Proposal for a

**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**adjusting with the effect from 1 July 2012 the remuneration and pensions of the officials and other servants of the European Union and the correction coefficients applied thereto**

## EXPLANATORY MEMORANDUM

### CONTEXT OF THE PROPOSAL

#### **Grounds for and objectives of the proposal**

Following the judgment of the European Court of Justice of 19 November 2013 in Case C-63/12, the Commission must submit a new proposal on the basis of Article 10 of Annex XI to the Staff Regulations.

According to this Article, the Commission is to submit appropriate proposals on which the European Parliament and the Council shall decide in accordance with Article 336 of the Treaty on the Functioning of the European Union.

On 31 August 2012, the Commission submitted a Report to the Council on the exception clause (Article 10 of Annex XI to the Staff Regulations) (COM (2012) 476) and on 5 December 2012, the Commission submitted to the Council a Commission staff working document on the exception clause (SWD (2012) 428).

The Court of Justice stated that when the assessments made by the Commission and the Council result in opposite conclusions, the Commission must submit to the European Parliament and to the Council appropriate proposals on the basis of that Article, in order to involve the European Parliament and to allow the legislators to decide on the appropriate measures to be taken with regard to the existing economic and social situation in the Union (paragraph 76).

According to the judgment, the Commission has a margin of appraisal as regards the appropriate character of the proposals, given the economic and social data, as well as, where necessary, other factors to be taken into consideration, such as those that are relevant to human resources management and, in particular, the needs of recruitment (paragraph 74).

The Commission reports mentioned above refer systematically to a stagnation and an ongoing crisis as well as a high level of unemployment rate and a high level of public deficit and debt in the European Union, though not concluding that the criteria set in Article 10 of Annex XI to the Staff Regulations are met. As the Court judged that the Commission has no margin to decide whether or not to trigger the exception clause with regard to these criteria, the procedure laid down in Article 10 of Annex XI to the Staff Regulations constitutes the only means of taking account of an economic crisis in the adjustment of remuneration and therefore of disapplying the criteria laid down in Article 3(2) of that annex.

The Commission shall take this economic and social data into account in order to propose appropriate measures to derogate from the strict application of the method.

At the same time, since 2011, there have been a number of relevant developments. The European Parliament and the Council have adopted a reform of the Staff Regulations which includes a suspension of adjustments of salaries, allowances and pensions in 2013 and 2014 leading to a freeze for two years and several significant changes to the working conditions of staff of the EU institutions such as measures with regard to weekly working time, career, pensions and leave days which lead to significant savings.

Taking into account the result of the normal application of the method in 2012, the social and economic situation, the reform of the Staff Regulations as well as the situation with regard to recruitment and management of human resources observed

over the last years, the Commission concludes that the present proposal as well as the proposal for the adjustment of 2011 would be appropriate measures to be taken by the legislator based on Article 10 of Annex XI to the Staff Regulations.

Under Article 65 of the Staff Regulations the remuneration and pensions shall be updated before the end of each year. In this regard, the urgent implementation of the Judgment of the Court of Justice in Case C-63/12, issued on 19 November 2013, constitutes a due reason for adopting this Regulation rapidly.

### **Elements of the new method determining the content of the Proposal**

The Eurostat report was submitted to the Council on 5 December 2012 (SWD (2012) 427). According to this report, the average change in the purchasing power of national civil servants' remuneration in the reference period measured by the specific indicator is equal to -1.1%. The change in the cost of living in Brussels in the reference period is equal to 2.8%. The amount of the adjustment is obtained by multiplying together the specific indicator and the Brussels International Index calculated by Eurostat. The proposed adjustment to remuneration and pensions in Belgium and Luxembourg was therefore 1.7%.

The amount of the adjustment must be corrected to take into account the above mentioned elements. The Commission considers therefore as appropriate to reduce the proposed adjustment to remuneration and pensions in Belgium and Luxembourg to 0.9% instead of 1.7% with regard to the strict application of the method.

