## LEGISLATIVE FINANCIAL STATEMENT

### 1. FRAMEWORK OF THE PROPOSAL/INITIATIVE

#### 1.1. Title of the proposal/initiative

Proposal for a Council Implementing Decision establishing provisional measures in the area of international protection for the benefit of Italy and Greece

#### 1.2. Policy area(s) concerned in the ABM/ABB structure<sup>5</sup>

18 – Migration and Home Affairs

#### 1.3. Nature of the proposal/initiative

- ☐ The proposal/initiative relates to **a new action**
- ☐ The proposal/initiative relates to **a new action following a pilot project/preparatory action<sup>6</sup>**
- ☒ The proposal/initiative relates to **the extension of an existing action**
- ☐ The proposal/initiative relates to **an action redirected towards a new action**

#### 1.4. Objective(s)

##### 1.4.1. *The Commission's multiannual strategic objective(s) targeted by the proposal/initiative*

The European Agenda on Migration COM(2015) 240 final adopted on 13/05/2015 states the following:

"Responding to high-volumes of arrivals within the EU: Relocation

Member States' asylum systems today face unprecedented pressure and, with the summer arriving, the flow of people to frontline Member States will continue in the months to come. The EU should not wait until the pressure is intolerable to act: the volumes of arrivals mean that the capacity of local reception and processing facilities is already stretched thin. To deal with the situation in the Mediterranean, the Commission will, by the end of May, propose triggering the emergency response system envisaged under Article 78(3) TFEU. The proposal will include a temporary distribution scheme for persons in clear need of international protection to ensure a fair and balanced participation of all Member States to this common effort. The receiving Member State will be responsible for the examination of the application in accordance with established rules and guarantees. A redistribution key based on criteria such as GDP, size of population, unemployment rate and past numbers of asylum seekers and of resettled refugees can be found in the Annex."

<sup>5</sup> ABM: activity-based management; ABB: activity-based budgeting.

<sup>6</sup> As referred to in Article 54(2)(a) or (b) of the Financial Regulation.

*1.4.2. Specific objective(s) and ABM/ABB activity(ies) concerned*

Specific objective No 4

To enhance solidarity and responsibility-sharing between the Member States, in particular with those most affected by migration and asylum flows, including through practical cooperation

ABM/ABB activity(ies) concerned

18.03 – Asylum and Migration

*1.4.3. Expected result(s) and impact*

*Specify the effects which the proposal/initiative should have on the beneficiaries/groups targeted.*

Relocation of 40.000 applicants from Italy and Greece to the other Member States.

*1.4.4. Indicators of results and impact*

*Specify the indicators for monitoring implementation of the proposal/initiative.*

Number of applicants relocated

**1.5. Grounds for the proposal/initiative**

*1.5.1. Requirement(s) to be met in the short or long term*

This proposal is presented as result of a prevailing crisis in the area of asylum in Italy and Greece. The proposal based on Article 78(3) of the Treaty aims at preventing further deterioration of the asylum situation in these two countries and at providing them with effective support.

In its 23 April 2015 statement, the European Council committed to consider options for organising emergency relocation between all Member States on a voluntary basis. In its 28 April 2015 resolution, the European Parliament has called upon the Council to seriously consider the possibility of triggering Article 78(3) of the Treaty.

*1.5.2. Added value of EU involvement*

The emergency situation created by the sudden influx of third-country nationals in Italy and Greece puts their asylum systems and resources under considerable strain. As a consequence of this, other Member States can become affected, due to the secondary movements of these persons from Italy and Greece to these other Member States. It is clear that actions of individual Member States cannot satisfactorily reply to the common challenges all Member States are confronted with in this. EU action in this field is therefore essential.

*1.5.3. Lessons learned from similar experiences in the past*

This is the first time that a proposal is made under Article 78(3) of the Treaty.

*1.5.4. Compatibility and possible synergy with other appropriate instruments*

The AMIF foresees the possibility of transfer of applicants for international protection as part of the national programme of each Member State on a voluntary basis.

## 1.6. Duration and financial impact

☒ Proposal/initiative of **limited duration**

- ☐ Proposal/initiative in effect from [DD/MM]YYYY to [DD/MM]YYYY
- ☒ Financial impact from 2015 to 2017

☐ Proposal/initiative of **unlimited duration**

- Implementation with a start-up period from YYYY to YYYY,
- followed by full-scale operation.

