NOTE

From: Presidency
To: Working Party on Information Exchange and Data Protection (DAPIX)
No. prev. doc.: 11540/16
Subject: Implementation of the "Prüm Decisions" regarding fingerprints
- Search capacities

Pursuant to Article 13 of the "Prüm implementing Decision" (Council Decision 2008/616/JHA of 23 June 2008), Member States shall submit declarations to the General Secretariat of the Council in which they lay down their maximum search capacities per day for dactyloscopic data of identified persons and dactyloscopic data of persons not yet identified.

Delegations comply with this obligation by completing the tables below.

Changes compared to the previous version (11540/16) originate in the initiative of several Member States to recalibrate the daily search capacities. The figures set out in bold in the tables¹ annexed reflect all changes discussed and Member States are invited to agree on the tables. Once agreed upon, the tables will be inserted into the Prüm implementation overview (5081/17) as the binding quantitative basis for daily search capacities.

¹ The initial version of 11211/17 had been issued due to a clerical error and has to be considered as null and void. Discussions on the revised figures started on the basis of 11211/1/17 REV 1
