UNION FINANCIAL ASSISTANCE

Article 1

Allocation between the OCTs

1. For the purposes of this Decision, for the seven-year period from 1 January 2021 to 31 December 2027, the overall amount of the Union financial assistance of EUR 500 000 000 in current prices shall be allocated as follows:
 - (a) EUR 159 000 000 in the form of grants for bilateral programmable support for long-term development of OCTs other than Greenland, in particular to finance the initiatives referred to in the programming document. This amount shall be allocated on the basis of the needs and performance of the OCTs in accordance with the following criteria: where appropriate, the programming document shall pay particular attention to actions aimed at strengthening governance and the institutional capacities of the beneficiary OCTs and, where relevant, the likely timetable of the envisaged actions. The allocation of this amount shall take into account the size of the population, the level of Gross Domestic Product (GDP), the level of previous allocations and constraints due to the geographical isolation of OCTs as mentioned in Article 9 of this Decision.
 - (b) EUR 225 000 000 in the form of grant for the bilateral programmable support for long term development of Greenland in particular to finance the initiative referred to in the programming document.
 - (c) EUR 81 000 000 shall be allocated to support OCT regional programmes of which EUR 15 000 000 could support intra-regional operations, Greenland being eligible only for the intra-regional operations. This cooperation will be implemented in coordination with Article 7 of this Decision, in particular regarding the areas of mutual interests referred to in Article 5 of this Decision and through consultation via the instances of the EU-OCTs partnership referred to in Article 14 of this Decision. It shall seek coordination with other relevant Union financial programmes and instruments and in particular the outermost regions referred to in Article 349 TFEU.
 - (d) EUR 22 000 000 for studies or technical assistance measures for all the OCTs including Greenland, in accordance with Article 78 of this Decision.¹
 - (e) EUR 13 000 000 to a non-allocated fund for all the OCTs including Greenland to *inter alia*:
 - (i) ensure an appropriate response of the Union in the event of unforeseen circumstances.
 - (ii) address new needs or emerging challenges, such as migratory pressure at the EU's or its neighbours' borders;

¹ Out of this amount, 9 725 000 EUR are reserved for the Commission to cover technical and/or administrative assistance and expenditure in support of the implementation of the EU programmes and/or actions, indirect research, direct research.

- (iii) promote new international initiatives or priorities.
- 2. The Commission, following a review, may decide on the allocation of any non-allocated funds mentioned in this Article.
- 3. The funds shall not be committed after 31 December 2027, unless the Council unanimously decides otherwise, on a proposal from the Commission.

Article 2

Administration of resources

All financial resources under this Decision shall be administered by the Commission.

Article 3

Indicators

The achievement of the objectives set out in Article 3.5 of the Decision shall be measured by:

- 1. For OCTs, except Greenland, exports of goods and services as % of GDP and total Government revenue as % of GDP.
- 2. For Greenland, exports of goods and services as % of GDP and percentage of the fisheries sector in total exports.

ANNEX II

Concerning the definition of the concept of "originating products" and methods of administrative cooperation

TITLE I

GENERAL PROVISIONS

Article 1

Definitions

For the purpose of this Annex the following definitions shall apply:

- (a) 'EPA countries' means regions or states which are part of the African, Caribbean and Pacific (ACP) Group of States and which have concluded agreements establishing, or leading to the establishment of, Economic Partnership Agreements (EPA), when such an EPA is either provisionally applied, or enters into force, whichever is the earlier.
- (b) 'manufacture' means any kind of working or processing including assembly;
- (c) 'material' means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (d) 'product' means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (e) 'goods' means both materials and products;
- (f) 'fungible materials' means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another once they are incorporated into the finished product;
- (g) 'customs value' means the value as determined in accordance with the 1994 Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on Customs Valuation);
- (h) 'value of materials' in the list in Appendix I means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the OCT. Where the value of the originating materials used needs to be established, this point shall be applied *mutatis mutandis*;
- (i) 'ex-works price' means the price paid for the product ex-works to the manufacturer in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported.

Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the OCT, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported.

For the purpose of this definition, where the last working or processing has been subcontracted to a manufacturer, the term ‘manufacturer’ referred to in the first subparagraph of this paragraph may refer to the enterprise that has employed the subcontractor.

- (j) 'maximum content of non-originating materials' means the maximum content of non-originating materials which is permitted in order to consider a manufacture as working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of these materials used falling under a specified group of chapters, chapter, heading or sub-heading;
- (k) 'net weight' means the weight of the goods themselves without packing materials and packing containers of any kind;
- (l) 'chapters', 'headings' and 'sub-headings' mean the chapters, the headings and sub-headings (four- or six-digit codes) used in the nomenclature which makes up the Harmonised System with the changes pursuant to the Recommendation of 26 June 2004 of the Customs Cooperation Council;
- (m) 'classified' refers to the classification of a product or material under a particular heading or sub-heading of the Harmonised System;
- (n) 'consignment' means products which are either:
 - sent simultaneously from one exporter to one consignee; or
 - covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such document, by a single invoice.
- (o) 'exporter' means a person exporting the goods to the Union or to an OCT who is able to prove the origin of the goods, whether or not the person is the manufacturer and whether or not they themselves carry out the export formalities;
- (p) 'registered exporter' means an exporter who is registered with the competent authorities of the OCT concerned for the purpose of making out statements on origin for the purpose of exporting under this Decision;
- (q) 'statement on origin' means a statement made out by the exporter indicating that the products covered by it comply with the rules of origin of this Annex, for the purpose of allowing either the person declaring the goods for release for free circulation in the Union to claim the benefit of preferential tariff treatment or the economic operator in a OCT importing materials for further processing in the context of cumulation rules to prove the originating status of such goods;
- (r) 'GSP country' means a country or territory as defined in Article 2(d) of Regulation (EU) No 978/2012²;
- (s) 'REX system' means the system for registering exporters authorised to certify the origin of goods, referred to in Article 80(1) of Regulation (EU) 2015/2447³.

² Regulation (EU) No 978/2012 of the European Parliament and of the Council of 25 October 2012 applying a scheme of generalised tariff preferences and repealing Council Regulation (EC) No 732/2008 (OJ L 303, 31.10.2012, p. 1).

³ Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code (OJ L 343, 29.12.2015, p. 558).

TITLE II

DEFINITION OF THE CONCEPT OF ORIGINATING PRODUCTS

Article 2

General Requirements

1. The following products shall be considered as originating in an OCT:
 - (a) products wholly obtained in an OCT within the meaning of Article 3;
 - (b) products obtained in an OCT incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing within the meaning of Article 4.
2. Originating products made up of materials wholly obtained or sufficiently worked or processed in two or more OCTs shall be considered as products originating in the OCT where the last working or processing took place.

Article 3

Wholly obtained products

1. The following shall be considered as wholly obtained in an OCT:
 - (a) mineral products extracted from its soil or from its seabed;
 - (b) plants and vegetable products grown or harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;
 - (e) products from slaughtered animals born and raised there;
 - (f) products obtained by hunting or fishing conducted there;
 - (g) products of aquaculture where the fish, crustaceans and molluscs are born and raised there;
 - (h) products of sea fishing and other products taken from the sea outside any territorial sea by its vessels;
 - (i) products made on board its factory ships exclusively from the products referred to in point (h);
 - (j) used articles collected there fit only for the recovery of raw materials;
 - (k) waste and scrap resulting from manufacturing operations conducted there;
 - (l) products extracted from the seabed or below the seabed which is situated outside any territorial sea but where it has exclusive exploitation rights;
 - (m) goods produced there exclusively from products specified in points (a) to (l).
2. The terms 'its vessels' and 'its factory ships' in paragraph 1(h) and (i) shall apply only to vessels and factory ships which meet each of the following requirements:

- (a) they are registered in an OCT or in a Member State,
 - (b) they sail under the flag of an OCT or of a Member State,
 - (c) they meet one of the following conditions:
 - they are at least 50% owned by nationals of the OCTs or of Member States; or
 - they are owned by companies;
 - (i) which have their head office and their main place of business in the OCTs or in Member States; and
 - (ii) which are at least 50% owned by OCTs, public entities of that country, nationals of that country or of Member States.
3. The conditions of paragraph 2 may each be fulfilled in Member States or in different OCTs. In this case, the products shall be deemed to have the origin of the OCT where the vessel or factory ship is registered in accordance with point (a) of paragraph 2.

