NOTE

From: General Secretariat of the Council
To: Delegations
No. prev. doc.: 11709/1/14
Subject: Six-Monthly Progress Report on the implementation of the EU Strategy
against the Proliferation of Weapons of Mass Destruction (2014/I).

Delegations will find enclosed the Six-monthly Progress Report on the implementation of the EU
Strategy against the Proliferation of Weapons of Mass Destruction (2014/I), as endorsed by the
Council (Foreign Affairs) on 22 July 2014.

**SIX-MONTHLY PROGRESS REPORT ON THE IMPLEMENTATION OF THE EU
STRATEGY AGAINST THE PROLIFERATION OF WEAPONS OF MASS
DESTRUCTION (2014/I)**

INTRODUCTION

In line with the EU Strategy against the Proliferation of Weapons of Mass Destruction adopted by the European Council in December 2003 (doc. 15708/03), progress reports on the implementation of the Strategy are foreseen every six months. This progress report covers activities carried out in the first half of 2014.

The guiding principles of the EU in the field, in accordance with the objectives of the European Security Strategy, the EU WMD Non-proliferation Strategy and the New Lines for Action (doc. 17172/08), continue to be:

- (i) effective multilateralism, including the promotion of the universality of international treaties, conventions and other instruments and their national implementation, through diplomatic action and financial assistance to third countries and international organisations;
- (ii) close cooperation with partners and other third countries striving towards a global convergence of views on the need to strengthen the international non-proliferation regime. Efforts have continued to address non-proliferation issues in the EU's bilateral relations with all relevant countries, in particular through political dialogue meetings and more informal contacts;
- (iii) effective and complementary use of all available instruments and financial resources – the CFSP budget, the Instrument contributing to Stability and Peace (formerly the Instrument for Stability), other instruments - in order to maximise the impact of its activities in pursuit of the EU Foreign Policy objectives.

Work is therefore also closely coordinated within the broader Security policy and Conflict prevention activities undertaken by the EU.

The EEAS Principal Advisor and Special Envoy for Non-proliferation and Disarmament represented the EU in a number of key international meetings during the first half of 2014 (notably the G8/G7 Non-Proliferation Directors Group, the 2014 NPT Preparatory Committee, the Open-ended Consultations on the draft International Code of Conduct for Outer Space Activities).

In the first semester of 2014, the Special Envoy focused on:

- enhancing efforts to uphold the Nuclear Non-Proliferation Treaty (including its Article X on withdrawal). This remains a top priority for the EU, given also its direct relevance for major regional proliferation challenges in Iran and DPRK. The EU continued to support the efforts of the Finnish Facilitator aimed at convening the Helsinki Conference on the WMD-free zone in the Middle East, also through organising a capacity workshop for mid-level diplomats from the Middle East region with the assistance of the EU Non-Proliferation Consortium;
- taking forward the initiative on an International Code of Conduct for Outer Space Activities. The Special Envoy engaged in numerous bilateral outreach meetings with key partners, including Indonesia and Russia. On 27-28 May 2014 in Luxembourg, he chaired Open-ended consultations on the draft Code, bringing together around 140 representatives from more than 60 countries;
- promoting the universalization and entry-into-force of the Comprehensive Nuclear-Test-Ban Treaty (CTBT), and enhancing the visibility of the EU's outreach activities in this field by participating in the CTBTO Asian Regional Conference in Jakarta (19-21 May 2014) and by presenting the EU's position on a number of security policy and non-proliferation topics in the OSCE Forum for Security Cooperation;
- intensifying/initiating non-proliferation dialogues with major partners outside of the EU and pursuing the mainstreaming of non-proliferation issues in the EU's bilateral relations with all relevant countries, in particular through political dialogue meetings and more informal contacts.

1. NUCLEAR ISSUES

The EU Council Working Group on Non-Proliferation (CONOP), in close cooperation with the relevant EU Delegations, contributed actively to preparations of EU positions for the 2014 NPT Preparatory Committee meeting held in New York on 28 April – 9 May 2014 and the IAEA Board of Governors meetings in March and June 2014. It provided strategic guidance and prepared EU contributions to other international meetings, such as those of the NSG Consultative Group, the CTBTO Preparatory Commission, the Missile Technology Control Regime (MTCR), the Australia Group (AG) and other relevant meetings within its mandate.

1.1. Follow up to the 2010 Non-Proliferation Treaty (NPT) Review Conference

Discussions took place with the Chair of the Third NPT PrepCom in the CONOP meeting on 23 April 2014. In view of the 2015 Review Conference, the three informal ‘Friends of the Chair’ sub-working groups preparing EU contributions for the 2015 NPT Review Cycle, chaired by EU Member States with EEAS participation, have continued their activity. An EU general statement and three cluster statements were delivered by the Special Envoy for Non-Proliferation and Disarmament at the Third PrepCom meeting and two EU Working Papers (EU's efforts to strengthen nuclear security and EU's efforts to strengthen nuclear safety) were presented. A well-attended side-event on EU's efforts to strengthen nuclear security was held in the margins of the PrepCom.

On the WMDFZ in the Middle East, the EU continued to fully support the on-going preparations for a successful Conference and in particular the tireless efforts of its Facilitator, Ambassador Laajava of Finland, and his team, to lay the groundwork in that respect. A capacity workshop addressed to mid-level and junior diplomats from the concerned Countries of the Region was organised on 18-19 June 2014 in Brussels. Like in previous occasions, the EU Non-proliferation Consortium was instrumental in setting up this activity. In official meetings with the League of Arab States and several Arab countries, the EU called on all parties in the region to urgently and proactively engage with the Facilitator and the Conveners with the aim of enabling the Conference to be convened as soon as possible. Close contacts were maintained with the Facilitator and his team by the EEAS at all levels.

1.2. International Atomic Energy Agency (IAEA)

The EU has continued to enhance its support to the International Atomic Energy Agency in Vienna. The EU remains a key donor to the Nuclear Security Fund, with nearly EUR 40 million committed since 2004 (including the latest commitment to provide the Agency with EUR 8.05 million, based on Council Decision 2013/517/CFSP of 21 October 2013). Further on nuclear security, the EU has contributed with its technical expertise to training activities and workshops organised by the IAEA and targeted third countries to enhance capabilities in combating illicit trafficking of nuclear and other radioactive materials. The EU and the IAEA have continued to coordinate their support to third countries in this field. The second EU-IAEA Annual Senior Officials Meeting (SOM), involving the EEAS, the European Commission/Euratom and IAEA representatives at senior level, was held on 20-21 February 2014 in Vienna, following the successful visit of IAEA DG Yukiya Amano to Brussels (3-4 February). The meeting was opened by DG Amano. A joint press statement was adopted. The aim of the SOM meetings is to enhance cooperation in all areas of the IAEA activity, increase visibility of EU contributions and further coordinate EU action, in order to ensure complementarity and avoid overlap between activities undertaken by the EU CBRN Centres of Excellence and the IAEA in the field of Nuclear Security (to these effect, the EU / Joint Research Centre and the IAEA have also signed Practical Arrangements to guide their cooperation). In the margins of the SOM meeting, the first meeting of the Senior Officials Liaison Committee was held to follow up on the implementation of the EURATOM-IAEA Memorandum of Understanding on Nuclear Safety signed in September 2013. The third EU-IAEA SOM will be held in early 2015, at the premises of the European Commission in Luxembourg.

Since 2008, the EU has committed through Council Conclusions up to EUR 25 million to the IAEA LEU (Low Enriched Uranium) Bank. The EU transferred EUR 20 million from the Instrument contributing to Stability and Peace to support the Bank. A further contribution of up to EUR 5 million is to be provided from the CFSP budget, based on a Council Decision. The Council's approval is pending due to the unexpectedly slow progress in the finalisation of various agreements, including the Host State Agreement between the IAEA and Kazakhstan.

