**LEGISLATIVE FINANCIAL STATEMENT FOR PROPOSALS HAVING A
BUDGETARY IMPACT EXCLUSIVELY LIMITED TO THE REVENUE SIDE**

1. NAME OF THE PROPOSAL:

Proposal for a Council Regulation opening and providing for the management of autonomous Union tariff quotas for certain fishery products for the period 2016 to 2018, repealing Council Regulation (EC) No 1220/2012

2. BUDGET LINES:

Chapter and Article: Title 1, Chapter 2, Article 0.

Amount budgeted for the year 2015: €16.701.200.000

3. FINANCIAL IMPACT

Proposal has no financial implications

Proposal has no financial impact on expenditure but has a financial impact on revenue – the effect is as follows:

(€million to one decimal place)

Budget line	Revenue ¹	Year 2016
Article 1.2.0	Impact on own resources	- 180/year

4. ANTI-FRAUD MEASURES

Checks on the end-use of some of the products covered by this Council Regulation will be carried out in accordance with Articles 291 to 300 of Commission Regulation (EEC) No 2454/93 laying down provisions for the implementation of the Community Customs Code.

5. OTHER REMARKS

The main impact of the Regulation is the loss of revenue for the European Union. Taking the most recent complete statistics (2013) as a basis, the impact on the loss of revenue resulting from this Regulation may be estimated at €180 million for the first year of the triennial period beginning in 2016.

¹ Regarding traditional own resources (agricultural duties, sugar levies, customs duties) the amounts indicated must be net amounts, i.e. gross amounts after deduction of 25% of collection costs.

The stated amount has been calculated on the basis of MFN duty rates, full utilisation of quotas and average price (€) per ton. It marks, therefore, the maximum level of loss of revenue since the Community grants more favourable trade preferences to different groups of third countries (GSP, GSP+, FTAs).

Therefore the actual loss of revenue tends to result in a lower amount (estimated at €159.5 million) since MFN duties do not apply across the board.