Article 4

Sufficiently worked or processed products

1. Without prejudice to Articles 5 and 6, products which are not wholly obtained in an OCT within the meaning of Article 3 shall be considered to originate there, provided that the conditions laid down in the list in Appendix I for the goods concerned are fulfilled.
2. If a product which has acquired originating status in an OCT in accordance with paragraph 1 is further processed in that OCT and used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.
3. The determination of whether the requirements of paragraph 1 are met, shall be carried out for each product.

However, where the relevant rule is based on compliance with a maximum content of non-originating materials, in order to take into account fluctuations in costs and currency rates, the value of the non-originating materials may be calculated on an average basis as set out in paragraph 4.
4. In the case referred to in the second sub-paragraph of paragraph 3, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the products over the preceding fiscal year as defined in the country of export, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.
5. Exporters having opted for calculations on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter

representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.

6. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials respectively, for the purpose of establishing compliance with the maximum content of non-originating materials.

Article 5

Insufficient working or processing operations

1. Without prejudice to paragraph 3, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 4 are satisfied:
 - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
 - (b) breaking-up and assembly of packages;
 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (d) ironing or pressing of textiles and textile articles;
 - (e) simple painting and polishing operations;
 - (f) husking and partial or total milling of rice; polishing and glazing of cereals and rice;
 - (g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;
 - (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
 - (i) sharpening, simple grinding or simple cutting;
 - (j) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);
 - (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
 - (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
 - (m) simple mixing of products, whether or not of different kinds; mixing of sugar with any material;
 - (n) simple addition of water or dilution or dehydration or denaturation of products;
 - (o) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
 - (p) a combination of two or more of the operations specified in points (a) to (o);
 - (q) slaughter of animals.
2. For the purposes of paragraph 1, operations shall be considered simple when neither special skills nor machines, apparatus or tools especially produced or installed for those operations are required for their performance.

3. All the operations carried out in an OCT on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 6

Tolerances

1. By way of derogation from Article 4 and subject to paragraphs 2 and 3 of this Article, non-originating materials which, according to the conditions set out in the list in Appendix I are not to be used in the manufacture of a given product may nevertheless be used, provided that their total value or net weight assessed for the product does not exceed:
 - (a) 15% of the weight of the product for products falling within Chapters 2 and 4 to 24, other than processed fishery products of chapter 16;
 - (b) 15% of the ex-works price of the product for other products, except for products falling within Chapters 50 to 63 of the Harmonised System, for which the tolerances mentioned in Notes 6 and 7 of Appendix I shall apply.
2. Paragraph 1 shall not allow that any of the percentages for the maximum content of non-originating materials as specified in the rules laid down in the list in Appendix I are exceeded.
3. Paragraphs 1 and 2 shall not apply to products wholly obtained in an OCT within the meaning of Article 3. However, without prejudice to Article 5 and 11(2), the tolerance provided for in those paragraphs shall nevertheless apply to the sum of all the materials which are used in the manufacture of a product and for which the rule laid down in the list in Appendix I for that product requires that such materials be wholly obtained.

Article 7

Bilateral cumulation

1. Without prejudice to Article 2, materials originating in the Union shall be considered as materials originating in an OCT when incorporated into a product obtained there, provided that they have undergone working or processing which goes beyond the operations referred to in Article 5(1).
2. Without prejudice to Article 2, working or processing carried out in the Union shall be considered as having been carried out in an OCT, when the materials undergo subsequent working or processing there.
3. For the purpose of cumulation provided for in this Article, the origin of the materials shall be established in accordance with this Annex.

Article 8

Cumulation with EPA countries

1. Without prejudice to Article 2, materials originating in the EPA countries shall be considered as materials originating in an OCT when incorporated into a product

obtained there, provided that they have undergone working or processing which goes beyond the operations referred to in Article 5 (1).

2. Without prejudice to Article 2, working or processing carried out in the EPA countries shall be considered as having been carried out in an OCT, when the materials undergo subsequent working or processing there.
3. For the purpose of paragraph 1 of this Article, the origin of the materials originating in an EPA country shall be determined in accordance with the rules of origin applicable to the EPA concerned and relevant provisions on proofs of origin and administrative cooperation.

The cumulation provided for in this Article shall not apply to materials originating in the Republic of South Africa which cannot be imported directly in the Union duty-free-quota-free in the framework of the EPA between the Union and the Southern African Development Community (SADC).

4. The cumulation provided for in this Article may only be applied provided that:
 - (a) The EPA country supplying the materials and the OCT manufacturing the final product have undertaken to:
 - comply or ensure compliance with this Annex and,
 - provide the administrative cooperation necessary to ensure the correct implementation of this Annex both with regard to the Union and between themselves;
 - (b) The undertakings referred to in point (a) have been notified to the Commission by the OCT involved.
5. Where countries have already complied with paragraph 4 before the entry into force of this Decision, a new undertaking shall not be required.

Article 9

Cumulation with other countries benefiting from duty-free quota-free access to the market of the Union under GSP

1. Without prejudice to Article 2, materials originating in countries and territories set out in paragraph 2 of this Article shall be considered as materials originating in an OCT when incorporated into a product obtained there, provided they have undergone working or processing which goes beyond the operations referred to in Article 5(1).
2. For the purposes of paragraph 1, materials shall originate from a country or territory:
 - (a) benefiting from the special arrangement for the least-developed countries of the Generalised System of Preferences, referred to in Article 1(2)(c) of Regulation (EU) No 978/2012; or
 - (b) benefiting from duty-free quota-free access to the market of the Union at HS 6-digit level under the general arrangement of the Generalised System of Preferences, referred to in Article 1(2)(a) of Regulation (EU) No 978/2012;

3. The origin of the materials of the countries or territories concerned shall be determined according to the rules of origin laid down, pursuant to Article 33 of Regulation (EU) No 978/2012, in Regulation (EU) 2015/2446⁴.
4. The cumulation provided for in this paragraph shall not apply to the following:
 - (a) materials which at importation to the Union are subject to antidumping or countervailing duties when originating from the country which is subject to these antidumping or countervailing duties;
 - (b) tuna products classified under Harmonised System Chapters 3 and 16, which are covered by Article 7 of Regulation (EU) No 978/2012, and subsequent amending and corresponding legal acts;
 - (c) materials which are covered by Articles 8 and 22 to 30 of Regulation (EU) No 978/2012, and subsequent amending and corresponding legal acts.

The competent authorities of the OCTs shall notify yearly to the Commission the materials, if any, to which cumulation under paragraph 1 has been applied.
5. The cumulation provided for in paragraph 1 of this Article may only be applied provided that:
 - (a) the countries or territories involved in the cumulation have undertaken to comply or ensure compliance with this Annex and to provide the administrative co-operation necessary to ensure the correct implementation of this Annex, both with regard to the Union and between themselves;
 - (b) the undertaking referred to in point (a) has been notified to the Commission by the OCT concerned.
6. The Commission shall publish in the Official Journal of the European Union (C series) the date on which the cumulation provided for in this Article may be applied with those countries or territories listed in this Article which have fulfilled the necessary requirements.

Article 10

Extended cumulation

1. The Commission may grant, at the request of an OCT, cumulation of origin between an OCT and a country with which the Union has a free trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) in force, provided that the following conditions are met:
 - (a) the countries or territories involved in the cumulation have undertaken to comply or ensure compliance with this Annex and to provide the administrative co-operation necessary to ensure the correct implementation of this Annex, both with regard to the Union and between themselves; by that undertaking, those countries or territories shall agree to provide the OCTs with their support in matters of administrative cooperation in the same way as they would provide such support to the customs authorities of the Member States in accordance with the relevant provisions of the free-trade agreement concerned;

⁴ Commission Delegated Regulation (EU) 2015/2446 of 28 July 2015 supplementing Regulation (EU) No 952/2013 of the European Parliament and of the Council as regards detailed rules concerning certain provisions of the Union Customs Code (OJ L 343, 29.12.2015, p. 1)

- (b) the undertaking referred to in point (a) has been notified to the Commission by the OCT concerned.
 - (c) The Commission, taking into account the risk of trade circumvention and specific sensitivities of materials to be used in cumulation, may establish additional conditions for granting the cumulation requested.
2. The request referred to in the first subparagraph shall be addressed to the Commission in writing. It shall indicate the third country or countries concerned, shall contain a list of the materials subject to cumulation and shall be supported by evidence that the conditions laid down in paragraphs 1(a) and (b) of this Article are met.
 3. The origin of the materials used and the documentary proof of origin shall be determined in accordance with the rules laid down in the relevant free trade agreement. The origin of the products to be exported to the Union shall be determined in accordance with the rules of origin laid down in this Annex.
 4. In order for the obtained product to acquire originating status, it shall not be necessary that the materials originating in the third country and used in the OCT in the manufacture of the product to be exported to the Union have undergone sufficient working or processing, provided that the working or processing carried out in the OCT concerned goes beyond the operations described in Article 5(1).
 5. The Commission shall publish in the Official Journal of the European Union (C series) the date on which the extended cumulation takes effect, the Union's Free Trade Agreement partner involved in that cumulation, the applicable conditions and the list of materials in relation to which the cumulation applies.
 6. The Commission shall adopt a measure granting the cumulation referred to in paragraph 1 by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 88 (5) of this Decision.