In the field of nuclear safeguards, the European Commission's Nuclear Safeguards Directorate continues to apply safeguards on all civil nuclear material in all 28 EU Member States, with an annual budget of approximately EUR 20 million. Safeguards verification activities are coordinated in close cooperation with the IAEA.

The IAEA and the Commission are continuously enhancing their cooperation in the field with the aim to optimise the use of human and financial resources, while maintaining the highest possible effectiveness of safeguards. The EU has also continued to provide important technical support to the IAEA in the field of nuclear safeguards through the European Commission Safeguards Support Programme.

While the EU has committed EUR 10 million to support an international project aiming at expanding and modernising the Seibersdorf Safeguards Laboratory in Austria (with EUR 9,50 million already transferred), the IAEA has turned to international donors, including the EU, to also contribute to the modernisation of the Nuclear Applications Laboratory in Seibersdorf.

At expert level, the European Commission in cooperation with the IAEA has launched a process to assess and support the improvement of the IAEA's Illicit Trafficking Database (ITDB) with regard to its response to user needs. A best practice document on harmonised reporting culture has been drafted and will be submitted to the IAEA. The development of the web-INF (Incident Notification Form), in order to modernise reporting means, has started in October 2013 and will be finalised in 2014.

EU funds provided to the IAEA under Joint Actions from I to IV, and Council Decision V helped to advance the IAEA's efforts to strengthen nuclear security in third countries with priority given to those States having the greatest needs to enhance their control of radioactive and nuclear material, thus assisting with reducing the risks. Efforts focused on strengthening States' legislative and regulatory infrastructure related to nuclear and other radioactive material, nuclear security measures for nuclear and other radioactive material in use, storage and transport and their related facilities and States' capabilities for dealing with nuclear and radioactive material out of control of national regulatory control, thus enabling the countries assisted to fulfil their national and international obligations. The latest Council Decision (IAEA VI, 2013/517/CFSP), adopted on 21 October 2013, is contributing to further enhancing nuclear security worldwide and to strengthening European security, by offering support to the IAEA's activities undertaken in the framework of the Nuclear Security Plan 2014-2017, primarily in the areas outlined above.

1.3. Comprehensive Nuclear-Test-Ban Treaty (CTBT)

The EU has actively promoted the early entry into force of the Comprehensive-Nuclear-Test-Ban Treaty (CTBT), based on the relevant Council Decisions (2010/461/CFSP of 26 July 2010 and 2012/699/CFSP of 13 November 2012) in support of the Comprehensive Nuclear-Test-Ban Treaty Organisation (CTBTO) and by conducting outreach efforts towards all countries that have not yet signed or ratified the CTBT, including the remaining Annex 2 States whose ratification is required for the entry into force of the Treaty. The EU will continue to raise awareness of the CTBT in various contexts, including in political dialogue meetings, in order to create further momentum for the ratification of the Treaty.

In that spirit, the Special Envoy for Non-Proliferation and Disarmament and representatives of the European Commission participated in a CTBTO Regional Conference held on 19-21 May in Jakarta for the Asian countries. The conference was co-organised by the Indonesian authorities and supported financially by the EU and Japan. The EU representatives delivered remarks highlighting both the political and financial EU support to the universalization and effective implementation of the CTBT, as well as the EU experiences in radiological emergency data exchange stressing civilian applications and benefits of the CTBTO International Monitoring System.

The nuclear test conducted by the DPRK on 12 February 2013 and the risks of possible further tests have clearly shown the real importance of the CTBTO International Monitoring System, which is currently developed and that the EU is supporting through its Council Decisions. CTBTO teams have been mobilised for providing all countries that signed the CTBT with relevant hot-line data for feeding decision-makers. The efforts regarding the maintenance of the 321 seismic auxiliary stations assisted through Joint Actions/Council Decisions from I to V, and the implementation of the CTBTO International Data Centre (which collects, analyses and shares data coming from the stations network) will contribute to the necessary sustainability of the system. Furthermore, it is of utmost importance to support the CTBTO Provisional Technical Secretariat in conducting further exercises such as the second Integrated Field Exercise to be organised in November/December 2014 in Jordan to test and improve the operative capabilities of the on-site inspection (OSI) regime.

Exploratory work has started and will continue to further support the activities of the Preparatory Commission of the CTBTO with EU funding.

1.4. Regional issues (Iran, DPRK)

The EU has remained fully committed to ongoing efforts aimed at achieving a diplomatic solution to the Iranian nuclear issue through negotiations, based on the NPT and the full implementation of all relevant UNSC and IAEA Board of Governors Resolutions. The interim agreement known as the Joint Plan of Action reached between the E3/EU+3 and Iran in Geneva in November 2013 entered into force on 20 January 2014 with a decision of the Foreign Affairs Council. After the beginning of the implementation of the Joint Plan of Action the EU High Representative, together with the Political Directors of the E3+3 (China, France, Germany, Russia, the United Kingdom and the United States), embarked on negotiations with Iran aimed to reach a long-term comprehensive solution to the Iranian nuclear issue as envisaged in the Joint Plan of Action. Several rounds of talks on political and expert level took place since then. In parallel to the E3/EU+3 track, the IAEA and Iran continued their cooperation under the Framework for Cooperation aimed at resolving all present and past outstanding issues, including those related to possible military dimensions. In February and May the IAEA and Iran agreed on some practical measures to be implemented by Iran, with other outstanding issues still remain to be addressed.

The EU remains concerned about Iran ballistic missile programs and activities and the inherent risks for the development of a nuclear payload for a missile and is determined that all issues raised in the UNSC resolutions 1737, 1747, 1803, 1835 and 1929 must be fully resolved. The November 2013 Joint Plan of Action foresees that the long-term solution of the Iranian nuclear crisis will have to address UNSC Resolutions, which, inter alia, cover ballistic missiles capable of delivering nuclear weapons.

Regarding the DPRK, the EU has continued to urge the DPRK to abide by its obligations assumed under the relevant UN Security Council Resolutions, including by abandoning all its existing nuclear and ballistic missile programs in a complete, verifiable and irreversible manner. The EU has continued to call on the DPRK to return to full compliance with the NPT and IAEA safeguards obligations, and provide the IAEA with the requested access to individuals, documentation, equipment and facilities. The EU has constantly been supportive of the resumption of the Six-Party Talks process, and has called for DPRK to return to credible and authentic international negotiations. In addition to implementing UN Security Council Resolutions, the EU has also introduced additional autonomous restrictive measures, including strengthened controls on dual use goods and the proliferation of conventional arms. The EU renewed its appeal to the DPRK urging it to ratify the CTBT and to refrain from any further provocative acts.

The EU remains extremely concerned by the DPRK's highly developed technology in the field of ballistic missiles, notably its long range missiles projects. The DPRK continues to defy UNSC Resolutions 1695, 1718, 1874, 2087 and 2094 and such a violation has been recently noted on the occasion of a new round of ballistic missile tests on 26 March 2014. These acts constitute a severe threat to peace and stability in the region, and have been condemned by the HR spokesman in the strongest terms.

2. CONFERENCE ON DISARMAMENT (CD)/TREATY BANNING THE PRODUCTION OF FISSILE MATERIAL FOR NUCLEAR WEAPONS OR OTHER NUCLEAR EXPLOSIVE DEVICES

The UNGA 68 First Committee Resolution on the Report on the Conference on Disarmament (CD), submitted by Ireland, called upon the CD to overcome its deadlock by adopting and implementing a balanced and comprehensive program of work. It welcomed decision CD/1956/Rev.1 to establish an informal working group with a mandate to produce a program of work. The EU expressed its hope several times that the informal working group will lead to concrete and tangible results. The EU also made it clear that in line with its Member States' longstanding commitment to the enlargement of the CD, it strongly supported appointing a special coordinator on the expansion of the membership. Consistent with the EU engagement with civil society, the EU also supports an enhanced interaction between civil society and the Conference on Disarmament, thus strengthening the contribution of NGOs and research institutions to the work of the Conference.

