## NOTE

---

Subject: MONTHLY SUMMARY OF COUNCIL ACTS - APRIL 2018

---

This document lists the acts<sup>1</sup> adopted by the Council in April 2018.<sup>2 3</sup>

It provides information on the adoption of legislative acts, including:

- the date of adoption,
- the relevant Council session,
- the number of the document adopted,
- the Official Journal reference,
- applicable voting rules, voting results and, where appropriate, explanations of vote and statements published in the minutes of the Council.

---

<sup>1</sup> For easy reference, the "short titles" as mentioned in the Council's agendas are also indicated (see in *italics*).

<sup>2</sup> With the exception of certain acts of limited scope such as procedural decisions, appointments, decisions of bodies set up by international agreements, specific budgetary decisions, etc.

<sup>3</sup> In the case of legislative acts adopted in the ordinary legislative procedure, there may be a difference between the date of the Council's meeting where the legislative act is adopted and the actual date of the act in question, since legislative acts adopted in the ordinary legislative procedure are only considered to have been adopted after signature by both the President of the Council and the President of the European Parliament and the Secretaries-General of the two institutions.

This document also contains information on the adoption of non-legislative acts that the Council has decided to make public.

This document is also available on the Council's website at:

[Monthly summaries of Council acts \(acts\) - Consilium](#)

Documents listed in the summary may be obtained from the public register of Council documents at: [Documents and publications - Consilium](#)

It should be noted that this document is exclusively for information purposes - only Council minutes are authentic. These are available on the Council's website at: [Council Minutes - Consilium](#)

<p><i>Conclusions on the reformed ITER project</i>  Council Conclusions on the reformed ITER project</p>	7881/18
<p><b>Statement by Luxembourg</b>  While recognising the importance of the ITER project, Luxembourg remains, in general, highly critical of the funding of nuclear research activities by the European Union. The Government of Luxembourg would like EU funding to be channelled to a greater extent into renewable energies in the future. Since the Council conclusions on a reformed ITER project do not advocate this stance, our position remains unchanged. However, despite our reservations about the content, in a constructive spirit we are able to withdraw our general reservation and approve the text of the conclusions.</p>

### **Statement by The Netherlands**

The Netherlands can support the final agreement on the Modernisation of Trade Defence Instruments (MTDI). However, the Netherlands remains very concerned about the newly created possibility to enforce trade defence measures to be applied on the continental shelf by the Customs Authorities.

The Netherlands wants to make sure that this element of the MTDI proposal will be implemented only when the Union legislation has been amended in such a way as to facilitate the levying and collecting of duties and the necessary changes have been made to the customs IT systems in order to allow these systems to perform this new task. These changes need to be effected as part of the broader IT developments of the Multi Annual Strategic Plan (MASP) and the Union Customs Code IT work program. These conditions will have to be met in the further deliberations on the implementing act in the relevant Council working parties before its adoption.

### **Joint Statement by Malta and Denmark**

We note that the outcome on the Trade Defence Instruments Modernisation dossier is overall balanced and acceptable. Whilst accepting this outcome, we are nevertheless expressing our concern with the inclusion of the possibility of applying duties on the continental shelf.

This element was not part of the Commission proposal or the original Council position. It is disproportionate to the problem it aims to address and risks becoming an unreasonable administrative burden for certain Member States, in the form of practical monitoring, surveillance, costs and enforcement by the Customs Authorities.

In view of the work on this element, we would like to stress the need for a mechanism that is the least burdensome possible, both from the perspective of administration as well as of costs and call on the Commission to provide clarity at the earliest. The Commission should also not submit a proposal for an implementing act until all Member States are satisfied that the new provisions will be manageable in practice.

### **Statement by Sweden**

The proposal for a Regulation of the European Parliament and of the Council amending Council Regulation (EC) No 1225/2009 will contribute to an increased level of trade protection, and thus harm the competitiveness of the EU industry.

<p><i>Decision on the financial provisions for the Research Fund for Coal and Steel</i> Council Decision (EU) 2018/599 of 16 April 2018 amending Decision 2003/76/EC establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel OJ L 101, 20.4.2018, p. 1–2</p>	<p>14532/18</p>	<p>Qualified majority</p>	<p>All Member States in favour</p>
