COVER NOTE

From: Secretary-General of the European Commission,
signed by Mr Jordi AYET PUIGARNAU, Director

date of receipt: 1 July 2015

To: Mr Jeppe TRANHOLM-MIKKELSEN, Secretary-General of the Council of
the European Union

No. Cion doc.: C(2015) 4359 final ANNEXES 1 to 2

Subject: ANNEXES to the Commission Delegated Decision of XXXX on the
applicable systems to assess and verify constancy of performance of
wastewater engineering products pursuant to Regulation (EU) No
305/2011 of the European Parliament and of the Council

Delegations will find attached document C(2015) 4359 final ANNEXES 1 to 2.

Encl.: C(2015) 4359 final ANNEXES 1 to 2

Brussels, 1.7.2015
C(2015) 4359 final

ANNEXES 1 to 2

ANNEXES

to the Commission Delegated Decision

of XXXX

on the applicable systems to assess and verify constancy of performance of wastewater engineering products pursuant to Regulation (EU) No 305/2011 of the European Parliament and of the Council

ANNEX I

Products covered

This Decision applies to:

- (1) Back-flow devices: air admittance valve ventilating pipework;
- (2) Kits for waste water pumping station and effluent lifting plants;
- (3) Kits and elements for waste water treatment plants and on-site treatment equipment;
- (4) Septic tanks;
- (5) Prefabricated drainage channels;
- (6) Manholes and inspection chambers;
- (7) Step irons, ladders and handrail for manholes and inspection chambers;
- (8) Separators;
- (9) Manhole covers and gully tops.

ANNEX II

Systems of Assessment and Verification of Constancy of Performance

For the products covered by this Decision, taking into account their essential characteristics, the systems for Assessment and Verification of Constancy of Performance apply as follows:

Table 1: For all essential characteristics except reaction to fire

Products	Essential Characteristics	Applicable systems for Assessment and Verification of Constancy of Performance as set out in Annex V to Regulation (EU) No 305/2011
Back-flow devices: air admittance valve ventilating pipework	For all essential characteristics except reaction to fire	4
Kits for waste water pumping station and effluent lifting plants		3
Kits and elements for waste water treatment plants and on-site treatment equipment		3
Septic tanks		3
Prefabricated drainage channels		3
Manholes and inspection chambers		4
Step irons, ladders and handrails for manholes and inspection chambers		4
Separators		4
Manhole covers and gully tops		1

Table 2: For reaction to fire only

For all products indicated in the first column of Table 1, the systems for Assessment and Verification of Constancy of Performance are determined, depending on their subfamilies, as follows:

Product subfamilies	Applicable systems for Assessment and Verification of Constancy of Performance as set out in Annex V to Regulation (EU) No 305/2011
Products for which a clearly identifiable stage in their production process results in an improvement of their reaction to fire performance (e.g. by adding fire retardants or limiting organic materials)	1
Products for which an applicable European legal base exists to classify their reaction to fire performance without testing	4
Products not belonging to the subfamilies indicated in rows 1 and 2	3