For the EU, the immediate commencement and early conclusion of the negotiation in the CD of a Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices on the basis of document CD/1299 and the mandate contained therein remains a priority. Such a Treaty would form an essential element of any framework for the achievement and maintenance of a world without nuclear weapons, in accordance with the goals of the NPT. The EU is looking forward to the outcome of the meetings of the group of governmental experts established by resolution 67/53 of the General Assembly.

3. CHEMICAL WEAPONS

Syria continued to play a prominent role on the agenda of OPCW. While the Syrian case has given the OPCW an unprecedented opportunity to test its cooperation with the UN, to receive international recognition (Nobel Peace prize) and further international support, it has also absorbed human and financial resources and created security concerns. The EU has contributed a total of over EUR 16 million to the OPCW for the destruction of Syrian chemical weapons. It did so by utilising in a synergetic manner the financial instruments at her disposal (CFSP and IcSP) and by contributing both in kind (armoured vehicles and satellite imagery) and financially (EUR 12 million to the OPCW Trust Fund).

Following the Third Review Conference of the Chemical Weapons Convention (CWC), the EU continued to focus on its priorities, notably (i) completing the destruction of existing stockpiles; (ii) promoting universality of the CWC (on 14 October 2013, Syria became the 190th State Party to the Convention); (iii) shifting to non-proliferation efforts; (iv) promoting capacity-building with regard to safety and security in the chemical industry in developing countries, in accordance with Article XI, and responding to the use of chemical weapons, under Article X.

Despite the need to still complete some of the initial core objectives of the CWC, the EU and its Member States have started a reflection to discern the post-CW destruction stage and are gradually beginning to consider challenges to the future relevancy, and hence effectiveness of the convention. A new possible Council Decision in support of the OPCW should build on this reflection.

Through EU Delegations, the EU undertook demarches in 48 Countries with the aim to facilitate and impulse the legislative process through a direct dialogue with relevant authorities, thus expedite the adoption of the legislation (According to Article VII of the Convention). The report on the outcome of the demarches has been shared with Member States in the competent Working Group (CODUN) and with the OPCW.

In terms of impact of the EU support, all countries which had been selected to receive assistance utilised this to fill critical technical gaps, allowing these States Parties to make significant progress towards national implementation of the CWC. Concretely, it can be noted that the EU Council Decisions remain the only possible means of providing this type of assistance to tackle implementation shortcomings. From the 90 national implementation sub-projects carried out by the OPCW Technical Secretariat in recent years, about half could not have been performed without Joint Actions/Council Decisions funds.

As far as the EU priority on promoting universality is concerned, in total nineteen countries joined the Convention since the first Joint Action was adopted and four of those that joined the Convention in 2005 had been involved in an EU Joint Action/Council Decision-funded outreach activity; this was the case for all countries that joined during the following years.

4. BIOLOGICAL WEAPONS

Following the Seventh BTWC Review Conference (Geneva, December 2011), the EU has engaged constructively in the Inter-sessional Process contributing with statements and specific working papers on: 1) international cooperation and assistance; 2) strengthening of national implementation; 3) capacity building in bio-safety and bio-security. The EU delegation delivered EU statements at the meeting of experts (Geneva, 12-16 August 2013) and the meeting of States Parties (Geneva, 9-13 December 2013). At the latter, a revised and updated version of the EU Working paper on Article X – Cooperation and Assistance was submitted.

During the first half of 2014, the results of the EU action included promotion of increased awareness of the BTWC in Asia and Latin America, including an enhanced understanding of the BTWC among relevant national authorities and/or strengthened sub-regional networking, and promotion of voluntary implementation of the BTWC prior to ratification.

Through the implementation of Council Decision 2012/421/CFSP of 23 July 2012, national workshops under assistance programmes promoted an enhanced understanding of the BTWC among relevant national authorities and civil society, strengthened regional networking to promote implementation of the BTWC, and identified needs for enhancing implementation of the BTWC. The workshops were organised by UNODA in Colombia (6-7 March and 12-13 June 2014), Mongolia (29 April 2014) and Nepal (20-21 February and 9-10 June 2014).

Additionally, one representative of Ecuador received training on protective measures and bio-risk management in Spain (31 March - 4 April 2014) and legislative expertise was assisting Nepal in improving legislative and administrative measures (11-13 June 2013).

The EU is also engaged in supporting improvements in bio-safety and bio-security. In this regard, the Council Decision 2013/668/CFSP adopted on 18 November 2013 provides for more than EUR 1.7 million to support, through the technical expertise of the World Health Organisation, projects aimed at promoting, in some selected States Parties, bio-risk awareness, laboratory bio-risk management, and development of national laboratory strategies.

5. BALLISTIC MISSILES

The EU considers the Hague Code of Conduct against ballistic missiles proliferation (HCoC) as a unique multilateral instrument aimed at curbing the proliferation of ballistic missiles systems and related technologies through transparency and confidence building measures and has strongly supported it since its inception. All EU Member States have subscribed to the Code. The EU has continued to pursue and support the three aspects of the Code: universality, implementation, and enhanced and improved functioning.

Based on the Council Decision 2012/423/CFSP in support to HCoC and missile non-proliferation in general, on 28 May 2014, in the margins of the HCoC Annual Regular Meeting, the EU organised an outreach event in Vienna, in support of the HCoC. Following the first regional seminar that took place in Singapore in November 2013, the second one was organised in April 2014 in Abu Dhabi and the last one will be organized in Lima (Peru) in July 2014.

EU visibility was ensured, including by participation of the EU Head of Delegation and clear references to the EU funding which were echoed by nearly all speakers. Innovation was introduced through live-streaming of the event and the discussions on the internet. EEAS prepared and chaired the EU coordination meeting in the occasion of the annual regular meeting of the HCoC in Vienna on 29-30 May 2014 and an EU statement was delivered on 29 May.

The 2014 meeting of the reinforced points of contact of the MTCR was held on 14-15 May in Paris and an EU statement was also delivered.

The EEAS participated in the outreach activities conducted by the MTCR Chair in Singapore and Malaysia in April 2014 where an EU statement was delivered.

6. CBRN RISK MITIGATION

The EU has continued to progress with regard to the implementation of the EU CBRN (Chemical, Biological, Radiological and Nuclear) Action Plan adopted in 2009, and some 30 projects have so far been supported by the Prevention of and Fight against Crime (ISEC) Programme.

In addition, a range of CBRN-related research projects funded by the Secure Society Programme under the 7th Framework Programme are providing scientific and technical support to the CBRN Action Plan through research developments covering the whole crisis management cycle (from prevention to recovery). Activities are also on-going to identify standardisation needs in this area which might lead to ‘European Norms’ (EN) standards. The forthcoming Horizon 2020 programme (2014-2020) will strengthen on-going efforts in CBRN research through focused topics, the work programme of which was adopted on 10 December 2013.

A 2012 Progress Report on the Implementation of the Action Plan highlighted main achievements, particularly with regard to strengthened exchange of information and good practices, the organisation of joint training exercises, and the agreement on three EU lists of high-risk substances in the chemical, biological and radiological-nuclear fields respectively.

With a view to setting out a vision for policy in the coming years, during the first semester of 2014 the Commission intends to present a Communication on a new comprehensive EU CBRN-E (Explosives) Agenda, which will focus on a limited number of priority areas of clear EU added-value.

In order to implement the current Action Plan by 2015 and to define the new CBRN-E Agenda, the Commission works closely with Member State authorities and other relevant stakeholders in the CBRN-E Advisory Group and its sub-groups, which meet regularly.