Article 11

Unit of qualification

1. The unit of qualification for the application of the provisions of this Annex shall be the particular product which is considered as the basic unit when determining classification using the Harmonized System.
2. When a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each individual item shall be taken into account when applying the provisions of this Annex.
3. Where, under general rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 12

Accessories, Spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the ex-works price thereof,

shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 13

Sets

Sets, as defined in General Interpretative Rule 3 of the Harmonised System, shall be regarded as originating when all the component products are originating products.

When a set is composed of originating and non-originating products, the set as a whole shall however be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

Article 14

Neutral elements

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

Article 15

Accounting segregation

1. If originating and non-originating fungible materials are used in the working or processing of a product, the customs authorities of the Member States may, at the written request of economic operators, authorise the management of materials in the Union using the accounting segregation method for the purpose of subsequent export to an OCT within the framework of bilateral cumulation, without keeping the materials on separate stocks.
2. The customs authorities of the Member States may make the granting of authorisation referred to in paragraph 1 subject to any conditions they deem appropriate.

The authorisation shall be granted only if by use of the method referred to in paragraph 3 it can be ensured that, at any time, the number of products obtained which could be considered as 'originating in the Union' is the same as the number that would have been obtained by using a method of physical segregation of the stocks.

If authorised, the method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the Union.

3. The beneficiary of the method referred to in paragraph 2 shall make out or, until the application of the registered exporter system, apply for proofs of origin for the

quantity of products which may be considered as originating in the Union. At the request of the customs authorities of the Member States, the beneficiary shall provide a statement of how the quantities have been managed.

4. The customs authorities of the Member States shall monitor the use made of the authorisation referred to in paragraph 1.

They may withdraw the authorisation in the following cases:

- (a) the beneficiary makes improper use of the authorisation in any manner whatsoever, or
- (b) the beneficiary fails to fulfil any of the other conditions laid down in this Annex.

Article 16

Derogations

1. Upon the Commission's initiative or in response to a request from a Member State or an OCT, an OCT may be granted a temporary derogation from the provisions of this Annex in any of the following cases:
 - (a) internal or external factors temporarily deprive it of the ability to comply with the rules for the acquisition of origin provided for in Article 2 where it could do so previously;
 - (b) it requires time to prepare itself to comply with the rules for the acquisition of origin provided for in Article 2;
 - (c) the development of existing industries or the creation of new industries justifies it.
2. The request referred to in paragraph 1 shall be addressed to the Commission in writing, by means of the form set out in Appendix II. It shall state the reasons for the request and shall contain appropriate supporting documents.
3. The examination of requests shall in particular take into account:
 - (a) the level of development or the geographical situation of the OCT concerned, having particular regard to the economic and social impact of the decision to be taken especially in respect of employment;
 - (b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in the OCT concerned to continue its exports to the Union, with particular reference to cases where this could lead to cessation of its activities;
 - (c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realisation of the investment programme would enable these rules to be satisfied by stages.
4. The Commission shall respond positively to all the requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established Union industry.

5. The Commission shall take steps necessary to ensure that a decision is reached as quickly as possible and shall endeavour to adopt its position within 75 working days after the request is received by the Commission.
6. The temporary derogation shall be limited to the duration of the effects of the internal or external factors giving rise to it or to the length of time needed for the OCT to achieve compliance with the rules or to fulfil the targets which have been set by the derogation, taking into account the particular situation of the OCT concerned and its difficulties.
7. When a derogation is granted, it is subject to compliance with any requirements laid down as to information to be provided to the Commission concerning the use of the derogation and the management of the quantities for which the derogation was granted.
8. The Commission shall adopt a measure granting a temporary derogation referred to in paragraph 1 by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 88 (5) of this Decision.

TITLE III

TERRITORIAL REQUIREMENTS

Article 17

Principle of territoriality

1. Except as provided for in Articles 7 to 10, the conditions set out in this Annex for acquiring originating status shall be fulfilled without interruption in the OCT.
2. If originating products exported from the OCT to another country are returned, they shall be considered as non-originating unless it can be demonstrated to the satisfaction of the competent authorities that:
 - (a) the products returned are the same as those which were exported; and
 - (b) they have not undergone any operations beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 18

Non-manipulation clause

1. The products declared for release for free circulation in the Union shall be the same products as exported from the OCT in which they are considered to originate. They shall not have been altered, transformed in any way or subjected to operations other than operations to preserve them in good condition, prior to being declared for release for free circulation. Storage of products or consignments and splitting of consignments may take place where carried out under the responsibility of the exporter or of a subsequent holder of the goods and the products remain under customs supervision in the country or countries of transit.
2. Compliance with paragraph 1 shall be considered as satisfied unless the customs authorities have reason to believe the contrary; in such cases, the customs authorities

may request the declarant to provide evidence of compliance, which may be given by any means, including contractual transport documents such as bills of lading or factual or concrete evidence based on marking or numbering of packages or any evidence related to the goods themselves.

3. Paragraphs 1 and 2 shall apply *mutatis mutandis* when cumulation under Articles 7 to 10 applies.

Article 19

Exhibitions

1. Originating products, sent from an OCT for exhibition in a country other than an OCT, an EPA country or a Member State and sold after the exhibition for importation in the Union shall benefit on importation from the provisions of the Decision, provided it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned these products from an OCT to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in the Union;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;
 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin must be issued or made out in accordance with the provisions of Title IV and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

PROOFS OF ORIGIN

SECTION 1 GENERAL REQUIREMENTS

Article 20

Amounts expressed in euro

1. For the application of the provisions of Articles 29 and 30 in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the

Member States of the Union equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Articles 29 and 30 by reference to the currency in which the invoice is drawn up.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the Commission by 15 October and shall apply from 1 January the following year. The Commission shall notify all countries concerned of the relevant amounts.
4. A Member State of the Union may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A Member State of the Union may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.
5. The amounts expressed in euro and their equivalents in national currencies of some Member States shall be reviewed by the Commission on its own initiative or at the request of a Member State or an OCT. When carrying out this review, the Commission shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

SECTION 2

PROCEDURES AT EXPORT IN THE OCT

Article 21

General requirements

Benefits from this Decision shall apply in the following cases:

- (a) in cases of goods satisfying the requirements of this Annex exported by a registered exporter within the meaning of Article 22;
- (b) in cases of any consignment of one or more packages containing originating products exported by any exporter, where the total value of the originating products consigned does not exceed EUR 10, 000.

Article 22

Request for registration

1. To be registered, exporters shall lodge an application with the competent authorities of the OCTs referred to in Article 39(1), using the form a model of which is set out in Appendix V.

2. The application shall be accepted by the competent authorities only if it is complete.
3. The registration shall be valid as of the date on which the competent authorities of the OCTs receive a complete application for registration, in accordance with paragraphs 1 and 2.

Article 23

Registration

1. The competent authorities of the OCTs shall upon receipt of the complete application form referred to in Appendix III assign without delay the number of registered exporter to the exporter and enter into the REX system the number of registered exporter, the registration data and the date from which the registration is valid in accordance with Article 22(3).

The competent authorities of the OCTs shall inform the exporter of the number of registered exporter assigned to that exporter and of the date from which the registration is valid.

The competent authorities of the OCTs shall keep the data registered by them up-to-date. They shall modify those data immediately after having been informed by the registered exporter in accordance with Article 24(1).

