"I" ITEM NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee

Subject: Proposal for a Regulation of the European Parliament and of the Council on a multiannual recovery plan for Bluefin tuna in the eastern Atlantic and the Mediterranean repealing Regulation (EC) No 302/2009
- Endorsement of the mandate of the informal trilogue

1. The European Commission submitted the above proposal to the Council on 24 April 2015. The proposal aims at implementing into Union law measures of the multiannual Bluefin tuna recovery plan in the eastern Atlantic and the Mediterranean adopted by the International Commission for the Conservation of Atlantic Tunas (ICCAT) at its annual meetings between 2012 and 2014.
2. Following the examination of the proposal by the Working Party on Internal and External Fisheries Policy, COREPER granted, on 22 July 2015, the Presidency a mandate to negotiate with the European Parliament¹.
3. The European Parliament adopted its opinion in first reading at its session in Strasbourg on 18 - 21 January 2016².

¹ Cf. doc. 10905/15.

² Cf. doc. 5261/16.

4. The European Parliament's opinion was subsequently examined in the Working Party with a view to preparing for the informal trilogue. On 11 February 2016 the Working Party reached an agreement on an updated mandate on the basis of a Presidency compromise³.
 5. The Commission representative recalled its reservation on the principle of deleting delegated acts.
 6. The Permanent Representatives Committee is therefore invited to endorse the mandate for the informal trilogue on the proposal for a Regulation of the European Parliament and of the Council on a multiannual recovery plan for Bluefin tuna in the eastern Atlantic and the Mediterranean repealing Regulation (EC) No 302/2009, as set out in the Annex to this Note (amendments to the existing mandate are indicated in the fourth column).

Recital 3(a) - new			<i>Amendment 1</i> <i>(3a) The Recovery plan takes into account the specificities of the different types of gears. When implementing the recovery plan, the Union and Member States should pay particular attention to non-industrial fishing activities and to the most artisanal and sustainable gear types, such as traditional traps ("almadrabas", "tonnare"), which contribute very positively to the rebuilding of tuna stocks, due to their high level of selectivity and low environmental impact in marine ecosystems, and which are valuable in scientific terms.</i>	Presidency compromise: reject this recital because it goes beyond the implementation exercise. Fall-back position rephrase recital in line with CFP Art. 17: "When implementing the recovery plan, the Union and Member States should pay particular attention to deploying fishing gear or using fishing techniques with reduced environmental impact."

Recital 15	<p>(15) It is necessary to transpose into Union law future binding amendments of the Recovery plan. In order to swiftly incorporate into Union law such amendments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the European Commission (the "Commission"). It is of particular importance that the Commission carries out appropriate consultations during its preparatory work, including at expert level. Recital 12	(12) At its 19 th Special Meeting in 2014, ICCAT adopted Recommendation 14-04 ⁴⁹ amending Recommendation 13-07 and repealing Recommendation 13-08. Whilst some of the existing control provisions have been rationalised, the procedures for the use of stereoscopic camera at the point of caging were further specified and measures specific to release operations and the treatment of dead fish were introduced in the Recovery plan.			
Recital 13	(13) Recommendation 14-04 is binding on the Union.			

⁴⁹ Recommendation 14-04 amending the Recommendation 13-07 by ICCAT to establish a multiannual recovery plan for Bluefin tuna in the Eastern Atlantic and the Mediterranean.
