Allocation between priority axes in the OP by 31.12.2014:

54.3% for axis 1, 3.0% for axis 2, 32.4% for axis 3, 7.2% for axis 4 and 3.0% for axis 5.

<u>EFF funds allocated to Bulgaria for the period 2007-2013</u> amounted to EUR 80009708, which represents 1.85% of the total EFF allocation for the Union. Following the EFF decommitment at end-2014, this amount was reduced to EUR 62 783 168.

<u>Total public contribution</u> was initially EUR 106679611 which, following the last OP modification of 06.12.2013 dropped to EUR 101168996. The situation was the same at the end of 2014 as no OP modification occurred during 2014.

<u>Allocation between priority axes in the OP by 31.12.2014</u> 7.9% for axis 1; 47.4% for axis 2; 18.4% for axis 3; 20.9% for axis 4 and 5.3% for axis 5 (in line with the last OP modification: Commission Decision C(2013) 9036 of 06.12.2013)</u>

By the end of 2014, an amount of EUR 76 074 756,9 was committed, which represents 97 % of the original EFF total amount of EUR 78 071 718.91. Also, an amount of EUR 36 073 199,59 was certified to the Commission by end 2014, which represents 46,20% of the original EFF allocation.

Czech Republic

The OP covers the entire territory of the Czech Republic with the exception of Prague region, and it is designated as a convergence region.

Following the introduction of corrective measures by the CZ authorities in 2014, the COM accepted with follow-up the revised 2012 and 2013 ACRs and CZ was able to resume interim payments. The CA submitted on 19 Dec 2014 a new payment claim of EUR 3.25 M from which the ineligible expenditure of EUR 1.23 M had been deducted.

By the end of 2014, 91% of the original EFF total amount had been committed and 70% was certified.

In 2014, an EFF amount of EUR 2 135 905.83 was committed by the Member State (8% of the total allocation) and EUR 3 253 164.63 EFF-related expenditure was certified to the Commission.

Total public contribution amounts to EUR 238 840 272.

Allocation between priority axes in the OP by 31.12.2014:

24.7% for axis 1, 17.4% for axis 2, 43.4% for axis 3, 11.9% for axis 4 and 2.6% for axis 5.

By the end of 2014, around 85% of the original EFF total amount had been committed and 74% was certified.

In 2014, an EFF amount of EUR 6 311 292 was committed by the Member State (5.5% of the total allocation) and EUR 35 762 080 was certified to the Commission.

Germany

The OP covers the entire territory of Germany, with the exception of the Länder Hamburg, Hesse, Rhineland-Palatinate and Saarland. The Länder Brandenburg, Mecklenburg-West Pomerania, Saxony, Saxony-Anhalt, Thuringia and the region of Luneburg in Lower Saxony are designated as convergence regions and the rest of the Länder as non-convergence regions.

18.0% for axis 1, 29.1% for axis 2, 25.1% for axis 3, 22.8% for axis 4 and 5.0% for axis 5.

Main implementation aspects:

Despite promising progress achieved during exchanges between the Commission and the Member State throughout the year 2014 payments to Estonia for the EFF related to some expenditure certified under Article 25(2) remained interrupted because there was no full guarantee that all of the expenditure declared under this measure was eligible. For the same reason, in May the Commission had to proceed to suspension of part of the payments for the programme.

By the end of 2014, 79% of the original EFF total amount had been committed and 58% was certified.

In 2014, an EFF amount of EUR 16 714 007 was committed by the Member State (20% of the total allocation) and EUR 17489081 was certified to the Commission.

EFF funds allocated to Greece for the period 2007-2013 amount to EUR 207832237 (EUR 176836728 for the 11 convergence regions and EUR 30995509 for the two non-convergence regions), which represents 4.83% of the total EFF allocation for the Union.

Total public contribution amounts to EUR 274105143.

Allocation between priority axes in the OP by 31.12.2014:

36.5% for axis 1, 24.4% for axis 2, 19.1% for axis 3, 17.4% for axis 4 and 2.6% for axis 5.

Main implementation aspects:

In 2014, the OP was modified in terms of its financial table (Commission Decision C(2014)6080 of 27.08.2014) for reasons of sound financial management. Despite the fact that the OP has made significant progress in terms of its implementation both at operational and financial level, the amount of 5 277 880 had been de-committed due to N+2 rule (commitment of 2012). The increase in the absorption rate at EU payment level, currently amounting to 81.86% (including pre-financing), is also related to the use of the provisions under Regulation (EU) No 387/2012 allowing for a 10% top-up since the date (11 May 2010) the Intercreditor Agreement and the Loan Facility Agreement for Greece entered into force.