In May 2014, the European Commission adopted a Communication on a new EU approach to the detection and mitigation of CBRN-E risks (document COM(2014) 247 final). In the Communication, the Commission proposes to facilitate practical cooperation for the detection and mitigation of CBRN-E risks at EU level, including working with the industry, operators of facilities handling CBRN-E materials (equipment manufacturers and security services providers) and other stakeholders. The document contains a set of 30 actions to be implemented in the nearest future by different Commission's services in cooperation with Member States. Concrete tools will be developed, ranging from guidance materials, training and awareness building, and testing activities.

The ‘EU CBRN Centres of Excellence’ (CoE) Initiative, funded through the Instrument contributing to Stability and Peace, was launched by the EU in May 2010. EU CBRN Centres of Excellence are being created in response to the recognition of insufficient institutional capacity of several countries to mitigate the CBRN risk: criminal activities (CBRN proliferation or terrorism), natural (zoonosis and epidemics) and accidental disasters (industrial accidents). Their objective is to develop an all-hazard CBRN policy at national and regional level to anticipate and respond to these risks. In short, these are structural measures to reduce the vulnerability of countries to the CBRN events in the reciprocal interest of regions and the EU security.

The way to achieve this objective is to support the creation of regional networks of expertise in the legal, regulatory, technical, control and enforcement matters regarding the CBRN risk mitigation.

Seven regional centres are being established in: 1. North Africa (Algiers), 2. Atlantic Façade (Rabat), 3. Middle East (Amman), 4. South East Europe - Southern Caucasus - the Republic of Moldova – Ukraine (Tbilisi), 5. South East Asia (Manila), 6. Sub-Saharan Africa (Nairobi) and 7. Gulf Countries (Abu Dhabi), and have started their work. Next step will see the opening of a regional Secretariat in Central Asia (Tashkent – tbc). In addition to thirty-three projects adding up to EUR 26 million previously contracted, new projects amounting to around EUR 10 million are being contracted with different consortia, including from the Member States.

7. THINK TANKS

Based on the Council Decision 2010/430/CFSP of 26 July 2010, the EU's work under the EU Strategy against Proliferation of Weapons of Mass Destruction has been actively supported by the EU Non-Proliferation Consortium that started its activity in January 2011. A new Decision adopted on 10 March extended for another three years the activities of the Consortium, both by building on the achievements and experiences gained in the period 2011-2013 and by adding new and innovative projects. Namely, up to seven ad hoc seminars (for 45 targeted individuals to be determined on a case-by-case, to be held within the EU or, up to three outside of the EU); a Helpdesk Facility for production within two weeks-time of up to twenty 5-10 pages policy papers on demand by EEAS; the development of an Education tool on non-proliferation and disarmament (European online curriculum for University use to be available 24 months after the starting of the contract).

Following the successful activities organised in the period 2011-2013, a new annual international conference on Non Proliferation and Disarmament will be held on 4-5 September this year. Two ad hoc seminars have taken place in Brussels on the BTWC and Compliance (24 April) and on the WMDFZ in the Middle East (18-19 June).

In terms of impact, the Consortium's activities increased EU visibility vis-à-vis third countries and civil society and contributed substantially to EU policy shaping in the areas of non-proliferation and disarmament. The Consortium provides a platform for informal contacts among practitioners and helps promoting dialogue between different stakeholders. The Consortium's network counts over 60 think-tanks across Europe. The activity has contributed to raising awareness about nuclear, chemical and biological weapons challenges.

8. UNITED NATIONS SECURITY COUNCIL RESOLUTION 1540 AND EXPORT CONTROLS

(a) UNSCR 1540

The Council Decision in support of UNSCR 1540 adopted by the Council on 22 July 2013 is being implemented by the UNODA that organises regional workshops and country assistance visits worldwide. The implementation of this Council Decision helps enhancing the relevant national and regional efforts, contributes to the practical fulfilment of the recommendations included in the 2009 Comprehensive Review of the status of implementation of UNSCR 1540, and initiates and develops national action plans upon States' request.

UNODA has signed an agreement with the OSCE that would entail synergies in support of the UNSCR 1540. Synergies and coordination, also to avoid possible duplications, are to be sought also with the EU CBRN Centres of Excellence. Four events were already organised with the EU funds and a fifth one was held in Croatia on 26-27 June 2014.

(b) Export Controls

The European Commission completed a third stage in the review of the EU Export control regime with the adoption, on 24 April 2014, of a Commission Communication that aims at mapping the direction for EU export controls. The Communication identifies concrete policy options for the modernisation and adaptation of export controls to rapidly changing technological, economic and political circumstances. Before taking concrete initiatives for action, the Commission now invites the Council and the European Parliament to consider the approach set out in this Communication. In parallel, the Commission will conduct an "impact assessment" of the review options outlined in this Communication to identify the most suitable regulatory and non-regulatory actions to bring them into effect.

On the regulatory side, discussions on the proposal for an amendment to the EU dual-use Regulation 428/2009, delegating the competence to update the EU control list to the Commission with a view to expediting such updates, came to a successful conclusion and the amending Regulation (no. 599/2014) was published in the EU Official Journal on 12 June 2014 (L173/79). As a result, the Commission will initiate preparations for an update to the control list in the second semester of 2014.

Export controls implementation was supported by three meetings of the Dual-Use Coordination Group in the first half of 2014, focusing in particular on the introduction of new functionalities to the "Dual-Use Electronic System".

EU coordination took place to promote the agreed EU positions in the relevant meetings of the export control regimes held in the first semester of 2014 (Nuclear Suppliers Group: Consultative Group in April 2014 in Vienna, as well as before and during the 2014 NSG Plenary Week held in Buenos Aires on 23-27 June; Missile Technology Control Regime: Reinforced Point of Contact meeting in May 2014 in Paris; Australia Group: Plenary meeting in June 2014 in Paris).

The EU Export Control Outreach programme to strengthen the administrative and technical capacity in third countries (23) in dealing with dual-use items continued. The outreach programme has demonstrated good cooperation with the Chinese export control authorities which resulted in a joint export control handbook publication. Special attention was further given to set-up export control activities with Jordan and Kazakhstan. The programme is funded under the Instrument contributing to Stability and Peace.

9. SPACE

Since 2007, the EU has been promoting the development of an International Code of Conduct for Outer Space Activities. This international and voluntary set of guidelines and confidence-building measures would strengthen safety, security and predictability of all space activities. Such guidelines should, among other things, limit or minimise harmful interference, collisions or accidents in outer space, as well as the creation of debris. It would lay down the basic rules to be observed by space faring nations in both civil and military space activities.

Following the Open-ended Consultations on the draft text that were held in Kiev on 16-17 May 2013, bringing together around 140 representatives from 61 countries, the text was revised. A second round of consultation on the revised text was held in Bangkok on 20-22 November 2013, bringing together 66 countries and organisations and 133 participants. With a view to making the process more transparent and inclusive, the Special Envoy held consultations with a significant number of countries, including visits to Beijing and Moscow on the eve of the Bangkok consultations. A third and final round of consultations took place in Luxembourg on 27-28 May 2014 with the participation of 61 countries. On that occasion, the EU introduced to the international community a new draft which was consolidated based on a series of bilateral and multilateral consultations. The meeting was encouraging in that it saw an in-depth discussion of the text, as well as a forward-looking discussion on the next steps towards the adoption of the Code.

10. WMD NON-PROLIERATION CLAUSES

The EU continued, in accordance with its WMD Non-proliferation Strategy, to mainstream non-proliferation of WMD into its contractual relations with third countries.

Further negotiations on WMD non-proliferation clauses in relevant agreements between the EU and third countries took place in particular with Brunei, Japan, and Malaysia. The negotiations contribute to awareness raising on the EU's policy on non-proliferation and disarmament and provide a forum to increase mutual understanding of relevant positions, identify possible areas for future cooperation and to encourage partner countries to make concrete headway with regard to the international non-proliferation regime.

