The Council considered the compromise text set out in doc. 16546/13. This text could not be supported by BE/DK/HU/IT/LU/NL/PL thus preventing the Council from reaching political agreement on the proposal. AT/CZ/HU/SK presented a statement (as set out hereafter).

Statement by Austria, the Czech Republic, Hungary and Slovakia

"Austria, the Czech Republic, Hungary and Slovakia would like to express their concerns about the persistently unsatisfactory situation of the status quo of mutual recognition of certification systems, which is the result of not achieving unanimity for the proposal of the European Commission about a temporary solution.

Furthermore, we are concerned about the fact that the new system for the recognition of national certification systems on sustainability criteria for biofuels and bioliquids will not enter into force until the harvest 2014. On the contrary, this unacceptable situation, which might disturb the internal market, may last even one or two years longer.

In order to secure a well-functioning internal market we therefore appeal to the European Commission to urgently elaborate an acceptable solution, which allows for a fluent shift of the certificates from one system to another. Austria, the Czech Republic, Hungary and Slovakia remain open for every successful approach."

6. Any other business

- (a) Proposal for a Regulation of the European Parliament and of the Council concerning the notification to the Commission of investment projects in energy infrastructure with the European Union and replacing Council Regulation (EU, Euratom) No 617/2010 [First reading]**
