Statement by AT

"The Austrian constitutional law presently does not allow for administrative pecuniary sanctions in the amount provided for in Article 20 SFT. Therefore, we cannot currently commit to the implementation of this provision, as implementation would require an amendment to constitutional law. It is not predictable whether such an amendment to the Constitution will be adopted."

Statement by PT

"Portugal welcomes the agreement on the Regulation on reporting and transparency of Securities Financing Transactions ('SFT') given its importance to increase transparency in shadow banking sector.

Nevertheless, Portugal regrets the lack of ambition concerning the periodicity of reporting by collective investment undertakings, as it is of primer importance that EU Regulation ensures a timely flow of information towards investors. In this sense, Portugal defends that collective investment undertakings shall report on their SFT transactions on a half yearly basis, rather than on an annual basis, as foreseen in the Council agreement, in line with the current half yearly reporting requirements foreseen in UCITS, and also AIFMD.

Portugal also regrets that the agreement fails to ensure, beyond any doubt, that any entity with a legitimate interest on the data stored in the trade repositories may have access to it. Portugal notes, in particular, that some of the competent authorities responsible for the enforcement of the reporting obligation to trade repositories are not provided with access to trade repositories data.

Portugal expects that these issues will be reassessed in the negotiations with the European Parliament."

The Committee discussed the file on the basis of two questions set out in 15327/14. The Chair stressed the Presidency's willingness to consider further ways of improving the flexibility clause in Article 4b. Half of the delegations broadly supported the Presidency's text. The Commission noted that the flexibility clause would allow Member States to choose the means of achieving the objectives set out in the Directive.

On question 2, eight delegations were unable to support the draft Directive. Some others had yet to adopt positions on the current text.

Some felt the "comply or explain" mechanism gave companies enough flexibility.

A few delegations also felt that a more realistic implementation deadline was desirable. While another delegation saw no need for further changes to the text.

Certain delegations also commented on the two options provided for in the current text (implementation of procedural requirements (Article 4a) and flexibility clause (Article 4b)).

The Chair stated that the deadline for achieving the targets ( Europe 2020) could be reconsidered at an appropriate stage.

The Committee examined the compromise proposed by the Presidency on the Statute for a European Foundation set out in 15080/14. Although all delegations were grateful for the work undertaken, not all of them were ready to accept the compromise text; several delegations could not support it at this stage, while a considerable group of delegations expressed doubts of a fundamental nature on the added value of the proposal compared to the administrative burden it would impose. On this basis, the Presidency will determine with the incoming Presidencies and the Commission how to proceed with this file in an appropriate manner.

Following the introduction of this item as a request for a mandate to engage in exploratory talks with the EP instead of preparing a general approach at the Council most of the delegations voiced their opposition to a mandate being agreed and to the texts set out in ADD 1 to document 15541/14. A few suggestions were also made with respect to the orientations set out at Annex I and II of document 15541/14.