11. OTHER MULTILATERAL FORA

G8/G7

The EU continued to be actively engaged in the meetings of the Non-proliferation and Disarmament Directors first in Saint Petersburg and then in New York.

Since its creation in 2002, the Global Partnership (GP) has expanded beyond the G8 to become a platform of coordination and cooperation, counting now 20 additional partners. At the Deauville Summit in May 2011, leaders agreed to further strengthen biological security, 1540 implementation and nuclear security. The US in 2012, the UK in 2013 and Russia, until its suspension from the G8 in 2014, took this agenda forward, in particular by strengthening the five existing sub-working groups on biological security, chemical security, nuclear security, Centres of Excellence (CoE) and outreach and expansion under the GP Working Group. Global Partnership-type work continues with the exclusion of Russia. The EU Centres of Excellence continue to feature prominently within the Global Partnership Centres of Excellence Sub-Working Group, in particular as a tool to facilitate exchange of information regionally and, possibly, avoid duplication among donors.

International Science and Technology Center

The EU actively contributed to negotiations on the adoption of an updated agreement for the International Science and Technology Center (ISTC). The ISTC aims at engaging scientists and engineers that have dual-use knowledge in peaceful research activities or commercial programmes with the EU and other partners. It seeks to continue using dual-use knowledge by redirecting and redeploying relevant scientists. During the negotiations, the EU emphasized the need for an agreement which would allow the ISTC to implement projects that could contribute to effectively address challenges in areas of proliferation concern, including in the Middle East. The new ISTC main office was officially opened in Astana in June 2014.

12. POLITICAL DIALOGUE MEETINGS

The Special Envoy held political dialogue meetings on non-proliferation and disarmament with Russia, US, Japan and Argentina. He launched dialogues on non-proliferation and disarmament with India (New Delhi, 16 May) and Pakistan (Islamabad, 16 June). He also held a number of other bilateral consultations with various actors, including in the margins of important events such as the G8 Non-Proliferation Directors Group in St. Petersburg (Japan), the 2014 NPT Preparatory Committee in New York (US, Japan, China, Egypt, Norway, Switzerland, the League of Arab States, UNODA), as well as with Indonesia (Jakarta, May 2014).

**ANNEX TO THE
SIX-MONTHLY WMD PROGRESS REPORT
OVERVIEW OF EU COUNCIL JOINT ACTIONS AND COUNCIL DECISIONS
IN THE FRAMEWORK OF THE EU STRATEGY
AGAINST PROLIFERATION OF WEAPONS OF MASS DESTRUCTION (WMD)**

Title	Objective and implementing entity	Budget and duration
<p>Council Decision 2014/129/CFSP of 10 March 2014 promoting the European network of independent non-proliferation think tanks in support of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction</p>	<p>The Council Decision aims at continuing the fruitful cooperation we had with the Consortium of think-tanks since its establishment in July 2010. It builds on the achievements and experiences gained in the period 2011-2013. Through distinct yet interrelated projects we aim at giving continuity to the Consortium's activities while adding new important tasks that were identified as potentially beneficial for the EEAS and the EU:</p> <ul style="list-style-type: none"> - annual international conference on non-proliferation and disarmament (3 in total; 250-300 targeted participants, international in scope, to be held in Brussels) - annual consultative meeting on non-proliferation and disarmament (3 in total, 100 targeted participants, European in scope, to be held in Brussels) - internet platform and production of policy papers - ad hoc seminars (up to 7, 45 targeted individuals to be determined on a case-by-case, to be held within the EU or, up to three outside of the EU) - Help-desk Facility for production within two weeks-time of up to twenty 5-10 pages policy papers on demand by EEAS - Education on non-proliferation and disarmament (European online curriculum for University use to be available 24 months after the starting of the contract). 	<p>Budget: EUR 3,600,000 Official Journal: L 71/3 – 12.03.2014 Estimated duration of the action: 36 months</p>
<p>Council Decision 2013/726/CFSP of 9 December 2013 in support of the UNSCR 2118 (2013) and the OPCW Executive Council EC-M-33/Dec 1, in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction</p>	<p><u>Implementing agency:</u> The EU Non-proliferation Consortium of Think-Tanks</p> <p>The overall objective is to support the OPCW activities by contributing to costs associated with the inspection and verification of the destruction of Syrian chemical weapons, as well as costs associated with activities complementary to the core mandated tasks in support of UNSCR 2118 (2013) and the OPCW Executive Council Decision of 27 September 2013 on the destruction of Syrian chemical weapons and subsequent and related resolutions and decisions. The project supported through this Council Decision is the provision of situation-awareness products related to the security of the OPCW-UN Joint Mission, including the status of the road network through the delivery to OPCW of satellite imagery and related information products of the EU Satellite Centre (EU SATCEN).</p> <p><u>Implementing agency:</u> The Organisation for the Prohibition of Chemical Weapons.</p>	<p>Budget: EUR 2,311,842 Official Journal: L 329/41 – 10.12.2013 Estimated duration of the action: 12 months</p>

Title	Objective and implementing entity	Budget and duration
<p>Council Decision 2013/668/CFSP of 18 November 2013 in support of World Health Organisation activities in the area of bio-safety and bio-security in the framework of the European Union Strategy against the proliferation of Weapons of Mass Destruction</p>	<p>The overall objective is to support the implementation of the BTWC, in particular those aspects that relate to ensuring the safety and security of microbial or other biological agents or toxins in laboratories and other facilities, including during transportation, as appropriate, in order to prevent unauthorised access to such agents and toxins and their unauthorised removal and to promoting bio-risk reduction practices and awareness, including biosafety, biosecurity, bioethics and preparedness against intentional misuse of biological agents and toxins, through international cooperation in this area:</p> <ul style="list-style-type: none"> (a) promotion of laboratory bio-risk management through national and regional outreach, (b) development of national laboratory bio-risk management strategies to counter biological risks (a demonstration model for countries). <p><u>Implementing entity:</u> The World Health Organisation.</p>	<p>Budget: EUR 1,727,000 Official Journal: L 310 – 20.11.2013 Estimated duration of the action: 24 months</p>
<p>Council Decision 2013/517/CFSP of 21 October 2013 on the Union support for the activities of the International Atomic Energy Agency in the areas of nuclear security and verification and in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction – IAEA VI</p>	<p>The overall aim is to support the IAEA's activities in the areas of nuclear security and verification in order to further the following objectives:</p> <ul style="list-style-type: none"> (a) to achieve progress towards the universalisation of international non-proliferation and nuclear security instruments, including IAEA Comprehensive Safeguards Agreements and Additional Protocols; (b) to enhance the protection of proliferation-sensitive materials and equipment and the relevant technology, providing legislative and regulatory assistance in the area of nuclear security and safeguards; (c) to strengthen the detection of, and response to, illicit trafficking of nuclear and other radioactive materials. <p><u>Implementing entity:</u> The International Atomic Energy Agency (IAEA).</p>	<p>Budget: EUR 8,050,000 Official Journal: L 281/6 – 23.10.2013 Estimated duration of the action: 36 months</p>
<p>Council Decision 2013/391/CFSP of 22 July 2013 in support of the practical implementation of United Nations Security Council Resolution 1540 (2004) on non-proliferation of weapons of mass destruction and their means of delivery</p>	<p>The aims shall consist of:</p> <ul style="list-style-type: none"> (a) enhancing the relevant national and regional efforts and capabilities primarily through capacity-building and assistance facilitation; (b) contributing to the practical implementation of specific recommendations of the 2009 Comprehensive Review of the status of implementation of UNSCR 1540 (2004), in particular in the areas of technical assistance, international cooperation and raising public awareness; (c) initiating, developing and implementing National Action Plans upon States' request. <p><u>Implementing entity:</u> United Nations Office for Disarmament Affairs.</p>	<p>Budget: EUR 750,000 Official Journal: L 198 – 23.07.2013 Estimated duration of the action: 24 months.</p>