## 1.7. Management mode(s) planned

☐ **Direct management** by the Commission

- ☐ by its departments, including by its staff in the Union delegations;
- ☐ by the executive agencies

☒ **Shared management** with the Member States

☐ **Indirect management** by entrusting budget implementation tasks to:

- ☐ third countries or the bodies they have designated;
- ☐ international organisations and their agencies (to be specified);
- ☐ the EIB and the European Investment Fund;
- ☐ bodies referred to in Articles 208 and 209 of the Financial Regulation;
- ☐ public law bodies;
- ☐ bodies governed by private law with a public service mission to the extent that they provide adequate financial guarantees;
- ☐ bodies governed by the private law of a Member State that are entrusted with the implementation of a public-private partnership and that provide adequate financial guarantees;
- ☐ persons entrusted with the implementation of specific actions in the CFSP pursuant to Title V of the TEU, and identified in the relevant basic act.
- *If more than one management mode is indicated, please provide details in the 'Comments' section.*

### Comments

This legislative financial statement shows the amounts which are necessary to cover the cost of relocation of applicants for international protection from Italy and Greece to other Member States. The commitments appropriations should be added to the current allocation of the

Asylum, Migration and Integration Fund (AMIF) on the budget ligne 18.030101. The calculation of the payment needs is based on Regulation (EU) N°514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (Horizontal Regulation).

## **2. MANAGEMENT MEASURES**

### **2.1. Monitoring and reporting rules**

*Specify frequency and conditions.*

For shared management, a coherent and efficient reporting, monitoring and evaluation framework is in place. For each national programme, Member States are requested to set up a Monitoring Committee to which the Commission may participate.

On an annual basis Member States will report on the implementation of the multiannual programme. These reports are a precondition for annual payments in the framework of the clearance of accounts procedure, set out in Regulation (EU) N° 514/2014 (Horizontal Regulation).

In 2018, the Commission will also submit a report on the mid term review carried out of the national programmes which will include the implementation of the financial resources made available by this Council Decision.

More globally, the Commission will submit an intermediate report on the implementation of the Funds by 31.12.2018 and an ex-post evaluation report by 30.06.2024, covering the whole implementation (i.e. not only national programmes under shared management).

### **2.2. Management and control system**

#### **2.2.1. Risk(s) identified**

DG HOME has not been facing important risks of errors in its spending programmes. This is confirmed by the recurrent absence of significant findings in the annual reports of the Court of Auditors as well as by the absence of residual error rate above 2% in the past years in DG HOME annual activity reports.

The management and control system follows the general requirements set in the CSF Funds and fully complies with the requirements of the Financial Regulation.

Multi-annual programming coupled with annual clearance based on the payments made by the Responsible Authority aligns the eligibility periods with the annual accounts of the Commission, without increasing the administrative burden compared to the current system.

On the spot checks will be carried out as part of the 1st level controls, i.e. by the Responsible Authority and will support its annual management declaration of assurance.

The use of lump sums (simplified cost option) shall further reduce mistakes made by the responsible authorities when implementing this Decision.

### 2.2.2. *Information concerning the internal control system set up*

In addition to the application of all regulatory control mechanisms, DG HOME will devise an antifraud strategy in line with the Commission's new anti-fraud strategy (CAFS) adopted on 24 June 2011 in order to ensure inter alia that its internal anti-fraud related controls are fully aligned with the CAFS and that its fraud risk management approach is geared to identify fraud risk areas and adequate responses. Where necessary, networking groups and adequate IT tools dedicated to analysing fraud cases related to the Funds will be set up.

As regards shared management, the CAFS identifies clearly the need for the Commission proposals for 2014-2020 regulations to request Member States to put in place fraud prevention measures which are effective and proportionate to the identified fraud risks. The current proposal includes in Article 5 a clear requirement for the Member States to prevent, detect and correct irregularities and to report to the

Commission. Further details as regards these obligations will be part of the detailed rules on the functions of the Responsible Authority as foreseen in Article 24(5)(c).

In addition, the re-use of funds coming from financial correction based on commission or Court of Auditors findings has been clearly indicated in Article 41.

### 2.2.3. *Estimate of the costs and benefits of the controls and assessment of the expected level of risk of error*

Negligible control costs and very low error risk.

## 2.3. **Measures to prevent fraud and irregularities**

*Specify existing or envisaged prevention and protection measures.*

The standard measures in DG HOME for the prevention of fraud and irregularities will apply.
