Betreff: FW: Listing of breeding organisations

Dear Colleagues,

Please find below a mail from Josef.

I would appreciate for your consideration of suggestions provided in this mail, taking into account all elements of those tables required by Animal Breeding Regulation but also practical approach suggested by Josef.

I propose to discuss it during next WG on 9 January 2017.

Best regards

Ewa

Subject: Listing of breeding organisations

Dear Ewa,

I had a look on the new document for listing the recognized breeding organisations.

I tried to fill in real data from Austria (modified).
I noticed following items:

- ∅ Table with a big head
- ∅ Quite a lot of columns (14)
- ∅ High number of columns, which will be „empty“ in most of the cases

In the annex I send you a document, where I tried to fill in real data. The first page is the original table of your document, the second one with a yellow title is a suggestion for a new uncomplicated structure of the table.

I tried to put some columns together in one; that's the most important point.
In the table for Equidae I want to point out, that I filled in a third derogation (number 3).

Have a look on it if this will be a way for simplification and better reading.
It's no problem if you want to show or send my comments to other delegations.

WITH CHRISTMAS GREETINGS

Josef Wiesböck