Title	Objective and implementing entity	Budget and duration
Council Decision 2012/699/CFSP of 13 November 2012 on support for activities of the Preparatory Commission of the Comprehensive Nuclear-Test-Ban Treaty Organisation (CTBTO) in order to strengthen its monitoring and verification capabilities and in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction – CTBTO V.	<p>The Union will support four projects, the objectives of which are the following:</p> <ul style="list-style-type: none"> (a) to provide technical assistance and capacity building to State Signatories to enable them to fully participate in and contribute to the implementation of the CTBT verification system; (b) to develop capacity for future generations of CTBT Experts through the Capacity Development Initiative (CDI); (c) to enhance the Atmospheric Transport Model (ATM); (d) to characterize and mitigate Radio Xenon noble gases; (e) to support the Integrated Field Exercise in 2014 (IFE14) through the development of an integrated multispectral array; (f) to improve the sustainment of certified IMS Auxiliary Seismic Stations. <p><u>Implementing entity:</u> The Preparatory Commission of the CTBTO.</p>	<p>Budget: EUR 5,185,028 Official Journal: L 314 – 14.11.2012 Estimated duration of the action: 24 months. Extended to cover 30 months.</p>

Title	Objective and implementing entity	Budget and duration
Council Decision 2012/423/CFSP of 23 July 2012 on support of ballistic missile non-proliferation in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction and of the Council Common Position 2003/805/CFSP	<p>The objectives are:</p> <ul style="list-style-type: none"> (a) to support the activities of The Hague Code of Conduct against ballistic missile proliferation, in particular with the aim to: <ul style="list-style-type: none"> - promoting the universality of the Code, and in particular the subscription to the Code by all States with ballistic missile capabilities; - supporting the implementation of the Code; - reinforce the visibility of the Code, in particular on the occasion of the tenth anniversary of its signature; (b) more generally, to support a range of activities to fight against the proliferation of ballistic missiles, aimed notably at raising awareness of this threat, stepping up efforts to increase the effectiveness of multilateral instruments, building up support to initiatives to address these specific challenges and helping interested countries to reinforce nationally their relevant export control regimes. 	Budget: EUR 930,000 Official Journal: L 196 – 24.07.2012 Estimated duration of the action: 24 months. Extended to 16 November 2014.
Council Decision 2012/422/CFSP of 23 July 2012 in support of a process leading to the establishment of a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East.	<p><u>Implementing entity:</u> Fondation pour le Recherche Stratégique.</p> <p>The objectives are:</p> <ul style="list-style-type: none"> (a) to support the work of the Facilitator for the 2012 Conference on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction; (b) to enhance the visibility of the Union as a global actor and in the region in the field of non-proliferation; (c) to encourage regional political and security-related dialogue within civil societies and governments, and more particularly among experts, officials and academics; (d) to identify confidence-building measures that could serve as practical steps towards the prospect of a Middle East zone free of WMD and their means of delivery; (e) to encourage discussion on the universalization and implementation of relevant international treaties and other instruments to prevent the proliferation of WMD and their delivery systems; (f) to discuss issues related to peaceful uses of nuclear energy and international and regional cooperation. <p><u>Implementing entity:</u> EU Non-Proliferation Consortium.</p>	Budget: EUR 352,000 Official Journal: L 196 – 24.07.2012 Estimated duration of the action: 18 months. To be closed at the beginning of 2014. A contingency amount of EUR 20,000 was given to the Arab Institute for Security Studies in Amman, Jordan for organising a meeting on the subject of the WMDFZ in the M.E. (13-14 November 2013). Implemented.

Title	Objective and implementing entity	Budget and duration
Council Decision 2012/421/CFSP of 23 July 2012 in support of the Biological and Toxin Weapons Convention (BTWC), in the framework of the EU Strategy against Proliferation of Weapons of Mass Destruction.	The objectives are: (a) promoting the universality of the BTWC, (b) supporting the implementation of the BTWC, including submission of CBMs by the States Parties, (c) supporting the work of the 2012-2015 inter-sessional programme with a view to strengthening the implementation and effectiveness of the BTWC. <u>Implementing entity:</u> United Nations Office for Disarmament Affairs (UNODA).	Budget: EUR 1,700,000 Official Journal: L 196 – 24.07.2012 Estimated duration of the action: 24 months. Extended to 31 January 2015.
Council Decision 2012/281/CFSP of 29 May 2012 in the framework of the European Security Strategy in support of the Union proposal for an international Code of Conduct on outer-space activities.	The objectives are: (a) consultations with States, active or not yet active on space issues to discuss the proposal and to gather their views, (b) gathering expert support for the process of developing an international Code of Conduct for outer-space activities. <u>Implementing entity:</u> United Nations Institute for Disarmament Research (UNIDIR).	Budget: EUR 1,490,000 Official Journal: L 140 – 30.05.2012 Estimated duration of the action: 18 months. Extended to 31 July 2014.
Council Decision 2012/166/CFSP of 23 March 2012 in support of activities of the Organisation for the Prohibition of Chemical Weapons (OPCW) in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction - V.	The objectives are: (a) to enhance the capacities of States Parties in fulfilling their obligations under the CWC, (b) to enhance the preparedness of States Parties to prevent and respond to attacks involving toxic chemicals, (c) to enhance international cooperation in the field of chemical activities, (d) to support the ability of the OPCW to adapt to developments in the field of science and technology, (e) to promote universality by encouraging States not Parties to join the CWC. <u>Implementing entity:</u> The Organisation for the Prohibition of Chemical Weapons.	Budget: EUR 2,140,000 Official Journal: L 87 – 24.03.2012 Estimated duration of the action: 24 months. Extended to 31 December 2014

Title	Objective and implementing entity	Budget and duration
<p>Council Decision 2010/799/CFSP of 13 December 2010 in support of a process of confidence-building leading to the establishment of a zone free of weapons of mass destruction and their means of delivery in the Middle East in support of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction.</p>	<p>The objectives are:</p> <ul style="list-style-type: none"> (a) to encourage regional political and security-related dialogue within civil societies and governments, and more particularly among experts, officials and academics, (b) to identify confidence-building measures that could serve as practical steps towards the prospect of a Middle East zone free of WMD and their means of delivery, (c) to encourage discussion on the universalization and implementation of relevant international treaties and other instruments to prevent the proliferation of WMD and their delivery systems, (d) to discuss issues related to the peaceful uses of nuclear energy and international and regional cooperation in this regard. <p><u>Implementing entity:</u> EU Non-Proliferation Consortium.</p>	<p>Budget : EUR 347,700 Official Journal: L 341/27 - 23.12.2012 Implemented.</p>
<p>Council Decision 2010/585/CFSP of 27 September 2010 on support for IAEA activities in the areas of nuclear security and verification and in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction – IAEA V.</p>	<p>The objectives are:</p> <ul style="list-style-type: none"> (a) strengthening national legislative and regulatory infrastructures for the implementation of relevant international instruments in the areas of nuclear security and verification, including comprehensive safeguards agreements and the Additional Protocol, (b) assisting States in strengthening the security and control of nuclear and other radioactive materials, (c) strengthening States' capabilities for detection and response to illicit trafficking in nuclear and other radioactive materials. <p><u>Implementing entity:</u> The International Atomic Energy Agency (IAEA).</p>	<p>Budget: EUR 9,966,000 Official Journal: L 302 – 01.10.2010 Estimated duration of the action: 24 months. Extended to 31 December 2014.</p>