2. The registration shall contain the following information:
 - (a) name of the registered exporter, as specified in box 1 of the form set out in Appendix III;
 - (b) address of the place where the registered exporter is established, as specified in box 1 the form set out in Appendix III, including the identifier of the country or territory (ISO alpha 2 country code);
 - (c) contact details as specified in box 2 and box 2 of the form set out in Appendix III;
 - (d) indicative description of the goods which qualify for preferential treatment, including indicative list of Harmonised System headings or chapters, as specified in box 4 of the form set out in Appendix III;
 - (e) trader identification number (TIN) of the registered exporter as specified in box 1 of the form set out in Appendix III;
 - (f) whether the exporter is a trader or a producer as specified in box 3 of the form set out in Appendix III;
 - (g) the date of registration of the registered exporter;
 - (h) the date from which the registration is valid;
 - (i) the date of the revocation of the registration where applicable.

Article 24

Revocation of the registration

1. Registered exporters who no longer meet the conditions for exporting any goods benefiting from this Decision, or no longer intend to export such goods, shall inform

the competent authorities in the OCTs who shall immediately remove them from the record of registered exporters kept in that OCT.

2. Without prejudice to the system of penalties and sanctions applicable in the OCTs, where registered exporters intentionally or negligently draw up, or cause to be drawn up, a statement on origin or any supporting document which contains incorrect information which leads to irregularly or fraudulently obtaining the benefit of preferential tariff treatment, the OCT competent authorities shall revoke the exporter from the record of registered exporters kept by the OCT concerned.
3. Without prejudice to the possible impact of irregularities found on pending verifications, revocation from the record of registered exporters shall take effect for the future, i.e. in respect of statements made out after the date of revocation.
4. Exporters who have been revoked from the record of registered exporters by the competent authorities in accordance with paragraph 2 may only be re-introduced into the record of registered exporters once they have proved to the competent authorities in the OCT that they have remedied the situation which led to their revocation.

Article 25

Supporting documents

1. Exporters, registered or not, shall comply with the following obligations:
 - (a) they shall maintain appropriate commercial accounting records for production and supply of goods qualifying for preferential treatment;
 - (b) they shall keep available all evidence relating to the material used in the manufacture;
 - (c) they shall keep all customs documentation relating to the material used in the manufacture;
 - (d) they shall keep for at least three years from the end of the year in which the statement on origin was made out, or more if required by national law, records of:
 - the statements on origin they made out; and
 - their originating and non-originating materials, production and stock accounts.
2. The records referred to in point (d) of paragraph 1 may be electronic but shall allow the materials used in the manufacture of the exported products to be traced and their originating status to be confirmed.
3. The obligations provided for in paragraphs 1 and 2 shall also apply to suppliers who provide exporters with the supplier's declaration referred to in Article 27.

Article 26

Statement on origin and information for cumulation purpose

1. A statement on origin shall be made out by the exporter when the products to which it relates are exported, if the goods concerned can be considered as originating in the OCT.
2. By derogation from paragraph 1, a statement on origin may exceptionally be made out after exportation (retrospective statement) on condition that it is presented in the Member State of declaration for release for free circulation no longer than two years after the export.
3. The statement on origin shall be provided by the exporter to his customer in the Union and shall contain the particulars specified in Appendix IV. A statement on origin shall be made out in either English or French.

It may be made out on any commercial document allowing to identify the exporter concerned and the goods involved.

4. For the purpose of Article 2(2) or of bilateral cumulation under Article 7:
 - (a) the evidence of originating status of the materials coming from another OCT or from the Union shall be given by means of a statement on origin made out in accordance with this Annex and provided to the exporter by the supplier in the OCT or in the Union, from which the materials came;
 - (b) the evidence of working or processing carried out in another OCT or in the Union shall be given by means of a supplier's declaration, made out in accordance with Article 27 and provided to the exporter by the supplier in the OCT or in the Union, from which the materials came.

In these cases, the statement on origin made out by the exporter shall, as the case may be, contain the indication 'EU cumulation', 'OCT cumulation' or 'Cumul UE', 'cumul PTOM'.

5. For the purpose of cumulation with an EPA country under Article 8:
 - (a) the evidence of originating status of the materials coming from an EPA country shall be given by means of a proof of origin issued or made out in accordance with the provisions of the EPA between the Union and the EPA country concerned, and provided to the exporter by the supplier in the EPA country from which the materials came;
 - (b) the evidence of working or processing carried out in the EPA country shall be given by means of a supplier's declaration, made out in accordance with Article 27 and provided to the exporter by the supplier in the EPA country from which the materials came.

In this case, the statement on origin made out by the exporter shall contain the indication 'cumulation with EPA country [name of the country]' or 'cumul avec le pays APE [nom du pays]'.

6. For the purpose of cumulation with other countries benefiting from duty-free quota-free access to the market of the Union under GSP under Article 9, the evidence of originating status shall be given by the proofs of origin provided for in Regulation (EU) 2015/2447, provided to the exporter by the supplier in the GSP country from which the materials came.

In this case, the statement on origin made out by the exporter shall contain the indication 'cumulation with GSP country [name of the country]' or 'cumul avec le pays SPG [nom du pays]'.

7. For the purpose of extended cumulation under Article 10, the evidence of originating status of the materials coming from a country with which the Union has a free trade agreement shall be given by means of a proof of origin issued or made out in accordance with the provisions of that free trade agreement, provided to the exporter by the supplier in the country from which the materials came.

In this case, the statement on origin made out by the exporter shall contain the indication 'extended cumulation with country [name of the country]' or 'cumul étendu avec le pays [nom du pays]'.

Article 27

Supplier's declaration

1. For the purpose of paragraphs 4(b) and 5(b) of Article 26, a supplier's declaration shall be made out by the supplier for each consignment of materials on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified. A specimen of the supplier's declaration appears in Appendix V.
2. When a supplier regularly supplies a particular customer with goods whose status in respect of the rules of preferential origin is expected to remain constant for considerable periods of time, he may provide a single declaration, hereinafter referred to as 'a long-term supplier's declaration', provided that facts or circumstances on which it is granted remain unchanged, to cover subsequent shipments of those goods.

A long-term supplier's declaration may be issued for a period of up to one year from the date of issue of the declaration. A long-term supplier's declaration may be issued with retroactive effect. In such cases, its validity may not exceed a period of one year from the date on which it came into effect. The period of validity shall be indicated in the long-term supplier's declaration.

The customs authority may revoke a long term supplier's declaration, should the circumstances change, or when inaccurate or false information has been provided.

The supplier shall inform the client immediately when the long-term supplier's declaration is no longer valid in relation to the goods supplied.

3. A supplier's declaration may be made out on a pre-printed form.
4. The suppliers' declarations shall be signed in manuscript. However, where the invoice and the supplier's declaration are established using electronic data-processing methods, the supplier's declaration need not be signed in manuscript, provided that the responsible officer in the supplying company is identified to the satisfaction of the customs authorities in the country or territory where the suppliers' declarations were established. The said customs authorities may lay down conditions for the implementation of this paragraph.

Article 28

Submission of a proof of origin

1. A statement on origin shall be made out for each consignment.
2. A statement on origin shall be valid for twelve months from the date of its making out by the exporter.
3. A single statement on origin may cover several consignments if the goods meet the following conditions:
 - (a) they are dismantled or non-assembled products within the meaning of general rule 2(a) of the Harmonized system;
 - (b) they are falling within Section XVI or XVII or heading 7308 or 9406 of the Harmonized System; and
 - (c) they are intended to be imported by instalments.

SECTION 3

PROCEDURES AT RELEASE FOR FREE CIRCULATION IN THE UNION

Article 29

Submission of proof of origin

1. The customs declaration for release for free circulation shall make reference to the statement on origin. The statement on origin shall be kept at the disposal of the customs authorities, which may request its submission for the verification of the declaration. Those authorities may also require a translation of the statement into the official language, or one of the official languages, of the Member State concerned.
2. Where the application of the benefits from this Decision is requested by the declarant, without a statement on origin being in his possession at the time of the acceptance of the customs declaration for release for free circulation, that declaration shall be considered as being simplified within the meaning of Article 166 of Regulation (EU) [952/2013](#) and treated accordingly.
3. Before declaring goods for release for free circulation, the declarant shall take due care that the goods comply with the rules in this Annex by, in particular, checking:
 - (a) on the public website referred to in Article 40(3) and Article 40(4) that the exporter is registered to make statements on origin, except where the total value of the originating products consigned does not exceed EUR 10,000; and
 - (b) that the statement on origin is made out in accordance with Appendix IV.

