Delegations will find attached a statement by the Commission to the minutes of the Permanent Representatives Committee.

Statement by the Commission

The Commission considers that the "joint EU submission" to be submitted the 3rd session of the IMO Sub-Committee on Navigation, Communication, Search and Rescue (NCSR 3), concerning recognition of Galileo as a component of the IMO World-Wide Radio Navigation System (WWRNS), is covered by EU exclusive competence. Submission of proposals to the IMO on issues of EU competence is an act of external representation and should be made by the Commission on behalf of the EU to IMO and should therefore be sent to the IMO by the Commission.

In the view of the Commission, the procedural arguments against presenting submissions to the IMO by the Commission on behalf of the EU are not convincing as there is no evidence to suggest that the IMO would reject such a submission. If the IMO were to do so it would be against the general provisions the UN has made for EU representation and participation in its work (UN GA Res 65/276).

The Commission thus maintains its position that the Treaty rules on external representation of the Union should be applied and, consequently, to present the submission in question to the IMO by the European Commission on behalf of the European Union is the only legally correct way forward. In case of non-respect of the above rules, the Commission reserves all its rights in this regard.
