11. Correction for the United Kingdom = (9) – (10)		<b>4 992 305 660</b>

<sup>10</sup> Rounded percentages.

<sup>11</sup> The amount of enlargement-related expenditure corresponds to total allocated expenditure in 13 Member States (that have acceded to the EU after 30 April 2004), except for agricultural direct payments and market-related expenditure as well as that part of rural development expenditure originating from the EAGGF, Guarantee Section.

<sup>12</sup> The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource.

<sup>13</sup> These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 20 % as of 1 January 2014 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments and other revenue in any particular year. By implication, the GNI-based resource ensures that the general budget of the Union is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (VAT-based payments, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States’ gross national income for this financial year is 0,6497 %.

Legal basis

Council Decision 2014/335/EU, Euratom of 26 May 2014 on the system of own resources of the European Union (OJ L 168, 7.6.2014, p. 105), and in particular point (c) of Article 2(1) thereof.

*Remarks*

This article is intended to record appropriations resulting from the mobilisation of the European Union Solidarity Fund in the event of major or regional disasters in the Member States. Assistance should be provided in connection with natural disasters to the Member States concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the 'polluter pays' principle, for example, or received in excess of the final valuation of damage should be recovered.

With the exception of advance payments, the allocation of the appropriations will be carried out by transfers of appropriations from the reserve or, in case of insufficient appropriations in the reserve, by an amending budget simultaneously to the mobilisation decision of the European Union Solidarity Fund.

*Legal basis*
