EUROSTAT LIST OF EU PORTS

Description

The statistical ports and sub-ports are classified in alphabetical order for each Member State.

Please note that the special aggregates listed at the end for each Member State are not included in the number of national ports in the list.

Structure

Column heading	Explanation
Column heading	*Explanation*
CTRY	Country code (ISO alpha-2 code).
MCA	The maritime coastal area in which the port is situated (Annex IV of Directive 2009/42/EC).
Locode	United Nations Code for Trade and Transport Locations (UN/LOCODE) or provisional location code allocated by Eurostat to special aggregates and ports without a valid UN/LOCODE.
Port name	Name of the port.
Nat. stat. group	For ports that are not statistical ports, the national statistical group (nat. stat. group) refers to the code of the statistical port in which data for this port is included.
Statistical port	Ports that are used as statistical units.
Special aggregate	Special aggregates used in the statistics.
