amending Regulation (EU) No 1332/2011 laying down common airspace usage requirements and operating procedures for airborne collision avoidance

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 216/2008 of the European Parliament and of the Council of 20 February 2008 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency, and repealing Council Directive 91/670/EEC, Regulation (EC) No 1592/2002 and Directive 2004/36/EC¹, and in particular Article 8(5) and 9(4) thereof,

Whereas:

- (1) Commission Regulation (EU) No 1332/2011² requires turbine-powered aeroplanes, with a maximum certificated take-off mass (MCTOM) of more than 5 700 kg or authorised to carry more than 19 passengers to be equipped with a new software version 7.1 of the airborne collision avoidance system (ACAS II) to avoid mid-air collision. This requirement also applies to operators of certain aeroplanes registered in a third country.
- (2) Regulation (EU) No 1332/2011 also requires Union air operators who are subject to Council Regulation (EEC) No 3922/91³ to install the new software version 7.1 of ACAS II on their aeroplanes. However, this provision is obsolete as Regulation (EEC) No 3922/91 no longer applies to those operators since its Annex III has been deleted. Commission Regulation (EU) No 965/2012 now applies to those operators instead and contains the necessary rules in this regard. The obsolete provision of Regulation (EU) No 1332/2011 should therefore be deleted.
- (3) Regulation (EU) No 1332/2011 contains rules on operational procedures applicable in situations where ACAS II gives indication to the flight crew recommending a manoeuvre to ensure separation of the aeroplane from all threats or to maintain existing separation (resolution advisory). As those rules are safety-critical both for

³ Council Regulation (EEC) No 3922/91 of 16 December 1991 on the harmonization of technical requirements and administrative procedures in the field of civil aviation (OJ L 373, 31.12.1991, p. 4).

pilots and controllers, especially as regards the interface between them, they are better addressed in Commission Implementing Regulation (EU) No 923/2012⁴ instead. Therefore, the rules related to such operational procedures set out in Regulation (EU) No 1332/2011 should be deleted.

- (4) Regulation (EU) No 1332/2011 should therefore be amended accordingly.