Article 30

Exemption from proof of origin

1. The following products shall be exempted from the obligation to make out and produce a statement on origin:

- (a) products sent as small packages from private persons to private persons, the total value of which does not exceed EUR 500;
 - (b) products forming part of travellers' personal luggage, the total value of which does not exceed EUR 1200.
2. The products referred to in paragraph 1 shall meet the following conditions:
- (a) they are not imported by way of trade;
 - (b) they have been declared as meeting the conditions for benefiting from this Decision;
 - (c) there is no doubt as to the veracity of the declaration referred to in point (b).
3. For the purposes of point (a) of paragraph 2, imports shall not be considered as imports by way of trade if all the following conditions are met:
- (a) the imports are occasional;
 - (b) the imports consist solely of products for the personal use of the recipients or travellers or their families;
 - (c) it is evident from the nature and quantity of the products that no commercial purpose is in view.

Article 31

Discrepancies and formal errors

1. The discovery of slight discrepancies between the particulars included in a statement on origin and those mentioned in the documents submitted to the customs authorities for the purpose of carrying out the formalities for importing the products shall not ipso facto render the statement on origin null and void if it is duly established that that document does correspond to the products concerned.
2. Obvious formal errors such as typing errors on a statement on origin shall not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in that document.

Article 32

Validity of statements on origin

Statements on origin which are submitted to the customs authorities of the importing country after the period of validity mentioned in Article 28(2) may be accepted for the purpose of applying the tariff preferences, where failure to submit these documents by the final date set is due to exceptional circumstances. In other cases of belated presentation, the customs authorities of the importing country may accept the statements on origin where the products have been presented to customs before the said final date.

Article 33

Procedure for importation by instalments

1. The procedure referred to in Article 28(3) shall apply for a period determined by the customs authorities of the Member States.

2. The customs authorities of the Member States of importation supervising the successive releases for free circulation shall verify that the successive consignments are part of the dismantled or non-assembled products for which the statement on origin has been made out.

Article 34

Verification of statements on origin

1. The customs authorities may, where they have doubts with regard to the originating status of the products request the declarant to produce, within a reasonable time period which they shall specify, any available evidence for the purpose of verifying the accuracy of the indication of origin on the statement or the compliance with the conditions under Article 18.
2. The customs authorities may suspend the application of the preferential tariff measure for the duration of the verification procedure laid down in Article 43 where:
 - (a) the information provided by the declarant is not sufficient to confirm the originating status of the products or the compliance with the conditions laid down in Article 17 (2) or Article 18;
 - (b) the declarant does not reply within the time period allowed for provision of the information referred to in paragraph 1.
3. While awaiting either the information requested from the declarant, referred to in paragraph 1, or the results of the verification procedure, referred to in paragraph 2, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

Article 35

Denial of preferences

1. The customs authorities of the Member State of importation shall refuse entitlement to the benefits of this Decision, without being obliged to request any additional evidence or send a request for verification to the OCT where:
 - (a) the goods are not the same as those mentioned in the statement on origin;
 - (b) the declarant fails to submit a statement on origin for the products concerned, where such a statement is required;
 - (c) without prejudice to point (b) of Article 21 and to Article 30(1), the statement on origin in possession of the declarant has not been made out by an exporter registered in the OCT;
 - (d) the statement on origin is not made out in accordance with Appendix IV;
 - (e) the conditions of Article 18 are not met;
2. The customs authorities of the Member State of importation shall refuse entitlement to the benefits of this Decision, following a request for verification within the meaning of Article 43 addressed to the competent authorities of the OCTs, where the customs authorities of the Member State of importation:

- (a) have received a reply according to which the exporter was not entitled to make out the statement on origin;
- (b) have received a reply according to which the products concerned are not originating in the OCT concerned or the conditions of Article 17 (2) were not met;
- (c) had reasonable doubt as to the validity of the statement on origin or the accuracy of the information provided by the declarant regarding the true origin of the products in question when they made the request for verification; and
 - have received no reply within the time period permitted in accordance with Article 43;
 - or
 - have received a reply not providing adequate answers to the questions raised in the request.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

SECTION 1

GENERAL

Article 36

General Principles

1. In order to ensure the proper application of the preferences, OCTs shall:
 - (a) put in place and to maintain the necessary administrative structures and systems required for the implementation and management in that country of the rules and procedures laid down in this Annex, including where appropriate the arrangements necessary for the application of cumulation;
 - (b) cooperate, through their competent authorities with the Commission and the customs authorities of the Member States.
2. The cooperation referred to in point (b) of paragraph 1 shall consist of:
 - (a) providing all necessary support in the event of a request by the Commission for the monitoring by it of the proper implementation of this Annex in the country concerned, including verification visits on the spot by the Commission or the customs authorities of the Member States;
 - (b) without prejudice to Articles 34 and 35, verifying the originating status of products and the compliance with the other conditions laid down in this Annex, including verification visits on the spot, where requested by the Commission or the customs authorities of the Member States in the context of origin investigations;
 - (c) where the verification procedure or any other available information appears to indicate that the provisions of this Annex are being contravened, the OCT on

its own initiative or at the request of the Commission or the customs authorities of the Member States shall carry out appropriate enquiries or arrange for such enquiries to be carried out with due urgency to identify and prevent such contraventions. The Commission and the customs authorities of the Member States may participate in the enquiries.

3. OCTs shall submit to the Commission, before 1 January 2015, a formal undertaking to comply with the requirements of paragraph 1.

Article 37

Publication requirements and compliance

1. The Commission shall publish in the *Official Journal of the European Union* (C Series) the list of OCTs and the date on which they are considered to meet the conditions referred to in Article 39. The Commission shall update this list when a new OCT fulfils the same conditions.
2. Products originating within the meaning of this Annex in an OCT shall benefit, on release for free circulation in the Union, from the tariff preferences only on condition that they were exported on or after the date specified in the list referred to in paragraph 1.
3. An OCT shall be considered to comply with Articles 36 and 39 on the date on which it has:
 - (a) made the notification referred to in Article 39(1), and
 - (b) submitted the undertaking referred to in Article 36(3).

Article 38

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

SECTION 2

METHODS OF ADMINISTRATIVE COOPERATION APPLICABLE FOR THE REGISTERED EXPORTER SYSTEM

Article 39

Communication of names and addresses of competent authorities

1. The OCTs shall notify to the Commission the names and addresses of the authorities situated in their territory which are:
 - (a) part of the governmental authorities of the country concerned and empowered to support the Commission and the customs authorities of the Member States through the administrative co-operation as provided for in this Title;

- (b) part of the governmental authorities of the country concerned, or act under the authority of the government, and empowered to register exporters and to withdraw them from the record of registered exporters;
2. The OCTs shall inform the Commission immediately of any changes to the information notified under paragraphs 1 and 2.
3. The Commission shall send this information to the customs authorities of the Member States.

Article 40

Database of registered exporters: access rights and publication of data

1. The Commission shall have access to consult all the data.
2. The competent authorities of the OCTs shall have access to consult the data concerning exporters registered by them.

The Commission shall provide secure access to the REX system to the competent authorities of the OCTs.

3. The Commission shall make the following data available to the public with the consent given by the exporter by signing box 6 of the form set out in Appendix III:
 - (a) name of the registered exporter, as specified in box 1 of the form set out in Appendix III;
 - (b) address of the place where the registered exporter is established, as specified in box 1 of the form set out in Appendix III;
 - (c) contact details as specified in box 1 and box 2 of the form set out in Appendix III;
 - (d) indicative description of the goods which qualify for preferential treatment, including indicative list of Harmonised System headings or chapters, as specified in box 4 of the form set out in Appendix III;
 - (e) trader identification number (TIN) of the registered exporter, as specified in box 1 of the form set out in Appendix III;
 - (f) whether the registered exporter is a trader or a producer, as specified in box 3 of the form set out in Appendix III.

The refusal to sign box 6 shall not constitute a ground for refusing to register the exporter.