Title	Objective and implementing entity	Budget and duration
<p>Council Decision 2010/430/CFSP of 26 July 2010 establishing a European network of independent non-proliferation think tanks in support of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction.</p>	<p>The objective of this network of independent non-proliferation think tanks is to encourage political and security-related dialogue and the long-term discussion of measures to combat the WMD proliferation and their delivery systems within civil societies, and more particularly among experts, researchers and academics. It will constitute a useful stepping stone for non-proliferation action by the Union and the international community. The Union wishes to support this network as follows:</p> <ul style="list-style-type: none"> (a) through organizing a kick-off meeting and an annual conference with a view to submitting a report and/or recommendations to the representative of the High Representative of the Union for Foreign Affairs and Security Policy (HR), (b) through creating an Internet platform to facilitate contacts and foster research dialogue among the network of non-proliferation think tanks. 	<p>Budget: EUR 2,182,000 Official Journal: L 205 – 04.08.2010 Estimated duration of the action: 36 months. Extended to 30 June 2014.</p>
<p>Council Decision 2010/461/CFSP of 26 July 2010 on support for activities of the Preparatory Commission of the Comprehensive Nuclear-Test-Ban Treaty Organisation (CTBTO) in order to strengthen its monitoring and verification capabilities and in the framework of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction – CTBTO IV.</p>	<p><u>Implementing entity:</u> EU Non-Proliferation Consortium.</p> <p>The objectives are:</p> <ul style="list-style-type: none"> (a) to improve the operation and sustainability of the auxiliary seismic stations network of the CTBTO's International Monitoring System; (b) to improve the CTBT verification system through strengthened cooperation with the scientific community; (c) to provide technical assistance to States Signatories in Africa and in the Latin American and Caribbean Region so as to enable them to fully participate in and contribute to the implementation of the CTBT verification system; (d) to develop an OSI noble gas capable detection system. <p><u>Implementing entity:</u> The Preparatory Commission of the CTBTO.</p>	<p>Budget: EUR 5,280,000 Official Journal: L219 – 20.08.2010 Estimated duration of the action: 18 months. Extended to 30 June 2014.</p>

Title	Objective and implementing entity	Budget and duration
Council Decision 2009/569/CFSP of 27 July 2009 – OPCW IV.	<p>The objective is to support the universalization of the Chemical Weapons Convention (CWC), and in particular to promote the ratification/accession to the CWC by States not Parties (signatory States as well as non-signatory States) and to support the full implementation of the CWC by the States Parties:</p> <ul style="list-style-type: none"> (a) to enhance the capacities of States Parties in fulfilling their obligations under the Convention, and (b) to promote universality. <p><u>Implementing entity:</u> The Organisation for the Prohibition of the Chemical Weapons.</p> <p>The EU supports three aspects of the Code as follows:</p> <ul style="list-style-type: none"> (a) universality of the Code, (b) implementation of the Code, (c) enhancement and improved functioning of the Code. <p><u>Implementing entity:</u> Fondation pour le Recherche Stratégique.</p>	<p>Budget: EUR 2,110,000 Official Journal: L 197 – 29.07.2009 Estimated duration of the action: 18 months. Implemented.</p> <p>Budget: EUR 1,015,000 Official Journal: L 345 – 23.12.2008 Estimated duration of the action: 24 months. Implemented.</p> <p>Budget: EUR 1,400,000 Official Journal: L 302 – 13.11.2008 Estimated duration of the action: 24 months. Implemented.</p> <p>Budget: EUR 2,316,000 Official Journal: L 189 – 17.07.2008 Estimated duration of the action: 18 months. Implemented.</p>
Council Decision 2008/974/CFSP of 18 December 2008 in support of HCoC.		
Council Joint Action 2008/588/CFSP of 10 November 2008 in support of BTWC.	<p>The overall objective is:</p> <ul style="list-style-type: none"> (a) to support the universalization of the BTWC, (b) to enhance the implementation of the BTWC, including the submission of CBM declarations, and (c) to support the best use of the Inter-Sessional Process 2007-2010 for the preparation of the 2011 Review Conference. <p><u>Implementing entity:</u> United Nations Office for Disarmament Affairs (UNODA) – Geneva.</p> <p>The EU supports the development of capacity of the Preparatory Commission of the CTBTO in the area of Verification by:</p> <ul style="list-style-type: none"> (a) noble gas monitoring: radio-xenon measurements and data analysis, (b) integrating States Signatories in Africa to fully participate in and contribute to the implementation of the CTBTO monitoring and verification system. <p><u>Implementing entity:</u> The CTBTO Preparatory Commission.</p>	
Council Joint Action 2008/588/CFSP of 15 July 2008 - CTBTO III.		

Title	Objective and implementing entity	Budget and duration
Council Joint Action 2008/368/CFSP of 14 May 2008 in support of the implementation of UNSCR 1540.	<p>The projects in support of the implementation of UNSCR 1540 will take the form of six workshops aiming at enhancing the capacity of officials responsible for managing the export control process in six sub-regions (Africa, Central America, Mercosur, the Middle East and Gulf Regions, Pacific Islands and South-East Asia), so that they can at a practical level undertake implementation efforts of UNSCR 1540. The proposed workshops will be specifically tailored for border, customs and regulatory officials and will comprise the main elements of an export control process including applicable laws (including national and international legal aspects), regulatory controls (including licensing provisions, end-user verification and awareness-raising programmes) and enforcement (including commodity identification, risk-assessment and detection methods).</p> <p><u>Implementing entity:</u> United Nations Office for Disarmament Affairs (UNODA).</p>	<p>Budget: EUR 475,000 Official Journal: L127 – 15.05.2008 Estimated duration of the action: 24 months. Implemented.</p>
Council Joint Action 2008/314/CFSP of 14 April 2008 on support for IAEA activities in the areas of nuclear security and verification – IAEA IV.	<p>The objectives are:</p> <ul style="list-style-type: none"> (a) strengthening national legislative and regulatory infrastructures for the implementation of relevant international instruments in the areas of nuclear security and verification, including comprehensive safeguards agreements and the Additional Protocol, (b) assisting States in strengthening the security and control of nuclear and other radioactive materials, (c) strengthening States' capabilities for detection and response to illicit trafficking in nuclear and other radioactive materials. <p><u>Implementing entity:</u> The International Atomic Energy Agency (IAEA).</p>	<p>Budget: EUR 7,703,000 Official Journal: L107 – 17.04.2008 Estimated duration of the action: 24 months. Implemented.</p>
Council Joint Action 2008/307/CFSP of 14 April 2008 in support of World Health Organisation activities in the area of laboratory bio-safety and bio- security – WHO I.	<p>The overall objective is to support the implementation of the BTWC, in particular those aspects that relate to the safety and security of microbial or other biological agents and toxins in laboratories and other facilities, including during transportation as appropriate, in order to prevent unauthorised access to and removal of such agents and toxins.</p> <ul style="list-style-type: none"> (a) promotion of bio-risk reduction management through regional and national outreach, (b) strengthening the security and laboratory management practices against biological risks. <p><u>Implementing entity:</u> The World Health Organisation.</p>	<p>Budget: EUR 2,105,000 Official Journal: L106 – 16.04.2008 Estimated duration of the action: 24 months. Implemented.</p>