By the end of 2014, 96.82% of the original EFF total amount had been committed and 63.72% was certified.

In 2014, an EFF amount of EUR 43 578 057.7 was committed by Greece (20.97% of the total EFF allocation) and EUR 15 057 831.04 was certified to the Commission.

Total public contribution amounts to EUR 2 207 842 936.

Allocation between priority axes in the OP by 31.12.2014

42.4% for axis 1, 25.5% for axis 2, 25.4% for axis 3, 4% for axis 4 and 2.2% for axis 5

Main implementation aspects:

Automatic decommitment at the end of 2014: EUR 61 750 438 in convergence regions. This represents 45% of the annual allocation of EUR 136 163 340.

By the end of 2014, 83.1 % of the original EFF total amount had been committed and 67.2 % was certified.

In 2014, an EFF amount of EUR 80 870 701 was committed by the Member State and EUR 99 010 445 was certified to the Commission.

Analysis of 2014 AIR confirms that progress has been slow in convergence. In the nonconvergence area, the increase of commitments is satisfactory and more especially on Axis 4. We notice that the progress towards implementation of the EFF was disappointing on 31/12/2013 but regions have reallocated the unused funds among themselves via transfers in order to optimise the implementation of projects on the two remaining years.

France

The OP covers four convergence regions, Guadeloupe, Guyane, Martinique and Réunion (the outermost regions), and the rest of the country is designated as a non-convergence region.

<u>EFF funds allocated to France for the period 2007-2013</u> amounted to EUR 216 053 084.00 (EUR 34 250 343 for convergence regions and EUR 18 802 741 for non-convergence region), which represents 5% of the total EFF allocation for the Union. As a result of the funds losses during the programming period, due to automatic decommitment, the EFF budget was reduced to EUR 213 025 429.

<u>Total public contribution</u> amounts currently to EUR 567 785 571 (38% of the EFF and 62% of the national public co-financing).

<u>Allocation between priority axes in the OP by 31.12.2014 was as follows</u>: 42.4% for axis 1, 25.5% for axis 2, 25.4% for axis 3, 4.4% for axis 4 and 2.2% for axis 5.

Main implementation aspects:

For the third consecutive year the automatic decommitment affected the convergence regions. The amout decommitted at the end of 2014 was EUR 1 020 226, which represents 18% of the annual allocation for 2012 and 8% of the total initial EFF allocation for the convergence regions.

By the end of 2014, 63% of the original EFF total amount had been committed and 67% was certified. In 2014, an EFF amount of EUR 27 609 458 was committed by the Member State and EUR 18 711 839 13 was certified to the Commission.

Croatia

Following the accession of Croatia to the EU on 1 July 2013, an EFF operational programme was submitted on 31 October 2013.

The Croatian OP as approved by the Commission on 19 December 2013 covers the entire territory of the country, which is designated as a convergence region.

<u>EFF funds allocated to Croatia for the period 2007-2013</u> amount to EUR 8700000, which represents 0.20% of the total EFF allocation for the Union.

The total public contribution amounts to EUR 11600000.

Allocation between priority axes: 51.8% for axis 1, 43.2% for axis 2 and 5% for axis 5.

<u>Overall assessment</u>: During 2014 the Croatian authorities focused on setting up the management and control systems and other preparatory measures for launching the OP implementation on the ground. Three of the four measures of the OP were opened for tender, some of which towards the end of the year and did not translate into high commitments.

By the end of 2014, EUR 19 573.89 had been committed by the Member State but no expenditure was certified to the Commission.

Italy

The OP covers Basilicata, Calabria, Campania, Puglia and Sicily as convergence regions and the rest of the country as a non-convergence region.

<u>EFF funds allocated to Italy for the period 2007-2013</u> amount to EUR 424 342 854, which represents 9.9 % of the total EFF allocation for the Union

Total public contribution amounts to EUR 848 685 708.

Allocation between priority axes in the OP by 31.12.2014:

42.83 % for axis 1, 23.32 % for axis 2, 21.66 % for axis 3, 8.02 % for axis 4 and 4.38 % for axis 5

39.5% for axis 1, 10.1% for axis 2, 42.7% for axis 3, 5.1% for axis 4 and 2.5% for axis 5.

Main implementation aspects:

Despite the exceptional financial circumstances that the Republic of Cyprus has faced since 2013, in 2014 significant progress has been made in the implementation of projects approved for funding under the Cypriot EFF OP 2007-2013 both at operational and financial level. The absorption rate at EU payment level, currently amounting to 95%, is also related to the use of the provisions under Regulation (EU) No 387/2012 allowing for a 10% top-up since the date (26 April 2013) the economic adjustment programme was signed.