4. The Commission shall always make the following data available to the public
 - (a) the number of registered exporter;
 - (b) the date of registration of the registered exporter;
 - (c) the date from which the registration is valid;
 - (d) the date of the revocation of the registration where applicable.

Article 41

Database of registered exporters: data protection

1. The data registered by the competent authorities of the OCTs in the REX system shall be processed solely for the purpose of the application of this Decision.
2. Registered exporters shall be provided with the information laid down in Article 11(1) (a) to (e) of Regulation (EC) No 45/2001⁵ or Articles 12 to 14 of Regulation (EU) 2016/679⁶. In addition, they shall also be provided with the following information:

(a) information concerning the legal basis of the processing operations for which the data is intended;

(b) the data retention period.

Registered exporters shall be provided with that information via a notice attached to the application to become a registered exporter as set out in Appendix III.

3. Each competent authority in an OCT that has introduced data into the REX system shall be considered the controller with respect to the processing of those data.

The Commission shall be considered as a joint controller with respect to the processing of all data to guarantee that the registered exporter will obtain his rights.

4. The rights of registered exporters with regard to the processing of data listed in Appendix III, which are stored in the REX system and processed in national systems, shall be exercised in accordance with Regulation (EU) 2016/679.

5. Member States who replicate in their national systems the data of the REX system they have access to shall keep the replicated data up-to-date.

6. The rights of registered exporters with regard to the processing of their registration data by the Commission shall be exercised in accordance with Regulation (EC) No 45/2001.

7. Any request by a registered exporter to exercise the right of access, rectification, erasure or blocking of data in accordance with Regulation (EC) No 45/2001 shall be submitted to and processed by the controller of data.

Where a registered exporter has submitted such a request to the Commission without having tried to obtain his rights from the controller of data, the Commission shall forward that request to the controller of data of the registered exporter.

If the registered exporter fails to obtain his rights from the controller of data, the registered exporter shall submit such request to the Commission acting as controller. The Commission shall have the right to rectify, erase or block the data.

8. The national supervisory data protection authorities and the European Data Protection Supervisor, each acting within the scope of their respective competence, shall cooperate and ensure coordinated supervision of the registration data.

They shall, each acting within the scope of their respective competences, exchange relevant information, assist each other in carrying out audits and inspections, examine difficulties of interpretation or application of this Regulation, study problems with the

⁵ Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (OJ L 8, 12.1.2001, p. 1).

⁶ Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1).

exercise of independent supervision or in the exercise of the rights of data subjects, draw up harmonised proposals for joint solutions to any problems and promote awareness of data protection rights, as necessary.

Article 42

Control of origin

1. For the purpose of ensuring compliance with the rules concerning the originating status of products, the competent authorities of the OCT shall carry out:
 - (a) verifications of the originating status of products at the request of the customs authorities of the Member States;
 - (b) regular controls on exporters on their own initiative.
2. The controls referred to in point (b) of paragraph 1 shall ensure the continued compliance of exporters with their obligations. They shall be carried out at intervals determined on the basis of appropriate risk analysis criteria. For that purpose, the competent authorities of the OCTs shall require exporters to provide copies or a list of the statements on origin they have made out.
3. The competent authorities of the OCTs shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts and, where appropriate, those of producers supplying the exporter, including at the premises, or any other check considered appropriate.

Article 43

Request for verification of statements on origin

1. Subsequent verifications of statements on origin shall be carried out at random or whenever the customs authorities of the Member States have reasonable doubts as to their authenticity, the originating status of the products concerned or the fulfilment of other requirements of this Annex.

Where the customs authorities of a Member State request the cooperation of the competent authorities of an OCT to carry out a verification of the validity of statements on origin, the originating status of products, or of both, it shall, where appropriate, indicate on its request the reasons why it has reasonable doubts on the validity of the statement on origin or the originating status of the products.

A copy of the statement on origin and any additional information or documents suggesting that the information given on that statement is incorrect may be forwarded in support of the request for verification.

The requesting Member State shall set a 6-month initial deadline to communicate the results of the verification, starting from the date of the verification request.

2. If in cases of reasonable doubt there is no reply within the period specified in paragraph 1 or if the reply does not contain sufficient information to determine the real origin of the products, a second communication shall be sent to the competent authorities. This communication shall set a further deadline of not more than 6 months.

Article 44

Verification of suppliers' declarations

1. Verification of suppliers' declaration referred to in Article 27 may be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of the document or the accuracy or completeness of the information concerning the true origin of the materials in question.
2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the country where the declaration was made to issue an information certificate, a specimen of which appears in Appendix VI. Alternatively, the customs authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the country where the supplier's declaration was made out.

A copy of the information certificate shall be preserved by the office which has issued it for at least three years.
3. The requesting customs authorities shall be informed of the results of the verification as soon as possible. The results must be such as to indicate positively whether the declaration concerning the status of the materials is correct.
4. For the purpose of verification, suppliers shall keep for not less than three years a copy of the document containing the declaration together with all necessary evidence showing the true status of the materials.
5. The customs authorities in the country where the supplier's declaration is made out shall have the right to call for any evidence or to carry out any check which they consider appropriate in order to verify the correctness of any supplier's declaration.
6. Any statement on origin made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 45

Other provisions

1. Section 2 of Title IV and Section 2 of Title V shall apply *mutatis mutandis* to:
 - (a) exports from the Union to an OCT for the purpose of bilateral cumulation as provided for in Article 7. In this case, exporters shall be registered in the Union in accordance with Article 68 of Regulation (EU) 2015/2447;
 - (b) exports from one OCT to another for the purpose of OCT cumulation as provided for in Article 2(2).

TITLE VI

CEUTA AND MELILLA

Article 46

1. The provisions of this Annex concerning the issue, use and subsequent verification of proofs of origin shall apply *mutatis mutandis* to products exported from an OCT to

Ceuta and Melilla and to products exported from Ceuta and Melilla to an OCT for the purposes of bilateral cumulation.

2. Ceuta and Melilla shall be considered as a single territory.
3. The Spanish customs authorities shall be responsible for the application of this Annex in Ceuta and Melilla.

Appendix I

Introductory notes and list of working or processing operations which confer originating status

INTRODUCTORY NOTES

Note 1 – General introduction

This Appendix lays down the conditions pursuant to Article 4 under which products shall be considered to originate in the OCT concerned. There are four different types of rules, which vary according to the product:

- (a) through working or processing a maximum content of non-originating materials is not exceeded;
- (b) through working or processing the 4-digit Harmonized System heading or 6-digit Harmonized System sub-heading of the manufactured products becomes different from the 4-digit Harmonized System heading or 6-digit sub-heading respectively of the materials used;
- (c) a specific working and processing operation is carried out;
- (d) working or processing is carried out on certain wholly obtained materials.

Note 2 – The structure of the list

- 2.1. Columns 1 and 2 describe the product obtained. Column 1 gives the chapter number, 4-digit heading or 6-digit sub-heading number used in the Harmonised System, as appropriate. Column 2 gives the description of goods used in that system for that heading or chapter. For each entry in columns 1 and 2, subject to Note 2.4, one or more rules ("qualifying operations") are set out in column 3. These qualifying operations concern only non-originating materials. Where, in some cases, the entry in column 1 is preceded by "ex", this signifies that the rule in column 3 applies only to the part of that heading as described in column 2.
- 2.2. Where several Harmonised System headings or sub-headings are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rule in column 3 applies to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings or sub-headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rule in column 3.
- 2.4. Where two alternative rules are set out in column 3, separated by "or", it is at the choice of the exporter which one to use.

Note 3 – Examples of how to apply the rules

- 3.1. Article 4(2), concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the OCT or in the Union.
- 3.2. Pursuant to Article 5, the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for

the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.

Subject to the provision referred to in the first sub-paragraph, the rules in the list represent the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

- 3.3. Without prejudice to Note 3.2, where a rule uses the expression “Manufacture from materials of any heading”, then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression “Manufacture from materials of any heading, including other materials of heading ...” or “Manufacture from materials of any heading, including other materials of the same heading as the product” means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.
- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the rule does not prevent the use also of other materials which, because of their inherent nature, cannot satisfy this condition.

Note 4 – General provisions concerning certain agricultural goods

- 4.1. Agricultural goods falling within Chapters 6, 7, 8, 9, 10, 12 and heading 2401 which are grown or harvested in the territory of an OCT shall be treated as originating in the territory of that country, even if grown from seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants imported from another country.
- 4.2. In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 1701 (sucrose) and 1702 (e.g., fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for the calculation of such limitations.

