COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

European Development Fund (EDF): forecasts of commitments, payments and contributions from Member States for 2015, 2016, 2017, 2018 and 2019

1. FOREWORD

In accordance with Article 7(3) of the 11th EDF Internal Agreement¹ and Article 21(2) of the Council Regulation (EU) 2015/323² on the financial regulation applicable to the 11th European Development Fund (hereinafter referred to as "11th EDF Financial Regulation"), the Commission presents in this document estimates of commitments, payments and contributions for the period 2015 to 2017, taking into account the forecasts of the European Investment Bank (EIB).

This document sets out the financial implementation of the EDFs (8th to 11th) for 2014 and the forecasts of implementation for 2015 till 2017. In addition, this document draws a non-binding estimation, for the EDF contributions, from the Member States, for the years 2018 and 2019.

The Member States contribute funds directly to the European Investment Bank for the instruments which it manages under the 9th, 10th, and 11th EDFs (the Investment Facility and interest-rate subsidies).

2. INTRODUCTION

The Commission and the EIB have updated their commitment and payment forecasts for 2015, 2016 and 2017 for each of the ACP countries³ and the OCTs⁴. The payment forecasts in particular have been compiled with the aim of helping the Member States to assess as accurately as possible the amounts they need to earmark in their national budgets while ensuring that sufficient financial resources are available for the EDF to avoid liquidity problems.

In accordance with Article 7 of the 11th EDF Internal Agreement⁵ and Article 21(5) of the 11th EDF Financial Regulation⁶, the estimates provided in this document have been updated.

The graph below shows the general trend in gross commitments and payments since 1999, including projections for 2015, 2016 and 2017 (Commission and EIB cumulated amounts).

3. FINANCIAL FORECASTS FOR 2015 - 2017

The following table provides an update of the commitments, the payments and of the contributions, based on the Commission's latest forecasts.

4. NON-BINDING ESTIMATION OF CONTRIBUTION FOR 2018 - 2019

Forecasts 2018-2019 (**)		2018	2019
Contributions	Commission	4 050	4 150
	EIB	200	300

**Art.21(2)(d) Council Regulation (EU) 2015/323): indicative, non-binding forecast based on a statistical approach for the expected annual amounts of contributions for the years n + 3 and n + 4.

5. FINANCIAL IMPLEMENTATION FORECASTS FOR 2015, 2016 AND 2017

The updated forecasts are set out in attachments 1 to 3.

The updated 2015 forecasts confirm the Member States' contributions to the EDF for 2015 at EUR 3 200 million, as decided by the Council in November 2014⁷ and amended in June 2015⁸.

These figures confirm the June 2015 Communication from the Commission in terms of consumption for the current year.

For 2016, the annual amount of the contribution is set to EUR 3 600 million inline with the ceiling voted by the Council in November 2014. However, the EIB share accounts for EUR 150 million (down by EUR 100 million compared to the ceiling decided in November 2014) while the Commission will amount to EUR 3 450 million (up by EUR 100 million). This transfer allows smoothing the binding Member States contribution for 2016 (annual amount).
