Regulation (EC) No 847/96², it is necessary to establish to what extent the stock of anchovy in the Bay of Biscay is subject to the measures laid down in that Regulation.
- (6) From 1 January 2015, the fishery for anchovy in the Bay of Biscay will be subject to the landing obligation provided for in Article 15(1)(a) of Regulation (EU) No

¹ Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC (OJ L 354, 28.12.2013, p. 22).

² Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).

1380/2013 and therefore, under the conditions specified in that Regulation, catches in that fishery are to be retained on board, recorded, landed and counted against the quotas.

- (7) In view of the start of the 2014/15 fishing season and for the purpose of the annual reporting of catches, this Regulation should enter into force as soon as possible after its publication and should apply from 1 July 2014,

HAS ADOPTED THIS REGULATION:

Article 1
Fishing opportunities for anchovy in the Bay of Biscay

The total allowable catch (TAC) and its allocation between Member States for the fishing season running from 1 July 2014 until 30 June 2015 for the stock of anchovy in ICES Subarea VIII, as defined in Regulation (EC) No 218/2009 of the European Parliament and of the Council³, shall be as follows (in tonnes live weight):

Species:	Anchovy <i>Engraulis encrasicolus</i>	ICES Zone:	VIII (ANE/08.)
Spain	18 090	Analytical TAC	
France	2 010		
EU	20 100		
TAC	20 100		

Article 2
Special provisions on allocations of fishing opportunities

The allocation of fishing opportunities among Member States as set out in Article 1 shall be without prejudice to:

- (a) exchanges made pursuant to Article 16(8) of Regulation (EU) No 1380/2013;
- (b) deductions and reallocations made pursuant to Article 37 of Council Regulation (EC) No 1224/2009⁴;
- (c) reallocations made pursuant to Article 10(4) of Council Regulation (EC) No 1006/2008⁵;

³ Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic (OJ L 87, 31.3.2009, p. 70).

⁴ Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343, 22.12.2009, p. 1)

⁵ Council Regulation (EC) No 1006/2008 of 29 September 2008 concerning authorisations for fishing activities of Community fishing vessels outside Community waters and the access of third country

- (d) additional landings allowed under Article 3 of Regulation (EC) No 847/96;
- (e) quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96;
- (f) deductions made pursuant to Articles 105, 106 and 107 of Regulation (EC) No 1224/2009;
- (g) quota transfers and exchanges pursuant to Article 20 of Council Regulation (EU) No 43/2014.⁶

Article 3

Year-to-year management

The stock referred to in paragraph 1 shall be considered subject to an analytical TAC for the purposes of Regulation (EC) No 847/96. Article 3(2) and (3) and Article 4 of that Regulation shall apply.

Article 4

Landing of catches and by-catches before 1 January 2015

From 1 July 2014 until 31 December 2014, fish from the stock referred to in Article 1 shall be retained on board or landed only if:

- (a) the catches have been taken by vessels flying the flag of a Member State having a quota and that quota is not exhausted; or
- (b) the catches consist of a share in a Union quota which has not been allocated by quota among Member States, and that Union quota has not been exhausted.

Article 5

Data transmission

When, pursuant to Articles 33 and 34 of Regulation (EC) No 1224/2009, Member States submit to the Commission data relating to landings of quantities of stocks caught, they shall use the stock code “ANE/08”.

Article 6

Entry into force

This Regulation shall enter into force the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 July 2014 until 30 June 2015.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

vessels to Community waters, amending Regulations (EEC) No 2847/93 and (EC) No 1627/94 and repealing Regulation (EC) No 3317/94 (OJ L 286, 29/10/2008, p. 33).

⁶ Council Regulation (EU) No 43/2014 of 20 January 2014 fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, to Union vessels, in certain non-Union waters (OJ L 24, 28/01/2014, p. 1).
