Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Regulation (EC) No 1059/2003 as regards the territorial typologies (Tercet)  
- Outcome of the European Parliament's first reading  
(Strasbourg, 13 to 16 November 2017)

### I. INTRODUCTION

In accordance with the provisions of Article 294 of the TFEU and the joint declaration on practical arrangements for the codecision procedure <sup>1</sup>, a number of informal contacts have taken place between the Council, the European Parliament and the Commission with a view to reaching an agreement on this dossier at first reading, thereby avoiding the need for second reading and conciliation.

In this context, the rapporteur, Iskra MIHAYLOVA (ALDE, BG) presented one compromise amendment (amendment 1) to the proposal for Regulation, on behalf of the Committee on Regional Development. This amendment had been agreed during the informal contacts referred to above.

## II. VOTE

When it voted on 14 November 2017, the plenary adopted the compromise amendment to the proposal for a Regulation (amendment 1).

The Commission's proposal as thus amended constitutes the Parliament's first-reading position which is contained in its legislative resolution as set out in the Annex hereto<sup>2</sup>.

The Parliament's position reflects what had been previously agreed between the institutions. The Council should therefore be in a position to approve the Parliament's position.

The act would then be adopted in the wording which corresponds to the Parliament's position.

<sup>2</sup> The version of the Parliament's position in the legislative resolution has been marked up to indicate the changes made by the amendments to the Commission's proposal. Additions to the Commission's text are highlighted in ***bold and italics***. The symbol "■" indicates deleted text.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 338(1) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee<sup>5</sup>,

Having regard to the opinion of the Committee of the Regions<sup>6</sup>,

Acting in accordance with the ordinary legislative procedure<sup>7</sup>,

<sup>6</sup> OJ C 342, 12.10.2017, p. 74.

<sup>7</sup> Position of the European Parliament of 14 November 2017.

Whereas:

- (1) Regulation (EC) No 1059/2003 of the European Parliament and of the Council<sup>8</sup> establishes a common statistical classification of territorial units (Nomenclature of territorial units for statistics, referred to as 'NUTS') in order to enable the collection, compilation and dissemination of harmonised regional statistics in the European Union.
- (2) ■ The Commission, in collaboration with the Organisation for Economic Co-operation and Development, has defined a number of *basic and most relevant* territorial typologies to classify the statistical units established by Regulation (EC) No 1059/2003.
- (3) The European Statistical System already uses those typologies, in particular the degree of urbanisation, which includes the definition of cities ■ .

---

<sup>8</sup> Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS) (OJ L 154, 21.6.2003, p. 1).

- (4) The codification of the typologies is necessary in order to set out unambiguous definitions of and conditions for territorial types, ensuring their harmonised and transparent application and making the typologies stable *in order to* support the compilation and dissemination of European statistics. ***Those statistical typologies are without prejudice to the identification of specific areas for Union policies.***
- (5) A system of statistical grids should apply to calculate and attribute the territorial types to the regions and areas in question, since those types depend on the population distribution and density in grid cells of one square kilometre.
- (6) A number of minor aspects of the local administrative units (LAU) should also be clarified to simplify terminology and the delivery mechanism of the lists of LAU from the Member States to the Commission (Eurostat).

- (7) In order to adapt to corresponding developments in the Member States, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amending, *in accordance with the information communicated by Member States*, the NUTS classification in Annex I, the list of existing administrative units in Annex II and the list of LAU in Annex III to Regulation (EC) No 1059/2003. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making<sup>9</sup>. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

---

<sup>9</sup> OJ L 123, 12.5.2016, p. 1.

- (8) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission in respect of the application of territorial typologies and the time series the Member States are to give to the Commission in case of any amendment to the NUTS classification. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council<sup>10</sup>.
- (9) *Since the objective of this Regulation, namely the harmonisation of regional classification, cannot be sufficiently achieved by the Member States but can rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.*
- (10) Regulation (EC) No 1059/2003 should therefore be amended accordingly,

HAVE ADOPTED THIS REGULATION:

---

<sup>10</sup> Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).
