c) Pilot Projects/Preparatory Actions

A comprehensive package of 59 Pilot Projects/Preparatory Actions (PP/PA) is agreed, as proposed in the new DB, both for commitment and payment appropriations. When a PP or a PA appears to be covered by an existing legal basis, the Commission may propose the transfer of appropriations to the corresponding legal basis in order to facilitate the implementation of the action.

This package fully respects the ceilings for PP and PA provided for in the Financial Regulation.

d) <u>Common administrative costs of EU Delegations</u>

The transfer of "Common administrative costs of EU Delegations" from the Commission section to the EEAS section of the budget, as proposed in the new DB, is agreed.

1.3. Expenditure by headings of the financial framework - commitment appropriations

After taking into account the above conclusions on "closed" budget lines, agencies and pilot projects and preparatory actions, the European Parliament and the Council have agreed on the following:

a) Sub-heading 1a

Commitment appropriations are set at the level proposed by the Commission in the new DB to reflect the priority of contributing to enhancing access to finance through the EU budget, especially for the small and medium-sized enterprises (SMEs):

(in EUR 1,000)

Budget line	Nama	Reinforcements of commitment appropriations		
	Name	2015 DB	New 2015 DB Difference

Moreover, the following reinforcements of commitment appropriations as compared to the new DB are accepted:

(in EUR 1,000)

	Total			63 000,0

As a consequence, and after taking into account pilot projects, preparatory actions and the transfer of the common costs of EU delegations to the EEAS section, the agreed level of commitments is set at EUR 17 551.7 million, leaving a margin of EUR 114.3 million under the expenditure ceiling of sub-heading 1a.

b) <u>Sub-heading 1b</u>

Commitment appropriations are set at the level proposed in the new DB.

Taking into account pilot projects and preparatory actions, the mobilisation of EUR 83.3 million from the Flexibility Instrument for additional assistance to Cyprus, the agreed level of commitments is set at EUR 49 230.3 million.

c) Heading 2

Commitment appropriations are set at the level proposed by the Commission in the new DB.

Based on the new elements that have emerged since the presentation of letter of amendment (LA) No 1/2015, notably the information on the actual uptake of the emergence measures taken since August 2014 to respond to the Russian food import ban, the final EAGF surplus for 2014 and the updated forecast of financial corrections to be collected in 2015, the emergency measures referred to above (including those related to the dairy sector in the Baltic States, for which the Commission adopted a further package on 26 November 2014, as well as for Finland once the conditions are met), can be financed within the appropriations requested in LA No 1/2015 without having recourse to the agricultural crisis reserve, thanks to this additional assigned revenue.

16707/1/14 REV 1 TP/kg 7
DG G 2A EN

As a consequence, and after taking into account pilot projects, preparatory actions and the transfer of the common costs of EU delegations to the EEAS section, the agreed level of commitments is set at EUR 58 808.6 million, leaving a margin of EUR 790.4 million under the expenditure ceiling of heading 2.

d) Heading 3

Commitment appropriations are set at the level proposed by the Commission in the new DB. The increase in operational expenditure of FRONTEX is offset by a corresponding decrease of budget item 18 02 01 01 (*Support of border management and a common visa policy to facilitate legitimate travel*).

As a consequence, and after taking into account pilot projects and preparatory actions, the agreed level of commitments is set at EUR 2 146.7 million leaving a margin of EUR 99.3 million under the expenditure ceiling of heading 3.

e) <u>Heading 4</u>

Commitment appropriations are set at the level proposed by the Commission in the new DB, in particular as regards the transfer of common administrative expenditure of EU delegations to the EEAS section of the budget.

Moreover, the following reinforcements of commitment appropriations as compared to the new DB are accepted:

(in EUR 1,000)

Budget line	Name	New DB 2015	Budget 2015	Difference
21 03 01 04	Support to peace process and financial assistance to Palestine and to the United Nations Relief and Works Agency for Palestine Refugees (UNRWA)	264 500,0	286 500,0	22 000,0
23 02 01	Delivery of rapid, effective and needs-based humanitarian aid and food aid	872 446,0	882 446,0	10 000,0
	Total			32 000,0

However, the transfer of the EU Special Representatives from heading 4 to heading 5 (EEAS section) as proposed in the new DB is not accepted. Consequently, the commitment and payment appropriations on budget line 19 03 01 07 (*EU Special Representatives, heading* 4) are restored as proposed in the original DB.

As a consequence, and after taking into account pilot projects, preparatory actions and the transfer of the common costs of EU delegations to the EEAS section, the agreed level of commitments is set at EUR 8 408.4 million, leaving a margin of EUR 340.6 million under the expenditure ceiling of heading 4.

16707/1/14 REV 1 TP/kg 8
DG G 2A EN

f) Heading 5

The number of posts in the establishment plans of the Institutions and the commitment appropriations are set at the level proposed by the Commission in the new DB, thus integrating:

- the respective readings of the European Parliament and the Council, for their own sections of the budget;
- the reading of the European Parliament for the Court of Justice;
- the reading of the European Parliament for the European Court of Auditors, the European Economic and Social Committee and the Committee of the Regions; and
- for the European External Action Service, the level of appropriations proposed by the Commission in the original DB increased to take account of the budgetary-neutral transfer of appropriations related to the "common administrative costs of EU Delegations" from the Commission to the EEAS section of the budget.

However, the transfer of the EU Special Representatives from heading 4 to the EEAS section under heading 5 as proposed in the new DB is not accepted. Consequently, no appropriations for this purpose are included in the EEAS section of the budget.

Altogether, compared to the original DB, these changes lead to:

- a net reduction of 35 establishment plan posts, due to a reduction of 47 posts for the European Parliament which is partly offset by an increase of 12 posts for the Court of Justice;
- a net reduction in appropriations of EUR 0.6 million, due to a reduction of EUR 1.4 million for the European Court of Auditors, EUR 1.4 million for the European Economic and Social Committee and EUR 0.4 million for the Committee of the Regions, which is partly offset by an increase of EUR 2.6 million for the Court of Justice;
- the increase of EUR 71.5 million for the EEAS reflects the budgetary-neutral transfer of the "common administrative costs of EU Delegations", which is completely offset in the Commission section in sub-heading 1a (EUR 0.6 million), heading 2 (EUR 0.1 million), heading 4 (EUR 45.7 million) and 5 (EUR 25.2 million). Overall, these transfers result in a net increase in appropriations under heading 5 of EUR 46.3 million.

16707/1/14 REV 1 TP/kg

DG G 2A EN

In addition, as compared to the new DB the following budgetary neutral transfer of posts and commitment appropriations from the Council to the PMO is agreed, to take account of the transfer as of 1 January 2015 of the determination and management of pension rights of active and retired Council staff members to the PMO: an increase of 6 AST 7 establishment plan posts as well as an increase of EUR 504 000 in commitment appropriations in the Commission (section III) is completely offset by a reduction of 6 AST 7 establishment plan posts as well as a reduction of EUR 504 000 in commitment appropriations in the Council (section II).

As a consequence, taking into account pilot projects, preparatory actions as well as the transfer of the common costs of EU delegations to the EEAS section, the agreed level of commitments is set at EUR 8 660.5 million, leaving a margin of EUR 415.5 million under the expenditure ceiling of heading 5.

1.4. Payment appropriations

The overall level of <u>payment appropriations</u> in the 2015 budget is set at EUR 141 214 040 563.

This includes an amount of EUR 126.7 million which relates to the mobilisation of the EU Solidarity Fund linked to DABs No 5/2014 and 7/2014, as well as an amount of EUR 440 million which relates to the shift of payment appropriations for the Youth Employment Initiative from the 2014 budget to the 2015 budget.

The distribution of the overall level of payment appropriations in the 2015 budget takes into account the following steps:

- a) payment appropriations for non-differentiated expenditure as set out above, in particular under headings 2 and 5; and
- b) payment appropriations for the package of pilot projects and preparatory actions as set out above, are calculated as follows: payment appropriations for all new pilot projects and preparatory actions are set at 50 % of the corresponding commitments or at the level proposed by the European Parliament, whichever is lower; in the case of extension of existing pilot projects and preparatory actions the level of payments is the one defined in the DB plus 50 % of the corresponding new commitments, or at the level proposed by the European Parliament, whichever is lower;

16707/1/14 REV 1 TP/kg 10
DG G 2A EN

- c) the EUR 123.3 million reduction in payment appropriations compared to the new DB is spread proportionally across all budget lines with differentiated appropriations which are not affected by step b) above, with the exception of the following budget lines, for which the level of payment appropriations is set at the level of the new DB:
 - expenditure for sub-heading 1a (*Competitiveness for Growth and Jobs*) and heading 4 (*Global Europe*);
 - Budget lines 04 02 17, 04 02 60, 11 06 12, 13 03 16 and 13 03 60 for the Convergence objective; and
 - International Fisheries Partnership Agreements.
- d) based on the results obtained in step c) above, the following final adjustments are made:
 - an amount of EUR 100 million is added to budget line 13 04 02 (*Completion of Cohesion Fund (2007-2013)*), offset by:
 - a reduction of EUR 50 million on budget line 13 03 18 (Completion of European Regional Development Fund (ERDF) Regional competitiveness and employment); and
 - a reduction of EUR 50 million spread across budget lines with differentiated appropriations which are not affected by step b) above, for expenditure for sub-heading 1a (*Competitiveness for Growth and Jobs*) and heading 4 (*Global Europe*), with the exception of budget line 23 02 (*Humanitarian aid, food assistance and disaster preparedness*), for which the amounts set in the new DB are retained.

1.5. Budgetary remarks

As regards budgetary remarks, the new DB is approved, thus integrating amendments introduced by the European Parliament or the Council, except for budget lines 04 03 01 03 and 19 03 01 06, with the understanding that these amendments cannot modify or extend the scope of an existing legal base, or impinge on the administrative autonomy of institutions.

1.6. New budget lines

The budget nomenclature as proposed by the Commission in the new DB will remain unchanged.

1.7. Reserves

No amount is placed on conditional reserves for the Commission section.

 - Youth Employment Initiative: a reduction of EUR 420 million for the Youth Employment Initiative is agreed. However, an amount of EUR 440 million of payment appropriations for the Youth Employment Initiative is added to the 2015 budget, as set out in section 1.4 above;

- taking into account the current state of budget implementation and the outlook for year-end, a further redeployment amounting to EUR 30.4 million is agreed. This concerns the following budget lines:

3. STATEMENTS

3.1. Joint statement on draft amending budget No 6/2014 (own resources) and amendment of Council Regulation 1150/2000

"The European Parliament and the Council agree to adopt draft amending budget No 6/2014 as amended by Amending Letter 1/2014.

In light of the Commission proposal to amend Council Regulation (EC, Euratom) No 1150/2000 implementing Decision 2007/436 (EC, Euratom) on the system of the European Communities' own resources presented by the Commission on 12 November 2014, the European Parliament commits to provide its opinion to the amended Regulation 1150/2000 in time to ensuring its adoption in the EP plenary session of December 2014 and the Council to adopt it as part of the overall package."

3.2. Joint statement on the mobilisation of the Contingency Margin

"2014 has seen an unprecedented high amount of outstanding payments for structural and cohesion funds at the beginning of the financial framework, while a number of new programmes have been significantly frontloaded. Given this unique and exceptional situation which cannot be accommodated within the payment ceiling for 2014, the three institutions agree that the Contingency Margin will be mobilised for the financial year 2014 as a last resort.

The institutions recall that Article 13 of the MFF-regulation stipulates that "Amounts made available through the mobilisation of the Contingency Margin shall be fully offset against the margins in one or more MFF headings for the current or future financial years".

The institutions agree to do their utmost to find appropriate solutions so that the exceptionally high level of outstanding payments of the structural and cohesion funds of the 2007-2013 period should not persist beyond 2014 and that, therefore, all efforts will be undertaken to ensure that the Contingency Margin will not be mobilised to finance outstanding commitments stemming from programmes for structural and cohesion funds in the financial years 2015-2020."

3.3. Joint statement on special instruments

"The institutions recall that the Contingency Margin is a last resort instrument which should therefore not be mobilised if there are still financial possibilities left. In the framework of the general budget for 2014 there is disagreement as to whether an amount of EUR 350 million in payment appropriations covering other special instruments is still available in the unallocated margin.

The institutions agree that it is of major importance to find an agreement in principle on the mobilisation of other special instruments for payments as quickly as possible.