Note 5 - Terminology used in respect of certain textile products

- 5.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 5.2. The term “natural fibres” includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 5.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 5.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 6 - Tolerances applicable to products made of a mixture of textile materials

- 6.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10% or less of the total weight of all the basic textile materials used. (See also Notes 6.3 and 6.4)
- 6.2. However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk;
- wool;
- coarse animal hair;
- fine animal hair;
- horsehair;
- cotton;
- paper-making materials and paper;
- flax;
- true hemp;
- jute and other textile bast fibres;
- sisal and other textile fibres of the genus Agave;
- coconut, abaca, ramie and other vegetable textile fibres;
- synthetic man-made filaments;
- artificial man-made filaments;
- current-conducting filaments;
- synthetic man-made staple fibres of polypropylene;
- synthetic man-made staple fibres of polyester;

- synthetic man-made staple fibres of polyamide;
- synthetic man-made staple fibres of polyacrylonitrile;
- synthetic man-made staple fibres of polyimide;
- synthetic man-made staple fibres of polytetrafluoroethylene;
- synthetic man-made staple fibres of poly(phenylene sulphide);
- synthetic man-made staple fibres of poly(vinyl chloride);
- other synthetic man-made staple fibres;
- artificial man-made staple fibres of viscose;
- other artificial man-made staple fibres;
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped;
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;
- other products of heading 5605;
- glass fibres;
- metal fibres.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin rules may be used, provided that their total weight does not exceed 10% of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules, or woollen yarn which does not satisfy the origin rules, or a combination of the two, may be used, provided that their total weight does not exceed 10% of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is only a mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 6.3. In the case of products incorporating “yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped”, the tolerance is 20% in respect of this yarn.
- 6.4. In the case of products incorporating “strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film”, the tolerance is 30% in respect of this strip.

Note 7 - Other tolerances applicable to certain textile products

- 7.1. Where, in the list, reference is made to this Note, textile materials which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 7.2. Without prejudice to Note 7.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.
- Example:*
- If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.
- 7.3. Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 8 - Definition of specific processes and simple operations carried out in respect of certain products of Chapter 27

- 8.1. For the purposes of headings ex 2707 and 2713, the “specific processes” are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process⁷;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation.

⁷

See additional explanatory Note 4(b) to Chapter 27 of the Combined Nomenclature.

- 8.2. For the purposes of headings 2710, 2711 and 2712, the “specific processes” are the following:
- (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process⁸;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation;
 - (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85% of the sulphur-content of the products processed (ASTM D 1266-59 T method);
 - (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
 - (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250°C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30% of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.
 - (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75% of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 8.3. For the purposes of headings ex 2707 and 2713, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

Information notice

concerning the protection and processing of personal data incorporated in the system

1. Where the European Commission processes personal data contained in this application to become a registered exporter, Regulation (EC) No 45/2001 of the European

Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the Union institutions and bodies and on the free movement of such data applies. Where the competent authorities of an OCT implement Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation), the provisions of that regulation shall apply with regard to the processing of personal data and on the free movement of such data process personal data contained in this application to become a registered exporter.

2. Personal data in respect of the application to become a registered exporter are processed for the purpose of the Overseas Association Decision. The said legislation constitutes the legal basis for processing personal data in respect of the application to become a registered exporter.
3. The competent authority in an OCT where the application has been submitted is the controller with respect to processing of the data in the REX system.

The list of competent authorities is published on the website of the Commission.

4. Access to all data of this application is granted through a user ID/password to users in the Commission, the competent authorities of OCTs and the customs authorities in the Member States.
5. The data of a revoked registration shall be kept by the competent authorities of an OCT in the REX system for ten calendar years. This period shall run from the end of the year in which the revocation of a registration has taken place.
6. The data subject has a right of access to the data relating to him that will be processed through the REX system and, where appropriate, the right to rectify, erase or block data in accordance with Regulation (EC) No 45/2001 or Regulation (EU) 2016/679. Any requests for right of access, rectification, erasure or blocking shall be submitted to and processed by the competent authorities of the OCT responsible for the registration, as appropriate. Where the registered exporter has submitted a request for the exercise of that right to the Commission, the Commission shall forward such requests to the competent authorities of the OCT concerned. If the registered exporter failed to obtain his rights from the controller of data, the registered exporter shall submit such request to the Commission acting as controller. The Commission shall have the right to rectify, erase or block the data.
7. Complaints can be addressed to the relevant national data protection authority. Where the complaint concerns processing of data by the European Commission, it should be addressed to the European Data Protection Supervisor (EDPS) (<http://www.edps.europa.eu/EDPSWEB/>).

ANNEX III

TEMPORARY WITHDRAWAL OF PREFERENCES

Article 1

Principles concerning the withdrawal of preferences

1. The preferential arrangements provided for under Article 43 of this Decision may be withdrawn temporarily, in respect of all or of certain products originating in an OCT, in cases of:
 - (a) fraud;
 - (b) irregularities or systematic failure to comply with or to ensure compliance with the rules concerning the origin of the products and with the procedures related thereto; or
 - (c) failure to provide the administrative cooperation referred to in paragraph 2 of this Article and Title V of Annex II as required for the implementation and policing of the arrangements referred to in Articles 43 to 49 of this Decision.
2. The administrative cooperation referred to in paragraph 1 requires, inter alia, that an OCT:
 - (a) communicates to the Commission and updates the information necessary for the implementation of the rules of origin and the policing thereof;
 - (b) assists the Union by carrying out, at the request of the customs authorities of the Member States, subsequent verification of the origin of the goods, and communicates its results in time;
 - (c) carries out or arranges for appropriate inquiries to identify and prevent contravention of the rules of origin;
 - (d) assists the Union by allowing the Commission, in coordination and close cooperation with the competent authorities of the Member States, to conduct Union inquiries on its territory, in order to verify the authenticity of documents or the accuracy of information relevant for granting the benefit of the arrangements referred to in Article 43 of this Decision;
 - (e) complies with or ensure compliance with the rules of origin in respect of cumulation, within the meaning of Articles 7 to 10 of Annex II;
 - (f) assists the Union in the verification of conduct where there is the presumption of origin-related fraud. The existence of fraud may be presumed where imports of products under the preferential arrangements provided for in this Decision massively exceed the usual levels of the beneficiary OCT exports.

Article 2

Withdrawal of preferential arrangements

1. The Commission may temporarily withdraw the preferential arrangements provided for in this Decision, in respect of all or of certain products originating in a beneficiary country, where it considers that there is sufficient evidence that a

temporary withdrawal would be justified for the reasons referred to in paragraphs 1 and 2 of Article 1 of this Annex, provided that it has first:

- (a) consulted the Committee referred to in Article 88 of the Decision in accordance with the procedure referred to in its paragraph 4.
- (b) called on the Member States to take such precautionary measures as are necessary, in order to safeguard the Union's financial interests and/or secure compliance by the beneficiary country with its obligations; and
- (c) published a notice in the Official Journal of the European Union stating that there are grounds for reasonable doubt about the application of the preferential arrangements and/or compliance by the beneficiary country with its obligations, which may call into question its right to continue to enjoy the benefits granted by this Decision.

The Commission shall inform the OCT concerned of any decision taken in accordance with this paragraph, before it becomes effective. The Commission shall also notify the Committee referred to in Article 88 of the Decision.

- 2. The period of temporary withdrawal shall not exceed six months. On conclusion of that period, the Commission shall decide either to terminate the temporary withdrawal after informing the Committee referred to in Article 88 of the Decision or to extend the period of temporary withdrawal in accordance with the procedure referred to in paragraph 1 of this Article.
- 3. Member States shall communicate to the Commission all relevant information that may justify the withdrawal of preferences, its extension or its termination.

ANNEX IV

SAFEGUARD AND SURVEILLANCE PROCEDURES

Article 1

Definitions relative to surveillance and safeguard measures

For the purpose of the Articles 2 to 10 of this Annex relating to surveillance and safeguard measures:

- (a) 'like product' means a product which is identical, namely alike in all respects, to the product under consideration, or, in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration;
- (b) 'interested parties' means those parties involved in the production, distribution and/or sale of the imports mentioned in Article 2(1) of this Annex and of like or directly competing products;
- (c) 'serious difficulties' shall exist where Union producers suffer deterioration in their economic and/or financial situation.

Article 2

Principles of safeguard measures

1. Where a product originating in an OCT referred to in Article 43 of this Decision is imported in volumes and/or at prices which cause, or threaten to cause, serious difficulties to Union producers of like or directly competing products, the necessary safeguard measures may be taken in accordance with the provisions below.
2. For the purpose of implementing paragraph 1, priority shall be given to such measures as would least disturb the functioning of the Association. These measures shall not exceed the limits of what is strictly necessary to remedy the difficulties that have arisen. They cannot exceed the withdrawal of the preferential treatment granted by this Decision.
3. When safeguard measures are taken or modified, particular attention shall be paid to the interests of the OCT involved.

Article 3

Initiation of proceedings

1. The Commission shall investigate whether safeguard measures should be taken if there is sufficient prima facie evidence that the conditions of Article 2 of this Annex are met.
2. An investigation shall be initiated upon request by a Member State, by any legal person or any association not having legal personality, acting on behalf of Union producers, or on the Commission's own initiative if it is apparent to the Commission that there is sufficient prima facie evidence, as determined on the basis of factors referred to in Article 2 of this Annex, to justify such initiation. The request to initiate

an investigation shall contain evidence that the conditions for imposing the safeguard measure set out in Article 2 of this Annex are met. The request shall be submitted to the Commission. The Commission shall, as far as possible, examine the accuracy and adequacy of the evidence provided in the request to determine whether there is sufficient prima facie evidence to justify the initiation of an investigation.

3. Where it is apparent that there is sufficient prima facie evidence to justify the initiation of a proceeding, the Commission shall publish a notice in the *Official Journal of the European Union*. Initiation shall take place within one month of the request received pursuant to paragraph 2. Should an investigation be initiated, the notice shall provide all necessary details about the procedure and deadlines, including the possibility of recourse to the Hearing Officer of the Directorate-General for Trade of the European Commission.
4. The rules and procedures concerning the conduct of the investigation are laid down in Article 4 of this Annex.
5. If the OCT's authorities so require and without prejudice to the deadlines referred to in this Article, a trilateral consultation referred to in Article 14 of this Decision shall be organised. The outcome of the trilateral consultation shall be transmitted to the consultative committee.

Article 4

Investigations

1. Following the initiation of the proceeding, the Commission shall commence an investigation. The period as set out in paragraph 3 shall start on the day the decision to initiate the investigation is published in the *Official Journal of the European Union*.
2. The Commission may request Member States to supply information and Member States shall take whatever steps are necessary in order to give effect to any such request. If that information is of general interest and is not confidential within the meaning of Article 9 of this Annex, it shall be added to the non-confidential files as provided for in paragraph 8.
3. The investigation shall be concluded within 12 months of its initiation.
4. The Commission shall seek all information it considers necessary to make a determination with regard to the conditions set out in Article 2 of this Annex, and, where it considers it appropriate, endeavour to verify that information.
5. In the investigation the Commission shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of the Union industry, in particular, the market share, changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment. This list is not exhaustive and other relevant factors may also be taken into consideration by the Commission.
6. Interested parties who have come forward within the period laid down in the notice published in the *Official Journal of the European Union* and representatives of the OCT concerned may, upon written request, inspect all information made available to the Commission in connection with the investigation other than internal documents prepared by the Union authorities or those of the Member States, provided that that information is relevant to the presentation of their case and not confidential within

the meaning of Article 9 of this Annex and that it is used by the Commission in the investigation. Interested parties who have come forward may communicate their views on the information to the Commission. Those views shall be taken into consideration where they are backed by sufficient *prima facie* evidence.

7. The Commission shall ensure that all data and statistics which are used for the investigation are available, comprehensible, transparent and verifiable.
8. The Commission shall hear the interested parties, in particular where they have made a written application within the period laid down in the notice published in the *Official Journal of the European Union*, showing that they are actually likely to be affected by the outcome of the investigation and that there are special reasons for them to be heard orally. The Commission shall hear such parties on further occasions if there are special reasons for them to be heard again.
9. When information is not supplied within the time limits set by the Commission, or the investigation is significantly impeded, findings may be made on the basis of the facts available. Where the Commission finds that any interested party or third party has supplied it with false or misleading information, it shall disregard that information and may make use of the facts available.
10. The Commission shall notify the OCT concerned in writing of the initiation of an investigation.

Article 5

Prior surveillance measures

1. The products originating in the OCT referred to in Article 43 of this Decision may be subject to special surveillance.
2. Prior surveillance measures shall be adopted by the Commission in accordance with the advisory procedure referred to in Article 88 (4) of the Decision.
3. Prior surveillance measures shall have a limited period of validity. Unless otherwise provided, they shall cease to be valid at the end of the second six-month period following the first six months after the measures were introduced.
4. The Commission and the competent OCT's authorities shall ensure the effectiveness of the surveillance measures by introducing the methods of administrative cooperation set out in Annexes II and III.

Article 6

Imposition of provisional safeguard measures

1. On duly justified grounds of urgency relating to deterioration of the economic and/or financial situation of Union producers which would be difficult to remedy, provisional measures may be imposed. Provisional measures shall not apply for more than 200 days. Provisional measures shall be adopted by the Commission in accordance with the advisory procedure referred to in Article 88 (4) of the Decision. In cases of imperative grounds of urgency, the Commission shall adopt immediately applicable provisional safeguard measures in accordance with the procedure referred to in Article 88 (6) of the Decision. .

2. Should the provisional safeguard measures be repealed because the investigation shows that the conditions set out in Article 2 are not met, any customs duty collected as a result of those provisional measures shall be refunded automatically.

Article 7

Imposition of definitive measures

1. Where the facts as finally established show that the conditions set out in Article 2 are not met, the Commission shall adopt a decision terminating the investigation and proceeding in accordance with the examination procedure referred to in Article 4. The Commission shall make public, with due regard to the protection of confidential information within the meaning of Article 9, a report setting forth its findings and reasoned conclusions reached on all pertinent issues of fact and law.
2. Where the facts as finally established show that the conditions set out in Article 2 are met, the Commission shall adopt a decision imposing definitive safeguard measures in accordance with the examination procedure referred to in Article 4 of this Annex. The Commission shall make public, with due regard to the protection of confidential information within the meaning of Article 9, a report containing a summary of the material facts and considerations relevant to the determination, and notify the OCT's authorities immediately of the decision to take the necessary safeguard measures.

Article 8

Duration and review of safeguard measures

1. A safeguard measure shall remain in force only for such period of time as may be necessary to prevent or remedy the serious injury and to facilitate adjustment. That period shall not exceed three years, unless it is extended under paragraph 2.
2. The initial period of duration of a safeguard measure may exceptionally be extended by up to two years provided it is determined that the safeguard measure continues to be necessary to prevent or remedy serious difficulties.
3. Any extension pursuant to paragraph 2 shall be preceded by an investigation upon a request by a Member State, by any legal person or any association not having legal personality, acting on behalf of the Union industry, or on the Commission's own initiative if there is sufficient *prima facie* evidence that the safeguard measure continues to be necessary.
4. The initiation of an investigation shall be published in accordance with Article 4 and the safeguard measure shall remain in force, pending the outcome of the investigation. The investigation and any decision regarding an extension pursuant to paragraph 2 of this Article shall be done in accordance with Articles 6 and 7.

Article 9

Confidentiality

1. Information received pursuant to this Decision shall be used only for the purpose for which it was requested. Neither information of a confidential nature nor any information provided on a confidential basis received pursuant to this Decision shall be disclosed without specific permission from the supplier of such information.

2. Each request for confidentiality shall state the reasons why the information is confidential. However, if the supplier of the information wishes neither to make it public nor to authorise its disclosure in general terms or in the form of a summary, and if it appears that the request for confidentiality is unjustified, the information concerned may be disregarded.
3. Information shall, in any case, be considered to be confidential if its disclosure is likely to have a significantly adverse effect upon the supplier or the source of such information.
4. Paragraphs 1 to 4 shall not preclude reference by the Union authorities to general information and in particular to reasons on which decisions taken pursuant to this Decision are based. Those authorities shall, however, take into account the legitimate interest of natural and legal persons concerned that their business secrets should not be divulged.