The economic parities for remuneration establish the purchasing power equivalence of the remuneration paid in Brussels, as the reference city, with that paid in the other places of employment. Eurostat has calculated those parities in agreement with the national statistical bodies.

The economic parities for pensions establish the purchasing power equivalence of the pension paid in Belgium, as the reference country, with that paid in the other countries of residence. Eurostat has calculated those parities in agreement with the national statistical bodies.

With regard to the parallel proposal for 2011, the same approach would result in an adjustment of 0.9% instead of 1.7%.

The new proposals for 2011 and 2012 would therefore in effect reduce the result of the normal application of the method in force in 2011 and 2012 by 47%.

### **Existing provisions in the area of the proposal**

Article 65, Article 10 of Annex XI and Article 19 of Annex XIII of the modified Staff Regulations.

## **CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT**

### **Consultation of interested parties**

#### *Methods of consultation used, main sectors covered and general profile of respondents*

The elements of the proposal have been discussed with the staff representatives in accordance with the appropriate procedures.

#### *Summary of replies received and the way in which they have been taken into account*

The proposal takes account of the opinions of the parties consulted.

**BUDGETARY IMPLICATIONS**

The impact of the adjustment to remuneration and pensions on administrative expenditure and on revenue is detailed in the financial statement annexed hereto.

Proposal for a

**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**adjusting with the effect from 1 July 2012 the remuneration and pensions of the officials and other servants of the European Union and the correction coefficients applied thereto**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to the Staff Regulations of Officials of the European Union and in particular Article 10 of Annex XI thereof and the Conditions of Employment of Other Servants of the European Union,

Having regard to the proposal from the European Commission,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) In order to comply with the Judgment of the Court of Justice in Case C-63/12, when the Council establishes that at this stage of the procedure there is a serious and sudden deterioration in the economic and social situation within the Union, the Commission must submit a Proposal under Article 336 in order to involve the European Parliament in the legislative process. Equally the Council and the European Parliament shall decide upon the Commission proposal having regard to the criteria set in Article 65 of the Staff Regulations respecting the rules set in Annex XI with the exception of its Article 3(2).
- (2) The Court has confirmed that the Commission has a margin of appraisal that should be based on Article 65 of the Staff Regulations, as regards the content of appropriate proposals. The review of remuneration may, where appropriate, take into account other factors, such as the human resources management and in particular the needs of recruitment. Within this margin of appraisal, the Commission may base its decision upon economic and social data such as the 2012 stagnation and the ongoing crisis as well as the high level of unemployment rate and the high level of public deficit and debt in the European Union. The Commission has taken into account as well developments since 2011 such as the reform of the Staff Regulations and especially the two years freeze imposed to EU officials and the increase of weekly working time to 40h.
- (3) According to the data supplied by Eurostat in agreement with the national statistical offices of the Member States, national civil servants lost 1.1% of their purchasing power, the same loss in purchasing power should have been applied to the EU officials and other servants for the period 1 July 2012 – 30 June 2013 if the Commission would have followed the normal application of the method. The Commission considered however as appropriate to reduce the proposed adjustment to remuneration and pensions in Belgium and Luxembourg to 0.9% instead of 1.7% with regard to the economic crisis and the efforts already consented by EU officials.
- (4) The same approach would lead in 2011 to an adjustment of 0.9% instead of 1.7%. The total adjustment for both years would be therefore 47% lower than under the normal application of the method in force in 2011 and 2012.

- (5) The Commission has proposed the above measures in order to involve the European Parliament in the legislative procedure and to allow the co-legislators to decide on the appropriate measures in accordance with Article 336 TFEU.
- (6) Under Article 65 of the Staff Regulations the remuneration and pensions shall be updated before the end of each year. In this regard, the urgent implementation of the Judgment of the Court of Justice in Case C-63/12, issued on 19 November 2013, constitutes a due reason for adopting this Regulation expediently.

HAVE ADOPTED THIS REGULATION:
