BUDGET 2014 - JOINT CONCLUSIONS

1. BUDGET 2014

1.1. "Closed" lines

Unless stated otherwise below in these conclusions, all budget lines not amended by either the European Parliament or the Council, and those for which the European Parliament accepted the Council's amendments during their respective reading are confirmed.

For the other budget items, the Conciliation Committee has reached the following conclusions:

1.2. Horizontal issues

a) Decentralised agencies

The number of posts for all decentralised agencies is set at the level proposed by the Commission in its 2014 draft budget (DB), with the exception of:

- *European Aviation Safety Agency (EASA)*, for which 7 additional posts are agreed;
- *European Banking Authority (EBA)*, for which 8 additional posts are agreed;
- *European Insurance and Occupational Pensions Authority (EIOPA)*, for which 3 additional posts are agreed;
- *European Securities and Markets Authority (ESMA)*, for which 5 additional posts are agreed;
- *European Asylum Support Office (EASO)*, for which 2 additional posts are agreed; and
- *EUROPOL*, for which 2 additional posts are agreed.

The EU contribution (in commitment appropriations and in payment appropriations) for decentralised agencies is set at the level proposed by the Commission in its 2014 DB, with the exception of:

- *European Banking Authority* (EBA), for which an additional amount of EUR 2.1 million is agreed, on the basis of the EU funding key of 40 % (60 % to be co-financed by national supervisory authorities);
- *European Insurance and Occupational Pensions Authority* (EIOPA), for which an additional amount of EUR 1.2 million is agreed, on the basis of the EU funding key of 40 % (60 % to be co-financed by national supervisory authorities);
- *European Securities and Markets Authority* (ESMA), for which an additional amount of EUR 2.0 million is agreed, on the basis of the EU funding key of 40 % (60 % to be co-financed by national supervisory authorities);
- *European Asylum Support Office* (EASO), for which an additional amount of EUR 0.13 million is agreed;
- *EUROPOL*, for which an additional amount of EUR 1.7 million is agreed; and
- *FRONTEX*, for which an additional amount of EUR 2.0 million is agreed.

The Conciliation Committee agrees on the joint statement on decentralised agencies as set out in Section 3.4.

b) Executive agencies

The EU contribution (in commitment appropriations and in payment appropriations) and the number of posts for executive agencies are set at the level proposed by the Commission in letter of amendment No 2/2014.

c) Joint Technology Initiatives (JTIs)

The EU contribution (in commitment appropriations and in payment appropriations) and the number of posts for Joint Technology Initiatives are set at the level proposed by the Commission in its 2014 DB, as amended by letter of amendment No 1/2014.

d) Pilot Projects/Preparatory Actions

A comprehensive package of 68 pilot projects/preparatory actions (PP/PA), for an amount of EUR 79.4 million in commitment appropriations, is agreed, as proposed by the European Parliament. When a PP/PA appears to be covered by an existing legal basis, the Commission may propose the transfer of appropriations to the corresponding legal basis in order to facilitate the implementation of the action.

This package fully respects the ceilings for PP/PA provided in the Financial Regulation.

1.3. Expenditure headings of the financial framework - Commitment appropriations

After taking into account the above conclusions on "closed" budget lines, agencies and PP/PA, the Conciliation Committee has agreed on the following:

a) Sub-heading 1a

Commitment appropriations are set at the level proposed by the Commission in its 2014 DB, as amended by letters of amendment No 1/2014 and No 2/2014, with the following exceptions:

f) **Heading 5**

As far as establishment plan posts of all institutions are concerned, the level proposed by the Commission in its 2014 DB, as amended by letter of amendment No 2/2014, is agreed, with the exception of the European Parliament, for which its own reading is agreed.

Commitment appropriations are set at the level proposed by the Commission in its 2014 DB, as amended by letter of amendment No 2/2014, with the exception of:

- The amounts corresponding to the possible impact of the 2011 and 2012 salary adjustments, which are not included in the budgets of each institution at this stage, pending the ruling of the Court of Justice. The Conciliation Committee agrees on the joint statement as set out in Section 3.5;
- Furthermore, as far as the appropriations of the other institutions are concerned, the level proposed by the European Parliament is agreed, with the following exceptions:
 - For the European Court of Auditors (Section V), the abatement rate proposed by the Council is agreed;
 - For the Court of Justice (Section IV), excluding the reduction of EUR 0.6 million proposed by the European Parliament;

- For the European External Action Service (Section X), excluding the transfer of the EU Special Representatives proposed by the European Parliament. The Conciliation Committee agrees on the joint statement as set out in Section 3.6.
- In addition, three new lines (30 01 16 01, 30 01 16 02 and 30 01 16 03) are included in the budget of the Commission (Section III), with the corresponding level of appropriations proposed by the European Parliament in its reading.

As a consequence, and after taking into account PP/PA, the margin under the expenditure ceiling of heading 5 amounts to EUR 316 million.

Creation of function group AST/SC

The establishment plans of all EU institutions and bodies will be modified to take account of the creation in the Staff Regulations of the new AST/SC function group, as proposed in letter of amendment No 2/2014.

g) Heading 6

Commitment appropriations are set at the level proposed by the Commission in its 2014 DB.

1.4. Special instruments

Commitment appropriations for the Emergency Aid Reserve (EAR) and the European Globalisation Adjustment Fund (EGF) are set at the level proposed by the Commission in its 2014 DB.

1.5. Payment appropriations

The overall level of payment appropriations in the 2014 budget is set at EUR 135 504 613 000.

The Council position on the 2014 DB is used as a starting point to apply the following allocation of payment appropriations across budget lines in 2014:

- (1) First, account is taken of the agreed level of commitment appropriations for non-differentiated expenditure, for which the level of payment appropriations by definition is equal to the level of commitments;
- (2) By analogy, the same applies to decentralised agencies, for which the EU contribution in payment appropriations is set at the level proposed in section 1.2 above;

- (3) The payment appropriations for all *new* PP/PA are set at 50 % of the corresponding commitment appropriations, or to the level proposed by the European Parliament if lower; in the case of extension of *existing* PP/PA the level of payments is the one defined in the 2014 DB plus 50 % of the corresponding new commitments, or to the level proposed by the European Parliament if lower;
- (4) The following specific amounts in payment appropriations are agreed:
- a) The level of payment appropriations for the EU Solidarity Fund in 2014 is set at EUR 150 million;
 - b) The level of payment appropriations for the Joint Technology Initiatives is set at the level proposed in letter of amendment No 1/2014, whereas the level of payment appropriations for the International Fisheries Agreements is set at the level proposed in letter of amendment No 2/2014;
 - c) The level of payment appropriations for "*Support to peace process and financial assistance to Palestine and to the United Nations Relief and Works Agency for Palestine Refugees (UNRWA)*" is set at EUR 200 million;
 - d) The level of payment appropriations for the Macro-regional strategies 2014-2020 is set at 50 % of the level of commitments defined under sub-heading 1b in section 1.3 above;
 - e) The level of payment appropriations for the Special Annual Events is set at the level of commitments defined under sub-heading 1a in section 1.3 above.
- (5) The level of payment appropriations set in paragraphs 2 to 4 has a net impact of EUR 285 million compared with the Council's position on the 2014 DB for the expenditure items concerned. Taking into account the difference between the overall level of payment appropriations of EUR 135 504 613 000 and the Council's position on the 2014 DB, the remaining amount of EUR 215 million allows for an increase of payment appropriations across all budget lines with differentiated appropriations for which no specific rules have been defined in the paragraphs 2 to 4 above, in proportion with the difference between the 2014 DB proposed by the Commission and the Council's position.

As part of the overall compromise, the Conciliation Committee agrees on the joint statement on payment appropriations as set out in section 3.1 below.

The Council takes note of the joint statement of the European Parliament and the Commission on payment appropriations as set out in section 3.2 below.

1.6. Budgetary remarks

All amendments introduced by the European Parliament or the Council to the text of budgetary remarks are agreed with changes as set out in Annex 1. This is with the understanding that they cannot modify or extend the scope of an existing legal base, or impinge on the administrative autonomy of institutions, and that the action can be covered by available resources.

1.7. New budget lines

Unless mentioned otherwise in the joint conclusions agreed by the Conciliation Committee or agreed jointly by both arms of the budgetary authority in their respective reading, the budget nomenclature as proposed by the Commission in its 2014 DB and its letters of amendment No 1 and No 2/2014 will remain unchanged, with the exception of PP/PA.

2. BUDGET 2013

	Total			50.000

The redeployment of payment appropriations for administrative support expenditure for research (Chapter 08 01) in 2013 concerns non-differentiated expenditure, which leads to a corresponding reduction in commitment appropriations (-EUR 26.9 million) on the last three lines in the table above.

An amount of EUR 250 million of payment appropriations for the EU Solidarity Fund is included in the 2013 budget, whereas an amount of EUR 150 million of payment appropriations for the EU Solidarity Fund is included in the 2014 budget.

3. STATEMENTS

3.1. Joint statement on payment appropriations

"The European Parliament, the Council, and the Commission recall their shared responsibility, as laid down in Article 323 of the Treaty on the Functioning the European Union (TFEU), that "the European Parliament, the Council and the Commission shall ensure that the financial means are made available to allow the Union to fulfil its legal obligation in respect of third parties".

The European Parliament and the Council recall the need to ensure, in the light of implementation, an orderly progression of payments so as to avoid any abnormal shift of outstanding commitments ('RAL') onto the 2015 budget. In this respect, they will have recourse, when appropriate, to the various flexibility mechanisms included in the MFF Regulation, among others in its Article 13.

The European Parliament and the Council agree to set the level of payment appropriations for 2014 at EUR 135 504 613 000. They ask the Commission to initiate any necessary action, on the basis of the provisions of the draft MFF Regulation and the Financial Regulation, to cover the responsibility assigned by the Treaty and, in particular, after having examined the scope for reallocation of the relevant appropriations, with particular reference to any expected under-implementation of appropriations (Financial Regulation Article 41§2) to request additional payment appropriations in an amending budget if the appropriations entered in the 2014 budget are insufficient to cover expenditure.

The European Parliament and the Council will take position on any draft amending budget as quickly as possible in order to avoid any shortfall in payment appropriations. In addition, the European Parliament and the Council undertake to process swiftly any possible transfer of payment appropriations, including across financial framework headings, in order to make the best possible use of payment appropriations entered in the budget and align them to actual execution and needs.

The European Parliament, the Council and the Commission will, throughout the year, actively monitor the state of implementation of the 2014 budget, in particular under sub-heading 1b (Economic, social and territorial cohesion) and rural development under heading 2 (Sustainable Growth: Natural Resources). This will take the form of dedicated inter-institutional meetings, in accordance with point 36 of the Annex of the Interinstitutional Agreement, to take stock of payment implementation and revised forecasts."

3.2. European Parliament and Commission statement on payment appropriations

"The European Parliament and the Commission recall the need for specific and maximum flexibility within the 2014-2020 MFF. Changes to the proposed legal bases agreed by the legislative authority will lead to further pressure on the payment ceilings under the 2014-2020 MFF. In the context of the finalisation of the legislative package for the Cohesion policy 2014-2020 and taking into account the possible impact of the SME initiative, the Commission issued a declaration on the impact of the agreement reached on the performance reserve and pre-financing levels, on payment needs. Whilst the overall impact of these changes on additional payment appropriations in the 2014-2020 MFF is considered to remain limited, the Commission stated that the annual fluctuations in the global level of payments would be managed through the use of the global margin for payments. If needed, the Commission may also have recourse to the Flexibility Instrument and the Contingency Margin agreed upon in the draft MFF Regulation.

Therefore, the Commission intends to propose correcting measures in light of implementation, using, to the extent necessary, all the tools offered by the new MFF. Specifically, in the course of 2014 the Commission may have to propose to have recourse to the Contingency Margin, in accordance with Article 13 of the draft MFF Regulation."

3.3. Council statement on payment appropriations

"The Council recalls that the special instruments can only be activated to cater for genuinely unforeseen circumstances.

It recalls that the Contingency Margin shall not result in exceeding the total ceilings of commitment and payment appropriations.

As regards other special instruments, the Council recalls that Article 3(2) of the draft MFF Regulation states that commitment appropriations may be entered in the budget over and above the ceilings of the relevant headings."

3.4. Joint statement on decentralised agencies

"The European Parliament, the Council and the Commission recall the importance to progressively reduce the staffing levels of all EU institutions, bodies and agencies by 5% over five years, as agreed in point 23 of the draft Interinstitutional Agreement on budgetary discipline, cooperation in budgetary matters and on sound financial management.

The European Parliament and the Council commit to pursue progressively the above-mentioned 5% staff reduction for the period 2013-2017 while insisting as well on the proper functioning of the agencies so that they can fulfil the tasks they have been assigned by the legislative authority. In this respect, they consider that further measures, including structural ones, may be required to achieve this reduction for decentralised agencies. In this context, the Commission will continue its assessment of the possibilities to merge and/or wind-up some of the existing agencies, and/or other ways to achieve synergies.

Further to the work carried out by the Inter-Institutional Working Group, which resulted in the Common Approach on decentralised agencies agreed in July 2012, the European Parliament, the Council and the Commission agree on the need for a closer and more permanent scrutiny on the development of decentralised agencies to ensure a coherent approach. Without prejudice to their respective prerogatives, they agree to establish a specific inter-institutional working group with the aim of defining a clear development path for agencies, based on objective criteria. The Group should in particular discuss:

- Evaluation of establishment plans on a case-by-case basis;
- Ways to provide adequate appropriations and staff for additional tasks, assigned to individual agencies by the legislative authority;
- Treatment of agencies which are fully or partially fee-financed;
- Administrative structure of agencies, financing models, treatment of assigned revenues;
- Reassessment of needs; potential mergers/closures; transfer of tasks to the Commission.

The European Parliament and the Council will take into due account the results achieved by the Inter-Institutional Working Group in their deliberations as legislative and budgetary authority."

3.5. Joint statement on heading 5 and salary adjustments

"The European Parliament and the Council agree that pending the outcome of the cases before the European Court of Justice, the appropriations related to the proposed salary adjustments of 1.7 % for 2011 and 1.7 % for 2012 will not be included at this stage in the 2014 budget.

Should the Court of Justice rule in favour of the Commission, the Commission will present a draft amending budget in 2014 in order to cover the proposed salary adjustments, for all the Sections. Under such a scenario, the European Parliament and the Council undertake to act swiftly on the relevant draft amending budget."

3.6. Joint statement on EU Special Representatives

"The European Parliament and the Council agree to examine the transfer of appropriations for the European Union Special Representatives from the Commission's budget (Section III) to the budget of the European External Action Service (Section X) in the context of the 2015 budgetary procedure."

Annex – Modification of budgetary remarks

With reference to section 1.6 of the joint conclusions, as compared to the budgetary remarks voted by the European Parliament and the Council, the following modifications are agreed:
