15. Council Implementing Decision imposing a fine on Austria
Approval

8538/18
9140/1/17 REV 1

The Committee approved the text of the Council Implementing Decision and agreed to submit it to the Council for adoption.

Statement by the Commission

"The reliability of Member States' deficit and debt data is of utmost importance, for the sound economic governance of the Union, as recognised by the adoption of Regulation (EU) No 1173/2011. When imposing a fine the principle of equal treatment must be respected with reference to previous cases.

Although the Commission appreciates that the Council contests neither the sole authority of the Commission to conduct the investigations nor the facts as established by the Commission, it regrets the circumstances under which the Council has reduced the fine. The Commission does not consider that the "difficulties ensuing from the high complexity of the facts" is a relevant justification for reducing the amount of the fine, in this case or possible future ones."

Statement by Germany

"Two-thirds of fatal accidents take place on country roads. The minor road network and infrastructure are designed in each Member State individually (in Germany maximum 6.0 m). Therefore the body of rules on the placing on the market and the entry into service of extra-wide vehicles should not be harmonised.

In Germany excess width is only permitted for vehicles used for agricultural or forestry purposes.

If a vehicle is more than 2.75 m wide additional markings must be displayed. This is necessary to ensure visibility.

Granting all vehicles in categories T, C and R access to the roads without exception contravenes the subsidiarity principle laid down in Article 5(3) of the Treaty on European Union, because harmonisation has no added value due to the different topographies in the European Union."

Statement by Portugal

"Portugal abstains as regards the proposal for a Regulation of the European Parliament and of the Council on integrated farm statistics and repealing Regulations (EC) No 1166/2008 and (EU) No 1337/2011.

The replacement in Article 17b (derogations) of the reference to the year 2019 by reference to the year 2021 for Portugal is an essential condition for the Portuguese support to the final text of this proposal for a regulation."

Statement by Greece

"Greece takes into due consideration the necessity for a common EU position in view of the EU-Tunisia Association Council.

Regarding the discussions with Tunisia on temporary and reciprocal agricultural trade concessions, Greece expresses its serious concerns about the appropriateness of such a standalone package, as well as about the lack of the necessary consultations that ought to have taken place before the EU engaged into preliminary discussions with the Republic of Tunisia. Greece notes that no reference to specific agricultural products is included in the Declaration by the EU for the 14th Session of the EU-Tunisia Association Council. The specifics of any proposal should be decided after adequate consultations in particular with affected Member-States and should take into consideration the European agricultural sensitivities.

Any concessions should be granted to Tunisia conditionally to the progress of the DCFTA talks. This is particularly relevant for the protection of geographical indications (GIs) where we believe that a political agreement should be reached before the reciprocal trade concessions enter into force. Greece declares that any temporary and reciprocal agricultural trade concessions agreed with Tunisia should not prejudice the outcome of the DCFTA negotiations and also, do not constitute a precedent for other trade partners. Greece also notes that the asymmetrical approach in favour of Tunisia, as proposed in the context of the DCFTA, should not work to the detriment of EU vulnerable sectors.

As to the olive oil sector, Greece recalls the Statement by Greece and Italy submitted to the COREPER minutes on the 6th of April 2016 (ST 7155/16 ADD1 REV1) with regard to the introduction of emergency autonomous trade measures for the Republic of Tunisia, where inter alia it was stressed that the agricultural sector is a cornerstone of the economy of Greece and Italy, and therefore, the concessions by the EU to its trade partners should be governed by the principle of a balanced and proportional approach among the various sectors of the EU economy. An ex-ante impact assessment is needed before granting further concessions to Tunisia on duty-free olive oil quotas.

In presenting this statement, Greece has taken into full consideration the wider political and socio-economic aspects of the EU support to Tunisia."