Title	Objective and implementing entity	Budget and duration
Council Joint Action 2007/753/CFSP of 19 November 2007 in support of IAEA monitoring and verification activities in the DPRK.	<p>Objective is to contribute to the implementation of monitoring and verification activities in the DPRK, in accordance with the Initial Actions of 13 February 2007, as agreed in the framework of the six-party-talks.</p> <p><u>Implementing entity:</u> The International Atomic Energy Agency (IAEA Department of Safeguards)</p>	<p>Budget: EUR 1,780,000 Official Journal: L304 – 22.11.2007 Estimated duration of the action: 18 months. Suspension, Force majeure. To be ended.</p>
Council Joint Action 2007/468/CFSP of 28 June 2007 - CTBTO II.	<p>The objective is to support the early entry into force of the Treaty, and need to the rapid buildup of the Comprehensive Nuclear-Test-Ban Treaty (CTBT) verification regime via:</p> <ul style="list-style-type: none"> (a) Improvement of the knowledge of Provisional Technical Secretariat noble gas measurements; (b) Support to on-Site Inspection via the support for the Preparations for the Integrated Field Exercise 2008. 	<p>Budget: EUR 1,670,000 Official Journal: L176 – 06.07.2007 Estimated duration of the action: 15 months. Implemented.</p>
Council Joint Action 2007/185/CFSP of 19 March 2007 – OPCW III.	<p><u>Implementing entity:</u> The CTBTO Preparatory Commission.</p> <p>The objective is to support the universalization of the Chemical Weapons Convention (CWC), and in particular to promote the ratification/accession to the CWC by States not Parties (signatory States as well as non-signatory States) and to support the full implementation of the CWC by the States Parties.</p> <ul style="list-style-type: none"> (a) promotion of universality of the CWC, (b) support for full implementation of the CWC by States Parties, (c) international cooperation in the field of chemical activities, as accompanying measures to the implementation of the CWC, (d) support for the creation of a collaborative framework among the chemical industry, OPCW and national authorities in the context of the 10th anniversary of the OPCW. <p><u>Implementing entity:</u> The Organisation for the Prohibition of the Chemical Weapons.</p>	<p>Budget: EUR 1,700,000 Official Journal: L85 – 27.03.2007 Estimated duration of the action: 18 months. Implemented.</p>

Title	Objective and implementing entity	Budget and duration
Council Joint Action 2007/178/CFSP of 19 March 2007 – Russian Federation IV.	<p>The objective is to assist the Russian Federation in destroying some of its chemical weapons, towards fulfillment of Russia's obligations under the Convention on the Prohibition of the Development, Production, Stockpiling and use of Chemical Weapons and on their Destruction. This Joint Action supported the completion of the electricity supply infrastructure at Shchuch'ye chemical weapon destruction facility, in order to provide a reliable power supply for the operation of the chemical weapon destruction facility.</p> <p><u>Implementing entity:</u> The Ministry of Defence of the United Kingdom of Great Britain and Northern Ireland</p>	<p>Budget: EUR 3,145,000 Official Journal: L81 – 22.03.2007 Estimated duration of the action: 18 months. Implemented.</p>
Council Joint Action 2006/418/CFSP of 12 June 2006 – IAEA III.	<p>The objective is to strengthen nuclear security in selected countries which have received EU assistance such as:</p> <ul style="list-style-type: none"> (a) Legislative and Regulatory Assistance; (b) Strengthening the Security and Control of Nuclear and other Radioactive Materials; (c) Strengthening of States' Capabilities for Detection and Response to Illicit Trafficking. <p><u>Implementing entity:</u> The International Atomic Energy Agency</p>	<p>Budget: EUR 6,995,000 Official Journal: L165 – 17.06.2006. Estimated duration of the action: 15 months. Implemented.</p>
Council Joint Action 2006/419/CFSP of 12 June 2006 – UNSCR 1540.	<p>The action aimed at addressing three aspects of the implementation</p> <ul style="list-style-type: none"> (a) awareness-raising of requirements and obligations under the Resolution, (b) contributing to strengthening national capacities in three target regions (Africa, Latin America and Caribbean, Asia-Pacific) in drafting national reports on the implementation of UNSC Resolution 1540 (2004) and (c) sharing experience from the adoption of national measures required for the implementation of the Resolution. <p><u>Implementing entity:</u> United Nations Office for Disarmament Affairs (UNODA).</p>	<p>Budget: EUR 195,000 Official Journal: L165 – 17.06.2006. Estimated duration of the action: 22 months. Implemented.</p>

Project identification	Title	Objective	Contractor	Amount (EUR)	Execution period
IFS/2008/145-156	Combating illicit trafficking of nuclear and radioactive materials in FSU countries (Russian Federation, Ukraine, Armenia, the Republic of Moldova, Georgia, Azerbaijan and Belarus).	The purpose of the action is to supply equipment for detection of NRM at border check points as it was identified in the previous phase of the activity financed by TACIS Nuclear Safety programme, contributing thus to reduce nuclear and radiation terrorism threat.	JRC	5 million	11/07/2008 – 12/04/2013
IFS/2008/145-130	Assistance in export control of dual-use goods.	The specific objective is to support the development of the legal framework and institutional capacities for the establishment and enforcement of effective export controls on dual-use items, including measures for regional cooperation with a view of contributing to the fight against the proliferation of WMD and related materials, equipment and technologies.	BAFA (D)	~ 5 million	19/03/2008 – 31/12/2010
IFS/2008/145-132	Knowledge Management System on CBRN Trafficking.	The overall objective of the activity is to improve capabilities of participating states, neighbouring countries of the EU in South-East Europe and possibly Caucasus, to combat the illicit trafficking and criminal use of CBRN materials (preparation phase to "EU CBRN Centres of Excellence").	UNICRI	1 million	31/01/2008 – 01/08/2010

AAP2008 (EXCLUDING FUNDING FOR ISTC/STCU)

IFS/2009/200-523	Knowledge management system on CBRN trafficking in North Africa and selected countries in the Middle East.	The aim of the project would be to develop a durable co-operation legacy in the area of trafficking of CBRN materials (preparation phase to "EU CBRN Centres of Excellence").	UNICRI	1 million	16/03/2009 – 15/07/2011
IFS/2009/217-540	Strengthening bio-safety and bio-security capabilities in Central Asian countries.	The project will address shortcomings in the safety/security practices of key biological facilities in selected countries of Central Asia. The main objectives of the project are to raise the skills of the personnel working at facilities (laboratories) handling dangerous biological agents or supervising those facilities, and to provide additional equipment, as needed, to ensure an adequate level of bio-safety and security.	ISTC	6.8 million	21/09/2009 – 21/09/2014
IFS/2009/219-636	Combating illicit trafficking of nuclear and radioactive materials in selected FSU and Mediterranean Basin countries and preparation of border management activities in the ASEAN region.	The overall objective of this project is to reduce the threat of nuclear and radiation terrorism. For this purpose the assistance will be provided to the partner countries in the improvement of the technical and organisational measures for detection of nuclear and radioactive materials (NRM) illicit trafficking.	JRC	6.7 million	2/12/2009 – 1/12/2014

Project identification	Title	Objective	Contractor	Amount (EUR)	Execution period
IFS/2009/216-327	Awareness raising of exporters export control of dual-use goods.	The overall objective of the project is to enhance the effectiveness of export control of dual use items in the Russian Federation, with a view to contribute to the fight against the proliferation of WMD. The specific objectives will be achieved through information exchange with EU exporters, support industry and researchers for awareness raising, organisation of seminars for exporters in the regions of the Russian Federation.	Russian independent non-profit organisation for professional advancement "Export Control Training Centre"	1 million	1/09/2009 – 1/03/2011

AAP2012 (EXCLUDING FUNDING FOR ISTC/STCU)				
IFS/2013/316-496	<p>The CBRN emergency response needs to be identified and prioritised per country. Comprehensive technology solutions for detection, protection, decontamination, mitigation, containment and disposal should also be elaborated. CBRN incidents require full utilization of national resources to respond to and mitigate the consequences of such emergencies. The main responsibility in cases of CBRN emergencies falls upon first responders. It is therefore essential that countries build upon their national resources to mitigate and respond to the consequences of an emergency situation. Best-practices should thus be exchanged amongst these first responders at MIE regional level and CBRN risk mitigation knowledge developed. It should also result in increased awareness of stocks of hazardous chemical agents, their precursors as this is one of the means of targeting illicit use and /or trafficking of WMD.</p>	<p>Wojskowy Instytut Higieny i Epidemiologii</p>	3,914,034	12/2013-12/2016
