**Deklaration om danske dna-analysedatabaser**

Efter anmodning fra det danske Justitsministerium videresender EU-repræsentationen vedhæftede deklARATION om de nationale dna-analysedatabaser, jf. artikel 2(3) i Prüm-afgørelsen, til Rådets Generalsekretariat ([prum@consilium.europa.eu](mailto:prum@consilium.europa.eu)).

Det bemærkes, at det forventes, at deklARATIONEN og de tidligere fremsendte spørgeskemaer om udveksling af oplysninger om motorkøretøjer, DNA og fingeraftryk i relation til implementering af Prüm-afgørelsen skal behandles på det næste møde i DAPIX den 8. juni 2015 med henblik på en formel iværksættelse af evalueringsproceduren, jf. dok. 5010/3/2015/REV3, pkt. 2.3.

Med venlig hilsen

Thomas Højgaard  
Juridisk Attaché

**Declaration of Denmark**  
**in accordance with Article 2(3) of Council Decision 2008/615/JHA**

**List of shared national DNA files**

The national DNA databases is based on CODIS (Combined DNA Index System) installed at the National Laboratory of Forensic Science.

The DNA profiles database, which is shared with other European countries, is provided by the CODIS database. From this database, the following types of profiles are extracted:

- **Forensic, Unknown:** DNA profiles from crime scenes.
- **Person:** DNA profile from a person suspected or convicted of a criminal offence.

A country that wants to carry out the exchange and comparison of profiles with Denmark must comply with the legal, organisational and technical requirements laid down in Council Decisions 2008/615/JHA and 2008/616/JHA of 23 June 2008, in particular:

- Technical requirements. The country must:
  - have an automated national DNA database;
  - have an automated means of exchanging profiles;
  - be connected to the TESTA network;
  - have confirmation from a country that is already operational, that its exchange system is adequate.
  
- Legal requirements. The country must:
  - be able to share information under its domestic legislation;
  - comply with European rules on the processing of personal data;
  - have the Council's prior authorisation to exchange data.
  
- Organisational requirements: the country must:
  - have a national contact point to which Denmark may apply for additional information further to a DNA profiles match.