16707/1/14 REV 1 TP/kg 16 DG G 2A

However, as it has not been possible to reach such an agreement in the context of the negotiations of the package covering DABs for 2014 and the general budget for 2015 the institutions agree, so as to ensure a timely adoption of that package:

- the amount of EUR 350 million in payment appropriations is added to the Contingency Margin;
- to endeavour to find a rapid agreement on whether and to what extent other special instruments may be mobilised over and above the MFF ceilings for payments with a view to determining whether and to what extent the amount of EUR 350 million should be offset against the MFF margins for payments for current or future financial years;
- to accompany as appropriate the above by the necessary modifications of the decision mobilising the Contingency Margin for the budget year 2014, or by any other legally necessary actions required to ensure full respect of the MFF Regulation and notably its Article 13(3)."

3.4. Statement of the Commission on pre-financing of Operational Programmes in 2014 and the Youth Employment Initiative

"In the context of the timely and effective implementation of the 2014-2020 MFF, the European Commission confirms the pre-financing, in 2014, of Operational Programmes which have been formally submitted in 2014 and which meet the necessary conditions set in the corresponding legal acts.

Moreover, the Commission confirms that the Youth Employment Initiative remains a high political priority and that the transfer of the related payment appropriations from 2014 to 2015 will not delay its implementation."

3.5. <u>Joint statement on the financing of the emergency measures in response to the Russian food import ban</u>

"Following the Russian food import ban, a series of emergency measures has already been adopted in August and September 2014, and a further package targeted to the dairy sector in the Baltic States has been approved on 26 November 2014. As soon as the conditions respecting the objective criteria required for eligibility are met, the Commission may propose another package targeted to the dairy sector in Finland.

In its Amending Letter (AL) 1/2015, the Commission announced its intention to finance, if needed, these measures through the reserve for crises.

16707/1/14 REV 1 TP/kg 17
DG G 2A EN

Since the presentation of the AL 1/2015, the following three new elements have emerged, which allow the financing of those emergency measures without using the crisis reserve:

- according to the declarations of the Member States on the actual uptake of the measures adopted in August and September, the cost is reduced from the initially estimated EUR 344 million to some EUR 234 million;
- the final surplus of the EAGF exercise 2014 is some EUR 230 million higher than anticipated in the AL 1/2015, which was still based on estimates;
- the financial corrections to be collected in 2015 are expected to be higher than initially expected last October."

Based on these three new elements, the emergency measures referred to above (including those related to the dairy sector in the Baltic States, and for Finland once the conditions are met) can be financed within the appropriations requested in the AL 1/2015 thanks to this additional assigned revenue without having recourse to the crisis reserve."

3.6. Joint statement on payment appropriations

"The European Parliament, the Council and the Commission recall their shared responsibility, as laid down in Article 323 of the Treaty on the Functioning the European Union (TFEU), that 'the European Parliament, the Council and the Commission shall ensure that the financial means are made available to allow the Union to fulfil its legal obligations in respect of third parties'.

The European Parliament and the Council recall the need to ensure, in the light of implementation, an orderly progression of payments in relation to the appropriations for commitments so as to avoid any abnormal level of unpaid invoices at year-end.

The European Parliament and the Council agree to set the level of payment appropriations for 2015 at EUR 141 214 040 563. They ask the Commission to initiate any necessary action, on the basis of the provisions of the MFF Regulation and the Financial Regulation, to cover the responsibility assigned by the Treaty and, in particular, after having examined the scope for reallocation of the relevant appropriations, with particular reference to any expected under-implementation of appropriations (Financial Regulation Article 41§2) to request additional payment appropriations in an amending budget to be presented as soon as it appears that appropriations entered in the 2015 budget are insufficient to cover expenditure.

The European Parliament and the Council will take position on any draft amending budget as quickly as possible in order to avoid any shortfall in payment appropriations. The European Parliament and the Council undertake to process swiftly any possible transfer of payment appropriations, including across financial framework headings, in order to make the best possible use of payment appropriations entered in the budget and align them to actual execution and needs.

16707/1/14 REV 1 TP/kg 18

www.parlament.gv.at

The European Parliament, the Council and the Commission will, throughout the year, actively monitor the state of implementation of the 2015 budget, in particular under subheading 1a (Competitiveness for Growth and Jobs), sub-heading 1b (Economic, social and territorial cohesion) and rural development under heading 2 (Sustainable Growth: Natural Resources). This will take the form of dedicated inter-institutional meetings, in accordance with point 36 of the Annex of the Interinstitutional Agreement, to take stock of payment implementation and revised forecasts.

These meetings should take place at least three times in 2015 (in spring at the time of the presentation of the draft budget, in July ahead of the Council reading on the 2016 draft budget and in October before the beginning of the Conciliation) and be at political level in the presence of Members of the European Parliament, Members of the Council and the Commission Vice-President for Budget and Human Resources. The meetings should aim at reaching a joint assessment of the required level of payment needs, based on a thorough analysis of existing bills that have to be legally honoured and estimates for the rest of the year N and the year N+1."

3.7. Joint statement on a payment plan

"The institutions agree to the objective to reduce the level of unpaid bills, with a particular focus on cohesion policy, at year-end down to its structural level in the course of the current MFF.

In order to reach this objective:

- the Commission agrees to present, along with the joint conclusions on Budget 2015, a most up to date forecast of the level of unpaid bills by end 2014; the Commission will update these figures and provide alternative scenarios in March 2015 when a global picture of the level of unpaid bills at the end of 2014, for the main policy areas, will be available;
- on this basis, the three institutions will endeavour to agree on a maximum target level of unpaid bills at year-end which can be considered as sustainable;
- on this basis and while respecting the MFF Regulation, the agreed financial envelopes of the programmes as well as any other binding agreement, the three institutions will engage to implement, as of 2015, a plan to reduce the level of unpaid bills corresponding to the implementation of the 2007-2013 programmes to the commonly agreed level by the mid-term review of the current multiannual financial framework. Such a plan will be agreed by the three institutions in due time before the presentation of the draft budget 2016. Given the exceptionally high level of unpaid bills, the three institutions agree to consider any possible means to reduce the level of those bills.

Every year, the Commission agrees to accompany its draft budget by a document evaluating the level of unpaid bills and explaining how the draft budget will allow for the reduction of this level and by how much. This annual document will take stock of the progress made so far and propose adjustments to the plan in line with updated figures."

16707/1/14 REV 1 TP/kg 19

www.parlament.gv.at

3.8. <u>Statement of the European Parliament on the mobilisation of the Contingency Margin as a last resort</u>

"The European Parliament regrets that the Council does not share its interpretation that the EUR 350 million in payment appropriations mobilised in 2014 in respect of the Special Instruments provided for in the MFF Regulation should be counted outside the payments ceiling, thus leaving a margin of EUR 711 million to be exhausted before having recourse to the Contingency Margin.

The European Parliament recalls that, in accordance with Article 13(1) of the MFF Regulation, the Contingency Margin is a last-resort instrument. Therefore, it is necessary to exhaust fully all other financial possibilities before having recourse to the Contingency Margin. In the context of the dispute between the European Parliament and the Council regarding the calculation of the available margin below the payments ceiling in 2014, it was not possible to reach a political agreement on the exhaustion of an available margin of EUR 350 million before having recourse to the Contingency Margin.

Recalling that the MFF Regulation is based on the principle of "specific and maximum possible flexibility" in order to allow the Union to fulfill its legal obligations in compliance with Article 323 TFEU (Recital 4 to the MFF Regulation), the Parliament considers that the interest of making available additional appropriations to honour outstanding legal commitments through a mobilisation of the Contingency Margin is paramount. Therefore, the Parliament accepts a mobilisation of the Contingency Margin, notwithstanding its interpretation that EUR 350 million remains available under the payments ceiling.

The European Parliament invites the Commission to carry over the unused margin of EUR 350 million in its 2015 technical adjustment of the global margin for payments under Article 6(1)(d) of the MFF Regulation."

3.9. Statement of the Council on the mobilisation of the special instruments

"The Council recalls that the special instruments can only be activated to cater for genuinely unforeseen circumstances.

It recalls that the Contingency Margin shall not result in exceeding the total ceilings of commitment and payment appropriations.

As regards other special instruments, the Council recalls that Article 3(2) of the MFF Regulation states that commitment appropriations may be entered in the budget over and above the ceilings of the relevant headings.

The Council invites the Commission, in calculating the global margin, to act in accordance with the MFF Regulation and without undermining the agreement reached between the three institutions on a Joint Statement on special instruments (3.3)."
